FHA Program Guidelines

Appraisals

- Appraisals must be provided by a licensed FHA approved appraiser.
- Appraisal photos must be taken of the front and rear of the property, at opposite angles, to show all sides of the subject property.
- Additional photos are required for any improvements with contributory value that are not captured in the front and rear photos.
- The street scene photo must include a portion of the subject property.
 - If the subject property is new construction, the photos must include the grade and drainage of the vacant lot. Refer to the [Appraisals - Additional Requirements for New Construction](#) topic for additional information
- Modular/prefabricated homes: The appraiser must address the marketability of the property.
- Manufactured homes: The appraisal must be completed on Fannie Mae Form 1004C. Refer to the [Appraisals - Manufactured Housing](#) topic for additional appraisal requirements for manufactured housing.
- A minimum of 3 closed comparable sales are required. The source of the closed comparable sales used in the appraisal must be from one of the following or a desk review will be required:
 - [MLS](#), or
 - [Comps Inc.](#), or
 - [GeoData Plus](#) (NY only), or
 - [PropertyShark](#) (NY only), or
 - [StreetEasy](#) (NY only)

NOTE: Comparables from a public independent source are **only eligible** in rural areas of Maine, New Hampshire, and Vermont where MLS is **not** common
- The comparable photos must include the front view of each comparable sale used. Use of MLS photos to exhibit comparable condition at the time of sale are acceptable, however, the appraiser must include their own photos to document compliance with the Score of Work which requires the appraiser to inspect each comparable sale from the street.
- Appraisal must identify and address properties located within a declining market. When the property is located in a declining market, the appraiser is required to:
 - Provide, at minimum, two comparable sales that closed within 90 days of the subject property appraisal. The comparables must be as similar to the subject property as possible.
 - The appraisal must include, at minimum, two active listings or pending sales.
- **New Construction:** Comparable sales used for new construction properties are subject to the following:
 - If all three of the comparable sales used to support the value of the subject property were obtained from one of the above sources no further action is required.
 - If the comparable sales are not all obtained from one a MLS, MRIS, MRED, NTREIS, or from an independent source (Vermont and Maine only), the appraiser must comment that the subject property development is being marketed in an "open" or "public" environment (i.e. newspaper advertisements, bill board signs, website, etc.).
 - Additionally, the following applies:
 - One of the comparable sales must be outside the project the subject property is located in and be from a MLS, MRIS, MRED, NTREIS, or public source (public source Maine/New Hampshire/Vermont only).
 - Two of the comparable sales must be from sources other than the subject property builder.

NOTE: The appraiser is always allowed to provide more than three comparable sales in order to support the property value
- **REO Properties:** Comparable sales for REO properties are subject to the following:
 - HUD prefers that REO sales and pre-foreclosure sales are **not** used as comparable sales to establish the value for the REO property being appraised. If REO sales and pre-foreclosure sales are used, the appraiser must address their use in the appraisal report and identify the effect they have on the market and specifically the subject property.

FHA Program Guidelines

Appraisals (cont.)

