Borrower	General Requirements
Information	 Homebridge will only purchase Loans extended to individual applicants/borrowers. Each transaction is limited to no more than four applicants/borrowers. When determining which applicants are considered to be primary and secondary, Homebridge uses the order in which the applicants are listed on the application. An applicant is defined as one who applies for funds in the form of a loan secured by real property with the obligation of repaying the debt in full, with interest. The borrower is the individual obligated to repay the loan secured by the mortgaged premises. For a Loan to be eligible for purchase by the investor, the Loan applicant(s) must conform to certain eligibility requirements. These requirements adhere carefully to the Equal Credit Opportunity Act (ECOA). In no case will Homebridge use factors defined as "prohibited" by ECOA in determining an applicant's eligibility. Homebridge originates loans in the contiguous United States, DC, AK and HI. Signature Requirements
	All borrowers (including individuals who may be considered co-signers) are required to sign the Note but
	 are not necessarily required to sign the Mortgage/Deed. Homebridge currently has no process to accept electronically signed collateral loan documents. Electronically signed initial disclosure loan documents are acceptable. Homebridge represents and warrants that Homebridge has complied with the requirements of the Electronic Signatures in Global and National Commerce Act ("E-Sign") and the Uniform Electronic Transactions Act ("UETA") for such initial disclosure loan documents and must be able to produce evidence of such Compliance upon the investor's request.
	Homebridge requires all mortgage loan applicants to be legally bound to repay the loan by signing the Note evidencing the loan. All owners of the property, including non-borrower owners, are required to sign the mortgage, deed of trust, or other security instrument. As mandated by Section 202.7(d) of Regulation B, Homebridge may not require a non-borrower owner of the property to sign the note (making them legally bound to repay the loan) unless deemed as necessary under applicable state law in order to satisfy the debt in the event of default. Fee Simple
	 Fee Simple is the greatest possible interest a person can have in real estate and gives them the right to dispose of the property or pass it on to their heirs. Homebridge must be recorded as the principal on the mortgagor's estate, subject only to liens for taxes and special assessments that are not yet due and payable, and conditions, restrictions, and encumbrances that Homebridge does not consider as material. Homebridge does not consider minor impediments to title as material problems if they do not affect the marketability of the property. Documentation must be obtained to show that the current installments of taxes and assessments (or future installments of special assessments that have been levied)—including
	prior liens that may no longer be in arrears—have been paid or sufficient deposits are being collected to pay them. - Homebridge will consider lending on properties held in trust provided it would not compromise Homebridges' ability to secure a lien on the property or prevent its ability to foreclose in the event of a default by the borrower.
	 Tenants in Common (TIC) with a Tenancy in Common Agreement Tenants in Common with a Tenancy In Common Agreement as described below are not permitted given the overall risk associated with this type of ownership.
	Tenants in Common (TIC) with a Tenancy in Common Agreement are most commonly formed to co-own a multi-unit residential property, where each co-owner has the exclusive usage right to use a particular unit. In certain areas of the country, such as California, where a condominium conversion is a lengthy process, as well as rising housing costs, this type of ownership has become popular.
	TIC is best understood when it is compared to a condominium. In a condo, a portion of the property, inside walls, are owned by individuals and everything else is owned by a group. In a TIC a group owns the entire property. TIC owners own percentages in an undivided property rather than particular units or apartments, and the deeds show only their ownership percentages. The right of a particular TIC owner to use a particular dwelling comes from a written contract signed by all co-owners (often called a "Tenancy In Common Agreement"), not from a deed, map or other document recorded in county records.
	 Homebridge provides lending solutions for U.S. Citizens and non-U.S. Citizens. All non-U.S. Citizen borrowers must have the legal right to be present in the United States. Homebridge considers a borrower to be "legally present" in the U.S. eligible if s/he has: A valid Social Security Number (SSN)
	A current approved immigration status or an accepted Visa; or A current, valid employment authorization document (EAD), with an approved immigration status.

- Transactions with an ITIN are not eligible.
- Program eligibility is based on the borrower's status (NPR or NR) and what type of income or income source is being used to qualify (Employment or Non-employment). Borrowers with SSN should sign a W-9 at closing.
- There are individuals to whom credit cannot be extended under any circumstances. Loans to the following are not permitted:
 - Applicants acting as vendors providing services on their personal loan that is being originated by Homebridge. Example: approved appraiser may not appraise the collateral property on their own loan.
 - Illegal Aliens: People residing in the U.S. without permission illegal aliens are not eligible.
 Illegal aliens typically fall into one of two categories:
 - An individual who entered the U.S. illegally (includes individuals who have entered the U.S. by means of false documents).
 - An individual who entered the U.S. legally as a Non-Permanent Resident but remained after the period of time permitted for temporary residency.
 - Individuals with a Visa Classification of (A-1, A2, A-3 & C-1, C-2, C3, C-4) are not eligible
 - A-1 & A-2: Foreign Diplomatic Personnel, individuals with diplomatic immunity.
 - A-3: Employee of Foreign Government Official (usually referred to as attendants, servants, or personal employee of foreign government officials)
 - o C-1: Aliens in transit
 - C-2 & C-3: Foreign government official in transit.
 - C-4: Aliens in transit without a Visa
 - Non-U.S. Citizens that do not meet eligibility requirements.

Co-Borrower

- A co-borrower, also referred to as a co- or joint applicant, is a person who has applied
 contemporaneously with the applicant for shared or joint credit, and who takes title to the security
 property. (An applicant who does not take title to the security property is considered a cosigner. Refer to
 Cosigner subsection below.) A co-borrower must sign the Note and Security Instrument.
- A co-borrower is primarily liable on the loan to the same extent as the borrower.

Cosigner/Guarantor

- Guarantor(s)
 - A Guarantor is someone who promises to fulfill another party's obligation if the other party fails to perform. A Guarantor signs the Loan Agreement along with the debtor.
 - The difference between a Promissory Note and a Loan Agreement is that while both contracts evidence a debt owed from the Borrower to Homebridge, the Loan Agreement contains more extensive clauses than the Promissory Note. Only the Borrower signs the Promissory Note while both parties sign a Loan Agreement. Homebridge does NOT permit guarantors.
- Co-Signer(s)
 - A Co-signer is someone who signs a loan with another person (Borrower) and agrees to pay
 the loan if the Borrower is not able to repay it.
 - A Co-signer will typically need to provide financial documentation with the same information needed when a borrower applies for a loan. This may include tax returns, pay stubs, W2's, asset statements, etc.
 - The biggest difference between a co-borrower and a co-signer is the degree of investment in the loan. Though the co-signer is legally responsible for the debt just as a co-borrower is, they have no ownership stake in the home. As a result, co-signers do not appear on the home's title. Co-signers will execute all loan documents, including the Promissory Note, but do not sign the security instrument, such as a Mortgage or Deed of Trust. Homebridge may not discriminate in its Co-signer requirements.

Guardian/Conservator

- A guardian is a person who has been appointed by a court to handle the care and custody of a minor or
 of an adult person who has been legally determined to be incapacitated. A person who has been
 determined by a court to be incapacitated is referred to as a "ward." A guardian of an incapacitated
 person must act and make decisions relative to the ward's care, treatment, shelter, education, support
 and maintenance.
- A conservator is a person or a corporation, such as a bank or trust company that has been appointed by
 a court to manage the property of a minor or of an adult person who has been legally determined to be
 disabled. A person who has been determined by a court to be disabled is referred to as a "protectee." A
 conservator, under the supervision of the court, is responsible for the protection and management of the
 protectee's financial estate.
- Since Homebridge only lends to individuals or living trusts, a conservator that is not a person would not
 be eligible to apply as a borrower. Homebridge must verify that the guardian or conservator is acting
 within his/her powers established either by a court appointment, or a court order approving the specific
 transaction at issue. The guardian or conservator must intend to continue managing the ward's financial
 affairs in the foreseeable future.
- The loan documents must be signed as guardian or conservator for the borrower.
 Note: Certain states have specific requirements applicable to guardians and conservators purchasing and/or financing real estate on behalf of their ward or protectee.

Social Security Administration Representative Payee

- A Social Security Administration (SSA) Representative Payee is a person, agency, organization or
 institution appointed by the SSA to receive and manage social security benefits for an individual referred
 to as a "beneficiary." Representative payees are responsible for using social security benefits to serve
 the best interests of their beneficiary.
- An SSA representative payee may not enter into a binding contract for a beneficiary, unless the payee is
 the beneficiary's parent or legal guardian, or the beneficiary has granted a power of attorney to the
 representative payee.

Separated Borrower

- If borrowers are separated, Homebridge must obtain the necessary documentation to determine the division of assets, liabilities, and potential obligations.
- If the borrower is legally separated, a copy of the legal separation agreement is required in order to
 exclude specific joint obligations that would otherwise be included in the borrowers qualifying ratios.
- If the borrower is not legally separated, additional documentation is not required; the borrower should be considered a married individual. All joint obligations must be included in qualifying ratios and the non-borrower spouse must sign the Security Instrument, if required by state law.

First-Time Homebuyer

- Homebridge defines a first-time homebuyer as an individual who is purchasing the subject property as
 their primary residence and has had no ownership interest (sole or joint) in a residential property during
 the three-year period preceding the date of the purchase of the subject property.
- A displaced homemaker or single parent who has had an ownership interest in a primary residence during the preceding three years may also be considered a first-time homebuyer, if they meet the following requirements:
 - The ownership interest must have been in a primary residence jointly held with their spouse. If they owned a primary residence with anyone other than a spouse, or owned a second home or investment property during the three-year time period, they cannot be considered a first-time homebuyer.
 - The applicant's marital status may be (1) "unmarried" as long as they have one or more dependents; or (2) "separated", regardless of whether or not they have any dependents. If the marital status is "married", or "unmarried" and there are no dependents, the applicant cannot be considered a first-time homebuyer.
- Only one of the applicants has to qualify for "first-time homebuyer" status in order for the mortgage to be considered a mortgage to a first-time homebuyer. First-time homebuyer status is verified using the Declarations section on the Application.

Ownership Interest

- Ownership Interest is defined as:
 - An individual(s) on title to another residential property. (i.e. borrowers listed on title on a parent's home even though they are not on the Note or Mortgage).
 - An individual(s) who is obligated on a Note or Mortgage/Deed of Trust to another residential
 property, even if they are not on title or have been removed from title.
 - A mobile home that is recorded as "Real Estate".
 - Ownership in a timeshare, either as a deeded interest or a right to use arrangement is not considered ownership in a residential dwelling due to the very limited access to the unit.
- See "First Time Homebuyer" above for exceptions to ownership interest for displaced homemaker or single parent who had an ownership interest in a primary residence.
 - **Note**: Certain programs or mortgage insurance companies may have different requirements for first-time homebuyers. The more conservative requirements will apply.

Non-Borrower Spouse or Domestic Partner

- When a married applicant applies for a mortgage in their name alone, without involving the applicant's spouse, the spouse is referred to as a non-borrower spouse. A non-borrower spouse may have rights in the property, either as a co-owner of the property or because state community property or marital rights laws. Homebridge's lien must always be superior to that of the non-borrower spouse.
 - If the non-borrower spouse is to be listed on the title as a co-owner, Homebridge requires the non-borrower spouse to sign the security instrument — in all states. Note: Homebridge cannot require a non-borrower spouse who is a co-owner of the property to sign a quitclaim deed.
 - If the non-borrower spouse is not listed on the title, Homebridge does not require the nonborrower spouse's signature on the Security Instrument, unless it is necessary under state law to obtain a valid security interest.

Regulation O Borrower

 Regulation O (Reg. O) and the Sarbanes-Oxley Act were enacted to deter abusive insider lending behavior. Loans to officers as identified under Regulation O/Sarbanes-Oxley are not permitted.

Citizenship Requirements

- The following are eligible: U.S. Citizens, Citizens of U.S. territories, non-U.S. Citizens (Permanent Resident Global Client (a.k.a., Immigrant), Non-Permanent Resident Global Client (a.k.a., Non-Immigrant).
- Note: The term "recent arrivals", previously used to identify a non-U.S. borrower who arrived in the U.S. within the last 24 months, is no longer used.

Proof of Residency Status Verification Requirements

 Non-U.S. Citizen applicants must provide proof of residency status (i.e., visa classification or EAD Category). Homebridge should always ask for and make a copy of a picture identification to verify a borrower's residency status.

- Determining Eligibility
- The individual visa classification or EAD Category will determine the lending program for which
 the borrower is eligible. Refer to the Visa Classification Chart (Exhibit 12) and/or the EAD Code
 Definitions & Eligibility Chart (Exhibit 12A) for a list of visa classifications, category codes,
 descriptions, and mortgage eligibility. Detailed lending parameters for each
 classification/category (i.e., Permanent Resident, etc.) follow this list:
 - PR = Permanent Resident
 - NPR = Non-Permanent Resident
- NR = Non-Resident

Expired Visa

- If an applicant's visa documentation or EAD has expired, the applicant must provide USCIS documentation to evidence that:
 - Applicant has applied for an extension prior to the expiration date of the visa or EAD;
 and
 - Evidence that the application for extension has been received by the USCIS.
- Non-English Speaking Applicants/Documents
 - Documentation that is supplied by an applicant in a foreign language must be translated into English. See below.

Document Translation for Non-English Documents

Documentation that is supplied by a borrower in a foreign language must be translated to into English.
The borrower or any interested party to the transactions may not translate the documents. The
translated document must be submitted and attached to the original document or a copy of the original
document in the loan file

Permanent Resident

- A Permanent Resident (PR) is defined as an individual who, though not a U.S. Citizen, is granted the
 right to work and live permanently in the United States. The U.S. Citizenship and Immigration Services
 (USCIS) refer to these individuals as immigrants.
- In addition to the above, refugees and others who are seeking political asylum which is immigrating
 to, and seeking permanent residency in, the United States also fall under the PR classification. The
 USCIS has special immigration programs that enable these individuals to seek (and accept) employment
 while they are in the process of obtaining their PR status. A process that generally takes two to three
 years.
- All PR are entitled to the same rights, products, programs, and lending parameters available to U.S. Citizens.
- The mortgage must satisfy Homebridge's basic underwriting guidelines either standard guidelines or those that apply to borrowers who qualify for our community lending products with respect to income stability and continuity, credit history, and cash reserves. The borrower must be employed in the United States and the source of income must be verified and expected to continue for three years. A two-year credit and income history is required. However, additional credit, asset, and income references needed to make an informed credit decision may be obtained from a foreign country if the borrower has not been employed two full years in the U.S. Only documentation that satisfies the same basic standards for authenticity, accuracy, and completeness that applies to other types of documentation should be considered.
- Evidence required to demonstrate one's legal right to live and work in the United States includes one of the following:
 - I-551: Permanent Resident Card (Alien Registration Receipt Card/"Green Card"); or
 - I-551: Conditional Permanent Resident Card (Conditional Alien Registration Receipt Card); or
 - Unexpired Foreign Passport: Must contain an unexpired stamp reading:
 - "Upon endorsement, serves as temporary I-551 evidencing permanent residency for one year"
 - This stamp serves as temporary evidence of permanent residence status.
- In addition to the above, an individual(s) with one of the following special visa classifications are also eligible for the same Permanent Resident guidelines:
 - Refugees
 - o Form I-94 stamped with employment authorization, or;
 - Foreign Passport stamped "Admission for Permanent Residence" with an unexpired date or an Employment Authorization Document.
 - Asylee
 - o Form I-94 stamped with employment authorization, or;
 - Copy of Employment Authorization document.

Non-Permanent Resident

 A Non-Permanent Resident (NPR) is defined as an individual who is granted the right to live and work in the United States for a fixed period of time and for a specific purpose. The USCIS uses the word "nonimmigrant" to describe these individuals.

Note: There are certain visa and EAD Category types that the USCIS may classify as a NPR; however Homebridge may view the classification/category to present an excessive risk. In these instances, the borrower or co-borrower may not be eligible under Homebridge. Non-U.S. Citizen guidelines, although they may be eligible under our Non-Resident program guidelines.

- Homebridge approved NPRs are eligible for financing under the same terms (product, transaction type, occupancy status, and loan-to-value ratio) that Homebridge offers to U.S. Citizens and Permanent Residents, provided the following guidelines are met.
- An approved NPR borrower/co-borrower whose employment income (i.e. Wager Earner, Self-Employed, etc.) is used to qualify on the loan must:
 - Be legally present in the United States (Refer to the Borrower topic in this section.); and
 - Currently reside in the United States. However, there are no minimum requirements with regards to that length of time; and
 - Be employed in the United States. Source of income must be verified and expected to continue for three years; and
 - Have a two-year work history. Additional employment and income references may be obtained from a foreign country if the borrower has not been employed two full years in the U.S. Only documentation which satisfies the same basic standards for authenticity, accuracy, and completeness that applies to other types of documentation should be considered; and
 - Satisfy our basic underwriting guidelines. Either standard guidelines or those that apply to borrowers who qualify for our community lending products — with respect to income stability and continuity, credit history, and cash reserves. Additional credit and asset references needed to make an informed credit decision may be obtained from a foreign country. Only documentation which satisfies the same basic standards for authenticity, accuracy, and completeness that applies to other types of documentation should be considered; and
 - Provide evidence demonstrating their legal right to work in the United States, which includes:
 - Employment Based Immigrant
 - A copy of an USCIS I-94 card/I-94 documents (Form I-94, Arrival/Departure Record is issued to aliens who are Admitted to the U.S, Adjusting their status while in the U.S., or Extending their stay) as provided through US Customs & Border Protection division website to prove their right to work in US; or
 - A copy of an Employment Authorization Document (EAD)¹ as evidenced by an I-766 card containing the applicant's photograph
 - Family Sponsored Immigrant & Visa Lottery Winner
 - A copy of an USCIS I-94 card/I-94 documents as provided through US Customs & Border Protection division website to prove right to work in US; or
 - A copy of an Employment Authorization Document (EAD)¹
 - NACARA (Nicaragua, Cuba, Guatemala, El Salvador) Beneficiaries
 - A copy of an USCIS I-485 (Application to Register Permanent Residence or Adjust Status) or USCIS I-881 card; or (Application for Suspension of Deportation or Special Rule Cancellation of Removal)
 - A copy of USCIS Form I-797² issued by an USCIS Service Center as evidence of filing I-485 or I-881; or
 - A receipt from an USCIS District Office confirming USCIS I-485 or I-881 has been filed
 - o ¹ The Employment Authorization Document (EAD) contains a "category code" found on the face of the EAD. That category code refers to the regulation section which is the basis for issuing the EAD. The EAD Code Definition provides information regarding what categories of aliens or classes of admission (COA) fall under the particular EAD code. This category code/EAD code definition on the EAD card may be used to determine the Visa classification, if applicable. NOTE: Not all EAD Category Codes are tied to/associated to a Visa classification). Refer to the EAD Code Definitions & Eligibility Chart for translation of the category codes.
 - ² USCIS uses numerous types of Form I-797 to communicate with applicants/petitioners or convey an immigration benefit. Refer to the USCIS website for further information: https://www.uscis.gov/forms/filing-guidance/form-i-797-typesand-functions
- EADs with Category Code C33 (an alien who has been granted Deferred Action for Childhood Arrivals –
 DACA) are eligible for the Jumbo Gold program as an NPR. Note: As this category code does not have a
 corresponding Visa classification, it will not be found on the Visa Classification Chart.
- The Visa classification and/or EAD Category Code determines the lending program for which the
 borrower is eligible. Once the Visa classification or EAD Category Code has been determined, the Visa
 Classification Chart (Exhibit 12) or EAD Codes & Eligibility Chart (Exhibit 12A) should be used to
 determine the program for which the borrower is eligible. If the EAD category code is tied to/associated
 to a specific Visa classification, documentation supporting that Visa is required.
- Reminder: The employment income of a borrower/co-borrower who has NOT been granted the right to
 work in the U.S may NOT be considered as qualifying income.

An approved NPR borrower/co-borrower who is using non-employment income (i.e. checking, savings, money market, retirement, etc) to qualify for the loan must:

- Be legally present in the United States. Refer to the Borrower topic above; and
- Currently reside in the United States. However, there are no minimum requirements with regards to that length of time; and
- Satisfy our basic underwriting guidelines. Either standard guidelines or those that apply to borrowers
 who qualify for our community lending products—with respect to credit history, and cash reserves.

	Additional credit and asset references needed to make an informed credit decision may be obtained from a foreign country. Only documentation which satisfies the same basic standards for authenticity, accuracy, and completeness that applies to other types of documentation should be considered; and Provide evidence demonstrating their legal right to live in the United States, which includes: - Employment Based Immigrant/NACARA Beneficiary - I-485 (Permanent Resident Application) or I-881 (for NACARA beneficiaries from Guatemala and El Salvador); and - I-797 or receipt from an USCIS District office confirming the I-485 or I-881 has been filed. - Refugee/Asylee - I-485 with receipt from local USCIS office; and - I-94 or I-94 documents as provided through US Customs & Border Protection division website to prove right to work in US stamped with refugee or asylee status Note: I-485 is required when a person has applied to adjust status or register for Permanent Residency. - Family Sponsored Immigrant - Approval on form I-797 for a form I-130 (Petition for Alien Relative) with receipt from local USCIS office; or - Receipt from local USCIS office showing form I-130 & I-485 filling. - Visa Lottery Winner - Confirmation from local USCIS office that I-485 has been filed; and - Copy of a letter from the State Department giving notification of selection as a visa lottery winner. Note: Form I-797 referenced in the above Non-Permanent Resident section may contain a letter A, B, C, etc. For additional clarification refer to: https://www.uscis.gov/i-797-info. Non Resident - A Non-Resident (NR) is defined as an individual who has been granted the right to enter the U.S. on a temporary basis, but generally is not authorized to live or work in the U.S. Examples of an NR include visitor for business or pleasure, student, etc A non-resident borrower or co-borrower who is using non-employment income (i.e., Checking, Savings, Money Market, Retirement, etc) to qualify for the loan must: - Be legally present in the United S
Chain of Title	All purchase and refinance transactions on existing properties will require a 12 month "chain of title" from the title insurer that does not evidence any previous <u>flipping activity</u> for the property (i.e., multiple property transfers).

	Occupancy and Exposure
Investment Property	 An investment property is an income-producing property that the borrower or co-borrower does not occupy. The subject property may be a 1-unit, condominium, or PUD. Rental income may be used to qualify. Rent Loss Insurance: Refer to Rental Income section. Occupying Tenant: If the subject property is currently being rented, the rental agreement/lease must be reviewed to ensure that it does not contain any provisions that could affect our position as mortgagee. In some jurisdictions, a lease that pre-dates the mortgage has a superior claim to the mortgage, even if it has not been recorded. However, the tenant's rights will usually remain intact under the pre-existing lease. If the lease is not subordinated to the mortgage, each lease must be reviewed to ensure that any "rights to purchase"—and any other rights that could adversely affect the mortgagee's interest—have been formally waived by the tenant. Refer to LTV Matrix for reserve requirements. Additional Requirements for Subject Investment Properties: If rental income is not used to qualify, PITIA must be used in calculating the debt ratios. Refer to Debt-to-Income Ratio topic. When the subject property is an investment property and the borrower(s) own multiple investment properties, the borrower(s) must provide evidence of a minimum of 2 years' experience managing multiple investment properties.
Estates	 A leasehold arrangement is one in which there is separate ownership of the land and the improvements on the land. The landowner grants a lease to the owner of the improvements that gives the improvements owner the right to use the land in exchange for a rental payment. The ownership interest in the land is called the "fee interest" or "fee estate." The ownership interest in the improvements coupled with the rights granted in the lease to use the land in exchange for a rental payment in the lease to use the land is called the "leasehold interest," "leasehold estate," or simply "leasehold." The rental payment is called a "leasehold payment" or "ground rent," and is usually paid annually. The lease is commonly for a term of 99 years or more, and is usually renewable. Ineltigible: Due to leasehold restrictions, Hawaiian Homelands are not permitted. Eligible: To be eligible, a leasehold estate must meet the following requirements: In all respects, the lease or sublease must be valid, in good standing, and in full force and effect. Binding and enforceable against the lessor and sublessor. The leasehold estate and improvements must constitute real property, be subject to a mortgage lien, and be insurable by an acceptable lender's title insurance policy. For condo or PUD projects, the homeowners association must be the lessee under the ground lease. The fee simple owner must not be the developer, an entity associated with the developer, or a hospitality entity. The leasehold must be assignable/transferable. All lease rents, other payments, or assessments must be current, and the borrower must not be in default under any other provision of the lease—nor may the lessor have claimed such a default. Term: The term of the estate extends a minimum of 5 years beyond the maturity date of the mortgage. (This requirement does not apply if fee simple litle will vest in the bor

Contain a provision that the borrower retains voting rights in any owners' association. Provide for the leasehold mortgagee to exercise any renewal options that may exist. Guarantee Homebridge the right to receive a minimum of 30 days' notice of any

default by the borrower and to cure the default or take over the borrower's right's

under the lease. In the event of bankruptcy of the lessor or lessee, the lessee must notify Homebridge in a timely manner.

The lease must not:

- Contain default provisions allowing forfeiture or termination of the lease except for nonpayment of the lease rents.
- Contain provisions for termination of the lease in the event of damage to or destructions of the mortgaged premises as long as the leasehold mortgage exists.
- Prohibit the leasehold mortgage from being insured under a hazard insurance policy or from receiving hazard insurance proceeds as either mortgagee or insurance trustee.
- Prohibit the leasehold mortgagee from exercising renewal options.

Sublease

- The lessor may not require a credit review or impose any other qualifying criteria on transference, mortgage, or sublease.
- The sublease must be signed by both the fee owner and the sublessor.
- The sublease must contain a Non-disturbance and Attornment Agreement, by which the fee simple lienholder or the lessor agrees to accept the terms of the lease or sublease and not to interfere with the lessee's rights to use the leasehold estate.
- The amount of the sublease payments is at least equal to the amount of the lease payments and is due no less frequently than the lease payments.
- The leasehold estate and the mortgage must not be impaired by a title merger between the lessor and lessee, or by a sublessor's default.

Lease With Option to Purchase:

Not permitted.

Appraisal Requirements:

 The use of leasehold estates for residential properties must be an accepted practice in the area where the subject property is located and such properties must be readily marketable.

Qualifying the Borrower:

 Any potential increase in rent payments must be taken into consideration when calculating the borrower's housing payments and debt ratios.

Title Requirements:

ALTA Form 13.1 or equivalent for all leasehold mortgages. The title insurance policy must include the
value of the lessee's leasehold improvements as part of the insured estate.

Multiple Properties

- <u>Subject is Primary Residence</u>: For loans secured by primary residences, borrowers may not own or be
 obligated on a combined total of more than 5 financed residential properties, including the subject
 property. (Refer to the table below to determine if "other properties owned" should be included in
 limitation.)
- <u>Subject is Second Home or Investment</u> Property: If the subject property is a second home or investment property, typically each borrower individually and all borrowers collectively may not own or be obligated on a combined total of more than 4 financed residential properties (including the subject property) at the time of application (applies to either a single lender or several different Homebridge).

• Refer to the table below to determine if "other properties owned" should be included in limitation.

Type of Property Ownership	Property Included in Limitation?
Joint ownership of residential real estate. (This is considered to be the same as total ownership of an individual property.)	Yes
Ownership of commercial real estate.	No
Ownership of multifamily property consisting of more than four dwelling units.	No
Joint or total ownership of a property that is held in the name of a corporation or S-corporation even if the borrower is the owner of the corporation and the financing is in the name of the corporation or S-corporation.	No
Joint or total ownership of a property that is held in the name of a corporation or S-corporation even if the borrower is the owner of the corporation; however, the financing is in the name of the borrower.	Yes
Ownership in a timeshare.	No
Obligation on a mortgage debt for a residential property (regardless of whether or not the borrower is an owner of the property on title).	Yes
Ownership of a vacant (residential) lot.	No
Joint or total ownership of a property that is held in the name of an LLC or partnership where the borrower(s) have an individual or combined ownership in the LLC or partnership of 25% or more, regardless of the entity (or borrower) that is the obligor on the mortgage.	Yes
Joint or total ownership of a property that is held in the name of an LLC or partnership where the borrower(s) have an individual	No

	 If the borrower utilizes a management company to assist in renting the unit when the borrower is not using it, the borrower may not give the management company complete control over the occupancy of the property.
Buyout of Spouse, Domestic	 A refinance that results from a divorce settlement in which one of the spouses is required to buy out the other's interest in a property is considered a rate/term refinance provided the borrower who acquires sole ownership of the property does not receive any cash back.
Partner, or Affianced	 Homebridge may also consider a buyout of the interests of a domestic partner, fiancée, or fiancé as a rate/term refinance transaction if all of the following conditions are satisfied:
Interest	 Both parties owned the subject property jointly for at least 12 months preceding the date of the mortgage application. An individual who inherits an interest in the property does not have to satisfy this requirement.
	 Both parties are able to demonstrate that they occupied the property as their principal residence by providing an acceptable source of verification (e.g., driver's license, bank statement, credit card bill, utility bill, etc. that was mailed to the individual at the address of the mortgaged property).
	 Both parties must sign a written agreement that states the terms of the property transfer and the proposed disposition of the proceeds from the refinance transaction. The borrower who acquires sole ownership of the property must not receive any cash back from the proceeds of the refinance.
	 The party who is buying out the other party's interest must be able to qualify for the mortgage under our standard underwriting guidelines.
	 Texas Property: The division of the homestead property pursuant to a court order or an award in a divorce proceeding is considered a Texas Non-Equity Loan that may be processed as a rate/term refinance. The borrower may not receive any cash back at closing. Transaction Type: All transactions may be originated as rate/term refinances, regardless of
	process type.
Construction-to- Permanent Financing	 Homebridge provides end-loan financing on a proposed property, subject to completion, per plans and specifications after a construction loan is obtained. To be considered for construction to permanent financing, the borrower must be the primary obligor on the construction loan as well as the owner of the lot. Any other combination (e.g., the borrower owns the lot, but is not the primary obligor on the construction loan) must be considered a traditional purchase transaction.
	 A newly constructed home is eligible for construction to permanent financing once the construction is complete. All construction work must be completed and paid for, and all mechanics' liens, materialmen's liens, and any other liens and claims that could become a lien relating to the construction must be satisfied before the mortgage loan is closed or delivered for purchase.
	The conversion of an interim loan or term note into permanent financing may be considered a purchase money transaction or a refinance transaction. While a purchase transaction may allow a higher LTV, the borrower may wish to opt for a refinance transaction that requires less documentation to establish the value of the mortgaged property and offers the possibility for cash-out.
	Note : The right to rescind will not apply to a loan to finance the acquisition or construction of a dwelling, but the right to rescind will apply to a loan to rehabilitate or improve the borrower's principal dwelling.
	The loan classification is determined on the length of time the borrower has held legal title to the lot, and in some cases, how title was acquired. A copy of the purchase contract or HUD-1/Closing Disclosure signed by the borrower may be used to document the cost of the lot.
	Ineligible Property Types: Units in a condo project are not eligible.
	Required Documentation:
	 Uniform mortgage instruments are required, and they may not be altered to include any reference to construction of the property. A construction loan rider is used to modify the uniform instruments. The rider must state the construction loan terms, and the construction-related provisions of the rider must become null and void at the end of the construction period, when the construction loan is modified into the permanent financing.
	 When the construction-to-permanent loan provides funds for acquisition or refinancing of an unimproved lot and the construction of a residence on the lot, a certificate of occupancy must be obtained from the applicable government authority.
	New Construction
	 New construction properties are properties that are proposed or under construction at the time of loan application.
	A full interior/exterior appraisal is required.
	Note : Transactions that allow a borrower to make a single disbursement to a builder/contractor for the purchase of a newly completed site-built property (including an existing home that has never been occupied), where the borrower acquires title to both the lot and the improvements at the same time, are

not considered new construction or a conversion of a construction loan; however, a full interior/exterior appraisal is required if the property has never been occupied.

Converting an Interim Construction Loan to a Permanent Loan

- The conversion of an interim construction loan to a permanent loan may be handled as:
 - A Single-Close Transaction: (Not Permitted), where one loan is used for both the interim
 construction loan and the permanent long-term mortgage. Upon completion of construction, the
 construction loan is either automatically converted to the permanent loan, as outlined in the
 construction rider to the note, or the construction loan terms are modified to match the final
 terms of the permanent loan, as outlined in the Modification Agreement. If required, the
 Modification Agreement must be recorded.
 - A Two-Close Transaction, where a new long-term mortgage replaces the interim short-term construction loan that was used to fund the construction of the new residence. There is one closing for the construction loan and another closing for the new permanent loan.
- Two-Close Transactions may be rate/term or cash out refinance transactions.

Rate/Term Refinance Guidelines:

• For the transaction to be treated as a refinance, the borrower must have acquired title to the lot before applying for construction financing and must be named as the borrower on the construction loan.

Cash-Out Refinance Guidelines

• If the borrower receives cash back at the construction loan closing or pays off unsecured liens or construction costs paid by the borrower outside of the interim construction loan, the loan must be treated as cash-out refinance. In addition, the borrower must have acquired title to the lot before applying for the construction financing and must be named as the borrower on the construction loan.

LTV Calculation:

- The LTV is determined by dividing the loan amount by the current appraised value of the lot and improvements.
- **Note**: To be eligible for a cash-out refinance, the borrower must have held legal title to the lot for at least six months prior the closing of the permanent mortgage. All other cash-out refinance parameters—including the maximum LTV and loan amount, must be met. It is not necessary to ask the borrower to provide evidence of the funds invested into the transaction.

Modified/One-Time Close Transactions

This feature is not available.

Continuity of Obligation

- When an existing Mortgage on the subject property will be satisfied as a result of a refinance transaction (rate/term and cash out), one of the following requirements must be met:
 - At least one Borrower on the refinance mortgage was a Borrower on the mortgage being refinanced; or
 - At least one Borrower on the refinance Mortgage held title to and resided in the mortgaged premises as a primary residence for the most recent 12-month period and the mortgage file contains documentation evidencing that the borrower, either:
 - Has been making timely mortgage payment, including the payments for any secondary financing, for the most recent 12-month period; or
 - At least one Borrower on the refinance mortgage inherited or was legally awarded the mortgaged premises (for example), in the case of divorce, separation, or dissolution of a domestic partnership.
 - The property was previously owned by an inter vivos revocable trust and the borrower is the primary beneficiary of the trust.

Note: Continuity of Obligation requirements do not apply when there is no existing mortgage on the subject property.

 Refer to the <u>Rate/Term Refinance: Other Purpose</u> topic below for additional requirements for adding or removing a borrower from a transaction, or the Buyout of Spouse, Domestic Partner or Affianced Interest topic for additional requirements.

Contract of Sale / Land Contract

- A land contract, also known as an installment land contract, contract for deed, contract sale, contract purchase, or in Hawaii, an Agreement of Sale, is a form of seller financing in which the seller retains title to the property while the buyer makes regular payments to the seller. Once the buyer pays the number of payments and/or amount specified in the contract, the seller conveys title to the buyer.
- An executed contract for deeds/land contracts must be seasoned for at least 12 months before the transaction is eligible for financing with Homebridge.
 - A mortgage in which the proceeds are used to pay the outstanding balance of a land contract or contract for deed may be Rate/Term Refinance Transaction only. The land contract/ or contract for deed must be executed more than 12 months preceding the mortgage application date.
 - Proceeds from the refinance transaction may include the sum of the outstanding balance of the installment sales contract and the costs incurred for rehabilitation, renovation, or energy improvements.
 - The loan file must include third-party documentation evidencing payments were made in accordance with the terms of the land contract or contract for deed for the most recent 12 month period.

	A new appraisal is required and the LTV must be calculated using the appraisant
	 A new appraisal is required and the LTV must be calculated using the appraised value of the new first mortgage transaction.
	 Purchase Transactions: If the land contract or contract for deed was executed within the 12
	months preceding the mortgage application date, it is not permitted.
	Cash-Out Refinance Transaction: Not Permitted. Note: The right to received will easily to a loop to rehabilitate or improve the harrower's principal dwelling.
Lease-to-Own /	 Note: The right to rescind will apply to a loan to rehabilitate or improve the borrower's principal dwelling. A transaction in which the borrower holds a lease with an option to purchase the subject property must
Rent with Option	be processed as a purchase transaction, with the LTV based on the lesser of the purchase price or
to Buy	appraised value. Loans must be treated as a purchase transaction.
·	The property seller may give the purchaser credit toward the down payment for a portion of previous rent
	payments the purchaser made under a documented rental purchase agreement. Refer to Source of
Loan Seasoning	 Funds for additional requirements. To be eligible for purchase, loans may not be seasoned more than 90 days from the closing date as of
Loan ocasoning	the date the investor purchase the loans.
	Note: Appraisal updates and project approval date restrictions supersede this seasoning policy.
	Payment histories must reflect that all payments were made as agreed.
Non-Arms	Non-arm's length transactions are not permitted.
Length Transactions	 A non-arm's length transaction is one in which there is a relationship or business affiliation between the seller and the buyer of the property (e.g., family sale, property in an estate, employee and employer,
Transactions	renter and landlord, or flip transactions).
	 Common risks associated with this type of loan include absence of equity or down payment; a purchase
	price that does not represent the actual property value; financial bailouts or attempts to hide poor credit;
	occupancy concerns; and financing of unsold builders' inventory, especially in soft real estate markets.
Properties Listed for Sale	 If the subject property is currently listed for sale the loan is not eligible for a rate/term refinance or a cash-out refinance.
ioi Sale	 Properties that were listed for sale and taken off the market within the past 180 days are eligible for a
	rate/term refinance only on a primary or second home. These loans are not eligible for a cash out
	refinance.
	Documentation evidencing the listing was cancelled, along with a letter of explanation from the borrower detailing the retirement for expensive the provided.
	 detailing the rationale for cancelling the listing, must be provided. Every effort should be made to verify the property is no longer listed for sale and the underwriter should
	give additional scrutiny to these transactions to ensure that refinancing the loan provides a benefit to
	borrower.
	This policy does not apply to the refinance of a property that was recently purchased within the past 180
Purchase	 days. A purchase transaction allows proceeds to be used to:
i uiciiase	Finance the purchase of a property.
	 Payoff an outstanding balance on an installment land contract, including any costs the
	borrower incurred for rehabilitation, renovation, or energy conservation improvements. If the
	financing exceeds the liens, the transaction must be considered a refinance. - Convert an interim construction loan or term-note into permanent financing if the borrower
	receives no cash from the settlement. If the permanent financing exceeds the recorded liens,
	the transaction must be considered a refinance. Refer to Construction-to-Permanent Financing
	parameters in this section.
	 Convert a lease option to purchase into permanent financing, as long as the borrower receives
	no cash back from the transaction. Note: The borrower may not be on title prior to the loan closing. The seller that is on title (the vested
	owner of record) must be the individual who executes the sales contract. Additionally, the seller must be
	on title prior to when the Closing Disclosure and closing docs are executed.
	Exceptions:
	 Corporate relocation transactions are excluded from this requirement. For a corporate relocation loan only, a third party relocation company may sign the sales contract and the Closing Disclosure as the
	seller. A copy of the fully executed Relocation Agreement is required.
	If the transaction is a purchase transaction of a repossessed property where the seller is FNMA,
	FHLMC, bank, etc., it is acceptable for an individual representative of the "seller" to sign the sales
	contract and Closing Disclosure. For this type of transaction, Homebridge would rely on the title company to ensure that the individual is an authorized signer.
	LTV Calculations:
	Calculate the LTV by dividing the loan amount by the lower of the sales price or the current appraised
	value.
	For construction-to-permanent lending purchase transactions, refer to the Construction-to-Permanent Figure in this section.
	 Financing topic in this section Refer to Contract of Sale/Land Contract topic above for this type of purchase transaction.
	 Purchase Transactions for Existing Properties: The cost of a separate contract or bid for improvements
	to be made may not be added to the contract purchase price to calculate the LTV.
	Cash Back to Borrower
	The borrower may not receive any cash back on a purchase transaction, unless the amount represents:
	Reimbursement for the borrower's overpayment of fees;

	Reimbursement for costs paid by the borrower in advance (e.g., earnest money deposit, appraisal, credit
	report fees, etc.) • Legitimate pro-rated real-estate tax credit in locales where real estate taxes are paid in arrears.
	 Refunds that may be required in accordance with federal laws or regulations. The Closing Disclosure must clearly indicate the refund with a notation for the reason, and the loan file must include documentation to support the amount and reason for the refund.
	If the borrower receives cash back for any of the above reasons, the underwriter must confirm that the
	minimum down payment or required borrower contribution has been met. Pro-rated real estate tax credits cannot be considered when determining if the borrower has enough funds for the transaction.
	 Pro-rated real estate tax credits cannot be considered when determining if the borrower has enough funds for the transaction.
	 Proof that the funds were actually paid (e.g., canceled check or other acceptable means) must also be documented.
	Tenant Rights
	 In some jurisdictions, leases that predate the new mortgage hold superior claim to the existing mortgage, even if it has not been recorded. In these instances, the tenant has the right to remain in the property until the lease has expired—even if the subject property is subsequently sold. Therefore, if the purchase contract, appraisal, or title work indicates the subject property has an existing lease in place, the lease must be reviewed to make certain it does not contain a tenant rights provision as it could adversely affect
Definence	our security interest.
Refinance Transactions	 A refinance involves paying off an existing loan with the proceeds from a new loan, usually of the same size, and using the same property as collateral. Other reasons to refinance include taking equity out of the property, reducing the term of a longer mortgage, or switching between a fixed-rate and an adjustable-rate mortgage. If there are prepayment fees attached to the existing mortgage, refinancing becomes less favorable because of the increased cost to the borrower at the time of the refinancing. In order to decide whether a refinance is worthwhile, the savings in interest must be weighed against the
	fees associated with refinancing.
	 For Rate/Term Refinances and Cash-Out Refinances, the LTV is calculated by dividing the loan amount by the current appraised value unless noted otherwise in the subsections within this section. However, there are situations where the LTV may need to be calculated by dividing the loan amount by the lesser of the appraised value or the sales price/acquisition costs. Refer to the following topics in this section for
	additional information:
	 Continuity of Obligation Construction-to-Permanent Financing
Cash-Out	A cash-out refinance transaction enables a borrower to pay off his or her existing mortgage by obtaining
Refinance	a new first mortgage that is secured by the same property or enables the property owner to obtain a mortgage on a property that does not already have a mortgage lien against it.
	 A transaction that does not meet all of the criteria listed for a Rate/Term Refinance in this section must be treated as a cash-out refinance and must meet all the LTV/loan amount restrictions.
	Cash out transactions must meet the following requirements:
	 At least one borrower must have owned the subject property for a minimum of 6 months prior
	to the application date. (Note: There are no seasoning restrictions for doing two consecutive cash-out transactions.):
	 Borrower acquired the property through an inheritance or was legally awarded the property (divorce, separation, or dissolution of a domestic partnership there are no
	other seasoning requirements. Refer to "Inherited Property" requirements below.
	 If prior to closing the property is owned and held in a Limited Liability Corporation (LLC) that is majority-owned or controlled by the borrower, the time it was held in the
	LLC may be counted towards meeting the borrower's six month ownership
	requirement. (Reminder: In order to close the new refinance transaction, ownership must be transferred out of the LLC and into the name of the individual borrower.)
	 For properties in a leasehold estate, at least one borrower must have been a lessee
	on the ground lease or lease agreement of the subject leasehold estate for at least 6 months.
	 Continuity of Obligation must be met. Refer to the <u>Continuity of Obligation</u> topic in this section
	for complete information. - Cash-out is limited to the maximum amounts stated in the LTV Matrix.
	The existing loan being refinanced may not be a restructured mortgage as defined in the
	Restructured Loans section.
	 Except as required by applicable law, a Power of Attorney may not be utilized to sign a security instrument or note if the transaction is cash-out refinance. Refer to 902.1 /Power of Attorney
	topic for additional information. - Refer to the <u>Properties Listed for Sale</u> topic in this section for information if the subject property
	has been listed for sale in the six months preceding the application date.
	 Financing the payment of closing cost, points, and prepaid items is allowed. However, if real estate taxes are more than 60 days past due and are included in the new loan amount an
	escrow account must be established, unless prohibited by state law or regulation. In those
	instances, only, when the particular state law prohibits Homebridge from requiring an escrow account, the loan is still eligible as a cash-out refinance without an escrow account.
	<u> </u>

Rate/Term Refinance section, and transactions in which the loan proceeds exceed the maximum amount of funds that can be disbursed to the borrower per the rate/term refinance guidelines can be done as a cash out refinance. Inherited Properties If a mortgagade property was inherited within the last 6 months, the following restrictions apply: The owner must have clear title; Title cannot be held in probate; and Percentage of ownership by heirs must be demonstrated. Documentation evidencing the inheritance must be obtained. Proceeds from a rate/term refinance may also be used for the following purposes, as long as all other rate/term refinance guidelines and policies as defined in the referenced sections are met: Buy out a divorced spouse, domestic partner's ownership interest in the subject property as defined in Buyout of Spouse, Domestic Partner or Affianced Interest topic in this section. Payoff a land contract, or lease/rem with option to buy. Refer to the Contract of Sale / Land Contract or Lease-to-Own/Rent w/Option to Buy topics in this section. Existing HELO/CFixed Rate Second Being Paid Off Refer to the Rate/Term Refinance Loan Amount Calculation topic in this section for details. Adding a Borrower to the New Transaction Adding a Borrower to the New Transaction still will be eligible under the terms of a rate/term refinance provided at least one of the original borrowers remains on the loan. However, all credit parameters (e.g., minimum score) must be met for the product/program selected. Removing a Borrower from the Transaction of timely payments for 6 months or more and the remaining borrower has demonstrated the ability to manage the payments without the "absent" borrower's income. Verification of timely payments for 6 months is required. The policies outlined in this section apply only to the following conventional rate/term refinance transactions with a note date 30 days or less prior to the application date of a new refinance on the same property. Loan Amount Calculation The new loan amount
guidelines can be done as a cash out refinance. Loan Amount Calculation The new loan amount is limited to: • Payoff the outstanding unpaid principal balance of the existing first lien, regardless of the loan originate date; and
minimum score) must be met for the product/program selected. Removing a Borrower from the Transaction The loan may still be eligible for a rate/term refinance if the borrowers have been divorced for 6 months or more and the remaining borrower has demonstrated the ability to manage the payments without the "absent" borrower's income. Verification of timely payments for 6 months is required. Eligibility Criteria The policies outlined in this section apply only to the following conventional rate/term refinance transactions only. There must be an existing mortgage secured by the property that will be paid off. The transaction is not eligible as a rate/term refinance if the borrower completed a cash-out refinance transaction with a note date 30 days or less prior to the application date of a new refinance on the same property. Loan Amount Calculation The new loan amount is limited to: Payoff the outstanding unpaid principal balance of the existing first lien, regardless of the loan originate date; and
Rate/Term Refinance Eligibility Criteria The policies outlined in this section apply only to the following conventional rate/term refinance if the borrower completed a cash-out refinance transaction with a note date 30 days or less prior to the application date of a new refinance on the same property. The new loan amount is limited to: • Payoff the outstanding unpaid principal balance of the existing first lien, regardless of the loan originate date; and
Payoff the outstanding unpaid principal balance of the existing first lien, regardless of the loan originate date; and
date; and
Doy off any remaining helping due under a remaint along a sureant defended on attending a 10 or 20 or
Pay off any remaining balance due under a repayment plan, payment deferral or other loss mitigation
program, as long as the funds are not subordinate financing; and
Financing of related closing costs and prepaid items;
- <u>Prepaid Real Estate Taxes</u> : The loan must be treated as a cash-out refinance and is subject to
all cash-out policies, LTV's, etc. if:
the loan amount, but does not establish an escrow account; OR
 The borrower finances the payment of real estate taxes for the subject property in the
loan amount and the real estate taxes are more than 60 days delinquent (with or
without establishing an escrow account).
 However, if a particular state law prohibits a lender from requiring an escrow account, the loan
is still eligible as a rate/term refinance without the escrow account. - Note : Properties with transfer fees that are identified as exceptions on the title commitment
 Note: Properties with transfer fees that are identified as exceptions on the title commitment may not be included.
Payoff of a subordinate loan that meets one of the following scenarios:
If the subordinate lien was made within the last 12 months and all proceeds were used to purchase the
property.
 A copy of the Closing Disclosure signed by the borrower from the original sale must be
obtained to verify that the entire amount being paid off was used to purchase the property
The payoff may also include any prepayment penalty that may be associated with the
subordinate lien.
- If the subordinate lien is a home equity line of credit, the total amount of additional draws within the past 12 months may not exceed \$2000 (as documented by copies of home equity line
statements).
If the subordinate lien was made more than 12 months ago:
The payoff may also include any prepayment penalty that may be associated with the
subordinate lien; and
- If the subordinate lien is a home equity line of credit, the total amount of draws against the line
during the past 12 months does not exceed \$2,000 (as documented by copies of home equity
line statements).

	 Cash back to the borrower may not exceed 1% of the principal amount of the new mortgage or \$5,000 whichever is less, as noted on the Closing Disclosure. Cash back on the Closing Disclosure may only exceed this amount by the amount that was paid outside of closing by the borrower, or due to refunds that may be required in accordance with federal laws or regulations as documented in the loan file. The Closing Disclosure must clearly indicate the refund with a notation for the reason, and the loan file must include documentation to support the amount and reason for the refund. Note: For Texas properties, a new refinance transaction that includes the payoff of an equity line of credit, the payoff of any loan that is a Texas Section 50(a)(6) loan, or provides any cash to the borrower at closing makes the new loan subject to Texas Section 50(a)(6) requirements and is not eligible. Inherited Properties If a mortgaged property was inherited within the last twelve (12) months, the following restrictions apply: The owner must have clear title; Title cannot be held in probate; and Percentage of ownership by heirs must be demonstrated. A five percent (5%) LTV/CLTV reduction must be applied to LTV/CLTV/HCLTV
	 Documented evidence of the inheritance must be obtained.
Refinances: Restrictions	At-Close Principal Curtailments are not permitted. If cash proceeds to the borrower exceed the maximum amount permitted for a rate/term refinance, the loan amount must be adjusted accordingly before the loan closes. The excess amount must not be handled as an at-close principal curtailment. Exception: Principal Curtailments are only allowed as a result of at closing excess premium rate credits. The amount must be identified on the Closing Disclosure and is limited to the amount of the excess premium rate credit.
	 <u>Seasoning Requirements</u>: Seasoning requirements apply to the following loans: Cash-out Transactions: Must be owned for at least 6 months Rate/Term Refinance transactions: Refer to the loan amount calculation. Additional restrictions may apply. Refer to individual topics within this section for additional details (examples: spousal buyout, land contract, etc.).
Refinances:	Technical Refinances are not permitted.
Technical	If the mortgage proceeds are used to replenish the borrower's funds on a property that was purchased
Refinance	within 12 months of the application date, the loan is considered a technical refinance. In most instances, the borrower did not have the time to obtain permanent financing due to the need to close quickly (for any number of reasons) and may have obtained short-term financing in order to do so.
Tangible Benefits	 The net tangible benefit is the financial advantage that a borrower gains by completing a refinance transaction. The Correspondent must determine and document in the loan file the existence of at least one benefit of the refinance for every refinance transaction, which may include but is not limited to the following; Cash-out refinances Refinancing an existing Home Equity line of credit into a fixed-rate, closed-end mortgage loan Reduction in principal and interest payment Reduction in interm Reduction in interest rate Refinancing an ARM to a fixed rate mortgage Refinancing an interest only product to a fully amortized product Refinancing a balloon/reset product to a fixed rate mortgage Refinancing to buy out another party's equity position Refinancing to comply with court order (e.g., divorce or other court ordered separation of title) Refinancing to eliminate mortgage insurance Refinancing to extend draw period on a HELOC Note: Curing a default or delinquency on a mortgage is not a valid NTB Some states have additional requirements, please refer to the state's specific policies for additional information.

	Credit
Age of Credit	Credit documents may not be more than 120 days old at time of loan closing for existing and new
Documents	construction.
	 Credit documents include credit reports and employment, income, and asset documentation. The age of the documents is measured from the date of the document to the date the note is signed.
	For properties located in an "escrow state" only, the printed note date and actual closing/signing date may differ. In these instances, the Closing Disclosure should be used to determine the actual
Bankruptcy	 closing date for determining the age of credit documents. To be considered for a mortgage loan, the borrower's bankruptcy must have been dismissed or
Dami apicy	discharged (as defined below) and s/he must have re-established a satisfactory credit history and demonstrated the ability to manage financial affairs prudently. ("Satisfactory" means that the most recent rating has a rating of "1".) The bankruptcy should be fully discharged or dismissed as specified below.
	 The mortgage application may not be approved before the following time periods have elapsed from the date of the application:
	 4 years from the date the Chapter 7 or 11 bankruptcy was discharged or dismissed; 4 years from the date a Chapter 12 or 13 repayment plan was dismissed or 2 years from discharge date.
	 Note: The shorter waiting period based on the discharge date recognizes that borrowers have already met a portion of the waiting period within the time needed for the successful completion of a Chapter 12 or 13 plan and subsequent discharge. A borrower who was unable to complete the Chapter 12 or 13 plan and received a dismissal is held to a 4-year waiting period.
	 A letter of explanation for the bankruptcy is required. Homebridge may consider 2 years an acceptable interval for having re-established a satisfactory credit
	record when:
	 The previous action was a discharged or dismissed Chapter 12 or 13 bankruptcy, regardless of the reasons that contributed to the previous bankruptcy.
	 The previous action related to a deed-in-lieu or Chapter 7 or 11 bankruptcies resulted from extenuating circumstances. (If the borrower cannot provide satisfactory documentation of the extenuating circumstances, 4 full years must have elapsed.)
	Bankruptcy on the Same Mortgage
	 If a mortgage debt was discharged through a bankruptcy, the bankruptcy waiting periods may be applied if the appropriate documentation to verify that the mortgage obligation that was discharged in the bankruptcy is obtained. Otherwise, the greater of the applicable bankruptcy or foreclosure waiting periods must be applied.
	Multiple Bankruptcy Filings
	 A 5-year time period must have elapsed from most recent dismissal or discharge date for borrowers with more than one bankruptcy filing within the past 7 years. A satisfactory credit record must be re- established. All bankruptcies must be either dismissed or discharged.
	Note : Two or more borrowers with individual bankruptcies should not be considered cumulative. For example, if the borrower has one bankruptcy and the co-borrower has one bankruptcy, this is not considered a multiple bankruptcy.
	Documentation Requirements
	Borrowers who have had a bankruptcy closed within the past 7 years must provide the following:
	 Copies of the bankruptcy petition, schedule of debts, discharge or dismissal order and the document issued by the court showing the bankruptcy estate is closed.
	 Evidence to indicate that all debts not satisfied by the bankruptcy have been paid or are being paid.
	 Any other evidence necessary to support the determination that the borrower has reestablished and maintained an acceptable credit reputation (see Re-establishing Credit).
Borrower	A written explanation from the borrower is required for the following:
Explanations (LOX)	 All Significant Derogatory Information. The purpose for requiring a written explanation is to assist the underwriter in determining whether the Borrower's credit problems were due to extenuating circumstances (factors clearly beyond the control of the Borrower) or whether they reflect financial mismanagement (the Borrower's disregard for the payment of obligations when due). Refer to Credit/Analysis/Derogatory Credit for examples of significant derogatory credit.
	Temporary Leave: The borrower must provide written confirmation of their intent to return to work and the agreed upon date of their return. The borrower must provide a written evaluation when there is a grap in
	 Gap in Employment: The borrower must provide a written explanation when there is a gap in employment of 30 days or more.
	 The written explanation may be sent through the mail, email or fax. Confirmation that the written explanation came from the borrower may include the email address, a typed or signed name within the explanation document or an e-signature.
	The underwriter should determine if any other explanations are required. The following are all acceptable forms of documentation for the explanation:

	 Verbal conversation directly with the borrower (documented in the permanent loan file); or Written explanation/letter sent via regular mail, email, or fax.
Consumer Credit Counseling Agencies (CCCA) / Debt	Consumer Credit Counseling Agencies (CCCA) and Debt Management Services (DMS) assist borrowers who may have had difficulties in managing their debt; it is often demonstrated by a history of delinquent accounts. Debt management plans may be administered by a not-for-profit agency such as consumer credit counseling agency (CCCA) or a non-affiliated for-profit debt prorating service.
Management Services (DMS)	Note: Homeownership Counseling, which is designed to help first time homebuyers prepare for the financial responsibilities associated with home ownership, should not be confused with Consumer Credit Counseling. This section addresses Consumer Credit Counseling Agencies (CCCA)/Debt Management Services (DMS) only.
	The following scenarios ARE NOT considered added risk and should not be held against the borrower when considering them for a mortgage loan.
	 The borrower is/has participated in Homeownership Counseling in preparation for purchasing a home.
	 The borrower is/has participated in consumer credit counseling or debt management program but continues to manage their own finances.
	 The borrower participated in consumer credit counseling or debt management program during which time the counseling agency made payments to creditors on the borrower's behalf. The following conditions must be met:
	 A minimum of 12 months must have passed since the borrower participated in the program.
	 The borrower has demonstrated the ability to manage credit since then. The borrower has a satisfactory pay history on all accounts.
	The following conditions ARE considered adverse risk factors and must be considered accordingly:
	 The borrower is currently participating in credit counseling and making monthly payments to the Consumer Credit Counseling Agency or other debt pro-rating service instead of paying creditors directly.
	 The borrower has recently completed credit counseling or other debt service counseling program (less than one year has passed) during which time the counseling agency made payments to creditors on the borrower's behalf.
Credit History	The credit history reflects the manner in which a borrower manages their financial responsibility, current obligations, and monthly payments. Good credit must not be considered a compensating factor. It must be expected of each borrower applying for a mortgage.
	Changes in Credit Usage
	 Recent changes in the borrower's use of credit may indicate they are having difficulty in maintaining accounts. The underwriter should review the age of all obligations to determine whether there has been a recent, significant increase in the number of open accounts and/or the number of outstanding balances.
	Refer to Borrower Explanations and Derogatory Credit topics in this section for more information.
	Authorized Users of Credit – All Loan Transactions
	Credit report trade lines that list a borrower as an "Authorized User" may only be considered as part of the borrower's credit history to meet minimum credit requirements if:
	- Another borrower in the current loan transaction is the owner of the trade line; or
	 The borrower can provide written documentation (i.e., cancelled checks) that s/he has been the actual and sole payer on the account for at least twelve months preceding the date of the loan application.
	 If an authorized user's account is used to meet the minimum credit requirements, then both the payment history, including any late payments and the monthly obligation must be considered in the credit analysis and included in the DTI ratios
Credit Inquiries	
	repayment ability is being compromised by new debt. Inquiries on the credit report generally reflect the borrower's requests for new or additional credit. Inquiries made for other purposes, such as general solicitations not initiated by the borrower or monitoring inquiries by current creditors, typically are not shown on the credit report. The presence of many recent inquiries in combination with a significant number of recently opened accounts, high balance credit utilization, and/or delinquent accounts represent a high credit risk.
	• If the credit report indicates that a creditor has made an inquiry within the previous 90-day period, then Homebridge must determine whether additional credit was granted as a result of the borrower's request. A letter from the creditor OR a signed statement from the borrower OR a conversation with the borrower (which must be documented in the loan file) may be used to determine whether additional credit was obtained. Note: Letters of explanation that are e-mailed are not required to be signed, refer to the Borrowers Letters of Explanation topic in this section for additional requirements.
	 Inquiries from a source that would not result in a debt included in the DTI calculation do not require written explanation from the borrower. Homebridge must verify the unpaid balance, the terms of

Cradit Danset	repayment and the payment history (if applicable). The final loan application signed by the borrower(s) must include all debts that were verified, disclosed or identified during the loan application process. If new credit was obtained and there is a balance on the new account, the debt must be included in the list of debts and the calculation of DTI ratios, even if the account does not appear on the credit report. Note: If new credit is obtained after the loan has been approved, re-underwriting will be required.
Credit Report Alerts	 Pursuant to the provisions of the Fair and Accurate Credit Transactions Act (FACT Act), consumers have certain rights to protect themselves from the risk of identity theft. Consumers who are victims of identity theft, or who believe they may become victims, or who are on active duty in the military may request that a credit reporting agency pass a fraud or active duty flag to users who request their credit report.
	The underwriter is responsible for reviewing each credit bureau report carefully to ensure there are no alerts or "red flags" which would require special attention.
	A consumer has the right to place a fraud or active duty alert on their credit bureau by following a procedure established by the bureaus. An alert means that someone may have used the consumer's identity without his or have accepted.
	 identity without his or her consent. Homebridge prohibits loans to applicants who have a security alert in their credit file unless reasonable steps have been taken to verify the applicant's identity. Homebridge must follow the instructions provided by the consumer located in the consumer's credit report before an application can receive further processing, or the borrower may contact the consumer reporting agency and provide the appropriate instructions and identifying information to the credit reporting agency allowing Homebridge to re-pull a consumer report clear of fraud or active duty alerts. In some instances the consumer will need to be contacted by phone to verify identity.
	Reminder: The borrower may not be automatically declined due to the presence of such alerts.
	 Address Indicators The credit reporting agencies indicate when the applicant's address provided by a creditor differs, or is a variation, from the address on the credit report. Often there is a simple and logical explanation. However, such discrepancies may be red flags for fraudulent activity.
	Address Discrepancy Alert This alert occurs when the applicant's address is a variation of the address the credit bureau has on file or the credit bureau address history reflects other addresses reported during the same time period as the inquiry address.
	Address Mismatch Alert This alert occurs when the applicant's address does not show up on the credit bureau report. This indicates the inquiry address is a new address for the applicant's credit profile, as the address does not match or has never been reported to the credit bureau before.
	 All discrepancies/mismatch addresses must be reviewed and resolved. Frozen/Locked Credit must follow Consumer Credit Bureau Block policy.
Credit Utilization	 Homebridge must review the borrower's credit report to evaluate his/her use of revolving credit by comparing the current balance on each open account to the amount of credit that is available to determine whether the borrower has a pattern of using revolving accounts up to (or approaching) the credit limit.
	 The higher the borrower's overall utilization of revolving credit the higher the amount of risk. (Note: The lack of adverse or derogatory credit information may not be used as an offset for high balance-to-limits or high overall utilization of revolving credit.)
Credit Worthiness	The underwriter must determine the credit worthiness of all borrowers. While credit score is a key factor used in determining credit worthiness, Homebridge recognizes there are situations in which either the score is not available, (e.g., an international borrower lacking a credit history in the U.S.), the credit history is old, or there are too few trade lines available to score a loan. In these cases a manual, further
	evaluation of credit may be necessary. This section addresses the data that should be examined and considered while performing a judgmental/subjective credit evaluation. Refer to the Comprehensive Risk Assessment topic for additional information.
	 Important: The underwriter has the right to request additional information if deemed appropriate even if an explanation is not normally required.
Deed-In-Lieu / Short Sale / Pre- Foreclosure /	The waiting period (i.e., the amount of time that must pass before the borrower is eligible for mortgage financing), which commences on the completion date of the above events, is a minimum of four years with the maximum LTV/CLTV/HCLTV permitted as defined by the product/program selected.
Charge-Off	 Extenuating Circumstances: If the deed-in-lieu, short sale, pre-foreclosure or charge-off of a mortgage account was the result of documented extenuating circumstances, the waiting period is two years provided the borrower meets all requirements for re-establishing credit. The maximum LTV/CLTV/HCLTV is the maximum LTV permitted by policy
	 A deed-in-lieu is a transfer of title from a delinquent borrower to Homebridge in satisfaction of the mortgage debt to avoid foreclosure; also called a voluntary conveyance or typically identified on the credit report through Remarks Codes such as "Forfeit Deed-in-Lieu of Foreclosure."
	 A short sale, pre-foreclosure sale or charge-off of a mortgage account is a transaction where the mortgage lender agrees to accept a lower amount than is owed on the property. These are typically identified on the credit report through Remarks Codes such as "Settled for less than full balance and "Foreclosure Initiated." The loan may or may not be delinquent.