- Properties where the transfer to a mortgagee or entity owning the mortgage loan by deed of trust through foreclosure sale or sheriff's sale may **never** be used as a comparable sale (e.g. a property that was foreclosed on by a bank or the property was seized for payment of delinquent debt, such as property taxes and the bank or sheriff's department still has ownership of the property).
- At minimum, Homebridge requires the following on all properties:
 - A conventional heat source with the ability to maintain a temperature of 50° in areas of the property where there is plumbing
 - Any broken glass that is a health hazard must be removed and the opening closed.
- Properties that do not meet FHA's "minimum property standards" requirement may be eligible for an Escrow holdback. Holdback/repair escrows are subject to Homebridge approval. If approved, the appraiser must confirm the work completed will bring the property up to average condition. Refer to the [Escrow Holdbacks](#) topic for more details.
- **Appraisal Update:** An update to the appraisal extends the appraisal validity for up to one (1) year from the effective date of the original appraisal. Appraisal updates are eligible subject to the following:
 - The update is completed by an FHA appraiser within one year of the effective date of the original appraisal **and** before the disbursement date of the loan,
 - The property value has not declined, and
 - The improvements contributing to the value of the property can be observed from the street or in a public way and an exterior inspection reveals no deficiencies or other significant changes
- **Case Numbers Assigned Prior to August 19, 2024: FEMA Disaster Declaration:** Properties located in a Disaster Declaration area will be subject to additional appraisal review
- **Case Numbers Assigned On or After August 19, 2024: FEMA Disaster Declaration:** Properties located in a Disaster Declaration area will be subject to additional appraisal review.
 - Damage inspections may be completed by any FHA Roster appraiser in good standing with geographic competence in the affected market area. If the inspection is completed by an appraiser who did not do the original inspection of the property, the appraiser performing the damage inspection must be provided with a complete copy of the original appraisal
 - The appraiser, at their discretion, may perform a Remote Observation of the property. When performing a remote observation, a technology based method that allows the appraiser to directly observe the property, concurrently and in coordination with another individual at the property, the following is required:
 - The technology must provide data capture of the observation and include metadata with geocoding for location confirmation
 - All required exhibits and photograph images for the applicable scope of work must be included
 - Remote Observation option is **only** available in connection with a damage inspection to a property located in a FEMA Declared Disaster Area, OR
 - Completing the Certification of Completion section of FNMA/FHLMC Form 1004D/442 Appraisal Update and/or Completion Report, for the re-observation of a property
 - If the appraiser used Remote Observation technology, **the appraisal must include a certification that states the visual inspection was performed with Remote Observation and the technology verified the location of the property.**

Appraisals – Manufactured Housing

- The manufactured housing appraisal must be completed on Fannie Mae Form [1004C](#)
- Purchase transactions: The appraiser must be provided the following:
 - A copy of the executed sales contract for the both the manufactured home **and** the land
 - A copy of the manufacturer's invoice if the manufactured home is new
- The home must be a 1-unit multi-wide dwelling, classified as real property and permanently affixed to a permanent foundation in compliance with HUD codes
- The permanent foundation must adhere to the manufacturer's requirements and meet all local, state, or federal codes as applicable
- The home must have been constructed on or after June 15, 1976
- The appraiser must report the HUD Certification Label (aka HUD tag) label number for all sections on the appraisal report **or** indicate that the label is missing. If the appraiser indicates the label is missing a letter of label of verification from the [Institute for Building Technology and Safety](#) is required
- The appraiser must include the information on the Data Plate in the appraisal including:
 - Manufacturer name,
 - Serial number,
 - Model number
 - Date of manufacture, and
 - Wind, roof load, and thermal zone maps

NOTE: If the Data Plate is missing or the appraiser is unable to locate the appraiser **must indicate this on the appraisal report**; the appraiser is **not required** to obtain this information from another source
- A minimum of 400 square feet of gross living area is required. Bay windows, roof overhangs, drawbars, couplings, or hitches are **not** included in the measurements.
- The appraiser must include a **minimum of (2) manufactured home comparable sales**, which are permanently affixed to a permanent foundation, in the comparable sales grid of the appraisal.
- New construction manufactured housing also requires the appraiser to complete the cost approach section of the appraisal.
- If the appraiser observes any additions or alteration have been made to the home they must be addressed in the foundation certification. If additions/alterations are not addressed the following is required:
 - An inspection by a state agency that inspects manufactured homes for compliance, or
 - A certification of the structural integrity from a licensed structural engineer if the state does not employ inspectors
- Utility hook-ups (electrical, gas, water, sewage, etc.) for manufactured homes are subject to HUDs standard guidelines regarding utilities. The appraiser must address any deficiencies from HUDs minimum property standards for utilities.