	 Examples of how short sales/pre-foreclosures or charge-off of a mortgage account may be identified on the credit report:
	 Special Comment Code AU (Account Paid-in-Full for Less than Full Amount Due)
	 \$0.00 Current Balance Payment rating applicable to the contractual status of the loan at time short sale is processed (i.e. current, 30 days' delinquent, 60 days' delinquent, etc.).
	 As a result of the "AU" reporting, credit bureaus display a corresponding comment on the consumer's credit report. The verbiage of that comment varies per bureau. The bureaus may display verbiage very similar to the actual AU definition, but may also display a comment, such as "settled". The actual "AU"
	code does not appear on the consumer's credit report. There is also not anything within the payment history section of the credit report that would refer to the short sale.
	Note: This section does not apply to deeded Timeshares.
Derogatory Credit	 The presence of significant derogatory credit information dramatically increases the likelihood of a future default and represents a significantly higher level of default risk. Examples of significant derogatory credit events include bankruptcies, foreclosures, deeds-in-lieu of foreclosure, pre-foreclosure sales,
	short sales, and charge-offs of mortgage accounts.
	Homebridge must determine the cause and significance of the derogatory information, verify that sufficient time has elapsed since the date of the last derogatory information, and confirm that the horsewer has receptable gradit history.
	 borrower has re-established acceptable credit history. A written explanation for significant derogatory credit must be documented along with supporting exhibits as defined throughout this section. Refer to Borrower Letters of Explanation for more information.
	The underwriter should determine if a letter of explanation is required for minor derogatory credit or an
	isolated incident that is not representative of the borrower's overall credit history/ profile. The underwriter should explain in their rationale if a letter is not being required.
	Note: Mortgage payments missed during the time of a COVID-19 related Forbearance do not have to be considered as mortgage lates and do not have to be considered significant derogatory credit as outlined below.
	Significant Derogatory Credit
	The following scenarios are examples of what may be considered "Significant Derogatory Credit" and,
	therefore, require a written explanation from the borrower. - There are several accounts showing recent late payments;
	- There are multiple 60- or 90-day late payments; - There is more than one 30-day late housing payment in the last 12 months:
	 There is more than one 30-day late housing payment in the last 12 months; There are more than two 30-day or more than one 60-day late housing payments within the most recent two years;
	 The number and size of the delinquent accounts are large in relation to the overall credit; There are multiple episodes of late payments extending over a period of time;
	 The credit history shows derogatory credit information within the two most recent years
	combined with multiple revolving accounts with high balances-to-limits; - The public record information reveals several occurrences of derogatory credit information,
	including judgments, tax liens and/or collection accounts; - There is a bankruptcy filing, foreclosure, pre-foreclosure sales, mortgage charge-offs, deed-in-lieu of foreclosure, short sale within the last seven years, or accounts that have been turned
	over to a collection agency.
	Identification of Significant Derogatory Credit Events in the Credit Report The Underwriter must review the credit report and the Declarations section of the loan application to
	identify instances of significant derogatory credit events. The Underwriter must also review the public records section of the credit report and all trade lines, including mortgage accounts (first and second liens, home improvement loans, HELOC's and manufactured home loans) to identify previous
	foreclosures, deed-in-lieu, pre-foreclosure sales, charge-offs of mortgage accounts, and bankruptcies. Finally, the Underwriter must carefully review the current status of each trade line, manner of payment codes, and remarks to identify these types of significant derogatory credit events.
	 If significant derogatory credit events are not clearly identified in the credit report, the borrower must provide copies of appropriate documentation to establish the completion date of a previous foreclosure, deed-in-lieu or pre-foreclosure sale, or date of the charge-off of a mortgage account; confirm the bankruptcy discharge or dismissal date; and identify debts that were not satisfied by the bankruptcy. Debts that were not satisfied by a bankruptcy must be paid off or have an acceptable, established
Discrepancies	 When a credit report does not include a reference of a debt the borrower reported on the loan application, separate written verification for each unreported debt is required. Accounts listed on the credit report as "will rate by mail only" or "need written verification" also require separate verification. If
	 debt shows up on the credit bureau that was not on the application, no explanation is required. However, it should be included on the application and included in the debt ratios. Written explanation may be required depending on the documentation process selected. Refer to
	Borrower Letters of Explanation topic in this section for more information.
Disputed Credit Obligations	Disputed trade lines or public records adverse to the credit profile require a written explanation from the borrower including evidence to support the dispute. If the account in question adds risk, such as a table of the account the publication of the account the acco
	stolen/fraudulent use of the account, the evidence must include documentation and verification of the account status (i.e. current balance, delinquency, etc.) from the creditor or credit bureau. Refer to the
	Borrower Letters of Explanation topic in this section for more information.

Note: If the account or public record is medical, a letter of explanation and evidence is not required, as dictated in FCRA - Regulation V: Medical Information Privacy Act.

Past Due Accounts

• An explanation by itself is generally not sufficient to allow a past due account to go unpaid. These are evaluated on a case-by-case basis. Refer to individual topics in this section for additional requirements.

Incorrect Information

• If a borrower states the information on the credit report is incorrect or does not belong to the borrower and the information reflected is deemed to be of material significance (e.g., delinquent credit obligation, public records or trade lines that do not belong to the borrower), the borrower must provide documentation from the creditor or the credit bureau evidencing that a dispute has been initiated for the identified account(s). All written letters of explanation must be signed by the Borrower prior to close. Refer to the Borrower Letters of Explanation topic in this section for more information. A subjective review must be performed as part of the underwriter's risk analysis.

Evaluating the Credit Score

- If using an external credit score, the underwriter should review the score in conjunction with the borrower's credit history requirements, keeping in mind that:
 - A high score does not mean the loan should automatically be approved. Rather, it means that
 the underwriter must determine that the mortgage satisfies our eligibility criteria and the
 borrower meets our overall underwriting standards.
 - A low score does not mean the loan will go into default (although statistically there is a higher likelihood of this occurring). However, the loan must have strengths to compensate for the low credit score.
 - A lack of a score due to little or no credit does not constitute a high credit risk. Rather, it means that the borrower has insufficient credit from the type of credit providers that generally report to credit bureaus.

Representative FICO Score

- The FICO score is based on a single credit file for the borrower that is obtained from one of the three major credit repositories. Because the model used by each repository differs slightly and the amount of information in an "in-file" report may differ among the repositories for any given borrower different FICO scores are typically returned from each repository. Note: If a FICO score is not returned by a repository for a borrower, the credit report must be reviewed to determine why the score was not returned (e.g., two or more frozen, a locked file, no hit, bureau error, Jr. vs. Sr. issues, repository didn't return file out of fraud concerns, etc.). If possible, the issue preventing the score from being returned must be corrected so that a credit report with all three FICO scores for each borrower can be obtained.
- <u>Locked Report</u>: Consumers have the ability to "lock" access to their credit information when they are
 victims of identity theft. The consumer must unlock the credit report prior to applying.
- While the FICO score range varies by repository, in order for a credit score to be considered valid, the score must be between 300 and 850 ("valid range"). If the score is outside of that range, the score should not be used in the calculation below.
 - <u>If there is only 1 borrower on the loan</u>, the borrower and overall loan representative FICO score is determined as follows:
 - If no FICO scores are returned within the valid range, the borrower and overall representative FICO score is zero. The credit reputation of the borrower must be performed manually; refer to the Non-traditional Credit section for more information.
 - o If only 1 FICO score falls within the valid range, use only this score.
 - If 2 FICO scores are reported within the valid range, use the lower score for the borrower and overall loan score.
 - If 3 FICO scores are reported within the valid range, use the middle score for the borrower and overall loan score.
 - If there is more than 1 borrower on the loan, the overall loan representative FICO score is determined as follows:
 - Determine the "representative" FICO for each individual as defined above, then;
 - Select the lowest FICO from the group.
 - Example 1: The representative score for borrower 1 is 673, for borrower 2 is 680, and for borrower 3 is 704; the overall loan representative score used for the transaction is 673.
 - Example 2: The representative FICO score for borrower 1 is 673, for borrower 2 is 680, and borrower 3 has no score within the valid range; the overall loan representative FICO score used for the transaction would be 673

Forbearance / Repayment Plan

Forbearance

A Forbearance plan suspends or reduces the amount of the regular monthly mortgage payment. At the
end of the forbearance term, the borrower(s) is responsible for the balloon payment.

Repayment Plan

- A repayment plan is an arrangement in which a borrower(s) agrees to repay past due amounts while still
 making regularly scheduled payments.
- Borrower(s) who have been accepted into a Payment Deferral are considered current upon completion
 of the Payment Deferral.
- Borrower(s) are eligible for new financing upon completion of the payment deferral under a Forbearance or Repayment Plan and if the following criteria are met:

	All Transactions
	At least 6 months have elapsed since the Forbearance or Repayment Plan was completed; and
	Borrower(s) must have made the payment as agreed per the loan forbearance or repayment plan; and
	Mortgage history must meet he mortgage history requirements per the product, program and/or process
	applied, and Borrower(s) must meet all other requirements per the product, program and/or process applied
Foreclosure	Borrower(s) must meet all other requirements per the product, program and/or process applied. After 7 years have classed, the berrower may obtain a purchase meeting pursuant to the cligibility.
Foreclosure	 After 7 years have elapsed, the borrower may obtain a purchase mortgage pursuant to the eligibility requirements in effect at that time. A letter of explanation is required.
	When both a bankruptcy and foreclosure are disclosed on the loan application, or when both appear on
	the credit report, the bankruptcy waiting period may be applied if the borrower provides appropriate
	documentation to verify that the mortgage loan in question was discharged in the bankruptcy. Otherwise,
	the greater of the applicable bankruptcy or foreclosure waiting period must be applied.
	Note: This topic does not apply to deeded Timeshares.
Garnishments	A garnishment occurs when an employer or other asset holder is required to send/ apply borrower A garnishment occurs when an employer or other asset holder is required to send/ apply borrower. This is a fixed by the send of the
	monies, wage, or property directly to a specific debt or creditor. This is often, but not always, brought about by the non-payment of a debt. The underwriter should find out the reason for the garnishment,
	document explanation (in writing or verified via telephone) and continue processing.
	If the borrower has a garnishment, the monthly debt should be included in the total debt ratio.
	Note: Garnishments do not need to be paid off prior to or at close.
Judgements &	Borrower must pay off all delinguent credit—including delinguent taxes, judgments, charged-off
Tax Liens /	accounts, tax liens and mechanics' or materialmen's liens—that have the potential to affect lien position
Public Records	or diminish the borrower's equity.
	Borrowers with previous judgments must provide evidence of payment in full or evidence the judgment
	no longer represents a claim against the borrower.
	Borrower may have overdue tax amounts that have not become a lien yet. Please refer to IRS Tax Installment Plans for additional information.
	 Installment Plans for additional information. The borrower must provide satisfactory written explanation along with any supporting documentation, as
	needed. Refer to the Borrower Letters of Explanation topic in this section for more information.
	 Loan proceeds may be used to pay off judgments or tax liens at closing by the title company; pay off
	must be documented on the Closing Disclosure.
Lawsuits	The fact that there is a lawsuit pending does not mean that the borrower is guilty of the claim. Until the
	court has made a ruling on the case, there is no judgment or lien. However, the type and extent of the
	lawsuit and whether it could impact our first lien position, may increase the risk, therefore the loan should
	be evaluated carefully before rendering a decision.
	A written explanation and a copy of the filed complaint pertaining to the lawsuit are required. Refer to the
	Borrower Letters of Explanation topic in this section for more information. Additional documentation may

	A third party or credit bureau; or
	Verification of mortgage completed by the holder of the mortgage is acceptable
	- On the date of the loan application, the borrower's mortgage payments (first and second) on
	the subject property must be current,
	 On the date of the loan application, the mortgage history must reflect 0 x 30 in the previous
	twelve (12) months. "Rolling" Mortgage late pays are not permitted.
	In case of a recent refinance or account transfer, a combination of payment performance from In case of a recent refinance or account transfer, a combination of payment performance from In case of a recent refinance or account transfer, a combination of payment performance from In case of a recent refinance or account transfer, a combination of payment performance from In case of a recent refinance or account transfer, a combination of payment performance from In case of a recent refinance or account transfer, a combination of payment performance from In case of a recent refinance or account transfer, a combination of payment performance from In case of a recent refinance or account transfer, a combination of payment performance from the combinatio
	multiple Homebridge for the same collateral may be used to complete the twelve-month (12)
	history requirements. - For a recent purchase, a combination of payment performance from a prior property or rental
	payments may be used to complete the twelve-month (12) history. A gap in mortgage/rental
	payment history of up to six (6) months is allowed by obtaining the most recent eighteen-month
	(18) history and providing written documentation explaining the reason for the gap.
	Refer to Forbearance/Repayment Plan topic if borrower(s) have entered into a Payment Deferral Plan
Purchase of a	Allowable Fees and Payments
Pre-Foreclosure	Borrowers may pay additional fees or payments in connection with acquiring a property that is a pre-
or Short Sale	foreclosure or short sale that are typically the responsibility of the seller or another party. Examples of
Property	additional fees or payments include, but are not limited to the following: - Short sale processing (also referred to as short sale negation fees, buyer discount fees, short
	buyer fees);
	 Note: This fee does not represent a common and customer charge and therefore must be
	treated as a sales concession if any portion is reimbursed by an interested party to the
	transaction.
	- Payment to a subordinate lien holder; and
	Payment of delinquent taxes or delinquent HOA fees. The fellowing reports and taxes are the results and the fees.
	The following requirements apply: The harrower (huver) must be provided with written details of the additional face or nowments.
	 The borrower (buyer) must be provided with written details of the additional fees or payments and the additional necessary funds to complete the transaction must be documented.
	The servicer that is agreeing to the pre-foreclosure or short sale must be provided with written
	details of the fees or payments and has the option of renegotiating the payoff amount to
	release its lien.
	 All parties (buyer, seller, and servicer) must provide their written agreement of the final details
	of the transaction which must include the additional fees or payments. This can be
	accomplished by using the "Request for Approval of Short Sale" or "Alternative Request for the
	Approval of Short Sale" forms published by the U.S. Treasury Supplemental Directive 09-09 or any alternative form or addendum.
	The Closing Disclosure must include all fees and payments included in the transaction.
Re-Establishing	Following are the requirements that the borrower must meet to re-establish credit after a significant
Credit	derogatory event.
	Note: After a bankruptcy, foreclosure, deed-in-lieu of foreclosure, pre-foreclosure sale or charge-off of a
	mortgage account, the borrower's credit will be considered re-established if all the following are met.
	The waiting period for the event along with related requirements have been met.
	The borrower has met traditional credit as defined in <u>Credit History</u> and <u>Minimum Trade Lines</u> tenis above.
	topic above. O Non-traditional credit or "thin files" are not permitted.
Restructured	See Cash-Out Refinances and Rate/Term Refinances for more information.
Loans /	Restructured Loan
Modifications	Restructuring a loan is a process where the terms of a mortgage are modified outside the original terms
	of the contract agreed to by Homebridge and borrower. It may involve:
	 A reduction in the interest rate
	- An extension of the length of time for repayment
	 Forgiveness of a portion of the principal and/or interest on either the first or second mortgage; Application of a principal curtailment except as permitted by policy.
	 Application of a principal curtainnent except as permitted by policy. Conversion of any portion of the original mortgage debt to a "soft" subordinate mortgage; or
	 Conversion of any portion of the original mortgage debt to a soft substitute mortgage, or Conversion of any portion of the original mortgage debt from secured to unsecured.
	A different type of loan
	 Any combination of the above
	Modification
	A Modification is a written agreement between a financial institution and a borrower that changes one or
	more terms of an existing mortgage such as:
	- Interest Rate
	 Number of years allowed for repayment Amount of monthly payment
	The goal of the program is to help borrowers who, due to a hardship, are struggling to make their
	mortgage payments.
	· ·

	If the transaction involves the refinancing of a mortgage that has been previously restructured or modified, or if the borrower(s) were obligated on a prior mortgage that was restructured, the borrower(s) are eligible for new financing as long as the following criteria are met: All Transactions:
	 At least 6 months have elapsed since the restructure or modification was completed; and Mortgage history and all other requirements must be met.
Social Security Number	 Mongage ristory and all other requirements must be met. All U.S. Citizens, permanent resident global clients, and non-permanent global clients must have a social security number in order to be eligible for a loan. Homebridge does not permit ITIN numbers.
	Incorrect, Duplicate, and Multiple Numbers:
	 Red flags concerning the social security number are typically revealed on the credit report. Examples of red flags include:
	 Incorrect Number – Information associated with the social security number entered is not available.
	 Duplicate Numbers – Information reveals more than one individual associated with the same social security number.
	 Multiple Numbers – Information reveals an individual has credit listed under another social security number.
	Deceased Borrowers – The person to whom the number was issued has been reported as deceased.
	 If the accuracy of the information is in question, and the underwriter is unable to ascertain the correct number, the loan should be sent to Fraud for research and resolution. All investigations must be complete prior to the loan decision.
	Social Security Number (SSN) Validation Requirements
	 Borrowers must have a valid social security number. Numbers may need to be verified with the Social Security Administration as indicated below:
	 Effective for applications dated on or after June 1, 2010, any SSN issues (including invalid format,
	number not issued, borrower age or issue date discrepancies, number associated with deceased
	individuals, etc.) that cannot be resolved internally, must be validated with the Social Security Administration (SSA) using Form SSA-89 or Electronic Consent Based Social Security Number
	Verifications (eCBSV) service (direct validation by a third party is acceptable). If verification is required
	and obtained it should be noted in the loan file. If verification is required but the SSN cannot be validated
Taynayar	with the SSA, the loan is not eligible.
Taxpayer Identification Theft	 Taxpayer Identification Theft occurs when a taxpayer's social security number has been stolen and then used to file a forged tax return in an attempt to claim a fraudulent refund. This type of theft is most commonly identified by tax transcripts that conflict with the information reported on the tax return, such as inconsistent income or the income on the transcript is significantly different than what is reported on the tax return. It may also be indicated when the IRS has rejected a tax transcript request due to reasons of "not able to process" or "limitation" or with another similar code and not a "no record found" or data mismatch response. The borrower may also provide Homebridge with an IRS victim notification or an extended fraud alert may be reflected on the credit report.
	 IRS Tax Transcript Rejects If the IRS rejects a tax transcript request with reject code 10, IRS reject code 10 due to limitations, or
	IRS reject due to limitations, indicating the borrower may be a victim of taxpayer identification theft, the following steps must be taken:
	 The borrowers must contact the IRS at the number identified on the rejection letter. The borrower must confirm they have no fraud or identity theft.
	The underwriter must review the file to ensure there are no red flags present.
	A LOX from the borrower OR documented rationale from the underwriter must be placed into
	the file confirming the borrower contacted the IRS and no ID theft. - Provided there are no red flags, and the file meets all of the above requirements, the file may
	move forward to approval/close. No further attempts at obtaining transcripts are required.
	Confirmed Identification Theft Once the determination has been made that a horrower is a victim of taxpover identification that an
	 Once the determination has been made that a borrower is a victim of taxpayer identification theft, an exception to the transcript policy is not required if the following documentation is provided:
	 Proof identification theft was reported to and received by the IRS (form 14039), if available; OR
	 Copy of the notification from the IRS notifying the taxpayer of possible identity theft; OR A copy of a police report or proof that the borrower filed a complaint regarding the identity theft
	with the Federal Trade Commission; AND
	Bank statement or copy of check evidencing tax payment made or refund received for that year matches the 1040 amount (required upless the barrower is waiting on their refund due to the matches the 1040 amount (required upless the barrower is waiting on their refund due to the
	matches the 1040 amount (required unless the borrower is waiting on their refund due to the fraud issues); AND
	- Signed 4506-C (required)
	 In addition to providing the above, underwriters should use discretion when assessing income credibility. This could include items such as the prior year tax transcripts or prior year tax return, police report, institutional written VOEs, bank statements supporting payroll deposits or any other documentation deemed supportive, based upon the specific situation. Any red flags raised by additional documentation
	should result in a referral to the Fraud Prevention and Investigation unit.

Unpaid Charge-Offs and Collections

- The unpaid charge-off and/or collection is required to be satisfied as defined below. An explanation from the borrower is required. Refer to Borrower Explanations topic in this section for more information. Proceeds from a cash-out refinance transaction may be used to satisfy the unpaid charge-off and/or collection at closing.
- An account may be paid at closing, for a purchase or rate/term refinance transaction, if all of the following requirements are met:
 - The payoff should be documented on the Closing Disclosure and match documentation in the loan file; and
 - The loan must contain documentation as to why the account(s) could not be satisfied prior to the loan closing; and
 - Under no circumstances may the proceeds of the loan be used to pay the unpaid charge-off or collection account unless the transaction is a cash-out refinance.
- The total balance of all outstanding collections is <\$2,000; or
 - If the total outstanding balance of all collections is >\$2,000, then 5% of the balance of each outstanding collection account for all borrowers must be included in the calculation of the total debt ratio.
 - The charge off has not reached a judgment or lien status; and
 - The borrower has documented evidence of the dispute if it is a disputed account.
- If none of the above criteria are met, then the collection/charge-off must be paid prior to or at loan closing.

Evaluating Borrower Credit Worthiness

- Borrower creditworthiness consists of:
 - Borrower credit reputation, and
 - Borrower ability to repay the Mortgage (i.e., capacity)
- The underwriter must consider layering of risk in their evaluation of credit reputation. A stronger credit reputation may be required if either capacity or collateral is weak.

Credit Reputation

- The underwriter must determine that each borrower individually and collectively have acceptable credit reputations. An acceptable credit reputation is established by a history that, when viewed as a whole, evidences the borrower's willingness to make ongoing payments and ability to manage obligations as agreed.
- When manually underwriting with FICO scores, the underwriter must not use the following factors as
 offsets for weaknesses in the borrower's credit reputation because they have already been considered in
 creating the FICO score:
 - 1. The absence of, or age of, derogatory information
 - 2. The number/proportion of accounts paid as agreed vs. delinquent
 - 3. The types of accounts paid as agreed vs. the types of accounts that are delinquent
 - 4. Recent pay-down or consolidation of account balances
 - 5. The length of the Borrower's credit history
 - 6. Any combination of the above factors
- The underwriter must weigh the following factors to determine if the borrower's credit reputation is acceptable:
 - 1. The type and amount of credit outstanding
 - 2. How the borrower uses available credit, including revolving balance-to-limits
 - 3. Recent changes in the number of open accounts or overall amount of credit outstanding
 - 4. The payment history and status of all accounts
 - 5. Any recent inquiries shown on the credit report
 - 6. Any public record or collection items

Adverse or derogatory credit information:

Although adverse credit in and of itself does not mean the borrower's credit reputation is unacceptable; generally, the more recent the adverse or derogatory credit information the more likely it is significant. The underwriter must consider all of the following:

- The number, timing and extent of the adverse or derogatory credit information
- The number, type and size of accounts with adverse or derogatory credit information
- Public record information, such as judgments and collection accounts
- Other characteristics listed in this section

Derogatory information is considered significant if any of the following exist:

- There are several accounts showing recent late payments
- There are multiple 60- or 90-day late payments
- There is more than one 30-day late housing payment in the last 12 months
- There are more than two 30-day or more than one 60-day late housing payments within the most recent two years
- The number and size of the delinquent accounts are large in relation to the overall credit
- There are multiple episodes of late payments extending over a period time
- The credit history shows derogatory credit information within the two most recent years combined with multiple revolving accounts with high balances-to-limits
- The public record information reveals several occurrences of derogatory credit information, including judgments, tax liens and/or collection accounts
- There is a bankruptcy, foreclosure, short payoff related to a delinquent mortgage obligation or deed-in-lieu of foreclosure within the last several years.

If the underwriter determines the derogatory information is not significant, s/he must provide
documentation support their conclusion in the Mortgage file. If the underwriter decides the derogatory
information is significant, s/he must determine whether the problems were due to extenuating
circumstances or to financial mismanagement.

Capacity

 Another part of determining the borrower's creditworthiness is evaluating the borrower's capacity to repay the Mortgage and other monthly obligations. Based on the analysis, the underwriter must provide a well-reasoned conclusion that the borrower has the ability to meet current obligations, including the new mortgage.

Note: Underwriters should not use information already considered by DE to determine the capacity is acceptable.

- The underwriter must determine capacity by analyzing the following factors:
 - Stable monthly income
 - Monthly housing expense-to-income and monthly debt payment-to-income ratios
 - Reserves and other liquid assets
 - Information about how the Borrower has paid past obligations
- Based on his/her analysis, the Underwriter must provide a written, well-reasoned conclusion that the borrower has the ability to meet current obligations, including the new Mortgage.
- The following characteristics specific to the Mortgage request may introduce an additional layer of risk that must be considered in evaluating capacity:
 - Payoff of a junior lien from the proceeds of a refinance Mortgage
 - Cash-out refinance mortgage
 - Borrower with low or no reserves
- When multiple risk factors are present, more conservative underwriting must be undertaken to assess whether the Mortgage is acceptable. The loan is not acceptable when all of the following conditions exist:
 - The transaction is a cash-out refinance; and
 - The DTI exceeds 42%; and
 - The FICO is less than 700; and
 - The CLTV/HCLTV is greater than 75%

Debt Ratios

- In general, for manually underwritten mortgages, the underwriter must evaluate the borrower's ability to timely pay all of their monthly obligations.
- As a guideline, the monthly debt-to-income ratio should not exceed 36% of the borrower's stable monthly income. With compensating factors, the total debt ratio should not exceed 43%.

Compensating Factors

- Homebridge is committed to ensuring that all of credit decisions are made on a fair and equitable basis
 for all borrowers. The underwriter's role is critical to ensuring that the following compensating factors are
 applied fairly and consistently.
- As a general rule, loan exceptions should not be made unless the underwriter identifies attributes or
 circumstances that proportionately mitigate the incremental risk. These mitigating attributes and
 circumstances are referred to as "compensating factors." Compensating factors are positive loan
 characteristics that add strength to a loan profile. Strong compensating factors may allow a borrower to
 receive mortgage approval for the requested loan amount, even though the loan does not meet
 Homebridge policy and/or lending parameters.
- For compensating factors to be acceptable, they must be reasonably related to the exception, and their
 mitigating value must be proportionate to the incremental risk posed by the exception. Exceptions, by
 their nature, must be infrequent; approval of exceptions must always be preceded by careful evaluation
 to determine whether compensating factors are sufficient to mitigate the incremental risk that results
 from the exception.
- It is the underwriter's responsibility to determine the strength of the loan and the level of risk. The following factors include, but are not limited to, examples of what could be considered in justifying total debt ratios above 36%, but not greater than 43%:
 - Extra reserves above and beyond what is required.
 - Great job stability.
 - Not using variable income.
 - Borrower has probability for increased earnings based on education, job training, or length of time in a profession.
 - Borrower has demonstrated ability to carry a higher total debt-load while maintaining a good credit history for at least 12 months.
 - There is other verified income that is not included within the definition of "stable monthly income", such as documented rent paid by a related person living in the house.
 - Future expenses will be lower, such as child-support payments to cease for child soon to reach age of majority.
 - Verified liquid assets are substantial enough to evidence ability to pay regardless of income.

Comprehensive Risk Assessment

Under the comprehensive risk assessment approach certain key elements—called Primary Risk and Contributory Risk factors—are evaluated to form the overall level of default risk that is present in each mortgage application. By identifying the level of risk for each of these elements and examining how the elements relate, Homebridge can determine the comprehensive risk associated with a mortgage application and make an informed decision about the overall risk level for the mortgage.

- When a loan is manually underwritten, underwriters are expected to thoroughly assess the default risk of the mortgage loan.
- ALL transactions must use the comprehensive risk assessment guidelines outlined in this section.
- Underwriters are responsible for:
 - Evaluating the default risk of each loan;
 - Reviewing the credit report, as well as all credit information, to determine that the credit report meets requirements and that the data evaluated was accurate;
 - Assessing the adequacy of the property as collateral for the mortgage requested.

The following three steps address the levels of a comprehensive risk and instructions for each one.

- <u>Step 1: Assess Primary Risk:</u> Two characteristics form the primary risk of any mortgage application—the combined equity investment and the credit history for all of the borrowers who are applying for the mortgage. These two characteristics are the most significant factors in determining the default risk for any mortgage and establish the foundation of the comprehensive risk of a mortgage.
 - Equity investment in a mortgage is measured by the loan-to-value ratio (or combined loan-to-value ratio, if subordinate financing exists). The underwriter must confirm that the borrower satisfies the minimum cash down payment requirement for the type of mortgage being requested, by using his/her own financial assets (or, if appropriate, other acceptable sources). This is especially important when a borrower is requesting a mortgage that has a higher loan-to-value ratio.
 - Credit history can be defined in several ways. Generally, credit scores are used to assist with the assessment of credit risk in a mortgage application because a credit score objectively evaluates all of the characteristics in a borrower's credit file and enables the underwriter to process mortgage applications more accurately, quickly, and with a greater degree of confidence. However, there may be instances in which the underwriter may not to be able to rely on credit scores, and will need to perform a comprehensive review of each borrower's credit reports. The Underwriter must verify that the documentation in the mortgage file is consistent with the credit report. Note: If the credit history for all borrowers consists only of nontraditional credit sources, then the credit history must be defined as "high primary risk".
- When evaluating Primary Risk factors, the underwriter should assess the combined effect of the borrower's equity investment and credit history so that they can make a more accurate assessment of default risk than could be gained from a separate assessment of each of these factors. Default risk varies significantly among mortgages that have the same combined loan-to-value ratio, depending on the strength of the borrowers' credit profiles.
- <u>Step 2 Assess Contributory Risk</u>: Contributory Risk factors are those risk factors that are not of
 sufficient weight by themselves to use as the basis for reaching an underwriting decision. However,
 when combined with primary risk factors or other contributory risk factors, they either increase or
 decrease the overall risk of the mortgage application.
- The contributory risk factors that have the greatest influence on mortgage loan performance, are:
 - Property Type
 - Occupancy
 - Transaction Type (Purpose)
 - Previous mortgage payment history
 - Prior bankruptcy or foreclosure, and
 - Mortgage term
 - Total debt-to-income ratio
 - Liquid financial reserves
 - Product Type
 - Presence of co-borrowers

Note: Certain contributory risk factors may have a greater influence on the mortgage loan performance than others. However, contributory risk factors only become meaningful when they are considered with other factors

- Step 3 Assess Comprehensive Risk of the Mortgage Loan as a Whole: The underwriter should base their comprehensive risk assessment for a loan on the cumulative effect of the Primary Risk factors and the Contributory Risk factors. The underwriter's comprehensive risk assessment must be expressed in terms of a low, moderate, or high likelihood of a mortgage default. A mortgage that has a high comprehensive risk has a high probability of default.
- The cumulative effect of the layering of risk factors in a mortgage application â" without sufficient offsets to lower the risks â" will increase the risk of mortgage loan default. In addition to reviewing the acceptability of the documentation in the file, the underwriter must assess the comprehensive risk of the mortgage loan before deciding whether to originate.

Documenting the Comprehensive Risk Assessment

- Upon conclusion of the assessment, the underwriter's must document that the loan has acceptable layering of risk. The loan file must at a minimum include:
 - Document the identified risk factors; and
 - Identify and document FICO score and credit related offsets for the risks indicated by the FICO reason codes; for example, if the reason codes indicate nonpayment of obligations, the underwriter may establish that the borrower was unable to meet credit obligations because s/he experienced financial difficulties attributable to the specified extenuating circumstance; and
 - Document the identified offsetting/compensating factors; and

	December of the Manufacture of the factors and
	 Documentation of the offsetting/compensating factors; and A written conclusion that the Mortgage does not exhibit excessive layering of risks
Determining When To Re- Underwrite	 After a loan has been fully approved, if Homebridge becomes aware of any new undisclosed debt, a reduction in income, or a final rate that is higher than the rate the borrower was approved for, the loan must be re-underwritten. For new debts, Homebridge must verify the unpaid balance, the terms of repayment and the payment history (if applicable) by obtaining documentation from the borrower or the creditor. For a reduction in income, Homebridge must obtain updated income documentation. Homebridge must recalculate the debt ratio based on changes that have occurred since the loan was approved and perform a comprehensive risk assessment. A comprehensive risk and eligibility assessment must be performed. As a guideline for manually underwritten loans, monthly debt-to-income ratios that exceed 36% should have strong compensating factors. The final loan application signed by the borrower(s) must include all income and debts that were verified, disclosed or identified prior to closing.
Power of Attorney	 A Power of Attorney is a legal document in which one person (principal) enables another (Attorney in Fact) to act for them. A Power of Attorney is required when documents are signed by an Attorney-in-Fact. There are multiple types of Power of Attorney's (POA) which are legal documents in which one person (the principal) enables another person (the agent) to act as the principal (attorney-in-fact). A General POA grants general authority which may include the sale, mortgaging, etc. of some or all of the principal's real property. A Specific or Limited POA specifies the transaction for which the agent may act and may limit the time in which the transaction can occur. A Uniform UPOA is a standardized form of POA that allows a principal to select any number of authorities to grant to their agent. A certified true copy of the POA form must be retained in the permanent loan file, unless it is a UPOA, in which case a copy (electronic, facsimile, or paper) is retained. In addition, in some states the POA must be recorded along with the Security Instrument and proof of the recordation must also be retained in the permanent loan file. Homebridge must represent and warrant that loans delivered for purchase have been originated and closed in compliance with all applicable state laws and regulations. A specific or limited power of attorney form (dated on, or prior to, the date the note is executed) is required on conventional loans; a general power of attorney form is not acceptable unless permitted by state law. Unless the Power of Attorney being used is a UPOA, a Power of Attorney may not be used for a non-borrowing spouse/dower rights holder/joint owner.
	Limited Power of Attorney (POA)
	A power of attorney may be appointed to sign the closing documents, unless prohibited by law.

	Liabilities			
Debt Payoff / Consolidation	 Pay off of any debts must always be at the initiation and direction of the borrower; Homebridge may not dictate when and what accounts must be paid off. The borrower's history of credit use should be a factor in determining whether the appropriate approach is to include or exclude debt for qualification. As a rule of thumb: Installment loans that are being paid off do not have to be included in the borrower's long-term debt. Payoff of revolving debt to qualify is not permitted. The debt listed on the credit report must be 			
	used to calculate the DTI. If installment debt does not extend beyond 10 months, the Underwriter should review the borrower's debt to ensure that the size and/or number of remaining payments will not impact the borrower's ability to handle the new mortgage payment during the early period of the loan. A Borrower who increases debt and then periodically uses refinance or debt consolidation to reduce payments to a manageable level presents a higher risk and the qualifying ratios should be within guidelines. If all or any portion of the proceeds of the Mortgage is used to pay off or pay down existing debts (installment) in order to qualify for the Mortgage, payoff must be documented in the Mortgage file. Canceled checks, paid receipts and/or a copy of the Closing Disclosure form or other closing statement may be used to document the repayment. When the borrower pays off or pays down an existing debt in order to qualify, the source of funds used must be verified, and meet eligibility requirements for both purchases and refinances.			
Dobt to Income	See <u>Asset Verification Requirements</u> for additional information.			
Debt-to-Income Ratios	 Monthly DTI (debt-to-income) ratio is the sum of the monthly Housing-to-Income (HTI) expense as defined above, plus all of the following, divided by the gross monthly income. 			
	Note : When a mortgage is secured by a second home or an investment property, the monthly principal, interest, taxes, and insurance installment for the mortgage is not considered part of the borrower's monthly housing expense; rather, it is considered one of the borrower's monthly debt obligations.			
	 Payments on revolving debt. Installment debt extending beyond ten months. 			
	Monthly PITIA for second homes and other investment properties that are non-income			
	producing real estate.			
	If rental income is not used to qualify the subject investment property PITIA must be used in calculating the debt ratios. Note: Operating supposes may be determined by calculating 25% of the green restal income.			
	 Note: Operating expenses may be determined by calculating 25% of the gross rental income amount reflected on the Comparable Rent Schedule. 			
	 Current real estate taxes and all monthly insurance premiums for real estate owned that is free of any lien. 			
	- Optional Credit Insurance, if applicable.			
	 Child support, alimony or separate maintenance payments extending beyond ten months. Other consistent, recurring expenses as detailed in the next section. 			
	Other consistent, recurring expenses as detailed in the next section. For each liability, the underwriter must determine the unpaid balance, terms and the borrower's payment.			
	history. Generally, residential mortgage credit reports provide this information. Note: If the subject property is a second home or investment property and the borrower's primary			
	housing expense is zero, Homebridge must verify that the borrower does not have a primary housing payment/debt and document same in the file. Examples include written documentation verifying where the borrower resides indicating the borrower has no housing payment.			
Housing-to- Income Ratio	The monthly housing expense is the sum of the following monthly charges on the Borrower's Primary Residence:			
	 Principal and interest for the mortgage that is secured by the occupant borrower's principal residence; 			
	 Monthly amounts for: 			
	 Any subordinate financing on the subject property (see calculation requirement below), 			
	 Hazard insurance (HO-6 if required for condominiums), Real estate taxes, 			
	Real estate taxes,Mortgage insurance premium;			
	- And when applicable			
	Home owner association dues			
	Optional Credit Insurance			
	 Any owners' association dues (excluding any utility charges that apply to the individual unit), 			
	Leasehold payments (ground rent)			
	Special assessments Magathly Flood Incompany From			
	 Monthly Flood Insurance Fee 			

	Tax Abatements: The monthly real estate tax amount must be included if the abatement expires in 5 years or less. For tax abatements less than 5 yrs, the borrower must be qualified with the annual tax amount that will be required at the end of the expired tax abated year. (If the tax abatement is not recorded on title, evidence of the approved tax abatement must be documented in the loan file.)			
	 The above amounts must be included in the debt ratio and reserve calculation, regardless of whether the amounts must be deposited into an escrow account. 			
	For new construction properties, debt ratios should be calculated using the estimated real estate taxes based upon the completed property improvements, not the unimproved lot taxes. For existing properties, debt ratios should be calculated using the tax amount provided by the current tax bill, Title Commitment, DLS Screen Print or recent appraisal.			
	In the state of California for Purchase transactions and refinance transactions including where the property was purchased within the last 12 months, and taxes have not yet been fully assessed, debt ratios should be calculated using 1.25% of the lesser of the purchase price or appraised value. However, if the underwriter determines that the actual tax rate is less than 1.25%, the actual tax rate may be used to calculate the debt ratios as long as documentation supporting the amount is in the loan file. Conversely, if the actual tax rate is higher than 1.25%, that amount must be used to calculate the debt ratio as well.			
	Payment calculation for subordinate financing:			
	 HELOC - Qualifying payment should be calculated using the fully amortizing principal and interest payment based on Prime + Margin (or 2% if margin is unavailable) + 2%, for the remaining term after the Interest Only period on the maximum line amount. 			
	FRHEL- Qualifying payment is calculated using the principal and interest payment. Pafer to Subardinate Financing for general aligibility requirements.			
Ovelifying Detic	Refer to Subordinate Financing for general eligibility requirements.			
Qualifying Ratio	 Ability to Pay & Credit Worthiness applies to first mortgage Initiative loans Homebridge reviewed prior to close. 			
	Homebridge must have a reasonable belief that the borrower has the ability to repay the loan. Homebridge will not originate or purchase a loan based solely on the value of the real estate collateral. The analysis of a borrower's ability to repay will include appropriate review of income, debts, DTI ratios, disposable income, and credit worthiness.			
Types of Recurring Debt	Homebridge considers any debt the borrower owes to be a liability. Debt is defined as borrowed money, the repayment of which may be either secured or unsecured, with various possible repayment			
	schedules. The following items are examples of recurring debt. It is important to note that the debt may or may not need to be included in the borrower's debt-to-income ratios. Refer to individual topics listed to determine if the debt should be included.			
	 Alimony / Maintenance 			
	Borrowed Funds Against Financial Asset			
	- Bridge Loan			
	- Business Debt			
	 Child Support 			
	- Contingent Liabilities (Paid By Others)			
	 Court Ordered Assignment of Debt 			
	- Deferred Loans			
	- Demand Loans			
	- Installment Loans			
	Leased ObligationsMortgage Assumption			
	- Net Rental Loss			
	Non-Reimbursed Business Expense			
	Overdraft Protection Account

	itore. The recuming debits above must be verified on all purchase and refinance transactions.			

Alimony and	Monthly alimony obligation should be treated as a recurring debt. Acceptable sources of documentation
Maintenance	include a copy of: - All page(s) of the final divorce decree, or
	Signed court order, orProperty settlement, or
	 Separation agreement. If payments are being paid through the court, a letter from the court verifying the dollar amount is
	sufficient.
	 Obligations that will end within the next 10 months do not need to be considered and may be omitted from the DTI ratio only if the remaining term of payments is verified by the above documentation. However, the size and number of remaining payments should not impact the borrower's ability to handle the new mortgage payment during the early period of the loan.
Borrowed Funds Against Financial Asset	• The borrower may take a loan against a liquid asset that is secured by stocks, bonds, or any other investment account, life insurance policies, 401(k) accounts, CDs, or other financial assets. Although information regarding the amount of the loan must be provided, the debt is not generally counted in the borrower's qualifying ratios if the loan instrument shows the asset as collateral for the loan, since the loan may be repaid by liquidating the asset. A financial institution must have made the loan. The borrower may only use assets in the account that exceed the loan balance to satisfy cash reserve requirements.
	 Refer to Borrowed Funds (Assets) for complete information. Payments on installment debts secured by cryptocurrency must be included in the monthly debt ratio.
Bridge Loans	Refer to Borrower Funds (Assets) and Bridge Loans (Assets) for guidelines.
Business Debt	 Homebridge must review the borrower's credit report to evaluate his/her use of revolving credit by comparing the current balance on each open account to the amount of credit that is available to determine whether the borrower has a pattern of using revolving accounts up to (or approaching) the credit limit.
	 The higher the borrower's overall utilization of revolving credit the higher the amount of risk. (Note: The lack of adverse or derogatory credit information may not be used as an offset for high balance-to-limits or high overall utilization of revolving credit.)
Child Support	 Payments of child support are counted as recurring debts. Acceptable sources of documentation include a copy of: Applicable page(s) and signature page of the divorce decree, or
	Property settlement, orSeparation agreement.
	 If payments are being paid through the court, a letter from the court verifying the dollar amount is sufficient.
	 Obligations that will end within the next 10 months do not need to be counted in debt-to-income ratio. However, the size and number of remaining payments should not impact the borrower's ability to handle the new mortgage payment during the early period of the loan.
	 Borrowers with current or previous past due child support must provide evidence that all past due payments are current unless the borrower is making the payments according to a court approved plan. In this case, the borrower must demonstrate that payments are current according to the plan.
Contingent Liabilities: Paid by Others	A contingent liability being paid by others may be excluded from the monthly debt payment ratio when meeting the following requirements: INSTALLMENT DEBT (not including mortgages), REVOLVING, OR MONTHLY LEASE PAYMENT:
	 The most recent 12 months' cancelled checks or bank statements from the party making the payments, There must be no delinquencies in the most recent 12 months, and
	The party making the payments cannot be an interested party to the subject real estate or mortgage transaction
	MORTGAGE PAYMENT OR OTHER PROPERTY RELATED EXPENSES (taxes, insurance, homeowners association dues):
	 The party making the payments must be obligated on the note, The most recent 12 months' cancelled checks or bank statements from the party making the payments, There must be no delinquencies in the most recent 12 months,
	The borrower is not using rental income from the property to quality, and
	 The party making the payments cannot be an interested party to the subject real estate or mortgage transaction. COURT-ORDERED ASSIGNMENT OF DEBT:
	 When a borrower has outstanding debt that was assigned to another party by court order (such as under a divorce decree or separation agreement), regardless of whether the creditor has not released the borrower from liability, Homebridge is not required to count this contingent liability as part of the borrower's recurring debt obligations.
	 Homebridge must document the order with a copy of the appropriate pages from the divorce decree or separation agreement.
	 Note: The above policy for court ordered assignments of debt and property settlement buyouts should never apply to debt secured against the subject property. In these instances, debt must ALWAYS be counted in the debt ratio calculation.

Installment debts with deferred payments include debts on furniture, household items, and automote for which the initial payment is delayed for a period of time as part of a merchant's promotional campaign. For student loans refer to the Student Loans topic later in this section. For deferred installment debts, the payment amount that will be required once the deferment or forbearance period has ended must always be included as part of the borrower's recurring monthly obligations. If the credit report does not indicate a monthly payment at the end of the deferment period, the follo documentation should be requested: A direct verification from the creditor; or A copy of the installment loan agreement obtained from the borrower. A demand loan has no monthly payment; it becomes due and is payable in full on a particular date, type of debt may or may not be secured. If the notice is due within the next 2-years and the borrower does not have adequate rese available to repay the obligation in full, the transaction should be treated as an installment A minimum payment of 5% of the unpaid balance must be included in the debt-to-income ratio. Installment Debt Installment Debt Installment debt is borrowed money that is repaid in several successive payments, usually at regula intervals, for a specific amount and for a specified term (e.g., an automobile or furniture loan). Installment debt is borrowed money that is repaid in several successive payments, usually at regula intervals, for a specific amount and for a specified term (e.g., an automobile or furniture loan). Installment debt is borrowed money that is repaid in several successive payments, usually at regula intervals, for a specific amount and for a specified term (e.g., an automobile or furniture loan). 	Automobile loan payments and automobile lease payments that are included as non-reimbursed Automobile loan payments and automobile lease payments that are included as non-reimbursed. The payments have been payments and automobile lease payments that are included as non-reimbursed.			
	expenses on the tax returns may not be deducted from income. They must be included as recurring debts in the total debt ratio.			
	 If the borrower claims a "standard mileage" deduction, multiply the business miles driven by the depreciation factor for the appropriate year as published by the IRS, and add that figure back to the calculation. 			
	 If the borrower claims an "actual depreciation expense" deduction, the amount the borrower claimed should be added back. 			
	 Refer to www.IRS.gov for depreciation factors. For additional information regarding the treatment of Auto Allowance/Expense Account Reimbursement refer to Allowance/ Expense Account Reimbursement. 			
	Refer to Commission Income for additional information regarding treatment of Commission Income. Note: Non-reimbursed expenses should be deducted from the income that is being used to qualify and should not be considered in the 20% tolerance between the income documentation provided by the borrower and the income documented on the IRS Transcript as discussed in 4506-C requirements.			
Overdraft Protection Account	 Overdraft protection is considered a revolving line of credit (given without the benefit of security) the attached to a checking account. If there is a balance, count a minimum payment in the debt-to-inco ratios. 			
Payroll Deductions	 Any time a payroll deduction appears on the borrower's pay stub, the underwriter must determine if the deduction represents a debt that must be included in the debt ratio. Examples of such debts include, but are not limited to: Credit Union or employer loans, garnishments, child support, etc. 			
	The following information may assist in making the determination:			
	 Reason the debt is being deducted from payroll All guidelines regarding the debt 			
Real Estate Obligations:	 The reserve requirements for the subject property from the <u>LTV Matrix</u> must be applied in addition to the Departure Property policies defined below: Current principal residence is pending sale or up for sale but the transaction will not be closed (with 			
Departure Property	title transfer to a new owner) prior to the new transaction (evidence that property is up for sale or			
	 pending sale is required): The following reserve requirements must be met for all loans: 			
	 If the borrower can qualify with both properties in DTI, count both payments plus two months PITIA reserves for the departure property. 			
	 If the borrower cannot qualify with both properties in DTI: If there is an accepted contract, a minimum of 6 months PITIA reserves on the departure property is required and payment on the departure property does not have to be included in th DTI. 			
	 If there is no contract on the departure property, a minimum of 24 months PITIA reserves for the departure property is required and the payment on the departure property does not have to be included in the DTI. 			
	 The current principal residence is being converted to a second home: The PITIA for the current and proposed mortgage payments must be used to qualify the borrower for the 			
	new mortgage loan; and Minimum of 6 months of PITIA reserves are required for the departure property.			
	 The current principal residence is being converted to an Investment Property: If the borrower qualifies with the PITIA for the departing property and the PITIA for the new proposed mortgage payment, the borrower must have six months PITIA reserves for the departure property in addition to the recognized for the transaction. 			
	 addition to the reserves required for the transaction, To determine if rental income may be used to qualify, equity must be documented with one of the following: 			
	 A current appraisal (2055 or better), minus any liens. The appraisal may not be dated more than 180 days prior to the note date; or 			
	 By comparing the original sales price of the departure property to the current unpaid principal balance. 			
	 If 25% or more equity is in the departure property, 75% of the rental income can be used to calculate rental income. Refer to <u>Calculating Rental Income on Non-Subject Property</u> for complete information, and the following must be obtained: 			
	 A copy of the fully executed lease agreement; and Twelve months of PITIA for the departure property is required in addition to the reserves required for the transaction, and 			
	 If the Borrower does not have a documented two-year history of managing investment property a minimum 760 FICO is required. If less than 25% equity in the departure property, rental income may not be used to qualify: 			
	 Both the current and the proposed mortgage payments must be used to qualify the borrower for the new transaction; and 			
Real Estate	 Minimum reserves of 6 months of PITIA for are required for the departure property. For each mortgage liability where the borrower is currently an obligor on the note secured by real estate 			
	debt, a verification of mortgage must be obtained if the mortgage is not verified on the credit report.			

Verification of Mortgage Debt	Note : If there is a new debt being incurred from a pending purchase transaction, the TIL, GFE, Loan Estimate or other alternative documentation from Homebridge should be obtained to verify the new monthly payment amount.
	 If there are any mortgage interest deductions or payments on the borrower's personal tax returns (if tax returns are in the file) it must be determined if the borrower is obligated on an undisclosed mortgage, and if so, the mortgage must be verified.
	 Real Estate obligations that do not meet the criteria for utilizing rental income as stated in the Rental Income section:
	The PITIA must be included in the debt ratio for qualifying.
Revolving Debt	 Revolving debt is an arrangement for credit in which the borrower is granted a credit limit and can use any amount up to the limit. Repayment is usually at regular intervals but not for a specified amount or term. Credit cards are an example of revolving debt.
	 The following must be included in the debt-to-income ratio: Minimum payment (from statement or credit report); or The greater of 5% of the current balance, or \$10, if no payment is stated on the credit report. If multiple account payments are not reported, and/or the borrower's ratios are at the maximum permitted for the process selected, the underwriter should obtain actual minimum payments
	from the borrower's account statements to qualify the borrower. - Open 30-Day Charge Accounts: On all 30-day accounts, also referred to as open accounts
	(e.g., Diners Club, American Express), the full amount of the outstanding balance must be included in the debt payment ratio, or verification that the borrower has sufficient funds to pay off the outstanding account balance must be provided. The funds must be in addition to any funds needed for cash to close.
	 "<u>Authorized User of Credit</u>" <u>Accounts</u>: Payments on "Authorized User" accounts should always be included in the debt-to-income ratio unless written documentation (i.e. 12 months cancelled checks) is provided proving that the owner of the account is making the payments.
	 Fees Paid Outside of Closing (POC): The applicant may charge the total fees due on a credit card, regardless of the amount. When more than 1% is charged and the borrower does not have sufficient
	liquid funds to cover the charge, then the credit card payment must be re-calculated and the new payment included in the DTI. To recalculate the new POC debt one of the following is required:
	 <u>Credit Card Receipt</u>: Obtain credit card receipt and use 5% of the POC amount in addition to the payment on the credit report for any current
	balance; or ✓ Credit Card Statement with the POC Charge: Obtain a copy of the credit
	card statement showing the amount charged, the outstanding balance and the terms of repayment.
	 Fees POC include lock-in fees, origination fees, commitment fees, credit report fees, and appraisal fees. Borrowers are not required to pay off these credit card charges on or before closing. Under no circumstances may credit card financing be used for the down payment.
Special Assessments	If the property is located in a special assessment district, the locality has the right to assess homeowners for the cost of developing utilities and various infrastructure facilities such as roads, sewers, etc. (e.g., "Mello Roos" school tax.)
	 Any special assessment amounts indicated on the appraisal or in the title work must be included in the borrower's total debt ratio, following the installment loan policy. If the underwriter learns that the special
	assessment district may be having financial difficulties, the underwriter should evaluate the borrower's ability to repay the mortgage in the event additional assessments are imposed. If special assessments are in arrears, documentation must be obtained to show they have been paid, or that sufficient deposits to cover such amounts are being collected.
Student Loans	Repayment of all student loans must be included in the debt-to-income ratio, unless 10 months or fewer payments remain. See Installment Debt section for requirements when not including the payment in the debt to income ratios, if 10 months or fewer payments remain.
	 For deferred student loans, the payment amount that will be required once the deferment or forbearance period has ended must be included as part of the borrower's recurring monthly obligations.
	 The calculations for the payment used for qualification are below. In all cases, an amount greater than zero must be included in the monthly debt payment-to-income ratio for all student loans. Use the greater of the payment showing on the credit report or 1% of the outstanding balance
	of all the loans reported, or When student loan documentation is received, use the monthly payment reflected on the student loan documentation (as long as the payment reflect is greater than \$0) which should
	include all loans showing on the credit bureau (i.e., a copy of the installment loan agreement or the most recent student loan statement). For Income Driven Repayment Plans: If documentation is received in the loan file and
Outhor Hard	shows the payment will increase, the higher payment must be used to qualify.
Subordinate Financing	 Refer to <u>Debt Analysis Topics</u> for qualifying payment calculation. Refer to <u>Subordinate Financing</u> (assets) for restrictions and requirements regarding subordinate
	financing, including those for rate/term and cash out refinances.

Unsecured Loans	 Unsecured loans are personal loans that were given without benefit of security and have the same repayment terms as installment loans. Examples include signature loans, lines of credit on credit cards, and overdraft protection on checking accounts. Payments for unsecured loans must be included in the debt ratios. Note: Unsecured personal loans are not an acceptable source of funds for down payment, closing costs, or reserves.
Verification of Debts	 For each liability, the underwriter must determine the unpaid balance, terms of repayment and borrower's payment history. All disclosed debt must be verified on the credit report or via separate credit verification. If a current liability is not reflected on the credit report, it must be verified via separate credit verification. If a current liability appears on the credit report but is not on the application, the borrower should provide a reasonable explanation for the undisclosed debt Refer to the Borrower Explanations topic for more information. Documentation may be required to support the borrower's explanation. For inquiries on credit reports, refer to Credit Inquiries. Note: Timeshare loans are treated as installment debt. Monthly maintenance fees/HOA fees must be included as a liability.
	Assets
Evaluating Funds to Close	 The underwriter must verify that the borrower has adequate cash to cover down payment, including the earnest money deposit, prepaid/escrow items, closing costs, financing costs if paid by the borrower, and reserves, if required, as per program guidelines. Cash is defined as an asset that is or can readily be converted into cash in a short time frame (a.k.a., a liquid asset). Proof of liquidation is required for non-liquid assets used to pay the above items. When someone other than the borrower is paying any of the items listed above, the file must contain documentation showing the amount being paid and who paid it. If the payments are being made by an interested party to the transaction or funds from premium pricing are used, the transaction must meet the requirements of Interested Party Contributions.
	• This section addresses various closing costs that may be required in the originations of a first mortgage loan and general requirements associated with those costs. A list of acceptable assets that may be used to finance funds to close are listed in <u>Source of Funds</u> section.
At-Closing Principal Curtailments	 At-closing principal curtailments may not be used to make additional down payments or to reduce the loan amount for conventional. In these situations, the borrower will have two options: (1) close the loan "as-is" and make any desired principal curtailments after closing as permitted by the terms of the mortgage documents and subject to any applicable prepayment penalties; or (2) obtain underwriting approval for a loan amount change and, if necessary, redraw the closing package. Exception: Principal Curtailments are only allowed as a result of at closing excess premium rate credits. The amount must be identified on the Closing Disclosure and is limited to the amount of the excess premium rate credit.
	 Rate/Term Refinances: If the borrower receives more cash back than is permitted for a rate/term refinance and it is due to excessive premium rate credits, Homebridge can apply a curtailment to reduce the amount of cash back to the borrower to bring the loan into compliance with the maximum cash-back requirement. The maximum amount of the curtailment cannot exceed the lesser of \$2,500 or 2% of the original loan amount for the subject loan
	 Purchase Transactions: The borrower may not receive additional cash back at closing: Principal Curtailments are only allowed if there are excess premium rate credits. The maximum amount of the curtailment cannot exceed the lesser of \$2,500 or 2% of the original loan amount for the subject loan.
Closing Costs	Closing costs are expenses that are incidental to the sale of real estate, such as loan fees, title fees, appraisal fees, etc. In most instances, closing costs that are paid by someone other than the borrower are considered contributions and subject to contribution limits. Also, any costs that are normally the responsibility of the buyer are considered concessions if the seller pays them or if the seller exceeds the maximum contribution limit. Refer to Minimum Down Payment/Borrower Contribution Requirement topic for additional details.
	 All other forms of payment or gifts related to the acquisition of the property, or to the payment of the financing terms are contributions and subject to our limitations (e.g., origination fees, discount points, commitment fees, appraisal costs, interest shortfall, transfer taxes, stamps, attorneys' fees, surveys, title insurance, fees for the use of a real estate tax service, and credits to the purchaser from any interested party).
	 Pro-rated real estate taxes cannot be considered when determining the funds required for the transaction. Although a pro-rated tax credit from the property seller can offset that portion of the charge for the establishment of the escrow account, the borrower must still verify sufficient funds for down payment, closing costs, prepaids and reserves, including the payment of pro-rated real estate taxes prior to closing. (Example: Borrowers closing costs and prepaids are \$5,000. The seller's portion of the pro- rated real estate tax credit to the borrower is \$2,000. This reduces the borrower's cash to close to \$3,000. The borrower must still verify the entire \$5,000 prior to closing).
	 Pro-rated real estate tax credits cannot be used to meet the borrowers minimum required investment or down payment. Refinance Transactions
	Closing costs may be included in the loan amount.

	Note: "Fee Stacking" above the LTV is not permitted regardless of the product, program or documentation process type selected. This is not to be confused with refinance transactions where closing costs can be rolled into the loan amount. In these instances, the maximum loan amount, including any closing costs, may not exceed the maximum LTV/CLTV/HCLTV permitted for the transaction.			
Down Payment	The greater the down payment the less risk the proposed loan may have. Generally, Homebridge requires the borrower to use their savings or other liquid assets to make a minimum down payment. Note: Pro-rated real estate tax credits cannot be used to meet the borrowers minimum required investment or down payment.			
	Deposit on Sales Contract			
	Refer to Earnest Money topic for specific requirements.			
	Saving Funds to Close			
	 It is acceptable for the borrower to save part of the closing costs between the times of the application and closing provided the amount and time to save before closing is considered reasonable. The borrower must provide a written explanation as to how the funds will be saved and over what period of time. Refer to Borrower Explanations for more information. 			
	• A monthly savings plan worksheet demonstrating how the funds will be saved is required. The worksheet must be included when submitting the file to Underwriting. It is critical that the amount is reasonable with respect to the borrower's previous savings history, the proposed time frame, and current income and expense levels. The underwriter has the final decision with regards to its reasonability. The funds must be held by a disinterested third party, such as a depository institution, escrow company, etc. (this does not include the builder or Realtor). All funds must be saved in accordance with the approved savings plan. The loan must be approved with a condition to verify the funds prior to closing.			
Interest Rate Buydowns	An interest rate buy down is a payment to reduce the interest rate on a permanent or temporary basis. The seller, buyer, another third party, or some combination of these can provide funds.			
	Permanent Rate Buy Downs			
	 Permanent interest rate buy downs are allowed on most transactions. Funds to finance the buy down may be supplied by the borrower, seller, or another third party. If someone other than the borrower the transaction provides the funds is subject to the contribution restrictions. Refer to <u>Interested Party</u> Contributions for additional restrictions. 			
	Note : For all ARM products only the initial rate and the life cap are reduced, not the margin.			
	• Exception: Unplanned permanent buy down points that result from a shift in market interest rates during the period between the date of the sales contract and the date of the loan closing (when the sales contract "locks-in" specific financing terms related to the points that will be paid) are not subject to the contribution restrictions.			
	Temporary Buy Downs			
	Temporary interest rate buy downs are not permitted.			
	Determining the Qualifying Rate			
	Refer to Section Qualifying Rate topic.			
Prepaid Items	Prepaid items such as taxes, insurance, ground rent, etc. are expenses that are paid in advance and usually prorated upon the sale. The following prepaid acttlement costs must be paid by the horsewer:			
	The following prepaid settlement costs must be paid by the borrower: Interest charges covering any period after the settlement date			
	The borrower can use funds received as a gift from a relative to pay the remainder of the closing costs			
	and the prepaid items subject to contributions restrictions.			
	• For refinance transactions, the amount needed to renew or establish the new escrow account can be included in the loan amount in order to pay the expense on the due date. However, there are certain restrictions with regards to payment of taxes in the new loan amount. Refer to the applicable Refinance topics in Transaction Types section for details.			
Воложител	Higher-Priced Mortgage Loans: Not Permitted Page 1999 and application of the property of page 1999 liquid appets a horroway has remaining after the			
Reserves	 Reserves are considered to be the amount of post-close liquid assets a borrower has remaining after the down payment and closing costs have been deducted. One month's reserve is equal to the monthly PITIA payment (based on the qualifying rate) as follows: Principal and interest; 			
	 Hazard, flood, and mortgage insurance premiums (as applicable); Real estate taxes; Ground rent; 			
	- Special assessments;			
	 Any owners' association dues (excluding any utility charges that apply to the individual unit); 			
	 Any subordinate financing payments on mortgages secured by the subject property. (Note: All of the above must be included in the calculation of reserves, even if borrower has waived escrows.) 			
	Acceptable Sources of Reserves			
	Examples of liquid financial assets that can be used for reserves include:			
	Checking or savings accounts,			

- Investments in stocks, bonds, mutual funds, and Other Securities. Refer to Retirement Accounts for verification requirements.
- Certificates of deposit: 100% of value less any early withdrawal penalties that should be deducted;
- Money market funds and trust accounts;
- The amount vested in a retirement savings account,
- The cash value of a vested life insurance policy.
- Stocks

(Refer to Section Source of Funds for additional requirements)

Unacceptable Sources of Reserves

- The following cannot be counted as part of the borrower's reserves:
 - Funds that have not been vested,
 - Funds that cannot be withdrawn under circumstances other than the account owner's retirement, employment termination, or death,
 - Stock held in an unlisted corporation,
 - Non-vested stock options
 - Notes or loans receivable from a privately-held company
 - Unsecured borrowed funds, including unsecured Employer-Assisted Housing benefits
 - Interested party contributions (IPCs)
 - Cash out proceeds

Minimum Reserve Requirements

Refer to LTV Matrix for reserve requirements.