Foundation Requirements

If the foundation does not meet the following requirements established by HUD the appraiser must address/report the deficiency

- **New Construction** (home has been permanently erected on site for < 1 year prior to case number assignment)
 - The space beneath the house must be enclosed by a continuous foundation type construction designed to resist all forces subjected to without transmitting the forces to the home.
 - The enclosure must be adequately secured to the perimeter of the house.
 - The enclosure must be constructed of materials that conform to HUD minimum property standards (such as concrete, masonry, or treated wood) and the PFGMH for foundations
- **Existing Construction** (home has been permanently installed \geq 1 year from case number assignment).
 - Skirting is a non-structural enclosure of a foundation crawl space and is typically made of a lightweight material such as vinyl or metal attached to the side of the manufacture home extending to the ground (generally not installed below frost depth)
 - If the perimeter enclosure is non-load-bearing skirting comprised of lightweight material, the entire surface area of the skirting must be permanently attached to backing made of concrete, masonry, treated wood, or a product with similar strength and durability

FHA Program Guidelines

Credit Report/Scores

Minimum Credit Score Requirements:

- Minimum 580. All borrowers are required to have a credit score
NOTE: New York transactions require a minimum 600 credit score

Credit Reports

- A tri-merged credit report is required for all borrowers
- **Manual underwrites only:** A business credit report is required for all corporations and “S” corporations
- The primary borrower (the borrower with the highest income) must meet the minimum credit score requirement.
- **Individual Score:** The representative credit score for each borrower is determined as follows:
 - If there are three (3) valid scores, the median score is used. The median score is determined by placing the 3 scores **in order from lowest to highest**; the **median** score is the **middle** number (i.e. scores are 680, 659, and 692, lowest to highest is 659, 680, 692 so 680 is the representative borrower score since it is the middle score)
 - If two of the three scores are a duplicate, the duplicate score is used (i.e. if 660, 660, 640, then 660 is the credit score that is used)
 - If there are two (2) valid scores, the lower of the two is used
 - If there is one (1) valid score, that score is used
- **Loan Representative Score:** When there are multiple borrowers on a loan, the **lowest** representative credit score of **all** borrowers is the decision credit score.

Example:

- Borrower 1: Credit scores are 640, 654, 660; representative score is 654
- Borrower 2: Credit scores are 625, 625, 637; representative score is 625

The loan decision score is 625 which is the lowest representative score of all borrowers

Credit Inquiries

The borrower(s) must address **all** credit inquiries indicated on the credit report within the previous 90 days, specifically **stating the name of the creditor(s)** and the result of the inquiry/inquiries (i.e. was new credit obtained or not). Examples of acceptable/unacceptable responses below:

- **Acceptable Response:** “The inquiry/inquiries by Bank of America, Wells Fargo, etc. did not result in additional credit”
- **Unacceptable Response:** “We did not obtain any additional credit as a result of the credit inquiry/inquiries listed on our credit report” (unacceptable since name of creditors **not** listed)

No Credit Score or Not all Borrowers have a Credit Score

When not all of the borrowers or none of the borrowers have a credit score they are subject to HUDs requirements for borrowers with non-traditional credit and a manual underwrite is required. Refer to [Insufficient/Non-Traditional Credit](#) topic for detailed information. Transactions where none of the borrowers have a credit score are considered on a case-by-case basis. Maximum DTI is 31%/43%

Manual Underwrite
(cont.)

The chart below identifies specific manual underwriting requirements:

Manual Underwrites	
If...	Then...
<p>Manual Underwrite with Traditional Credit History (FICO)</p>	<ul style="list-style-type: none"> • Borrower must meet HUD's new satisfactory credit criteria defined as: <ul style="list-style-type: none"> - Housing payments: 0x30 in previous 12 months and no more than 2x30 in previous 24 months - Installment payments: 0x30 in previous 12 months and no more than 2x30 in previous 24 months, - Revolving accounts: No major derogatory credit in previous 12 months. Defined as: <ul style="list-style-type: none"> - Any revolving payment more than 90 days later, or - Any revolving payment more than 3x60 days late <li style="text-align: center;">OR • The payment history requires additional analysis (i.e. the payment history does not meet the criteria above) • Only loans that meet HUD's new extenuating circumstance definition (documented serious illness or death of wage earner) are eligible. If extenuating circumstances are not met the loan is ineligible.
<p>Manual Underwrite with Insufficient Credit History</p>	<p>Determine sufficient credit history:</p> <ul style="list-style-type: none"> • Must include a minimum of 3 credit references that includes at least one of the following: <ul style="list-style-type: none"> - Rental/housing payment (verification of payment is required) - Phone - Utilities (e.g. gas, electric, water, television/cable, internet) • If all 3 cannot be obtained from the above, other sources may be used to satisfy the remaining requirement (e.g. insurance premium, medical, auto, life that are not deducted from payroll, or retail store credit cards, rent-to-own etc.) Refer to guidelines for a complete list of acceptable alternative sources. • Must meet new satisfactory credit criteria: <ul style="list-style-type: none"> - If housing history is available, it must meet housing history requirement of 0x30 in previous 12 months and no more than 2x30 in previous 24 months unless documented extenuating circumstance requirement is met (serious illness or death of wage earner) - If no housing history but 3 acceptable sources can be developed follow manual underwriting guidelines. - If no housing history and cannot develop three (3) other additional sources the loan is ineligible.

Manual Underwrite
(cont.)

Satisfactory Credit (Only applies to manually underwritten loans where borrower has traditional credit history and FICO score)

Loans downgraded to a manual underwrite will require the borrower to have satisfactory credit as defined by HUD:

- No late housing payments in the previous 12 months and no more than 2 x30 in the previous 24 months
- No late installment payments in the previous 12 months and no more than 2x30 in the previous 24 months
- Revolving accounts cannot have any major derogatory credit in the previous 12 months
Major derogatory credit is defined as:
 - Any revolving payment made more than 90 days late, **or**
 - Any revolving payment more than 3x60 days late

Payment History Requiring Additional Analysis (Only applies to manually underwritten loans with traditional credit history and FICO score where borrower does not meet Satisfactory Credit requirements detailed above)

- If a borrower's credit history does not meet the satisfactory credit as stated above additional analysis is required.
- A letter of explanation from the borrower for each account and documentation that supports the explanation
- The underwriter must analyze the borrower's delinquent accounts to determine if the delinquency was due to:
 - The borrower's disregard for financial obligations,
 - An inability to manage debt, **or**
 - Extenuating circumstances.
- The underwriter must document the analysis of the credit in the file. The explanation and documentation of delinquent accounts must be consistent with other information in the file.
- **The loan may only be approved if the delinquency was due to a documented extenuating circumstance.** Refer to the [Extenuating Circumstance](#) topic for details

Insufficient Credit

- Borrowers with insufficient credit history require a manual underwrite and are subject to the following:
 - DTI computed only on the borrowers who will be occupying the property and obligated on the loan,
 - DTI cannot exceed 31%/43%, **no exceptions**. Compensating factors cannot be used to exceed 31%/43% when the borrower has insufficient credit history.
 - Two months cash reserves from the borrower's own funds are required. Cash gifts are not eligible to satisfy reserve requirements

NOTE: If a non-occupant co-borrower or co-signer are added to a transaction and the occupant borrower does not have a credit score due to insufficient or non-traditional credit history the credit score of the non-occupant co-borrower/co-signer **cannot** be used to satisfy FHA requirements and their income cannot be used for qualification.

Manual Underwrite (cont.)

Determining Sufficient Credit History (Applies to all manually underwritten loans with insufficient credit history)

A sufficient credit history includes a minimum of 3 credit references that includes at least **one** of the following:

- Rental housing payment (verification of payment is required),
- Telephone service,
- A utility company reference (i.e. gas, electric, water, television/cable, or internet service)

If all three references cannot be obtained from the above, the following sources may be used to satisfy the remaining requirement for two credit references:

- Insurance premiums (cannot be deducted from payroll; e.g. medical, auto, life, renter's insurance),
- Payment to childcare providers (must be a business that provides childcare services),
- School tuition,
- Retail store credit cards (furniture, specialty, department store, etc.)
- Rent-to-own (e.g. furniture, appliances, etc.)
- Medical bill payment (not covered by insurance)
- Twelve month history of savings documented by regular deposits that resulted in an increased balance in the account and:
 - Deposits were made at least quarterly, and
 - Deposits were not automatically deducted from payroll, and
 - Caused no insufficient funds (NSF) checks.
- An automobile lease,
- A personal loan from an individual with written/documented repayment terms (cancelled checks to document payments is required),
- An authorized user account used by the borrower with a documented 12 month payment history.

Manufactured Housing: Overview	<ul style="list-style-type: none"> HUD defines a manufactured house as a structure that is transportable in one or more sections and is designed and constructed to the federal Manufactured Home Construction and Safety standards as evidenced by the affixed HUD Certification Label. Homebridge follows FHA guidelines for manufactured housing unless otherwise noted in these guidelines. To view FHA's complete manufactured housing requirements refer to the HUD 4000.1
Manufactured Housing: General Terms	<p>HUD Certification Label (aka HUD label, seal or tag) A 2"x4" metal plate affixed to the exterior of each transportable section of the manufactured home. The plate includes the HUD certification label number which evidences compliance with the Federal Manufactured Home Construction and Safety Standards. Information from the HUD Certification Label is included in the appraisal report when available. If the appraisal indicates it was not available a letter of label verification must be obtained from the Institute for Building Technology and Safety (link below).</p> <p>Institute for Building Technology and Safety The Institute for Building Technology and Safety must provide a letter of label verification if the HUD Certification Label is missing from the manufactured home.</p> <p>HUD Data Plate (aka Compliance Certificate) A paper label mounted inside the manufactured home that includes the manufacturer's name, trade/model name, year manufactured, serial number, a list of the Certification Label number(s). Information from data plate is included on the appraisal report</p> <p>Engineer's Certification for Manufactured Housing Foundation: A certification the home's permanent foundation is in compliance with the Permanent Foundations Guide for Manufactured Housing (PFGMH)</p> <p>New Manufactured Home A home that is purchased directly from a retailer or a developer and has never been occupied and has never been affixed to a permanent foundation on another site</p> <p>HUD Codes – Regulations Applicable to Manufactured Homes</p> <ul style="list-style-type: none"> Federal Manufactured Home Construction and Safety Standards (MHCSS 24 CFR Part 3280) Manufactured Home Procedural and Enforcement Regulations (24 CFR Part 3282) Model Manufactured Home Installation Standards (MIS 24 CFR Part 3285/3286)

FHA Program Guidelines

Manufactured Housing: Eligibility

The following applies to manufactured housing:

- The home must be a 1-unit single family dwelling with a minimum of 400 square feet of gross living area
- The home must be a multi-wide (double/triple) manufactured home.
- Must be classified as real estate **and** be built and remain on a permanent chassis. If there were two existing titles at the time of purchase, all state and local requirements to remove the chattel or equivalent debt instrument must be met and the property must be classified as real estate prior to endorsement

NOTE: The manufactured home is **not** required to be treated as real estate for purposes of state taxation

- The home must be designed to be on a permanent foundation built in accordance with the [Permanent Foundations Guide for Manufactured Housing](#) (PFGMH). One of the following is required to confirm compliance:
 - A certification, completed by an engineer or architect licensed in the state where the home is located, attesting the home meets PFGMH requirements, **OR**
 - A copy of the foundation certification from a previous FHA mortgage (FHA to FHA refinance or HUD REO purchase) indicating compliance with the PFGMH requirements, is acceptable as long as there have been no alterations and/or damage to the foundation since the original certification.

- The HUD Certification Label must be affixed to the home **or** if the appraiser indicates on the appraisal it is not attached, a letter of label verification must be obtained by Homebridge/broker evidencing the house was constructed on or after June 15, 1976 in compliance with the [Federal Manufactured Home Construction and Safety Standards](#)

NOTE: The letter of label verification must be obtained from the [Institute for Building Technology and Safety](#) (IBTS)

- If any additions or alteration have been made to the home they must be addressed in the foundation certification. If additions/alterations are not addressed the following is required:
 - An inspection by a state agency that inspects manufactured homes for compliance, or
 - A certification of the structural integrity from a licensed structural engineer if the state does not employ inspectors
- The home must have been directly transported from the manufacturer/dealer to the home site
- The towing hitch and running gear must be removed and the space beneath the home must be properly enclosed with a continuous wall that is adequately secure to the perimeter of the unit and allows for proper ventilation of the crawl space.