Multiple Properties

Refer to <u>Multiple Properties</u> topic for reserve requirements.

Source of Funds Eligibility

- The accumulation of net worth, particularly in the form of assets, is a strong indication of creditworthiness. A borrower who accumulates net worth solely from earnings and savings demonstrates a strong ability to manage their financial affairs.
- This section addresses the various types/sources of assets that may be used to pay the down payment, closing costs, prepaids, and reserves, if required. It also addresses the documentation required to verify the asset and the principal methods of validating its authenticity.
- The following matrix identifies the various types of assets, the eligibility of the asset, and what the asset can be used for.

Note: Although the asset type listed may indicate it is an eligible source of funds, they may only be eligible when certain limiting conditions are met. Refer to the topic discussion for full details.

	property with another, rather than selling it.				
	A 1031 exchange is an investment property exchange therefore primary residences and second home				
	transactions are not permitted. Homebridge will permit a 1031 tax deferred exchange to be used as the				
	down payment for the purchase of an investment property with the following restrictions:				
	The 1031 exchange is properly documented and is in compliance with Internal Revenue Code				
	Section 1031.				
	 There is no subordinate financing. 				
	 A qualified intermediary must handle the loan closing. A qualified intermediary is an entity 				
	(usually a subsidiary of a title company) who enters into a written agreement with the taxpayer.				
	The qualified intermediary cannot be an agent, attorney, accountant, investment banker or				
	broker. This exchange agreement requires the qualified intermediary to acquire and transfer				
	the relinquished property and to acquire and transfer the replacement property. The				
	relinquished property is the property "sold" and the replacement property is the property				
	"acquired".				
	 Copies of all closing documents—including the 1031 exchange agreement, settlement 				
	statement, and title transfer—and the purchase agreement on the relinquished property must				
	be obtained.				
	Both purchase agreements on the relinquished and replacement properties must contain appropriate language to identify the 1021 evaluage.				
	appropriate language to identify the 1031 exchange.				
	Seller Accommodation				
	If the borrower is purchasing a seller's 1031 investment property to occupy as a primary residence, the				
	borrower is accommodating the seller. Therefore the transaction is not considered a 1031 Tax Deferred				
	Exchange and is eligible for normal financing. The borrower's down payment less the equity from the				
	exchange can be used for all or part of the down payment.				
Annuities	An annuity is an investment vehicle that is typically managed by a life insurance company. Regular or				
	lump sum deposits are put into an annuity and the asset grows tax-deferred until the owner starts taking				
	withdrawals.				
	The amount available for liquidation depends on the owner's age at distribution and whether or not the				
	annuity is in the accumulation phase or distribution phase. The company managing the annuity may also				
	charge various penalties, fees, etc. for withdrawals as well as tax implications.				
	If the annuity is being used as income, it cannot be used for reserves, down payment, etc.				
	The annuity asset may be used for closing costs, down payment and reserves as follows:				
	 70% of the current cash value, less any outstanding loans, should be used to calculate the 				
	amount of funds available; or				
	 100% of the current cash value can be used if it can be verified that the borrower is not subject 				
	to penalties, surrender charges, or taxes.				
	 If the asset is used for closing and/or down payment, proof of liquidation is required. Surrender Charges, 				
	penalties and fees imposed by the managing company as well as any outstanding loans should be				
	deducted from the cash value prior to calculating the amount available for closing. If the asset is being				
	used for reserves only, proof of liquidation does not need to be obtained; however, verification of the				
	asset is still required.				
	A computer generated statement must always be obtained to verify the following:				
	 The name of the company managing the annuity; 				
	 The name of the annuity owner; 				
	 The period covered and the current cash value; 				
	- Outstanding loans; and				
	 Penalties, surrender charges and or fees. 				
Accet					
Asset	Assets must be verified to ensure the borrower has sufficient funds to complete the mortgage transaction and if a price of a degree of the planting the property of the planting the planting the planting the planting the property of the planting				
Verification	and if required, adequate reserves after closing. Assets must be liquid, calculated, and documented.				
Requirements	The Underwriter should review the source of funds for all large deposits made into accounts that will be				
•	used to fund the down payment, closing costs, or to establish required reserves. Refer to the Large				
	Deposit section below for additional information.				
	 When the borrower is required to make a down payment, the source of assets must be seasoned for at 				
	least sixty (60) days before the date of the loan application				
	The two most recent consecutive months' bank statements and/or other documents are required to verify				
	assets to close. Verifications must be no more than 45 days oldt the time of application AND no more				
	than 120 days old at closing for existing or new construction.				
	The most recent statement date should be used to determine the documentation expiration date. (E.g.				
	May and April statements required. The May statement would be used to determine the document				
	expiration date.) Quarterly asset statements must be dated within 90 days of the initial loan application.				
	The underwriter should also make certain that qualifying assets used from the quarterly statement are				
	not counted twice (e.g., funds from the quarterly asset account transferred to a more recent/current				
	verified account).				
	Documentation Methods				
	Account Statements: Copies of bank statements or investment portfolio statements that cover activity in the harmonic account of the most recent reference to account statement that				
	the borrower's account(s) and, if applicable, copies of the most recent retirement account statement that				
	is available, which may be obtained directly from the borrower. The statements must:				

- Clearly identify the borrower as the account holder;
- Include at least the last four digits of the account number;
- Include the time period covered by the statement/printout;
- Include all deposits and withdrawals transactions (for depository accounts);
- Include all purchase and sale transactions (for financial portfolio accounts); and
- Include the ending account balance.
- Internet Downloads: Documents that are faxed or downloaded from the Internet must clearly identify the name of the institution and the source of information...for example, by including that information in the Internet or fax banner at the top of the document.
- <u>Letters</u>: A letter statement is usually generated when an attorney or trustee, insurance company, or employer manages the asset. The most frequent types of accounts that make use of letter statements include: trust funds for the benefit of the customer, cash value of life insurance, present value of an annuity or current value of a 401k.
- <u>Printouts</u>: Printouts obtained from a depository institution are acceptable. However, if the printouts do not
 contain all the information that is found on account statements (e.g., bank name, logo, account number,
 etc.). The printouts are only acceptable if they are signed and dated by a representative of the deposit
 institution.
- <u>Faxed Documents</u>: If Homebridge has not viewed or copied the original documents directly, the source
 of the information should be verified via telephone with the borrower's financial institution. The
 documents must clearly identify the institution and the source of the information must be included in the
 "fax" banner that is at the top of the document.
- <u>E-Mail</u>: If Homebridge has not viewed or copied the original documents directly, verify the source of the information via telephone.
- <u>Third-Party Verification Service Providers</u>: The borrower must provide the proper authorization for Homebridge to use this verification method. The verification must contain the same information and meet the same requirements as reflected on a Verification of Deposit or Account Statements as noted above.
 If any required information is missing, additional documentation to supplement the third-party verification must be obtained. Eligible asset types include:

Asset Types Eligible for Validation	Eligible for Third Party Verification Service
Checking, Savings	X
CD	X
Money Market	X
Stock	X
Mutual Funds	X
Retirement Accounts	X

Note: Truncated asset account numbers for bank and portfolio or investments accounts are permitted. At least the last four digits must be displayed on the loan application and on the asset documentation including verification reports.

- Regardless of the type of verification used to provide information, the documents must be complete, legible, and free of any alterations, erasures, "whiteouts", or similar indications that changes have been made.
- The verification source must come from the borrower's bank depository, investment account, or other
 financial institution as applicable. The underwriter is responsible for the integrity and accuracy and
 should use good judgment in determining when the use of alternative documentation is appropriate for
 the loan transaction.

Large Deposits/New Accounts

- For both refinance and purchase transactions deposits into accounts may be an indication of recently
 opened liabilities resulting from borrowed funds or an indication that funds used to cover closing costs,
 pre-paids, the down payment for purchase transactions, or reserves may be from an unacceptable
 source. Any liabilities resulting from borrowed funds must be considered when qualifying the borrower. A
 large deposit may be from cryptocurrency that was exchanged into U.S. dollars. Homebridge must
 obtain sufficient documentation to verify the funds originated from the borrower's cryptocurrency
 account.
- Refinance Transactions:
 - Except as specified below, documentation or explanation for large deposits is not required; however, any liabilities resulting from all borrowed funds must be considered when qualifying the borrower.
 - When the borrower pays off or pays down an existing debt in order to qualify, the source of funds used must be verified. If the funds verified include a large deposit as defined above, the source of that deposit must be verified, unless the borrower has sufficient funds to pay off/down the debt without the large deposit.
- <u>Purchase Transactions</u>: The Source of funds must be explained and documented if the deposit is needed to meet requirements for Borrower's cash to close and or reserves for the following:
 - A single deposit on the account statements that exceeds 50% of the total monthly qualifying income. If the source of a large deposit is readily identifiable on the account statement where the source of the deposit is printed on the statement, the underwriter does not need to obtain further explanation or documentation. If the source of the deposit is printed on the statement, but the Underwriter still has questions as to whether the funds may have been borrowed, the underwriter should obtain additional documentation.

Note: When a single deposit includes both verified and unverified funds as defined above, only the unverified funds are used to determine the 50% requirement. (Example: The borrower has a monthly income of \$4,000 and an account at ABC Bank with a balance of \$20,000. A deposit of \$3,000 is identified, but only \$2,500 is documented as coming from the borrower's federal income tax refund, leaving \$500 unverified [the deposit of \$3,000 minus \$2,500], which is 12.5% of the borrower's \$4,000 monthly income, falling short of the 50% definition of a large deposit. Therefore, in this example the full \$20,000 can be used to qualify.)

- The Underwriter should review the source of funds for all large deposits made into accounts that will be used to fund the down payment, closing costs, establishing required reserves, or if a borrower is paying off or paying down an existing debt to qualify. The purpose of this review is to determine if any deposits demonstrate the existence of debt that may not have been captured on the borrower's credit report or application or if the funds may have been acquired from an unacceptable source.
- If the large deposit is from another account belonging to the borrower, that account must also be verified to ensure that the funds into the account were properly sourced and in compliance with this Policy. To source a large deposit from another account belonging to the borrower, the complete one month's statement from the source account must be obtained for the month the withdrawal of the funds occurred. This does not change the number of months that are required per the documentation process.
- If the large deposit is from another account being verified for the loan, that account must also be verified after the withdrawal to assure that the funds are not counted twice.

Borrowed Funds

- Borrowed funds include subordinate financing secured by real estate owned by the borrower as well as any monies borrowed from other sources, obtained for the specific intention of paying the down payment and/or closing costs.
- For subordinate financing secured by the subject property refer to Subordinate Financing (assets)
- Borrowed funds that are secured by an asset represent a return of equity. Therefore, they may be used for the transaction.

Note: Unsecured loans are not permitted. Refer to Unsecured Loans (liabilities) section.

- Assets that may be used to secure funds include personal financial assets, personal property assets, or real estate and must meet the requirements as outlined below.
- Personal financial assets such as 401k's, certificates of deposit, stocks, bonds, life insurance policies, etc:
 - Funds must not be borrowed from the broker, developer, real estate professional, or a lender who is otherwise connected with the subject transaction.
 - The loan secured by the financial asset must have been made by a financial institution.
 - The underwriter must verify the value and ownership of the secured asset, the terms of the loan and the fact that it is a secured loan.
 - Payments for loans secured by the borrower's personal financial assets in which repayment may be accomplished by liquidating the asset, do not have to be included in the debt ratio calculations if the loan instrument shows the asset as collateral for the loan.
 - The borrower may not use the same asset to satisfy cash reserve requirements. However, they may use the portion of the asset remaining after the value of the asset plus any related fees have been reduced by the amount of the secured loan.
 - Evidence of receipt of the loan proceeds must be obtained.
 - Refer to Borrowed Funds Against Financial Assets (Liabilities)
- Personal property assets such as automobiles, artwork, etc:
 - Funds must not be borrowed from the broker, developer, real estate professional, or a lender who is otherwise connected with the subject transaction.
 - The loan secured by the personal property must have been made by a financial institution.
 - The underwriter must verify the value and ownership of the secured asset.
 - The terms of the loan and evidence that the loan is secured by the personal property must be verified and the monthly payments for the loan must be considered as debt when qualifying the borrower. When the loan does not require monthly payments, the lender should calculate an equivalent amount and consider it as debt.
 - Evidence of receipt of the loan proceeds must be obtained.
- Funds from a loan secured by Real Estate owned by the borrower, other than the subject property, amy be used.
 - Funds must not be borrowed from the broker, developer or real estate professional who is otherwise connected with the subject transaction.
 - The debt must be included as a liability on the application and the monthly payments for the loan must be considered as debt when qualifying the borrower.
 - The HUD-1/Closing Disclosure evidencing receipt of the loan proceeds must be obtained. Refer to Subordinate Financing (assets) and Bridge Loans (assets) for additional information.
- The above applies to primary residences, second homes and investment properties.

The gift can be provided by the following:		
		The gift can be provided by the following:

	- Relative, which is defined as a borrower's spouse, child, or other dependent, or an individual who is related by blood, legal proceedings, marriage or adoption; or - Fiancé, fiancée, civil union, or domestic partner - Former relative, Godparent, or relative of a domestic partner. - A trust, established by an acceptable donor as indicated above. • If gift funds are coming from outside of the U.S., refer to the Foreign Assets topic above for additional information. Acceptable Sources of Gift Funds • Large financial gifts from close family members can be considered if properly documented. Substantial cash gifts (\$1000 or more) from one individual must comply with standard gift documentation. • Gift funds may come from the following sources. - Wedding Gifts: The following documentation must be obtained to verify funds: - A copy of a marriage license or certificate, and - Verification that gift funds were deposited within 90 days of the date of the marriage license or certificate. - Graduation Gifts: The following documentation must be obtained to verify funds: - Evidence of graduation from an educational institution, such as diploma or transcripts that supports the date of graduation, and - Verification that gift funds were deposited within 90 days of the date of the graduation. - Funds Pooled From a Relative or Domestic Partner residing with the Borrower: Can not be used to meet the borrower's minimum required down payment. However, funds from a relative or domestic partner may be used as outlined in the above gift policy. - Gift of Equity: Not permitted. - The dollar amount of the gift, the date the funds were transferred ("At Closing" if funds to be sent directly to closing agent), the donor's name, address, telephone number, his/her relationship to the borrower. - Indicate that funds are a gift that does not have to be repaid. Verification of Funds • The transfer of the gift funds to the borr
Olf of Family	 Funds transferred using a third-party money transfer application or service are acceptable only when the documentation evidences that the funds were transferred using the application or service directly from the donor's bank account to the borrower's bank account or to the settlement or closing agent.
Gift of Equity Ineligible Source of Funds	Not Permitted The following sources of funds may not be used in the calculation of assets: Borrowed Funds from the following sources: Signature Loans Lines of Credit on Credit Cards Overdraft Protection on Checking Accounts Cash-on-Hand Cash advances from a credit card or other revolving account. Community Assistance or Down Payment Assistance Programs Corporate Sponsored Loans Cryptocurrency Disaster Relief Grant or Loan Employer Assisted Housing (Secured & Unsecured) Funds from Individual Development Accounts (IDA) Gift of equity & wedding gifts. Gifts which must be repaid in full or partially. Gift/Grant from Non-Profit
	 Individual Development Account (IDA) (Including funds from an IDA) Lender Paid Assistance

Non-Traditional Savings Plan

Pledged Assets

	Pooled Funds
	Proceeds from unsecured loans or personal loans (except as permitted with an approed Employer-
	Assisted Housing program.)
	Salary / bonus advances received against future earnings
	Seller Carrybacks
	Seller Derived Assistance Programs
	Subordinate Financing which contains any of the following:
	 Negative Amortization
	Contains special Servicing requirements
	 Terms that restrict prepayments or provide for a prepayment penalty, except as indicated in
	Subordinate Financing
	 Does not fully amortize under a level monthly payment plan when the maturity or balloon
	payment date is less than five years after the note date of the new first mortgage.
	 Sweat Equity (includes donated goods and/or materials): Contribution to the construction or rehabilitation
	of a property in the form of labor or services rather than cash is considered sweat equity. Sweat equity
	may not be deducted from the construction costs, nor may it be used to offset the borrower's minimum
	down payment.
	Trade Equity
Inheritance	An inheritance, if appropriately documented, can serve as the borrower's down payment. The borrower
	must provide a copy of the will or a letter from the Trustee detailing the distribution of the estate.
	Borrower's receipt of funds must be verified prior to closing. Because the inheritance is considered the
	borrower's money, funds can be used for the borrower's minimum down payment.
	Gift letter policy does not apply.
Interested Party	 Interested Party Contributions (IPCs) are funds provided by someone other than the borrower(s) to pay
Contribution	costs associated with obtaining a mortgage that are normally the responsibility of the property purchaser.
Contribution	They may be paid by the seller, Homebridge, or by any other third party who has an interest in the
	property sale or purchase transaction.
	 IPCs are defined as Financing Concessions or Sales Concessions, as discussed later in this section. Interested Parties
	An interested party is defined as anyone other than the borrower who has a financial interest in, or can influence the terms and calculation of the property including the property called the building the property called t
	influence the terms and sale or transfer of, the property including: the property seller, builder/ developer,
	real estate agent, or broker (or an affiliate who may benefit from the sale of the property and/or the sale
	of the property at the highest possible price). A relative, domestic partner, fiancé, fiancée, municipality,
	non-profit organization, or employer is not considered an interested party unless s/he is the property
	seller or is affiliated with the property seller.
	Homebridge is not considered an interested party unless it is the property seller, or is affiliated with the
	property seller or another interested party to the sales transaction. An affiliation exists if there is direct
	common ownership or control by Homebridge over the interested party or vice versa or if there is direct
	common ownership or control by a third party over both Homebridge and the interested party. A
	relationship between a builder and a lender that serves as its financial institution is not an affiliation.
	Appraisal Requirements
	 Appraisers must be provided with information relating to all interested party contributions for the subject
	property granted by anyone associated with the transaction, including both financing and sales
	concessions that have been, or will be, granted. The appraiser must also be provided with information
	associated with a permanent interest rate buy down funded through a standby commitment provided by
	Homebridge or the builder.
	Positive adjustments for sales or financing concessions are not acceptable.
	File Document Requirements
	When there is an IPC in a transaction, all loan and sales contract documents, including the sales
	contract, Loan Estimate (LE), the loan application, appraisal report and Closing Disclosure must include
	or address all financing arrangements that have been negotiated between the buyers and sellers.
	Items That Are Subject to IPC Limits
	Financing Concessions are IPCs that are payments or credits related to acquiring the property or paying
	for financing terms (including prepaids). Financing concessions are items that are subject to IPC limits.
	- Origination fees, Discount points, Commitment fees
	- Cost for Interest Rate Shortfalls
	- Appraisal Costs
	- Transfer taxes
	- Stamps
	- Attorney fees
	- Survey charges
	Title insurance premiums or charges
	- Real estate tax service fees
	 Real estate taxes covering any period after the settlement date.
	 Funds to subsidize a permanent interest rate buy down. Permanent buy down points may be
	charged up to the lesser of the maximum permitted under state law or Homebridge Initiatives,
	as applicable. If the buy down subsidy was included in a standby commitment taken out by the
	originating lender, the buy down subsidy and the discount points being charged for the bought
	down rate must be included in the IPC limit calculation.
	25 m. sate mass so message in the mass and an adjustment

- Funds that flow from an interested party to a non-profit and then to the buyer for payment of closing costs. These plans may not be used for to fund down payment or reserves.
- Prepaid items:
 - Interim interest charges (limited to no more than 30 days of interest)
 - Escrow Fees (may not be paid by Homebridge)
 - Real estate taxes covering any period after the settlement date (if the taxes are being escrowed by the servicer for future payments)
 - Hazard* insurance premiums (limited to no more than 14 months); and
 - Initial or renewal mortgage insurance premiums and any escrows required for renewal of borrower-purchased mortgage insurance coverage.
 - Homeowner association (HOA) dues covering any period after the closing date (limited to no more than 12 months);
 - *Includes flood insurance, where applicable.
- Lender Paid Assistance programs where Homebridge is the property seller or is affiliated with the
 property seller or another interested party to the sales transaction.
- Fees for standby commitments that a builder obtains for blanket coverage before it enters into a contract
 with a borrower are contributions, but they are not subject to limitations because they are not attributable
 to the specific mortgage transaction.
- Items paid by the property seller that are the responsibility of the seller—such as real estate sales commissions, charges for pest inspections, deed release fees, or costs that the property seller is required to pay under state or local law—are not contributions. This includes pro-rated real estate tax credits provided by the seller at closing in those jurisdictions in which property taxes are paid in arrears. This credit represents property tax amounts assessed but not yet due and payable, for the period when the seller still owned the property, and it is not considered to be a contribution.
- Pro-rated real estate taxes cannot be considered when determining the funds required for the transaction. Although a pro-rated tax credit from the property seller can offset that portion of the charge for the establishment of the escrow account, the borrower must still verify sufficient funds for down payment, closing costs, prepaids and reserves, including the payment of pro-rated real estate taxes prior to closing. (Example: Borrowers closing costs and prepaids are \$5,000. The seller's portion of the pro-rated real estate tax credit to the borrower is \$2,000. This reduces the borrower's cash to close to \$3,000. The borrower must still verify the entire \$5,000 prior to closing). Pro-rated real estate tax credits cannot be used to meet the borrowers minimum required investment or down payment.

Items Not Subject to IPC Limits

- Buyer-broker fees paid by the seller as part of the real estate sales commission, as long as the commission being paid is typical of the commission usually paid in that real estate market.
- Gift funds received from a donor that complies with gift policy.
- Gifts or grants from a non-profit that do not obtain funding from the seller or any other interested party to the transaction.
- Funds Homebridge provides for closing costs and borrower prepaid fees as long as Homebridge is not the property seller or affiliated with an interested party to the transaction. Refer to Homebridge Paid Assistance topic below for further information.
- Sales Concessions

IPC Contribution Limits

- IPC contribution limits are based on occupancy type. They are measured using the lesser of the sales price and appraised value. The contribution limits are as follows:
- Loan Process & Products:

Occupancy	Maximum Contribution
Primary Residence & Second Home	6%
Investment Property	2%

 The total dollar amount of the Financing Concessions may not exceed the actual total dollar amount of the allowable closing costs.

Items Not Permitted as IPCs

- Contributions may not be used to meet the borrower's down payment or minimum borrower contribution requirements, or to meet reserve requirements for the transaction.
- Payment Abatements. Monthly payment abatements to pay for or reimburse the borrower for payments of principal, interest, taxes, insurance, and more than 12 months of homeowner association fees for units in condominium or PUD projects are not permitted, regardless of whether they are disclosed on the Closing Disclosure. This applies to transactions where the interested party is directly funding the abatement and/or if the funding for the abatement is flowing through another entity, such as a non-profit down payment assistance program (DAP). Note: The payment of HOA fees is not considered abatement unless the payment of the fee extends for more than 12 months. The payment of HOA fees for 12 months or less is considered an interested party contribution.
- <u>Undisclosed IPCs</u>, including "Silent" second mortgages held by the property seller. Seller contributions
 that are not disclosed on the Closing Disclosure are often given to homebuyers outside of loan closing.
 These undisclosed contributions tend to reduce the effective sales price of a property, and may
 compromise the loan-to-value ratio for a mortgage. Consequently, a mortgage with undisclosed seller
 contributions is not eligible for origination or purchase.

Sales Concessions

- IPCs that exceed allowable Financing Concession limits are considered Sales Concessions. In addition to contributions that exceed those limits, additional inducements may come in the form of cash or personal property such as furniture, automobiles, securities, and/or other "giveaways" granted by any interested party to the transaction. Often they are used as an incentive to the buyer and may or may not be disclosed on the Closing Disclosure. Other inducements to purchase that are not disclosed on the Closing Disclosure are not permitted. The cost of items that are in the form of personal property (i.e., furniture, decorator items, automobiles, or other "giveaways") are also considered Sales Concessions.
- Sales Concessions are not subject to IPC contribution limits, but their value must always be deducted
 from the sales price of the property. For underwriting purposes, the sales price must be reduced to
 reflect the amount of all Sales Concessions. The LTV ratio should then be calculated based on the
 lesser of the reduced sales price or the appraised value.
- Sales Concessions include, but are not limited to:
 - Payment of various fees on the borrower's behalf that are not considered allowable Financing Concessions
 - Pre-foreclosure or short sale processing fees that are charged to the borrower (also referred to as short sale negotiation fees, buyer discount fees, short sale buyer fees, etc) must be treated as a sales concession if any portion is reimbursed by the seller or an interested party to the transaction.
 - Financing Concessions that exceed allowable IPC Financing Concession limits, or that exceed the dollar amount of actual costs
 - Cash
 - Furniture
 - Automobiles
 - Decorator allowances
 - Repair allowances*
 - Moving expenses
 - * Money received for repairs will not be considered contributions provided the property is new
 construction, repairs are complete prior to close, or if funds have been escrowed for work to be
 completed. Note: Escrows for repairs on existing properties are not permitted.
- For underwriting purposes, the value of Sales Concessions must be deducted from the sales price. The LTV and CLTV ratios should then be calculated based on the lesser of the reduced sales price or the appraised value.

Lender Contributions

- Homebridge may provide the borrower with a contribution to fund borrower paid closing costs and prepaid fees in the following cases:
 - Homebridge credit is derived from premium pricing. Refer to <u>At-Closing Principal Curtailments</u> for details.
 - The funds are sourced directly from lender with no expectation for repayment or financial obligation apart from the subject mortgage. Funds passed to Homebridge from a third party for the purpose of providing a lender credit are not eligible as a lender contribution.
- The amount of Homebridge contribution cannot exceed the amount of the borrower-paid closing costs and prepaid fees and may not be used to fund any portion of the down payment or reserve requirements.

Lender Incentives for Borrowers

- Cash or Cash-like Incentives for all Transactions Types: Homebridge may provide the borrower with a cash or cash-like incentive (e.g., a gift card) that is not reflected on the Closing Disclosure provided that the amount of the incentive does not exceed \$500, and no repayment is required.
- These types of lender incentives are not considered IPCs and, as a result, are not included in the IPC limit calculation. Furthermore, these incentives are not considered cash out to the borrower and do not have to be included in the cash back to borrower at closing calculation.

Land Equity

- If the property is new construction with end loan permanent financing, the equity in the land can be credited towards the borrower's minimum down payment requirements. (Borrower must own the lot/land.)
- The loan-to-value ratio should be based on the lesser of documented acquisition cost or the appraised value of the property at the time the end-loan is closed. If the conversion is treated as a refinance transaction, the loan-to-value ratio will be based on the current appraised value of the property.
- To determine the amount of equity in the lot, use one of the following:
 - If the borrower acquired the lot more than 12 months before the date of the mortgage application—or if the borrower acquired the lot at any time as gift or inheritance—the value of the lot will be its current appraised value.
 - If the borrower acquired the lot 12 or fewer months before the date of the mortgage application, the value of the lot will be the lesser of its sales price or its current appraised value.
- A 2075 Inspection will not provide a land value so if the borrower needs land equity to meet down
 payment requirements a full appraisal is required.

Lease-to-Own / Rent with Option to Buy

If the borrower is currently renting the subject property under a lease option contract, the portion of the monthly rent payment that exceeds the market rent can be applied to the down payment if there is a valid rental/purchase agreement in effect. The borrowers minimum cash down payment does not have to come from the borrowers own funds in order to receive the credit.

	Example: If fair market rent is \$500 per month and the borrower is paying \$600 per month, \$100 for each month the borrower has rented can be credited towards the down payment.
	 A copy of the rental/purchase agreement, verifying monthly rent and the specific terms of the lease is required;
	 The original term may not be less than 12 months and the total credit due to the borrower must not exceed the amount specified in the contract; The appraiser must develop the market rent; and
	 The appraiser must develop the market rent; and Copies of canceled checks or money order receipts for the last 12 months are required to document rent payments.
Lender Paid Assistance	 Lender-Paid Assistance (LPA), which is financial assistance in the form of a non-repayable credit provided by a lender that is to be applied toward the borrower's closing costs only, may not be used to make any part of the borrower's down payment, meet financial reserve requirements or meet minimum
	borrower contributions. Additionally, Lender-Paid Assistance is not subject to the Interested Party Contributions (IPC) limitations as long as Homebridge is not the property seller or affiliated with an
	interested party to the transaction.
Life Insurance	 Lender-paid assistance may not be used as a source of funds. The amount available for liquidation should be calculated using 100% of the cash/surrender value, less
Net Cash Value	any outstanding loans or fees. If asset is required for closing proof of liquidation is required, regardless of the Documentation Process. Proof must be verified by the following:
	Computer generated statement identifying the life insurance company
	Identify the policy owner. Policy owner must be a borrower. Full dates the period expected and the current cook for realized.
	 Evidence the period covered and the current cash/surrender value Identify any outstanding loans and deduct them from the cash value/surrender value.
Loan Repayment	 In order to be considered eligible cash asset, funds received by the borrower from the repayment of a
Proceeds	personal loan s/he extended requires the following: A copy of the written agreement between the borrower and the recipient of the loan.
	 Verification that the borrower had the ability to lend the funds (cancelled check or bank
	statement showing withdrawal of funds).
	 Verification that repayment was made (evidence of funds withdrawn from the recipient's
	account) and proceeds deposited into the borrower's account prior to scheduling the close.
Margin Loan	 There are times when the borrower does not want to liquidate their stocks. Although it can be for a number of reasons, it is often because it's not financially advantageous at that particular time. The borrower may use funds received from a margin loan secured by their stock portfolio to pay down payment and closing costs.
	 Margin loans typically do not have a monthly payment therefore it is generally not included in the debt ratios. Repayment of the loan does not have to be considered.
Pledged Assets	 The Dual Collateral Down Payment Option (a.k.a., pledged assets) permits the borrower to pledge marketable securities in their brokerage account (or a combination of marketable securities and cash) in lieu of a traditional down payment. The loan is secured by a first mortgage on the subject property and a third party securities account pledged to Homebridge. Note: The Pledged Assets Program is not permitted.
Pooled Funds	
Proceeds from	
Sale of Home	 The proceeds from the sale of a currently owned home are a common and acceptable source for the down payment and closing costs on a new house.
Sale of Home	 Funds escrowed at the time of contract/agreement and verified as paid may be considered as earnest money. If the contract calls for an additional deposit to be made within a certain period of time, an
	 escrow letter verifying the date and payment of the additional funds is required. Remaining Down Payment: The Closing Disclosure or Seller's Closing Disclosure from the sale of the
	home showing sufficient net cash proceeds to consummate the purchase of the new home should be obtained before, or simultaneously with, the closing on the new home. (Note: The Closing Disclosure or Seller's Closing Disclosure does not need to be executed; however, it must reflect sufficient funds to
	complete the required funds needed to cover required costs.) Photocopies of sales contracts or listing agreements may not be used as an alternative form of verification.
	Calculating Proceeds
	• If the borrower's current home is listed for sale—but has not yet been sold—s/he can be qualified on the basis of the anticipated equity. The following formula should be used to determine the amount of equity a
	borrower has in the house that is being sold: - (Sales Price* x 90%) - all Mortgage Balances = Equity
	 *If the sales price has not yet been established, the listing price should be used.
	 Funds for down payment, closing costs, and reserves (if applicable) may come from an equity advance or buyout from the borrower's employer.
Retirement	Funds from an individual retirement account (IRA/Keogh) and/or an employer sponsored tax-favored retirement account (404k) the vected helpes less any outstanding leave account by the
Accounts	retirement savings account (401k), the vested balance less any outstanding loans secured by the
	account may be used for the down payment, closing costs, and reserves provided the borrower has access to the fund(s). The underwriter must verify the ownership of the account and confirm that the
	access to the rund(s). The underwriter must verify the ownership of the account and commit that the account is vested and allows withdrawals regardless of current employment status. However, because
	there are severe penalties for early withdrawal (before retirement age), only the net value, after any
	withdrawal and/or tax penalties are deducted, may be considered.
	Retirement Accounts must be verified by the following:

	 Most recent two months statements (For 401k accounts the statements must reflect the vested
	balance or percentage of vesting, any outstanding loans, the ending balance of the account
	and terms of withdrawals/loans. If the 401k account is used for reserves the terms of the
	retirement plan must show that the borrower is vested and that the plan will allow withdrawals
	regardless of the current employment status)
	 Any outstanding loans must be subtracted prior to determining the vested balance;
	If the assets are required for closing, proof of liquidation is required.
Sale of Assets	Proceeds received from the sale of the borrower's personal assets may be considered as long as the
	borrower can provide evidence that s/he:
	Owned the asset, for all asset types that are titled assets, for example automobile title;
	 Has documentation to support the value of the asset, as determined by an independent source, if the proceeds represent more than 50% of the total monthly income used in gualifying. The
	lesser of the estimated value (as determined by the independent source) or actual sales price
	must be used when determining the amount of funds for the transaction. For example, a
	borrower plans to sell their vehicle. The value as determined by an independent source is
	\$10,000; the sales price of the vehicle is \$12,000. Only \$10,000 can be added to the
	borrower's available funds, even if the sale has already occurred.
	 Can prove the transfer of ownership (a copy of a bill of sale or a statement from the purchaser);
	and
	 Provides the receipt of the purchase proceeds (deposit slips or bank statement)
U.S. Savings	US Savings/Government Bonds must be verified by the following:
Bonds	 A statement from a financial institution or the loan originator confirming review of the actual
	bonds and listing the serial numbers, date of maturity, type, amount and verifying that the
	borrower is the owner;
	- Proof of value from the U.S. Treasury Table;
	Evidence of liquidation if the assets are required for closing.
0.11	For any other bonds or securities, refer to Stocks & Other Securities.
Seller Derived	Seller Derived Assistance is when the seller, or any other person or entity that is reimbursed directly or indirectly by the seller or any other person or entity that is reimbursed directly or indirectly by the seller or any other person or entity that is reimbursed directly or indirectly by the seller of the seller o
Assistance	indirectly by the seller, or any other person or entity providing financing benefits from the transaction.
Program	Funds from Seller Derived Assistance programs are not permitted. The standard of the sta
Stocks & Other	The net value of the stock (which includes mutual fund or other publicly traded security, restricted stock and many value of the stock (which includes mutual fund or other publicly traded security, restricted stock and many value of the stock (which is calculated uping 4.00%) of the support restricts and the stock (which is calculated uping 4.00%).
Securities	and non-vested stock), should be calculated using 100% of the current market rate. Value is established
	using a current statement from the stockbroker, a photocopy of the stock certificate, accompanied by a dated newspaper, or Internet stock list. (Because value is difficult to establish Homebridge does not
	accept securities that are not publicly traded.) If assets are liquidated, the actual amount of documented
	liquidated assets may be used.
	Note: Non-vested stock options and non-vested restricted stock options are not eligible for use as
	reserves.
	Pledged stocks and/or bonds used as loan security or to offset a margin account are not considered
	liquid assets.
	The broker statement is an investor's account of all transactions and asset values within a set period.
	They list dividends received, interest earned or due, assets purchased and sold, and the value of assets
	owned during the period.
	Stocks/Securities statements must identify the following:
	The institution or administrator
	- The account owner
	- The account number
	 All transactions, the period covered, any outstanding loans and the ending balance For securities accounts, identify the stocks/securities
	 For securities accounts, identify the stocks/securities If the assets are needed for closing, proof of liquidation is required
	If there is a margin account secured by stock/securities, the borrower's total assets must be
	reduced by the margin account's outstanding balance amount, plus any overdrawn amount.
	If the borrower does not receive a statement, the following must be provided:
	- Protocopy of the stock certificate that identifies the ownership of the stocks by the borrower,
	 Photocopy of the stock certificate that identifies the ownership of the stocks by the borrower, number of shares/units owned, and identification numbers of the stock certificate, type, and
	number of shares/units owned, and identification numbers of the stock certificate, type, and entity name

Funds from subordinate financing may be used for a variety of reasons, including: Supplementing the down payment

- If the loan is secured by the subject property, subordinate financing and LTV parameters for the first
 mortgage must be enforced. Any lien against the subject property other than the first mortgage must be
 acceptable to Homebridge, clearly subordinated to the first mortgage lien, and properly recorded. The
 monthly payment on the subordinate lien should be included with the PITIA on the subject property, if
 applicable, when calculating the monthly housing ratio.
 - **Note**: This also includes business loans, such as those provided by the Small Business Administration (SBA) unless the borrower can meet the Business Debt requirements. If funds are from a subordinate lien that is secured by another property, Homebridge need not be concerned with the type of financing or combined LTV parameters, but must include the monthly payment in the back-end qualifying ratio.
- Underwriter must review the terms of the note and the security instrument for the subordinate financing to make sure the terms are acceptable.

The subordinate financing must provide for the following:

- Regular payments of principal and interest, OR regular payments of interest only so that negative amortization does not occur.
- If the repayment terms provide for a variable interest rate, the monthly payment must remain constant for each 12-month period over the term of the subordinate lien mortgage.
- Interest rate should be at market rate.
- If the subordinate lien contains a maturity date or balloon or call provision within the five-year period after the note date of the first lien, it must be fully amortizing under a level monthly payment. (May be less than 5 years if the subordinate debt is minimal in comparison to the borrower's financial assets and/or credit profile. E.g., borrower's financial situation supports ability to pay off or refinance within the balloon period.)
- Be recorded and subordinate to the first mortgage lien, unless the financing is an unsecured loan from the borrower's employer.

Subordinate financing may not have the following:

- Negative amortization
- Have special Servicing requirements
- Terms that restrict prepayments or provide for a prepayment penalty, except as indicated above
- Does not fully amortize under a level monthly payment plan when the maturity or balloon payment date is less than five years after the note date of the new first mortgage

Documentation Requirements

- For purchase transactions, and refinance transactions where subordinate financing is originated concurrently with the first mortgage (either new subordinate financing or refinance of an existing subordinate lien), all the following subordinate financing documentation must be included in the loan file as applicable for each loan:
 - Note or other evidence of subordinate lien terms; and
 - Closing Disclosure or other closing statement; and
 - For HELOCs, the HELOC agreement indicating all fees and costs paid by the borrower at closing, and the maximum permitted credit advance.
- For refinance transactions, if an existing subordinate lien is not paid off, it must be re-subordinated to the
 new first lien, and a copy of the recorded subordination agreement must be maintained in the loan file.
 The note or other evidence of subordinate lien terms must be included in the loan file, so terms can be
 appropriately disclosed as indicated below.

Disclosure Requirements

Homebridge must disclose the existence of subordinate financing and the terms of repayment (including
note rate, repayment terms, and the institution or individual providing the financing) to the appraiser, the
mortgage insurer and the investor. Homebridge may not indicate to the appraiser a value or loan-tovalue needed to support the transaction.

Maximum Combined Loan Amount

 There are no restrictions on the combined loan amount. The first mortgage transaction must meet LTV/CLTV/HCLTV and loan amount guidelines for the program selected. Note: This includes business loans, such as those provided by the Small Business Administration (SBA).

Calculations

- <u>CLTV</u>: Calculate the CLTV by adding the first mortgage loan amount plus the current balances of all subordinate financing, divided by the lower of the appraised value or purchase price.
- HCLTV: Calculate the HCLTV by adding the first mortgage loan amount, plus the total amount of all
 subordinate financing, including the entire available home equity line amount, divided by the lower of
 appraised value or purchase price. If the HELOC has been modified, a copy of the modification
 agreement must be obtained in order for the lower, modified total line amount to be used in the HCLTV
 calculation. The amount on the modification agreement and the subordination agreement should also
 match

Minimum Down Payment Requirements: The minimum down payment requirement for a transaction is based on the CLTV, not the HCLTV, so if the CLTV is 80%, a 10% down payment would be required, regardless of what the HCLTV is. Note: Borrowers must use their own funds to meet the minimum borrower down payment or contribution requirement for the loan transaction.

Note: Subordinate financing may be paid off or paid down by the title company at closing; the amount paid off/down must be shown on the HUD-1/Closing Disclosure. Additional evidence of payoff/pay down is not required.

Trade Equity	Trade equity is equity that results from a property purchaser giving his/her existing real property as all or part of the down payment for the property that is being purchased. Trade equity is not ellowed.
Trust Accounts	 Trade equity is not allowed. Funds from a Trust may be used with a copy of the Trust Agreement or a letter from the Trustee confirming the following information: Identify the trustee's name, address, and telephone number. The trustee must be an
	independent third party that would typically handle trust accounts. - Identify the borrower as the beneficiary.
	 Verify that the borrower has access to all or a specific amount of the funds. Verify that the funds are available for disbursement to the borrower. Proof that funds have been received is required if assets from the trust are being used for
	closing.
	Employment and Income
Evaluating Employment and Income	 Employment and income are essential ingredients to successful home ownership. Qualifying income should be stable, predictable, and likely to continue. The borrower must demonstrate the financial wherewithal to repay the proposed real estate transaction as well as other obligations.
	 Sources of income may vary. Some receive primary income from only one source while others receive income from several different sources. Income documents must NOT be more than 120 days old at the time of closing for existing and new construction.
	The actual calculation used to determine the qualifying income must be documented in every loan file.
	Acceptable sources of income include:
	 Wage Earner Income: All non-self-employed borrowers who receive a W-2 at year end to summarize total earnings includes hourly, weekly, biweekly, part-time, seasonal, bonus, commission, and tips/gratuity.
	- <u>Self-Employed</u> : Sole Proprietorship, Partnership, Corporations, and S-Corporations.
	 Non-Employed Income: Alimony/ Maintenance/Child Support/Separate Maintenance, Foster Care, Unemployment/Welfare/ADC, Disability/Worker's Compensation, Retirement/Pension, Social Security, Annuity, IRA, Military/VA Benefits, Trust, Interest & Dividend, Inheritance/Guaranteed Income, Note Receivables, Mortgage Differential/ COLA, and Rental.
	Note: Income that is paid to the borrower in cryptocurrency may not be used for qualification.
	 Income from sources other than the ones addressed in this chapter may be considered provided the borrower has received the income for at least 2 years and documentation supports that it will continue for at least 3 years.
	Income Analysis
	 All sources of income that are used to qualify the borrower must be verified. However, while there may be income streams that are not used to qualify the borrower (and therefore not verified), they must be considered in the overall evaluation of the borrower's credit worthiness.
4506-C	Filing the 4506-C
Requirements	 A 4506-Cis required for the two most recent tax years on all transactions. The timing of 4506-C varies depending on the application date, disbursement date of the mortgage loan and when the borrower filed his/her tax returns. The 4506-C is based on the "most recent year's" tax return defined as the last tax filing.
	For wage earners, if the 4506-C confirms "No Transcripts Available", an additional 4506-C is not required for the same or a previous year.
	 Processing the 4506-C All Borrowers whose income is used to qualify for the loan transaction must sign form 4506-C at closing,
	regardless of income type – salary, self-employed, social security, etc.
	 An additional 4506-C must also be signed prior to or at closing for each business tax return in the loan file that was used to calculate qualifying income (resulting in either a gain or loss); however it does not need to be processed and transcripts are not required for the business(s).
	If the underwriter identifies red flags when reviewing documentation in the loan file, a signed 4506-C should be obtained and processed prior to final approval.
	Note: If the 4506-C is processed and transcripts from the IRS are received as part of the underwriting process, a signed 4506-C is not required to be in the loan file.
	It is imperative that the 4506-C be completed accurately and legibly to avoid delays and errors. The top portion of the 4506-C must be completed exactly as the borrowers filed their last tax return. Any 4506-C that is submitted with incomplete, inaccurate or illegible taxpayer information will be rejected. Alternative forms such as the 8821, 4506, or 4506-T are not permitted. The state of the transfer of
	Evaluating the 4506-C:
	If the underwriter identifies red flags when reviewing documentation in the loan file, a signed 4506-C should be obtained and processed prior to final approval. When follows in the control is a signed 4506-C and the description of the control is a signed 4506-C. When follows is a signed 4506-C and the description of the control is a signed 4506-C. The control is a signed 4506-C and the control is a signed 4506-C and the control is a signed 4506-C. The control is a signed 4506-C and the contro
	 When federal income tax information is used to document income for qualifying purposes, the transcripts of the applicable federal income tax documents may be obtained. For example, Tax Return Transcripts for Form 1040, 1040A or 1040EZ or Wage and Income Transcripts for W2s; however, in certain

instances, copies of the actual returns, schedules, or forms are needed because the tax return transcripts will not provide the detail required to qualify the borrower. For example, copies of Schedules B through F, Schedule K-1, Form 2106, or business returns would have to be obtained. These schedules or forms are not required if:

- The income reflected on the applicable schedule transcripts is positive; and
- The income supported by that schedule or form is not being used for qualifying.
- If the income documentation provided by the borrower is = 20% greater than the income documented on the IRS transcript, the Underwriter should perform an in-depth review to determine if the increase in income seems reasonable and if additional steps need to be taken. At a minimum a letter from the borrower explaining the difference must be obtained and retained in the loan file. Refer to Borrower Letters of Explanation for more information. Additional documentation to support the explanation/increase should also be requested if necessary. Information reported on the tax transcripts should match information reported on the tax returns provided by the borrower. Note: All other current guidelines for analysis must also be followed.

Important: Underwriter rationale for any variance per the above guidelines should be thoroughly documented.

Taxpayer First Act

The use of the 4506-C (Request for Transcript of Tax Return, effective 9/2020) conforms with the Taxpayer First Act which permits taxpayers to designate return information recipients and generally prohibits the recipients from using the tax return information for a purpose other than the purpose for which the consent was granted.

Future Income

- If the borrower is scheduled to begin employment after the loan closes, their Future Income may be considered as qualifying income following the guidelines below.
- Examples of this type of scenario are teachers whose contracts begin with the new school year, physicians beginning a residency or an employee relocating for a new job.
- Future income is limited to loans that meet the following criteria:
 - Purchase transaction
 - Primary residence or 2nd home occupancy
 - The borrower is not employed by a family member or by an interested party to the transaction.
 - Borrowers must document a minimum 2 year work / student history.
 - Start date of employment must be within 90 days of the note date.
- The following documentation must be obtained:
 - An offer letter or contract for future employment that meets all of the following:
 - Clearly identifies the employer and the borrower, is signed by the employer, and is accepted and signed by the borrower
 - Clearly identifies the terms of employment, including position, type and rate of pay, and borrower's start date
 - Is non-contingent. Note: If conditions of employment exist, all conditions of employment must be satisfied either by verbal verification or written documentation prior to closing. This confirmation must be documented in the mortgage loan file.
 - In addition to the funds required for the transaction, the borrower must have verified sufficient reserves to cover all monthly liabilities (the subject PITIA payment and all monthly liabilities included in the DTI) for 3 months.

Note: A verbal verification is not required as the borrower will begin employment after closing.

Employment Stability

A 2-year employment history must be reflected on the application. The purpose of reviewing employment
history is to assure that the borrower has a history of receiving stable income from employment (and
other sources) and that there is reasonable expectation that the income will continue to be received in
the foreseeable future. If documentation indicates that the income will end within the next 3 years the
income should not be used to qualify.

Frequent Job Changes

- Frequent employment changes within the same line of work while continuing to advance in income or benefits is acceptable. Income stability takes precedence over job stability.
- However, there may be occasions that warrant a closer examination of employment and income.
 Example: Frequent changes in employment for reasons other than advancement (e.g., changing careers) or extended periods of unemployment may be indicative of an unsteady work history and income.
- Borrowers with questionable employment histories must have financial strengths in order to be considered for maximum financing. Negative comments received from an employer may or may not be reason to decline the application, but circumstances must be investigated thoroughly before doing so.
- Borrowers who work in certain industries may experience frequent job changes due to the nature of the
 work (e.g., seasonal or unskilled labor). In these instances borrowers should not be penalized provided
 they have demonstrated the ability to maintain a steady income and the changes have not affected the
 borrower's ability to pay their obligations.

Note: Often due to the nature of the work, LMI borrowers may change jobs frequently and still be able to demonstrate the ability to earn consistent and predictable income. In these instances, emphasize the continuous flow of income.

Borrowers who have held the same position during their entire tenure should not be penalized. However, their potential for future increases may need to be taken into consideration in determining the type of mortgage that best meets their needs. Re-entering the Workforce A borrower's income may be considered effective and stable when recently returning to work after an extended absence if s/he: Is employed in their current job for six months or longer; and Can document a two-year work history prior to an absence from employment using: Traditional employment verifications; and/or W-2s or paystubs. Note: An acceptable employment situation includes individuals who took several years off from employment to raise children, then returned to the workforce. Situations not meeting the criteria listed above may not be used in qualifying. Extended absence is defined as six months. **Newly Employed** Borrowers who are newly employed and have an employment and income history that covers less than the 2 most recent years may be eligible for a mortgage loan as long as the borrower was attending school, in a training program related to the new position, or in the military immediately prior to their current employment. Supporting evidence such as College transcripts or discharge papers are required to verify. Note: When the borrower has less than a two-year history of receiving income, the underwriter must also provide a written analysis to justify the determination that the income used to qualify the borrower is The borrower should have a history of generating steady income for at least 2 years and it must be likely **Income Adequacy** to continue at the level used to qualify for at least the next 3 years. Stable monthly qualifying income and Continuance must be: Recurring; Received regularly: Received in cash (includes check, wire-transfer, etc.) and paid tax on the income as evidenced by a U.S. tax return; Reasonable based on the source. Note: The determination of income stability and continuance for all sources is based on the required documentation as defined in this chapter, and any other documentation contained in the file. The underwriter should focus on the borrower's past employment/ self-employment history, the history of receipt of other income, and the probability of continued consistent receipt of the income used to qualify the borrower. For each income source used to qualify, the underwriter must determine that both the source and the amount of income are stable. For all eligible income types, the underwriter may consider the income as long as s/he does not have any knowledge, information or documentation that contradicts a reasonable expectation of continuance or probability of consistent receipt for the next 3 years. While sources of income may vary, the borrower should have a consistent level of income despite changes in the sources of income. Other sources of income, such as certain types of disability benefits that do not have defined expiration dates may also be considered provided the documentation indicates the income type. If the income falls into that category and it does not have a defined expiration date, the underwriter may conclude that the income is stable, predictable, and likely to continue. In these instances, request for additional documentation from the borrower is not required. Significant Increases or Decreases in Income Level If the borrower has experienced a significant decrease in income, income should not be averaged using a previous higher level unless the decrease was due to a documented one-time occurrence that impacted the income level for a period of time, and the borrower's income level has returned to the amount they previously earned. If the borrower has experienced a significant increase in income, the underwriter must obtain sufficient documentation to determine that the increase was not due to a one-time occurrence, and that the income used to qualify is stable and likely to continue at the level to be used for qualifying. The focus of the underwriter's analysis should be on the qualifying income that is most likely to be received for the next 3 years. If the borrower has multiple sources of income, refer to each income type for documentation requirements. Income derived from any of the following may not be used in calculating qualifying income. Unacceptable Any income derived from transactions in or related to the sale or production of marijuana, hemp or any Sources of Income cannabis products or derivatives, such as CBD products. Any income that cannot be documented and verified Capital withdrawals

Draw Income

Gifts, including Gift of Equity

Illegal Income/Income not listed on Tax Returns

	Income from Foreign / Non-U.S. Sources
	Retirement assets used as qualifying income
	Room/boarder rent
	Trade Equity
	Trailing Co-Borrower
	Any income derived from owning or controlling a VASP (Virtual Asset Service Provider), as defined in
	the VASP standard.
	Income that is paid in cryptocurrency
Evaluating Non-	If the borrower intends to use income from other non-employed/non-self-employed sources to qualify,
Employment	the income may be considered stable to the extent that it is consistent and it is likely to continue for the
Income	next 3 years based on the documentation received and the following:
	 There is no evidence from the employer that the income will no longer be received; and
	 It is determined that the income is likely to continue based on an established earnings trend.
	 If the trend is stable or increasing, income can be averaged over the two year period.
	 If the trend was declining but has since stabilized and there is no reason to believe
	that the borrower will not continue to receive the income at the current level, the
	current, but lower stabilized amount must be used.
	 If the trend is declining, the income may not be stable and additional analysis must be
	performed to determine if the income should be used. Income should not be
	averaged over the period of decline.
	Note: Income that is paid to the borrower in cryptocurrency may not be used for qualification.
	Factors that should be considered in determining the likelihood of consistent payments include, but are
	not limited to the following:
	 Whether the payments are received pursuant to a written agreement, court decree, or law; The length of time the payments have been received;
	 The length of time the payments have been received; Eligibility criteria governing the continued receipt of the income, such as age of dependents or
	accumulation of assets.
	The purpose of this section is to address the various types of other non-employed income that may be
	used to qualify the borrower, the documentation used to verify the source and the principle methods of
	validating its authenticity. The Documentation Process used to process the loan will determine if income
	must be verified and what income documentation is required.
	As always, additional documentation may be requested if deemed necessary by the underwriter.
	Note: The determination of income stability and its continuance for all sources is based on the required
	documentation as defined in this section. Unless there is evidence that the income will no longer be
	received, the underwriter should assume that it will continue. Other sources of income, such as certain
	types of disability benefits that do not have defined expiration dates may also be considered provided
	the documentation indicates the income type. If the income falls into that category and it does not have a
	defined expiration date, the underwriter may conclude that the income is stable, predictable, and likely to
	continue. In these instances, request for additional documentation from the borrower is not required.
Alimony /	Alimony/Separate Maintenance/Spousal Support can be considered a stable source of income provided
Separate	the borrower has received the income for at least 6 months and the income will continue for at least 3
Maintenance	years.
	Alimony / Separate Maintenance/Spousal Support may be non-taxable. See the <u>Tax Exempt/Non-Taxable Income</u> guidelines for additional information.
	Taxable Income guidelines for additional information. Documentation Requirements:
	Deposit slips and/or bank statements/cancelled checks, court records, or tax returns evidence regular
	deposit of the funds covering 6 consecutive months; and
	 Final divorce decree, legal separation agreement, or court order evidencing amount, frequence, and 3
	years continuance
Annuity	Annuity income is similar to pension and Social Security income except that it may not be payable for
	life.
	Documentation Requirements:
	Copy of the most recent updated annuity renewal statement showing the effective date, amount,
	frequency, and 3 years continuance.
Auto Allowance /	Auto and expense account reimbursement are paid by the employer to cover expenses incurred related
Expense	to conducting business. Homebridge will consider using a portion of this income to qualify if the borrower
Account	has a 1-year history of receiving it and it can be reasonably expected to continue for 3-years.
Reimbursement	If the borrower reports automobile expenses on Form 2106 or personal tax returns, schedule C: The amount of the oute allowance that exceeds the amount of monthly expenses is added to
	 The amount of the auto allowance that exceeds the amount of monthly expenses is added to the monthly income; or
	 The amount of the expenses that exceeds the allowance should be included in the borrower's
	total monthly obligations.
	Note : If the borrower uses IRS Form 2106 with "actual expenses" instead of the "standard mileage rate,"
	Homebridge must look at the "actual expenses" section to identify the borrower's actual lease payments,
	and then make the appropriate adjustments.
	If the borrower does not report the allowance on either Form 2106 or Schedule C:
	 The full amount of the allowance should be added to the borrower's monthly income; and
	The full amount of the lease or monthly payment for the automobile must be added to the
	borrower's total monthly obligations and included in the total debt to income ratio.

	Typically, auto allowance and expense account reimbursements are included with the W-2 earnings; therefore it is very important to make certain the income is not included twice. Refer to Employee Business Expenses (2106) in 1508.5-Employment & Income/ Tax Returns for additional information.
	Documentation Requirements:
	Most recent pay stubs covering past 30 days; and
	2 years most recent W-2s; or
	 2 years most recent tax returns with all Schedules when auto allowances and/or expenses are reported on IRS Form 2106 or Schedule C.
Boarder Income	Boarder income may not be used to qualify.
Capital Gains / Losses	 If a capital gain/loss appears to be a one-time occurrence, it does not have to be considered when calculating available income. However, gains/losses that are recurring may be considered. For example, an asset sold during the year might be income producing and could result in a reduction of future income. If income from this source represents a substantial portion of the borrower's income, review the tax returns along with the Schedule D and average it over 2-years. If earnings are consistent, a 2-year average will suffice. However, if income fluctuates substantially, a 3-year average will be necessary. Capital gain income should only be considered if there is evidence of sufficient assets remaining after closing to support continuance of the income, at the level used for qualifying, for at least the next 3 years. Exercising Stock Options
	 Although not typically used as qualifying income, stock options may be considered as qualifying income on occasion if the loan warrants. Only profits received from exercised stock options may be considered. The borrower must have a verified history of receiving income from executed stock options for at least 2- years and the likelihood of its continuance must be verified. Documentation Requirements:
	 2 years most recent tax returns with Schedule D and W-2s or 1099's; and Proof of ownership of the asset (e.g., statements) evidencing sufficient value to support the continuance of capital gains; and
	 It is determined that the income is likely to continue based on an established earnings trend. If the trend is stable or increasing, income can be averaged over the two year period. If the trend was declining but has since stabilized and there is no reason to believe that the borrower will not continue to receive the income at the current level, the current, but lower stabilized amount must be used. If the trend is declining, the income may not be stable and additional analysis must be performed to determine if the income should be used. Income should not be averaged over the period of decline.
Child Support	 Note: Assets may not be in the form of cryptocurrency. Child support can be considered a stable source of income provided the borrower has received the income for at least 6 months and the income will continue for at least 3 years.
	Child support is non-taxable and can be grossed up. Follow the <u>Tax Exempt/Non-Taxable Income</u> guidelines in this section for applicable adjustments.
	Documentation Requirements: 6 months court records, deposits slips, bank statements or cancelled checks evidencing regular deposit of the funds; and
	 Proof of ages of the children for which the child support is received; and Final divorce decree, legal separation agreement or court order evidencing amount, frequency and 3 years continuance
Disability – Workers Compensation	Disability and workers compensation varies and must be verified by obtaining a copy of the borrowers' disability policy or benefits statement. A statement from the insurance company or employer must confirm the borrowers' current eligibility for the disability benefit must also be obtained. If the benefits have an expiration date, the remaining term must continue at least 3 years from the date of the mortgage application. Generally, long term disability will not have a defined expiration date and may be considered to have a reasonable expectation of continuance. The requirement for re-evaluation is not considered an expiration date. If the payments will not continue for at least 3 years, refer to the Temporary Leave Income topic in this
	 If the payments will not continue for at least 3 years, refer to the Temporary Leave Income topic in this section for additional guidance. If the borrower is currently receiving short-term disability payments that will convert to long-term benefits
	within the next three years, the borrower must be qualified on the lesser amount of either the long-term or short-term disability payments.
	 Disability and/or workers compensation benefits must be stable and expected to continue for at least 3 years. Non-taxable benefits can be grossed up provided it is verified as non-taxable. Note: When the income is verified to be non-taxable, and its tax exempt status is determined likely to continue, the underwriter must develop an "adjusted gross income" for the borrower if the additional income is needed to qualify for the product, program or loan amount applied for. The previous year's tax rate must be used to calculate grossed up percentage. If the borrower was not required to file a tax return or they didn't have any tax liability on their tax return, a 25% tax rate must be used in the calculation. Refer to the Tax-Exempt Income/ Non-Taxable Income topic in this section for documentation requirements that must be obtained to determine if a particular source of income is non-taxable. Documentation Requirements:
	Documentation Requirements:

	Copy of Disability policy or Benefits Statement
	A statement from the benefits' payer (insurance company, employer, or other qualified and disinterested
	third party) confirming the borrower's current eligibility
	2-months deposit slips and/or bank statements/cancelled checks evidencing regular deposit.
Foster Care	Foster care income is received from a state-or county-sponsored organization for the temporary care of
	one or more children. This income may be considered provided the borrower has a 2-year history of
	providing foster-care services under a recognized program, and is likely to continue for the next 3 years
	at a level that supports the amount of income needed for qualifying for the mortgage.
	Documentation Requirements:
	Letters from the organization providing the income showing a 2 year payment history; and
	2 years most recent personal tax returns; or
	24-months deposit slips or bank statements/cancelled checks confirming regular deposit of the
	payments.
Gambling	 Funds are usually considered as a lump sum distribution and therefore not considered income. However
Winnings	if the borrower is a professional gambler and the earnings are from his/her self-employed business the
	income may be used for qualifying. The income must be documented and analyzed per the requirements
	outlined in <u>Self Employed Income</u> section.
	Lottery winners will be considered on a case-by-case basis.
	Documentation Requirements:
	2 years most recent tax returns with all Schedules
Gift Income	Not Permitted
Inheritance and	Ongoing income received from inheritance or other guaranteed sources—such as prize earnings, or
Other	lottery winnings—may be used to qualify provided it can be verified that the income is regular and
Guaranteed	recurring. Typically, the borrower should have a documented history of receiving it for at least 2-years
Income	and verify that it will continue for at least 3 more years.
	A copy of the award letter confirming the amount, frequency, duration of payments, and evidence of
	receipt for the previous 2 years is required. Borrowers who do not have a 2-year history of receiving the
	income may still be considered contingent upon the terms of the payout. Example: The income is
	guaranteed to continue for the next 20 years but the borrower has only received one
	payment/installment.
	Documentation Requirements:
	Copy of Award letter confirming amount, frequency, and duration of payments; and
	2 years most recent tax returns with all Schedules.
Interest and	Interest and dividend income are reported on personal tax returns, Schedule B.
Dividends	 In order for interest or dividend income to be used as qualifying income the borrower must have a 2-year
	history of receiving the interest or dividend income and the income must be expected to continue for the
	next 3 years. The assets from which the interest and dividend income was earned must also be verified
	via most recent bank statements. Any taxable interest or dividend income that is not recurring must not
	be used to qualify.
	Average interest and dividend income received for the last 2 years to calculate the qualifying income. If finds are used for the days payment and eleging costs, the years of the specific plants.
	funds are used for the down payment and closing costs, the value of the assets should be reduced
	accordingly and the interest and dividends recalculated based on the reduced value.
	Documentation Requirements:
	 Documentation Requirements: 2 years most recent tax returns with Schedule B; and
	Documentation Requirements: 2 years most recent tax returns with Schedule B; and Two month's asset account statements showing sufficient assets available to continue generating
	Documentation Requirements: 2 years most recent tax returns with Schedule B; and Two month's asset account statements showing sufficient assets available to continue generating dividends and interest after closing; and

K-1 Cash Distributions If the Schedule K-1 reflects a stable history of receiving cash distributions of income from the business consistent with the level of business income being used to qualify, the Schedule K-1 income may be used to qualify, no additional documentation of access to the income or adequate liquidity is required.