The following are **ineligible**:

- A second home or investment property secured by a manufactured home
- A home moved from another site (i.e. previously installed at another site) Home must have been delivered directly from the manufacturer/dealer to its current site.
- A manufactured home subject to a lease hold
- A single wide manufactured home
- A manufactured home located in a condominium project
- A manufactured home located in a senior community
- A transaction involving trade equity or traded manufactured homes
- A transaction secured by a manufactured home that involves the payoff of a land contract
- Construction to perm if foundation not complete and home not completely installed prior to loan documents

FHA Program Guidelines

Manufactured Housing: Special Hazard Flood Area (SFHA)	<p>The finished grade level beneath the manufactured home must be at or above the 100 year frequency flood elevation. <p>Transaction Types (cont.)</p>	<p>\$100 Down Payment (HUD REO Properties)</p> <ul style="list-style-type: none"> • Buyers must be approved by HUD for the \$100.00 Down Payment Program. • The maximum LTV is 100%. The maximum loan amount is the lesser of the appraised “as-is” appraised value of the property or the loan amount, less the \$100 down payment. If the UFMIP exceeds the appraised value, it cannot be financed and the borrower will be required to bring funds to close. Closing costs and pre-pays may not be financed. • An earnest money deposit is required from the borrower. The minimum earnest money deposit requirement established by HUD is \$500 and the maximum is \$2,000 depending on the property specific requirements. • Borrower must be provided HUD’s For Your Protection: Get a Home Inspection (Form 92564-CN) no later than time of loan application. • If necessary, the appraiser will identify repairs that are required to bring the property up to FHA’s minimum property requirements (MPR). Repair costs can be included in the loan amount calculation when a repair escrow is established. The maximum LTV with a repair escrow is 110%. The maximum repair cost is \$10,000. Refer to the Escrow Holdbacks topic for details. • The appraisal is provided by HUD via the Asset Manager; an appraisal should not be ordered from an AMC. If the REO appraisal expires (older than 120 days) then a new appraisal must be obtained and the borrower may be charged for it. • The utilities should be on at the time of the appraisal unless documented extenuating circumstances were noted by the appraiser. • Refer to HUD Mortgage Letter 2011-19 Financing of Transaction Costs for REO Purchased under FHA \$100 Down Sales Incentive issued April 28, 2011 • HUD REO properties can be located by searching www.hudhomestore.com. • HUD’s policy on establishing the market value for an REO policy is that the price should reflect the appropriate price for a property sold in a competitive and open market and comparables should be based on arm’s length transactions. Additionally, properties sold at market value are characterized by the following: <ul style="list-style-type: none"> - The buyer and seller are typically motivated, - Both parties are knowledgeable and are acting in their own best interest - The property was on the open market for a reasonable time, - Payment is made in cash or a mortgage loan, - The price represents the normal consideration for the property being sold and is not affected by special/creative financing or sales concessions granted by anyone associated with the transactions. <p>Refer to the Appraisals topic for specific guidance on HUD REO appraisal</p>
<p>Transactions – Ineligible</p>	<ul style="list-style-type: none"> • FHA Secure • Hope for Homeowners • MCC (Mortgage Credit Certificates) – Borrower can do an MCC after closing, but MCC cannot be used to qualify. • FHA Energy Efficient Mortgage (EEM) • Transactions involving a Community Land Trust • Second home and investment transactions • No test case loans • Transactions involving a property being re-sold within 90 days of previous acquisition. See Property Flips topic for exclusions. • Transactions with CA HERO program subordinate financing • Texas Section 50(a)(6) transactions • Transactions where the property securing the loan is subject to a private transfer fee covenant