	Evidence that the borrower has access to the income such as partnership agreement or corporate receiving confirming access to the income such as partnership agreement or corporate receiving a partnership agreement o
	 resolution confirming access to the income. Evidence that the business has adequate liquidity to support the withdrawal of the earnings. The underwriter needs to determine what documentation is acceptable to determine that the business has the capacity to continue making cash distributions at the level of business income being used to qualify. Schedule K-1 Guaranteed Payments to Partner
	If the borrower has a 2 year history of receiving "guaranteed payments" from a partnership or an LLC,
	 the payments can be used to qualify. Note: If the borrower has less than a 2 year history of receiving "guaranteed payments" it may only be used to qualify IF the borrower has recently acquired a minimal ownership in a professional services partnership (i.e., medical practice or law firm) after having an established employment history with the partnership. The borrower's partnership agreement and evidence of year-to-date income must also be obtained.
	Documentation Requirements:
	 2 years most recent tax returns with Schedule E; and 2 years most recent Schedule K-1.
	Verification of the existence of the business is required as outlined in the <u>Verifying the Existence of the Business</u> topic
Military Benefits	 Military personnel may be entitled to different types of pay in addition to their base pay. The following may be considered stable income provided there is documentation verifying the income will continue for at least 3 years.
	- Flight Pay
	Hazardous Duty PayRations
	Clothing Allowance (usually paid yearly)Housing Allowances
	Education benefits may not be used to calculate qualifying income.
	Obtain a copy of the borrower's last Leave and Earnings Statement (LES) to verify allotments, allowances, estimated time in service, and the amount of net and gross pay. Also, obtain and verify the
	following information from the borrower's latest Leave and Earnings Statement (LES):
	Military RankSocial Security Number
	 Length of active service to date
	 Estimated remaining time at present location The tax-free income from housing (BAQ), rations, uniforms, food, flight pay, etc., can be used as income
	to qualify for the loan as long the income will continue for at least 3 years. Grossing up of this income is subject to standard guidelines.
	Documentation Requirements: YTD LES documenting at least 30 days of income
	W-2's for the most recent two years
	In lieu of a verbal VOE, a Military Leave and Earnings Statement dated within 120 calendar days prior to the note date in required an until patient through the online Defence Mannayar Date Contar
	the note date is required or verification through the online Defense Manpower Data Center. Military Reserve: Income paid to military reservists may be used to qualify as long as the borrower has a 2-year history or receipt and the income is expected to continue for the next 3 years.
Minister / Clergy Income	 Ministers and other clergy members are typically paid a monthly base pay plus "other" income. The amount of "other" income may vary widely and may or may not be taxable income. Often, ministers are self-employed and/or have unreimbursed business expenses. Housing allowance is typical and may be considered with acceptable verification and documentation.
	 Review YTD paystubs and W-2s/1099s and personal tax returns to determine income. Review personal federal tax returns/IRS transcripts to determine unreimbursed business expenses which must be deducted from qualifying income if the tax returns reflect "other" income >25% of the borrower's annual employment income.
	 Documentation provided must show income has been received for most recent 12 months and likely to continue for the next 3 years. If there is any indication that all or part of the income is not likely to continue, it should not be
Mortgage	used to qualify the borrower. • A mortgage differential/cost of living adjustment (COLA) is a type of incentive paid to relocating
Differential / COLA	borrowers. During a period of high mortgage interest rates, employers will often offer mortgage differential or COLA to subsidize the employee's mortgage payments by paying all or part of the difference between the employees present and proposed mortgage payments.
	A mortgage differential/COLA is an acceptable source of income provided the employer verifies the
	terms, amount, and duration of the payments in writing. The payments must continue for at least 3 years. If the terms of the mortgage differential/COLA pay indicate a decline from year to year, the lowest of the scheduled payments during the three years after the mortgage closing should be used to qualify.
	 This income may not be used to offset the new mortgage payment. Documentation Requirements:
	Copy of the Agreement from the employer stating the amount and 3 years continuance.

Income from notes receivable and be used to qualify provided the income is regular and recurring borrower should have a documented history of receiving the income if regular and recurring that the income will continue for at least 3 years. Documentation Requirements: A copy of the Note confirming the amount, frequency, and 3 years continuance; and Most recent 2 years' tax returns with Schedule B; or 12-months deposit slips and/or bank statements/cancelled checks evidencing regular deposit of the Notes receivable income on newly executed notes, that do not have at least a 12 month history of rechas a minimum duration of 3 years, may not be used to qualify. Types of Public Assistance income include but are not limited to Social Security, Section 8 Housing Voucher, Food Stamps and SNAP.  If the borrower is utilizing the Community Second Mortgage Option, there will be a subordinate lie the PHA and the Community Second is paid directly by the PHA. The term of the Community second is not to exceed 15-years and any interest, if applications. 	
may not exceed the interest rate on the first mortgage. Only subordinate financing provided by an approved Community Second is permitted. No Community Seconds are not permitted.	lon-
 Homebridge represents and warrants that the Community Second program complies wince the Fannie Mae guidelines, does not have a Negative Amortization financing structure, and not have any special servicing requirements. 	
Restricted Stock Restricted stock plans award an employee shares of stock as a form of additional compensation. However, the employee cannot take possession of the shares until vesting restrictions are met. No commonly, the vesting restriction is met if the employee continues to work for the company for a continue of years. Time-based restrictions may lapse all at once or gradually. If the recipient does meet the conditions the company set forth prior to the end of the vesting period, the shares are typically forfeited.	flost certain not
Note: To avoid counting the income/asset twice, if restricted stock is used as income, any unvest shares of restricted stock cannot be used as an asset, nor can dividend interest or capital gains in from the same restricted stock be used.	
 Restricted stock may be considered as qualifying income if the loan documentation supports. The borrower must have a verified history of receiving income from restricted stock for at least 24 mor and the likelihood of its continuance must be verified. 	
Documentation Requirements:	
 Documentation of receipt of restricted stock income for the most recent 2 years. E.g., 2 most receipt year-end paystubs, W-2's that provide a breakdown of base pay and restricted stock, etc. and 	ent
 Documentation of the most recent 2 years of restricted stock awards. E.g., compensation awards vesting schedule etc. 	
Printout/screenshot verifying company is publicly traded and verifying the stock price on the date application.	
Note: Restricted stock received from a sign-on type award can be used towards establishing the of receipt of RSU income, but those shares cannot be considered in the income calculation. • Determine that the income is likely to continue based on an established earnings trend.	of

	 If the trend is stable or increasing, follow income calculation below. If the trend is declining, the income may not be stable and additional analysis must be performed to determine if the income should be used.
	Income Calculation Typically, restricted stock income is calculated using the lower of: An average of the prior 2 years RSU earnings, or
	 The number of performance-based shares/units awarded over the last 2 years at the current employer multiplied by the current stock price on the application date at 70% and averaged over 24 months. See below for example.
	Example: 2020 performance/refresh award of 100 shares
	 - 2021 performance/refresh award of 90 shares - Stock price of publicly traded company on date of application \$200/share - 100 shares + 90 shares = 190 shares x \$140 (share price at 70%) = \$26,600 / 24 months = \$1,108/month qualifying income.
Retirement Assets Used as Qualifying	Not Permitted for employed borrowers
Income	
Retirement / Pension	 Retirement/pension income may be considered for retired borrowers as long as the amount makes sense based on the information provided and time limits of its receipt seem reasonable. Pension income is reported via a 1099. This income can be either taxable or non-taxable and must be expected to continue for the next 3 years. Non-taxable benefits can be grossed up provided it is verified as non-taxable. Note: When the income is verified to be non-taxable, and its tax exempt status is determined likely to continue, the underwriter must develop an "adjusted gross income" for the borrower if the additional
	income is needed to qualify for the product, program or loan amount applied for. The previous year's tax rate must be used to calculate grossed up percentage. If the borrower was not required to file a tax return or they didn't have any tax liability on their tax return, a 25% tax rate must be used in the calculation. Refer to the documentation requirements under theta-Exempt Income/ Non-Taxable Income topic below for additional information. Lump Sum Distributions
	 Borrowers who have recently retired and opted to take a lump sum distribution are eligible to use the income as qualifying provided the borrower has transferred funds to an annuity or similar account that allows for regular withdrawals and the account is set up for regular withdrawals. A letter from the borrower's financial advisor is required to verify the terms of the withdrawal. If funds are not set up in an account allowing for regular withdrawals, income may not be used to qualify. Documentation Requirements:
	Copies of most recent 1 years' 1099 or IRS W-2; or
	 2-months financial statements or bank statements evidencing regular deposit of the fund; or Statement from the organization providing the income; or Most recent 1 years' Federal Tax Return
	If retirement income is paid as a monthly distribution from a 401(k), IRA or Keogh retirement account, the income must continue for the next 3 years. The retirement accounts (IRAs, 401k, or Keogh) may be combined to determine the 3 years continuance. In addition the following apply:
	to determine the number of distributions remaining to account for the nature of the assets. Note: Unrestricted access is obtained by borrower arranging under Internal Revenue Code Section 72(t) for distributions and if the distributions are in a series of substantially equal periodic payments (not less frequently than annually) there shall be no associated income tax increase.
Royalty Payments	 Royalty payments may be used to qualify if they have been received on a regular basis for the most recent 12 months and are likely to continue for the next 3 years. The income is verified by the most recent 2 years' personal tax returns, including Schedule E.
	Documentation Requirements: 2 years' most recent tax returns with all Schedules, and
	Documentation that the income will continue for 3 years, and
	 Obtain copies of the royalty contract, agreement or statement confirming amount, frequency & duration of the income.
	 Determine that the income is likely to continue based on an established earnings trend. If the trend is stable or increasing, income can be averaged over the two year period. If the trend was declining but has since stabilized and there is no reason to believe that the borrower will not continue to receive the income at the current level, the current, but lower stabilized amount must be used.
	 If the trend is declining, the income may not be stable and additional analysis must be performed to determine if the income should be used. Income should not be averaged over the period of decline.

Social Security

- Social Security income, a type of public assistance, may not be discounted or treated differently than
 wage income. Social Security benefits or award statements are normally issued each year by the Social
 Security Administration to reflect cost of living adjustments. This income can be either taxable or nontaxable. The portion that is non-taxable can be grossed up provided it is verified as non-taxable income.
 Note: Social Security may be non-taxable. See the <u>Tax Exempt/Non-Taxable Income</u> topic for guidelines
 and additional information.
- Social Security income for retirement or long-term disability that the borrower is receiving from his/her
 own account/work record will not have a defined expiration date and must be treated as though income
 is "expected to continue".
- If Social Security benefits are being paid as a benefit for a family member of the benefit owner and the
 income has a defined expiration date due to recipient's age, the income may be used in qualifying;
 however, Homebridge must obtain evidence that the income will continue for at least three years from
 the date of the mortgage application.

Documentation Requirements:

• Document regular receipt of payments, as verified by the following, depending on the type of benefit and the relationship of the beneficiary (self or other) as shown in the table below.

Type of Social Security Benefit	Borrower is drawing Social Security benefits from own account/work record	Borrower is drawing Social Security benefits from another person's account/work record

Tax Exempt / Non-Taxable Income

 A borrower with tax-exempt/non-taxable income should be evaluated in the same manner as a borrower who has a higher gross taxable income. Tax-exempt sources may include

the subject mortgage as confirmed by the award letter. Verification of receipt is not required.

Note: If the borrower is presently employed but is anticipating retirement within the next 12 months, anticipated retirement income should also be taken into consideration. For newly established SSI benefits, a recently issued Social Security award letter reflecting the finalized terms may be used to document the income if the borrower will begin receiving payments on or before the first payment date of

- Child support payments,
- Social Security benefits,
- Disability retirement payments,
- Workers' compensation benefits,
- Supplemental Nutrition Assistance Program (SNAP)
- Public Assistance Payments
- Section 8 Housing Payments
- Tax Free Municipal Bonds
- Section 8 Income may be considered. The payments may not be used to offset the monthly housing payment. The public agency that provides the payment must provide documentation that shows the amount and terms of the monthly payment received and the documentation must show that the payments are made directly to the borrower. Section 8 Income is nontaxable; therefore, the income may be grossed up by 25% using the monthly payment from the public agency.
- Tax-exempt trust and inheritance income may be considered provided there is sufficient documentation to support the tax-exempt status.
- Verify that the particular source of income is tax-exempt and that both the income and its tax-exempt status are likely to continue. Acceptable forms of documentation include award letter, policy agreements, and account statements.
- If the income is verified to be non-taxable, and its tax exempt status is determined likely to continue, the underwriter must develop an "adjusted gross income" for the borrower if the

additional income is needed to qualify for the product, program or loan amount applied for. The previous year's tax rate must be used to calculate grossed up percentage. If the borrower was not required to file a tax return or they didn't have any tax liability on their tax return, a 25% tax rate must be used in the calculation.

• Refer to the specific income types in this section to determine if the income may be grossed up.

Documentation Requirements:

- 1 year's most recent tax returns with all Schedules; or
- Other documents showing that the income, or a portion is nontaxable
- Note: If the borrower indicates in any way that s/he did not file a tax return and the 4506-C transcript
 confirms there is no filing, no additional documentation is required.

Temporary Leave

- Temporary leave from work is generally short in duration and may be for family, medical, maternity, short-term disability, or other temporary leave that is acceptable by law or the borrower's employer. During a temporary leave the borrower's income may or may not be reduced or the borrower may not be paid during their absence from work. Leave is no longer considered temporary when the borrower does not intend to return to their current employer or they do not have a commitment from their current employer to return to work.
- The requirements and guidance for income while on temporary leave do not extend to employer-initiated actions such as furloughs and layoffs.
- Income used to qualify is determined by when the borrower will be returning to work:
 - If the borrower will return to work prior to the first mortgage payment being due, the borrower's regular employment income that will be received upon their return to employment can be used to qualify.
 - If the borrower <u>will not</u> return to work prior to the first mortgage payment being due, the lesser
 of the borrower's temporary leave income (if any) or their regular employment income may be
 used to qualify.

Supplemental Income

- If the borrower <u>will not</u> return to work prior to the first mortgage payment being due and the borrower's
 temporary income is less than their regular pay, liquid assets may be used to supplement the temporary
 leave income. However, the total qualifying income (temporary leave income plus supplemental income)
 may not exceed the borrower's gross monthly income that will be received upon their return to their
 current employer.
 - Supplemental Income=Available liquid reserves* ÷ the number of months of supplemental income**
 - *Available liquid reserves: Total liquid assets reduced by the amount of funds needed to complete the transaction (down payment, closing costs, prepaids, other debt payoff, required reserves, etc.).
 - **Number of months of supplemental income: The number of months from the first mortgage payment date to the date the borrower will begin receiving his/her regular employment income, rounded up to the next whole number.

Qualifying Income

Total Qualifying Income = Temporary Leave Income + Supplemental Income

Note: Total qualifying income may not exceed the borrower's regular employment income.

Example:

- Regular income amount: \$6,000 per month
- Temporary leave income: \$2,000 per month
- Total verified liquid assets: \$30,000
- Funds needed to complete the transaction: \$18,000
- Available liquid reserves: \$12,000
- First payment date: July 1
- Date borrower will begin receiving regular employment income: November 1 Supplemental income \$12,000 ÷ 4= \$3,000
- Total qualifying income: \$3,000 + \$2,000 = \$5,000

Documentation Requirements:

- Borrower must provide written confirmation of his/her intent to return to work and the agreed upon date
 of their return as evidenced by documentation provided either from the borrower, directly from the
 employer, or a third party as designated by the employer. Refer to Borrower Explanations for additional
 information. There must not be any evidence or information from the employer indicating that the
 borrower does not have the right to return to work after the leave period; and
- Documentation from the current employer confirming the borrower's statutory right to return to work (or the employer's commitment to permit the borrower to return to work), containing the date of return, and the borrowers post-leave employment and income; and
- Documentation of the amount and duration of the borrower's temporary leave income, which may require
 multiple documents or sources depending on the type and duration of the leave period; and
- Documentation of the amount of the regular employment income that the borrower received prior to the temporary leave. This should include all eligible sources of income that could be used to qualify under normal circumstances (i.e., base pay, commissions, bonus, overtime, etc.); and
- Verbal verification of employment. If the employer confirms the borrower is currently on temporary leave, the borrower must be considered employed; and
- If supplemental income is being used to qualify, the liquid assets must be verified according to the documentation process type selected; and

	Lindonwitor's rationals must include here qualifying income was an included
Trailing Co-	Underwriter's rationale must include how qualifying income was calculated.
Borrower Income	Trailing co-borrower income may not be used to qualify the borrower.
Trust Income	 Income from a trust may be used provided it is properly documented. The trust must have sufficient assets to maintain the same level of payments for the next 3 years. A copy of the trust agreement is generally required. Note: Assets may not be in the form of cryptocurrency.
	 Acceptable forms of verification include a copy of the trust agreement or the trustee's statement confirming the amount, frequency, duration of payments, and what portion if any is tax-free. Income must continue for at least 3 years.
	 Lump-sum distributions made before the loan closing may be used for the down payment or closing costs if they are verified by a copy of the check or the trustee's letter showing the distribution amount. The lump-sum amount must be subtracted from the total funds to determine income requirements. Refer to <u>Living Trust/Inter Vivos Revocable Trust</u> for additional details regarding trusts.
	Estates & Trusts: Income from estates and trusts can be very complex in nature; therefore, there must be documented evidence of the amount, frequency of receipt, and continuance for the next 3 years. Losses from estates and trusts must be analyzed for disallowed losses. Documentation Requirements:
	Copy of Trust Agreement or trustee's statement that verifies the amount, frequency, and 3 years continuance; and
	 Proof of receipt of income verified with a bank statement or equivalent documentation; and Evidence of sufficient assets to support the qualifying income for at least 3 years (e.g., letter from trustee, bank statements).
	In addition to the above the following must be obtained: • For Variable Trust Payments
	 History of receipt showing 24 months payments documented with 2 years most recent tax returns with all Schedules Income to be calculated using 24-month average.
	 For Fixed Trust Payments 12-month history of receipt with a bank statement or equivalent documentation; or If unable to document a 12-month history, the trust documentation must reflect fixed payments
	 and the borrower is not the grantor of trust, and at least one payment must be received prior to closing shown in bank statement or equivalent documentation.
	Income to be calculated using the fixed payment amount documented
Unemployment Benefits	Unemployment compensation associated with seasonal employment may be considered qualifying income if the borrower has a two-year history of receipt and the unemployment compensation is likely to continue for the next three years.
	Documentation Requirements:
	 2 years most recent tax returns with all schedules evidencing proof of receipt of unemployment compensation for two years and
	 Verify that the income is likely to continue (no evidence from the employer that the income will no longer be received and it is determined that the income is likely to continue based on an established earnings trend.)
United Nations Income	 Borrowers who work for the United Nations receive wages but typically taxes are not deducted from the borrower's wages. The borrower is still responsible for paying taxes on the income but will do so when filing tax returns in their country of residence.
	 If borrower's income is received in any currency besides U.S. dollars, the income is not permitted. Required Documentation: Most recent YTD pay stub documenting at least 30 days of income. Paystub must be dated no earlier
	than 30 days prior to the application date and must include all year-to-date income. If the paystub does not include sufficient information to appropriately calculate income, additional documentation must be obtained; and
VA Panafita	Most recent 2 years W-2s, or comparable documentation appropriate for the country providing the income. Personner receiving VA hopefite can use the income with proof the hopefite will continue for at least
VA Benefits	 Borrowers receiving VA benefits can use the income with proof the benefits will continue for at least three years from the date of loan application. Income must be documented with a letter or distribution from the VA.
	Education benefits may not be used to calculate qualifying income. Possumentation Requirements:
	 Documentation Requirements: Document the borrowers' receipt of VA benefits with a letter of distribution from the VA.
	 Verify that the income can be expected to continue for a minimum of three years from the date of the mortgage application. (Verification is not required for VA retirement or long-term disability benefits.)
Evaluating Rental Income	 Rental income can be used as qualifying income provided the transaction meets all of the documentation requirements outlined in this section. Rental income may be generated from the following sources: Subject property being financed is an owner-occupied 2-4 unit primary residence; Subject property being financed is a single family investment property

Calculating Rental Income from Non-Subject	 Other investment property that the borrower currently owns that is not part of loan transaction. Rental income generated from a second home or single-family primary residence is not considered stable monthly income, may not be used to qualify the borrower, and may not be considered as a compensating factor to offset the total debt-to-income ratios. If rental income is not used to qualify the subject investment property, the full PITIA must be included in the debt to income ratio. Income Calculation for all categories: If the amount is positive, it is added to the qualifying income. If the amount is negative, it is added to the recurring debts. The income from rental / investment properties is determined based on if the borrower has a history of renting the subject and/or another property. The rental income will be reported on the IRS for 1040, Schedule E of the borrower's personal tax returns, or on Rental Real Estate Income and Expenses of a Partnership or an S Corporation form (IRS Form 8825) of a business tax return. If the borrower does not have a history of renting the subject or another property or if the tax returns do not accurately reflect the ongoing income and expenses of the property, fully executed current lease agreements may be used. The rental income calculation should be documented in the loan file. Examples of forms that may be used, but are not required, include Fannie Mae Form 1037, 1038, 1038A, 1039 or Freddie Mac Form 92. If the borrower is qualified using the full housing expense (rental income is not considered), documentation of net rental income is not required. Refer to the table below for all Non-Subject Property income verification requirements. 			
Property	Does the Borrower Have a History of Receiving Rental Income from the Non-Subject Property?	Documentation Requirements		
	Yes	The two most recent federal tax returns with Schedule E; and If the property generating income does not appear on the most recently filed tax return, a current lease is required. Rental income must be documented based on requirements for Partial or No Rental Income on Tax Returns reflected below. Income should be calculated using 75% of the gross income.		
	No Income/loss should be calculated by using 75% of the gross income and verified by current leases.			
	 Signed leases may be used to determine the net rental income for an investment property not owned during the previous tax year. Refer to Partial or No Rental History on Tax Returns section for additional eligibility options. Note: The rental payment on the lease must be in U.S. dollars (cannot be in cryptocurrency). Schedule E - Supplemental Income and Loss Net Rental Income/Loss should be calculated as follows: Gross Rents and Royalties Received (from the schedule E) (-) Total Expenses (from the schedule E) (+) Amortization/Casualty Loss/Non-recurring Expenses (+) Insurance (+) Mortgage Interest (+) Taxes (+) HOA fees (+) Depreciation 			
	 Total ÷ 12 to 24 (# of months based on the tax return review above) – monthly PITIA* payment = Net rental income/loss per month *If there is a HELOC secured by the property, the payment per the credit report may be used calculate the monthly net rental income/loss. If positive add to income, if a loss add to the liabilities. (Do not include the PITIA in the total obligations, as adding the loss is already taking it into consideration) This calculation should be documented in the loan file. If the current residence is being converted to a second home or investment property, refer to Real Estate Obligations: Departure Property for additional guidelines. 			
Calculating Rental Income on Subject Property	Rental/Investment Property Income/Lo If the borrower is qualified using the documentation of rental income is not when the subject property will gene support the income-earnings potenting — Small Residential Income # 72) Single Family Comparable	full housing expense (rental income is not considered), or required. rate rental income, one of the following forms must be used to all of the property: Property Appraisal Report (Fannie Mae form #1025 or Freddie form Rent Schedule (Fannie form #1007 or Freddie form #1000)		
		ully executed, with a minimum original term of one year. ect Property income verification requirements.		

- When using a lease agreement, the lease agreement amount must be supported by:
 - Form 1007 or Form 1025, as applicable, or
 - Evidence the terms of the lease have gone into effect. Evidence may include:
 - Two months consecutive bank statements or electronic transfers of rental payments for existing lease agreements, or
 - Copies of the security deposit and first month's rent check with proof of deposit for newly executed agreements.

Does the Borrower Have	executed agree			
a History of Receiving Rental Income from the Subject Property?	Transaction Type	Documentation Requirements		
Yes	Refinance	 Average the income/loss unless declining. Verify by use of form 1025/72 or 1007/1000 as applicable and either: The two most recent federal tax returns with schedule E; or Current lease agreements that reflect consistent gross rental income if the borrower can document a qualifying exception (see Partial or No Rental History on Tax Returns below). 		
No	Purchase	 Verify by use of form 1025/72 or 1007/1000 as applicable. Copies of the current lease agreement(s), if property is currently rented. To calculate the monthly rental income amount for qualifying use 75% of the gross rental income reflected on the lease agreement or verified on form 1007, 1025. 		
No	Refinance	 Verify by use of form 1025/72 or 1007/1000 as applicable. Copies of the current lease agreements(s), if property is currently rented. To calculate the monthly rental income amount for qualifying, use 75% of the gross rental income reflected on the lease agreement or verified on form 1025/72 or 1007/1000. 		

Note: The income approach on the appraisal and copies of the present lease(s), if applicable, must support the rental income used to qualify the borrower.

• If the borrower does not have a documented history of receiving rental income as noted above, refer to Partial or No Rental History section for additional eligibility options.

Partial or No Rental History on Tax Return

- This policy may be applied to refinance of a subject rental property or to other rental properties owned by the borrower.
- If the borrower is able to document (per the table below) that the rental property was not in service the
 previous tax year, or for only a portion of the year, qualifying rental income may be determined by using
 the following:
- Schedule E Income and expenses, and annualizing the income (or loss) calculation; or
- Lease agreement(s) to 75% of the gross rental income to be used in the net rental income (or loss)
 calculation.

Note: Leases must be current and fully executed, with a minimum original term of one year. The rental payment on the lease must be in LLS, dollars (cannot be in cryptocurrency)

payment on the lease must be in U.S. dollars (cannot be in cryptocurrency).	
If	Then
The property was acquired during or subsequent to the most recent tax filing year	Confirm the purchase date using the Closing Disclosure or other documentation If acquired during the year, Schedule E (Fair Rental Days) must confirm a partial year rental income and expenses (depending on when the unit was in service as a rental). If acquired after the last tax filing year, Schedule E will not reflect rental income or expenses for this property.
The rental property was out of service for an extended period	Schedule E will reflect the costs for renovation or rehabilitation as repair expenses. Additional documentation may be required to ensure that the expenses support a significant renovation that supports the

	amount of time that the rental property was out of service. Schedule E (Fair Rental Days) will confirm the number of days that the rental unit was in service, which must support the unit being out of service for all or a portion of the year. It is determined that some other situation warrants an exception to use a lease agreement amount of time that the rental property was out of service. The loan file must contain an explanation and justification to support using a lease agreement
Rental Income Reported Through a Partnership or S- Corporation	 If the borrower is personally obligated on a mortgage debt (as evidenced by the credit report) and gross rents and related expenses are reported through a Partnership or an S-Corp, Form 8825 maybe used to calculate net rental income or loss for the property. The Partnership or S-Corp must be documented and analyzed according to S-Corp section. — Obtain Partnership or S-Corp business tax returns, including IRS Form 8825. — Analyze each property listed on Form 8825 as follows: Form 8825- Rental Income and Expenses Gross Rents (-) Total Expenses (+) Non-recurring Expenses (+) Insurance (+) Mortgage Interest (+) Taxes (+) HOA fees (+) Depreciation Total ÷ 12 or (# of months based on the tax return review) – monthly PITIA payment = Net cash flow obligations. — If the net cash flow is positive, exclude the property PITIA from the borrower's monthly obligations. — If the net cash flow is negative (not sufficient to offset the properties PITIA) the negative amount must be included in the DTI calculation.
Evaluating Self- Employed Income	 A Self Employed Income Analysis Form must be completed on every transaction and retained in the permanent loan file. Examples of this form include Freddie Mac Form 91 or Fannie Mae Form 1084. An individual receiving income from any of the following sources must be qualified as self-employed: Borrower has an ownership interest of 25% or more in a business. The business may be a sole proprietorship, a general partnership, limited partnership, corporation, or S-corporation. Loans must be coded as self-employed Borrower relies on investments for income (e.g., interests, dividends, capital gains, or real estate). Borrower is a member of the clergy and files taxes as self-employed. (Additional guidelines apply if a portion of their income is for housing, which may be tax exempt—federal and state. Refer to Minister-Clergy Income topic for details.) Borrower receives income from the subject property seller or broker A 2-year self-employment history, which includes verifying the borrower has ownership in the business, is required to ensure that the income is stable. Less than 2-years may be considered provided the borrower has a recent 2-year history of successful employment in the same occupation (or a related field) and they have been self-employed for at least 1 full tax year. The borrower's most recent 2 years signed federal income tax returns, including all schedules, must reflect the receipt of income at the same or greater level in a line of business that provides the same products or services as the current business or in an occupation in which s/he had similar responsibilities to those undertaken in connection with the current business. Individual tax returns and business tax returns (when applicable) must be signed by the borrower unless using an acceptable alternative defined in Tax Forms. For individual tax returns, the un

	there is a business loss that may have an impact the self-employed business is not being used to conclude the self-employed business tax returns are inclusted the underwriter must review and consider in their data in tax returns just because they are not required.	ided in the loan file for a borrower or co-borrower(s), credit evaluation. The underwriter may not disregard ired.	
Business Restructuring	laws. Although the most common business conversions also occur. A conversion provide liability. A change like this doesn't necessarily me example, a business begins as a sole proprietors S-corporation. Based on documentation contained in the loan file structure change the below must be considered If the Borrower changed their business corporation to corporation), the Borrower order for the current and prior business Homebridge must not have knowledge,	hip and then switches to a partnership, corporation, or e, if Homebridge becomes aware of a business structure (e.g., sole proprietorship to S-corporation, Ser's ownership interest percentage must not change in structures to be considered the same business. information, or documentation that other changes or services, location), and there must be no indication usiness revenue or expenses.	
	Note: If any of the above requirements are not mode treated as different businesses. The total length of the business' existence must be calculated using income from both business structure.	et, then the current and prior business structures must be at least 2-years. Average income should be stures—the current as well as the previous—as long as	
Calculating Cash Flow: Partnerships and S-Corporations	 it can be confirmed that the nature of the business remains the same. Additional adjustments may be required if the restructure occurred. Nevertheless, the result should be the same. Ordinary income, net rental income, and other net rental income reported on Schedule K-1 may be included in the borrower's cash flow provided: The borrower can document ownership share (may use Schedule K-1); The borrower can document access to the income; and The business has adequate liquidity to support the withdrawal of earnings. Note: Borrowers, who have less than 25% ownership, refer to 1508.5-Employment and Income/ Other Income section for requirements. 		
	If The Schedule K-1 reflects a documented, stable history of receiving cash distributions of income	Then No further documentation of access to the income or adequate business liquidity is required. The	
	from the business consistent with the level of business income being used to qualify	Schedule K-1 income may then be included in the borrower's cash flow. Must confirm the following to include the income in	
	The Schedule K-1 does not reflect a documented, stable history of receiving cash distributions of income from the business consistent with the level of business income being used to qualify	the borrower's cash flow: The borrower can document access to the income (such as a partnership agreement or corporate resolution)—unless the borrower(s) own 100% of the business, in which case confirmation of access to the income is not required; and The business has adequate liquidity to support the withdrawal of earnings.	
	The borrower has a two-year history of receiving "guaranteed payments to the partner" from a partnership or an LLC	These payments can be added to the borrower's cash flow.	
	Business tax returns are required	The type of business structure and analysis of the business returns as indicated in this section of Policy must be considered in accordance with requirements.

This test excludes inventory from assets in calculating to meet current liabilities. (by) / current liabilities / corking Capital Ratio) may be more appropriate for generate income).	

Contract	Individuals who work on a contractual basis rather than as an employee, are treated as self-employed
Employees	and must have a 2-year history in the same line of work. Because the individual may be released from
Lilipioyees	
	employment at any time, or as specified in their contract, employment history is key in establishing
	income stability and the likelihood that it will continue.
	Required Documentation:
	2 years most recent personal tax returns with all W-2s or 1099's; and
	Verification that borrower's business remains open and in existence performed no more than 30
	calendar days prior to the loan closing.
Comparation	
Corporation	One or a group of individuals establishes a corporation for various tax and liability purposes.
	Documentation with original signatures of the borrower must be prepared in accordance with standard
	accounting procedures. Cash flow is determined by taking taxable income minus total tax and adding
	back: depreciation, depletion or net operating loss deductions listed on the return.
	The corporation must report income and losses on IRS Form 1120 and individual owners may be paid by
	W-2 or 1099. Complete personal tax returns and corporate returns for the most recent two years must be
	included in the loan file.
	Required Documentation:
	 2 years most recent personal and business tax returns with all Schedules and W-2s or 1099s (tax
	returns must reflect at least 12 months of self-employed income); and
	 Year-to-date unaudited profit and loss (P&L) statement and balance sheet for the business either:
	 Completed by the business's tax preparer; or
	 Completed by the borrower in addition to the following:
	Evidence provided that the document has been viewed by the business's tax
	preparer, or
	Evidence provided that the document has been viewed by an appropriate third party who is not officiated with the local transaction, or
	who is not affiliated with the loan transaction, or
	 Two months business bank statements to support the income on the P&L statement
	and balance sheet.
	 The year-to-date P&L and balance sheet are required when the application is dated more than
	90 days after the end of the business' fiscal or calendar year end, and
	Income Analysis Form; and
	Verification that borrower's business remains open and in existence performed no more than 30
	calendar days prior to the loan closing.
	Note : Corporate income may not be used unless the borrower owns 100% of the business.
	Note: W-2/1099 earnings are eligible.
Documenting the	Generally speaking, if the borrower is self-employed, the business must have been in existence for at
Transaction	least 2-years (as stated on the application), although the underwriter may consider amounts less than 2
	years—but not less than 12 months on most recent tax return—with documented extenuating
	circumstances. An explanation as to why self-employed income with a history of less than 2 years was
	used to qualify must also be documented in the loan. All letters of explanation must be signed by the
	Borrower prior to close. Refer to Section Borrower Letters of Explanation for more information.
	extension must be obtained. Refer to Age of Federal Tax Returns for details.
	A Self Employed Income Analysis Form must be completed on every transaction and retained in the
	permanent loan file. Examples of this form include Freddie Mac Form 91 or Fannie Mae Form 1084.
	Note: If tax returns are included in the loan file for a borrower or co-borrower(s), the underwriter must
	review and consider in their credit evaluation any information. The underwriter may not disregard data in
	tax returns just because they are not required.
Farm Income	Provided it can be verified that it is stable, consistent, and recurring, cash flow for depreciation,
1 arm moone	amortization acquible loss depletion as business upon a feature may be added beau
	amortization, casualty loss, depletion, or business use of home may be added back.
	Required Documentation:
	2 years most recent personal tax returns with Schedule F; and
	Income Analysis Form; and
	Verification that borrower's business remains open and in existence performed no more than 30
	calendar days prior to the loan closing.
	Note : Hobby farms that are not the primary source of income must be reviewed for a loss on the tax returns.
Partnership	There are 2 types of partnerships—a general partner and a limited partner.
. a. a. s. omp	A general partnership indicates that the individual has full ownership interest and is totally
	liable for the business.
	A limited partner's liability is limited to the amount of their investment only. The marked partner's liability is limited to the amount of their investment only.
	The partnership must report its profit or loss on IRS Form 1065 and each partner's share of the profit or
	loss is reported on Schedule K-1 of the 1065. Complete signed and dated personal tax returns and
	partnership returns for the most recent two years must be included in the loan file.
	The cash flow of the partnership must be analyzed to assess the stability of the borrower's personal
	cash flow. This provides a snapshot of the business' ability to meet its short-term obligations. Analyzing
	the 1065 tax return and giving credit for ordinary income, depreciation, depletion and pension expenses
	determine cash flow. Discretionary losses should be excluded from the cash flow analysis if the business
	is a limited partnership and the borrower provides a copy of the partnership agreement stating that all
	subsequent contributions are voluntary. (Refer to the Calculating Cash Flow: Partnerships & S-
	Corporations topic in this section.)
·	

	Note : Borrowers, who have less than 25% ownership, refer to Other Income for requirements.
	Required Documentation:
	2 years most recent personal & business tax returns with all Schedules including Partnership return and
	K-1s (tax returns must reflect at least 12 months of self-employed income); and
	Year-to-date unaudited profit and loss (P&L) statement and balance sheet for the business either: Completed by the business of the profits of the profits of the business of
	 Completed by the business's tax preparer; or Completed by the borrower in addition to the following
	Evidence provided that the document has been viewed by the business's tax
	preparer, or
	 Evidence provided that the document has been viewed by an appropriate third party
	who is not affiliated with the loan transaction., or
	 Two months business bank statements to support the income on the P&L statement and balance sheet.
	The year-to-date P&L and balance sheet are required when the application is dated more than
	90 days after the end of the business' fiscal or calendar year end; and
	Income Analysis Form; and
	Verification that borrower's business remains open and in existence performed no more than 30
0.0	calendar days prior to the loan closing.
S-Corporation	 An S-corporation has the same legal characteristics as a corporation except income and/or losses pass through to the owners/shareholders in the corporation. It may be either the borrower's primary
	employment or an investment vehicle. Depreciation and depletion can be proportionately added back to
	the borrower's income since they are considered non-cash expenses.
	The S-Corporation must report income and losses on IRS Form 1120S and each partners share of the
	profit or loss is reported on Schedule K-1 of the 1120S. Complete personal tax returns and corporate
	returns for the most recent two years must be included in the loan file. Note: Borrowers, who have less than 25% ownership, refer to Other Income for requirements.
	Required Documentation:
	2 years most recent personal and business tax returns with all Schedules and K-1s (tax returns must
	reflect at least 12 months of self-employed income); and
	Year-to-date unaudited profit and loss (P&L) statement and balance sheet for the business either:
	 Completed by the business's tax preparer; or Completed by the borrower in addition to the following:
	Evidence provided that the document has been viewed by the business's tax
	preparer, or
	 Evidence provided that the document has been viewed by an appropriate third party
	who is not affiliated with the loan transaction, or
	 Two months business bank statements to support the income on the P&L statement and balance sheet.
	The year-to-date P&L and balance sheet are required when the application is dated more than
	90 days after the end of the business' fiscal or calendar year end; and
	Income Analysis Form; and
	Verification that borrower's business remains open and in existence performed no more than 30 calendar days prior to the loop closing.
Self-Employed	 calendar days prior to the loan closing. A Self Employed Income Analysis Form must be completed on every transaction and retained in the
Analysis Form	permanent loan file. Examples of this form include Freddie Mac Form 91 or Fannie Mae Form 1084.
7	Refer to the Tax Return Analysis section of this chapter for more information regarding the review of tax
	returns.
Sole Proprietor	As an individual owner of a business, the sole proprietor has unlimited personal liability for the debts of
	the business. There is no distinction between the owner's personal assets and the assets used in the business. The success of this type of organization is solely dependent on the individual who owns it.
	The income, expenses and taxable profits are reported on the owner's personal tax returns, Schedule C.
	Complete personal tax returns for the most recent two years must be included in the loan file.
	When there is evidence of a large increase in net profits from the prior year, and the income is needed to
	qualify, additional information may be required to substantiate the income. The borrower must provide a
	detailed letter from their CPA explaining the cause of the increase along with an audited year-to-date Profit and Loss Statement.
	Non-recurring income must be deducted in the cash flow analysis, including any exclusion for meals and
	entertainment expenses reported by the borrower on Schedule C.
	The following recurring items claimed by the borrower on Schedule C must be added back to the cash
	flow analysis: depreciation, depletion, business use of a home, amortization, and casualty losses.
	Required Documentation: • 2 years most recent tax returns with all Schedules (tax returns must reflect at least 12 months of self-
	employed income); and
	Income Analysis Form; and
	Verification that borrower's business remains open and in existence performed no more than 30
	calendar days prior to the loan closing.
	Note : Third party vendors may be used as an alternative method for verifying self-employed Schedule C income. The verification must provide the same level of documentation defined in these guidelines. If it does

	not, additional supplements must be section for additional requirements the		
Verifying the Existence of the Business	 Confirmation that the borrower's business remains open and in existence must be verified within 30 calendar days prior to the loan closing when a borrower(s) has 25% or greater ownership in the business. Confirmation is not required if the business income is not used to qualify or if there is a business loss.

Tax Returns	returns (personal returns and, if applicable, business returns). The "most recent year's" tax return is defined as the last return scheduled to have been filed with the IRS. • The timing of tax returns varies depending on the application date and disbursement date of the mortgage loan. The following table describes which tax-related documentation to obtain depending on		
	the application date and disburs Application Date		Documentation Required
	October 15 ¹ , (current year minus 1) to April 14 ² current year	October 15 ¹ , (current year minus 1) to April 14 ² current year	The most recent year's tax return is required. The use of a Tax
	October 15 ¹ (current year minus 1) to April 14 current year	April 15 – May 30	The most recent year's tax return is recommended; however, the previous year(s) is also acceptable. In the event the most recent year's tax return is not obtained, the loan file must include a completed and signed IRS Form 4506-C for transcripts of tax returns provided by the borrower.
			The most recent year's tax return is required, OR if most recent year's tax return is not available all of the following must be obtained: » A copy of IRS Form 4868 (Application for Automatic Extension of Time to File

	All Applications November 1 to April 14 (current year plus 1) The most recent year's tax return (as defined above). Tax Extensions are not permitted.		
	Or the April/October filing date for the year in question as published by the IRS.		
	Or the day prior to the April/October filing date for the year in question as published by the IRS.		
	Note: For business tax returns, if the borrower's business follows a fiscal year (a year ending on the last day		
	of any month except December), the dates in the chart above may be adjusted to determine what year(s) of		
	business tax returns are required in relation to the application date/disbursement date of the new mortgage		
100 5 4 1	loan.		
IRS Extensions	If the borrower has requested an extension to file their most recent tax returns, a copy of ALL applicable action requeste class with filed tox returns for the two prior years much be provided.		
	 extension requests along with filed tax returns for the two prior years must be provided. Extension requests that exceed the October 15th filing date require verification of approval from the IRS. 		
	 If the borrower's tax returns are not available due to an extension, examples of some factors and 		
	documentation to consider when using older tax returns to determine continued income stability, include,		
	but are not limited to the following:		
	 Form 4868 extends the filing date to October 15. The amount of tax liability disclosed on Form 		
	4868 must be compared to the previous 2 years tax liability. Extension requests that reflect a		
	lower tax liability than years' prior must be carefully reviewed and guidelines for declining		
	income should be followed if applicable.		
	Review and analysis of current business activity through a review of the most recent financial attempts that account the period gives the left toy return filing.		
	statement that covers the period since the last tax return filing. - Review and analysis of current business activity through a review of at least the most recent		
	three months of business bank statements		
	 Signed IRS Form 941, Employer's Quarterly Federal Tax Return, for the prior calendar year 		
	and current calendar year quarter(s) that supports wages and other compensation documented		
	on the most recent business tax return		
	 Review of the W-2s, 1099s and/or K-1s from the most recent calendar year, if available 		
	Note : At IRS discretion, tax extensions and/or reduced documentation requirements may be granted for		
	extenuating circumstances, such as disaster impacted areas. Refer to IRS.gov for communications from		
	the IRS for acceptable situations not meeting policy above. If the IRS communication supports not requiring documentation as required in policy above, a copy/screenshot of that communication should be		
	included in the loan file.		
Tax Forms	Form 1040: Individual Tax Returns		
	Each tax return must include all schedules and must be signed by the borrower unless Homebridge has		
	obtained one of the following signature alternatives:		
	 Documentation confirming that the tax returns were filed electronically (e.g., signed Form 8879, 		
	IRS e-file Signature Authorization or equivalent);		
	 A completed IRS form 4506-C (signed by the borrower) for the year in question; or IRS transcripts that validate the information on the unsigned tax returns. 		
	 Refer to the applicable income topic in this chapter for documentation and calculation of income. 		
	Schedule A: Itemized Deductions		
	This form lists itemized deductions, including medical expenses, taxes, interest expenses, charitable		
	contributions, casualty and theft losses, un-reimbursed job expenses and other miscellaneous		
	deductions. For additional information regarding the treatment of Non-Reimbursed Business Expenses		
	refer to Recurring Debts and Source of Funds sections.		
	Schedule B: Interest & Dividend Income		
	 This form is used to determine the source and amounts of investment income, including tax exempt interest, non-taxable dividend distributions, and dividend income earned on stocks sold during the year. 		
	Refer to Section Interest and Dividend Income for details.		
	Schedule C: Profit or Loss from Business		
	This form is used to determine the business income or loss of a sole proprietorship. Refer to Sole		
	Proprietor section for details.		
	Schedule D: Capital Gains/ Losses		
	This form details gains or losses from investments such as stocks, bonds, etc. Refer to Capital Gains /		
	Losses section for details.		
	Schedule E: Supplemental Income and Loss		
	This form details supplemental income from rental properties, Partnerships, S-Corporations, estate and real estate mortgage investment conduits. Perfect to Pental Income section for details. For all other		
	real estate mortgage investment conduits. Refer to Rental Income section for details. For all other sources of income refer to Employment & Income section for details.		
	Schedule F: Profit or Loss from Farming		
	This form is used to determine any business income from farming operations and is very similar to the		
	Schedule C. Refer to Section Farm Income for details.		
	Form 4562: Depreciation & Amortization		
	This form is used to claim a deduction for depreciation and amortization, make the election under section		
	179 to expense certain property, and provide information on the business/investment use of automobiles		
	and other listed property.		
	 Refer to the applicable income section of the underwriting manual where the depreciation & amortization deduction is being derived. (I.e., Property put into use that is part of the Schedule C is addressed in the 		
	Sole Proprietorship section.)		
	Form 2106: Employee Business Expenses		
	· ····· = ····· = impreyee exemises experiese		

 This form is used when the borrower is deducting expenses for their job. For additional information regarding the treatment of Non-Reimbursed Business Expenses and Auto Allowance/Expense Account Reimbursement refer to Recurring Debts and Source of Funds sections.

Form 4868: Application for Automatic Extension of Time to File U.S. Individual Tax Return

 This form used by individuals to request an automatic extension of time to file their federal income tax return

Schedules & Forms

Although they may not be included in every instance, the following list of schedules and forms are often included in the review of the self-employed borrower's business.

*Form 4562 may be required to support any depreciation not listed on Schedule E.

Tax Return Analysis

- It is important to establish an earnings trend for both the borrower and their business that earnings remain level or increase, and the borrower reflects stability and consistency. However, a consistent decline in the business' gross income over 2 or 3-years could be a reason for concern, even if the borrower's current income and debt ratios meet standard guidelines. For example, the borrower's AGI as listed on the tax return may be increasing yearly because of items not related to the business (e.g., capital gains received from the sale of real estate), while the actual business income is declining yearly.
- Only income consistent with the documentation provided may be considered for loan qualifying purposes. Dramatic increases and/or decreases in earnings must be reviewed carefully. It may be necessary to obtain additional years tax returns to establish a consistency of earnings since large fluctuations are typical of some businesses.
- If the borrower needs to draw additional income from the business (and has the legal right), investigate whether the business is capable of producing additional income for the borrower's use. Withdrawal of cash may have a severe negative impact on the business and may lead to a negative cash flow. If this occurs, it may not be possible to confirm stable, ongoing income. Income retained in the business as cash flow to the borrower may not be considered unless there is evidence confirming the borrower has 100% ownership and that the withdrawal of funds will have no effect on the business' continued growth.

Evaluating Wage Income

- Wage earner income is best defined as compensation for services paid by a person, business or organization at specified intervals and is commonly referred to as salary or wage earner income. The pay schedules of wage earners can be classified into 4 general categories.
 - <u>Full Time</u>: The borrower is a permanent employee of a company and works a standard workweek, usually totaling 35 to 40 hours a week. Hours and number of days may or may not vary.
 - Part Time: The borrower is a permanent employee of a company but the number of hours is not standardized, usually totaling less than 30 hours a week.
 - Temporary: The borrower is not a permanent employee of the company and therefore is not part of the company's permanent staff. Temporary employees usually work for a contracted, or "as needed" period of time only.
 - Occasional/Seasonal: The borrower works for a specified period of time on a specific job or project. Once completed, the borrower is on "standby" until they receive their next assignment. Examples of this type of worker include roofers, landscapers, union construction workers, and migrant farm workers.
- The type of pay schedule directly impacts how monthly qualifying income is calculated.
- Common types of stable wage earner income may include regular base earnings plus consistent and documented secondary income, such as overtime, commission and bonus, and additional part-time or seasonal employment.

Bonus Income

- A bonus is money paid in addition to regular wages. Sometimes bonuses are paid on a regular basis throughout the year. Some employees also receive a guaranteed bonus—a promise or contract made by the employer as part of an incentive plan paid regardless of the company's profitability or the employee's performance. The nature of the bonus must be determined up front in order to include in qualifying income.
- The borrower must have a 2-year history of receipt to use as qualifying income and it must be likely to
 continue for the next three years. Earnings must be level or increasing; compensating factors must exist
 if decreases in the last year.

	Required Documentation:
	 Most recent YTD pay stub documenting at least 30 days of income. Paystub must be dated no earlier than 30 days prior to the application date, and must include all year-to-date income. If the paystub does not include sufficient information to appropriately calculate income, additional documentation must be obtained; and 2 years most recent W-2s and/or 1099s; and
	There is no evidence from the employer that the income will no longer be received; and
	 It is determined that the income is likely to continue based on an established earnings trend. If the trend is stable or increasing, income can be averaged over the two year period. If the trend was declining but has since stabilized and there is no reason to believe that the borrower will not continue to receive the income at the current level, the current, but lower stabilized amount must be used. If the trend is declining, the income may not be stable and additional analysis must be
	performed to determine if the income should be used. Income should not be averaged over the period of decline.
Coloulating	 Verbal Verification of Employment performed no more than 10 business days prior to the loan closing. The actual calculation used to determine all qualifying income must be documented in every loan file.
Calculating Income	 The actual calculation used to determine all qualifying income must be documented in every loan file. See below for examples.
	 Individuals either receive a fixed regular annual income (usually paid monthly, semi-monthly, biweekly, or weekly) or they may work and get paid by the hour, day, or week. All receive regular compensation in the form of a paycheck and year-end income is reported via a W-2. Each type of qualifying income is calculated differently.
	 Hourly: Hourly Rate x # of Hours x 52 weeks ÷ 12 = Monthly Base Income Weekly: Weekly Base Salary x 52 weeks ÷ 12 = Monthly Base Income Biweekly: Biweekly Base Salary x 26 weeks ÷ 12 = Monthly Base Income Semi-Monthly: Semi-Monthly Base Pay x 24 weeks ÷ 12 = Monthly Base Income
	 Monthly: Monthly Base Pay as shown (without overtime, bonus or commissions) Annually: Annual rate of pay (without overtime, bonus, commissions) ÷12 = Monthly Base Income
	 Variable Income Sources: This type of income should be calculated as follows: YTD earnings from the paycheck stub
	 + Wages from the W-2 for the previous year
	÷ Number of months= Average Monthly Income
	o - Monthly Base Income
	 = Average Earnings It is important to establish an earnings trend. Annual earnings that are level or increasing from one year
	to the next reflect income stability. However, if the earnings that are level of increasing norm one year to the next reflect income stability. However, if the earnings show a decline compared to the current year, there must be strong compensating factors to support using the income. If the borrower's employer is unable to predict whether the income will continue, it may be considered provided the employer does not specifically state that income is not likely to continue.
	If either the borrower or co-borrower is self-employed, in addition to the required wage earner income documentation, personal tax returns must be provided even if the income is not being used to qualify. The personal tax returns must be reviewed to determine if there is a "meaningful" business loss that may have an impact on the stable monthly income being used to qualify. Additional documentation may be needed to fully evaluate the impact of the business loss on the borrower's ability to repay. Note: Income may be excluded if the borrower can qualify without it.
Commission	Commission income is a fee or percentage paid to the employee for performing a service or is based on
Income	the dollar amount of the goods and/or the number of units a person sells. Some borrowers are paid a salary plus commission while others receive only commission pay. The borrower must have a two year consecutive history of receiving commission income and the commission income must be likely to continue for the next three years in order to use the income to qualify.
	 Income may be subject to fluctuations from year-to-year. If there are large fluctuations, the borrower must provide a written explanation to support the increase or decrease in income and the appropriate adjustments made to average income used to qualify. Refer to 1508Credit/Analysis/Borrower Explanations for more information.
	Required Documentation Most recent YTD pay stub documenting at least 30 days of income. Paystub must be dated no earlier
	than 30 days prior to the application date, and must include all year-to-date income. If the paystub does not include sufficient information to appropriately calculate income, additional documentation must be obtained; and
	 2 years most recent W-2s; and Verbal Verification of Employment performed no more than 10 business days prior to the loan closing. Note: If the file contains tax returns or tax transcripts they cannot be ignored.
Documenting the Transactions	This section addresses sources of documentation used to verify salary/wage earner income and the principal methods of validating its authenticity.
	 Pay Stubs Pay stubs (or payroll statements) determine the qualifying income to be used in calculating the borrower's debt ratio. The pay stub must include the following information in order for it to be considered an acceptable form of verification:

- Be computer generated (may not be handwritten)
- Contain the company's name or employer tax I.D. that matches the W-2
- Contain the name and/or social security number of the employee
- Show the pay period covered
- Be dated no earlier than 30 days prior to the application date
- Show the year-to-date gross earnings
- List all deductions
- If the paystub does not include sufficient information to appropriately calculate income, additional
 documentation must be obtained. I.e., a written VOE (see next section) or 2-years tax returns must be
 obtained.
- Statements must be reviewed to determine if there are deductions that should be included in the list of debt obligations. Some of the most common types of deductions are:
 - Credit union loans (if deduction is for repayment of a loan, payment should be included in list of debts).
 - 401k loan repayments: Debt is not included in the total debt ratios.
 - Alimony/child support payments (a mandatory requirement in some states, therefore a statutory deduction).
 - Wage Assignments/ Garnishments (due to tax liens, judgments for non-payment of debt, or loss of a court case).
- Not all of the above deductions are necessarily obligations. The statement must be reviewed carefully to
 determine the nature of the deduction and if it should be included in the borrower's list of debt
 obligations.

Military Income

To verify military base pay and entitlements, the most recent Leave and Earnings Statement (LES) is required.

W-2s

- A W-2 form is a summary of earnings statement that the employer prepares and sends to its employees
 at the end of the year. A photocopy of all W-2(s) is required to verify annual income and employment.
 The IRS requires W-2's to be sent to employees by January 31 of the following year. If borrower has not
 received their W-2 prior to January 31, a YTD paystub(s) or military Leave and Earnings Statement may
 be used in lieu of the W-2 form(s) provided the documentation reflects the complete income earned in
 the previous calendar year.
- The W-2(s) must cover the most recent two-year period, and must clearly identify the borrower as the
 employee. "Most recent" W-2(s) is defined as the W-2(s) from all employers for the calendar year prior to
 the current calendar year/application date. For example, if the application is dated 2019, a 2018 & 2017
 (if applicable) W-2s from all employers would be required.
- Note: The final year-to-date paystub, provided it contains complete year-to-date information, or an IRS Wage and Income Transcript (W-2 Transcript), or a written VOE may be used in lieu of the actual W-2 form
- If documents expire on or after January 1 of a new year, an updated W-2 from the previous year or yearend paystub will be required. See examples below:
 - Example 1: If the loan application date is in Dec 2020 and policy requires a YTD paystub and most recent year W2, a 2020 YTD paystub and 2019 W2 are required. If those docs expire before closing and no longer meet age of documentation requirements, then updated documentation is required, and a 2020 W2 and a 2021 YTD paystub should be obtained.
 - Example 2: If the loan application date is in Jan 2021 and AUS or policy requires a YTD paystub and most recent year W2, a 2021 paystub and 2020 W2 are required. If the 2021 paystub does not include sufficient information, such as 30-day earnings, a 2020 YTD paystub is required. If the borrower has yet to receive the 2020 W2, the final 2020 year-to-date paystub may be used if adequate information is provided, and the paystub meets age of documentation guidelines.

Schedules & Forms

- Although they may not be included in every instance, the following list of schedules and forms may also be required when other additional income is used to qualify.
 - Rental Income: Signed 1040s, Schedule E, Form 4562
 - Interest/Dividend Income: Signed 1040s, Schedule B
 - Farm Income: Signed 1040s, Schedule F, Form 4562

Note: Individual tax returns must be signed by the borrower unless one of the following alternatives is obtained:

- Documentation confirming that the tax returns were filed electronically (e.g., signed Form 8879, IRS e-file Signature Authorization or equivalent);
- A completed IRS form 4506-C (signed by the borrower) for the year in question; or
- IRS transcripts that validate the information on the unsigned tax returns.

Note: If tax returns are included in the loan file, the underwriter must review and consider in their credit evaluation. The underwriter may not disregard data in tax returns just because they are not required.

Employees of a School District

Employees of a school district may be paid on a 9-month, 10-month, or 12-month basis. As such, a current year-to-date pay stub dated within 30 days of application may not be available. Income structure must be determined before calculating qualifying income. Although every effort should be made to obtain a copy of the borrower's most recent pay stub, if the borrower is on a pay schedule of less than 12 months, a copy of their employment contract with the school district may be used in lieu of a current pay

stub or it may be verbally verified directly with the school district HR department (conversation must be documented in the filips.) Contract must be valid and non-expired. Note: Requirements to verify income remain as noted below. Required Documentation: • Most recent YTD pay stub documenting at least 30 days of income. Paystub must be dated no earlier than 30 days prior to the application date, and must include all year-to-date income. If the paystub does not include sufficient information to appropriately calculate income, additional documentation must be obtained, or a copy of the Employment contract with the School District, and • Yerbal Verification of Employment performed no more than 10 business days prior to the loan closing. **Imployment**	documented in the file). 	• verbal verification of Employment performed no more than 10 business days prior to the loan closing.		Verbal Verification of Employment performed no more than 10 business days prior to the loan closing.

Part Time,	Part-time, seasonal or second-job income may be used to qualify if it can be verified as having been
Seasonal and	received for the previous 2-years and if it has a strong likelihood of continuation. This income is
Secondary	considered uninterrupted if the borrower has held the same position for at least 2-years and employmen
Income	is expected to continue for the next 3 years. (For example, someone who works at a department store
	only during the Christmas season, or who works summers in an amusement park demonstrate a
	consistency that is likely to continue.) Income is averaged over 2 years.
	For secondary income, it is acceptable for a borrower to have a history that includes different employers
	as long as the income has been consistently received. In no instance may the borrower have any gap in
	employment greater than one month in the most recent 12-month period unless the secondary
	employment is considered seasonal income.
	Occasionally, with extraordinary circumstances less than a 2-year history may be considered—but no
	less than 12-months—provided there is a strong likelihood income will continue. When the income used
	to qualify has less than a 2-year history the file must contain a written explanation and justification from
	the underwriter as to why the income was used to qualify.
	Required Documentation:
	Most recent YTD pay stub documenting at least 30 days of income. Paystub must be dated no earlier
	than 30 days prior to the application date, and must include all year-to-date income. If the paystub does
	not include sufficient information to appropriately calculate income, additional documentation must be
	obtained; and
	2 years most recent W-2s; and
	 Verbal Verification of Employment performed no more than 10 business days prior to the loan closing
	Unemployment Benefit Income: Refer to Section Unemployment Benefits.
Age of	Preliminary Title Reports should be dated within 30 days of the closing date. The final policy must
Preliminary Title	disclose and insure items and exceptions to the date of close.
Third Party	Third party vendors may be used as an alternative method for obtaining a borrower's income verification.
Vendor	for the eligible income source that require pay stubs and W-2's listed below. The verification must
Verification	provide the level of documentation required by the documentation process selected. For example, if the
	loan requires a 2-year income history, the verification documents must contain a full 2-year income
Services	history. If it does not (e.g., there are gaps within the report), additional documentation must be obtained
	from the borrower to complete the 2-year requirement e.g., W-2s).
	year-to-date earnings as well as prior year's earnings just as it would be shown on a written VOE. These verifications are acceptable provided:
	- The borrower(s) provide consent to verify income and employment; and The date of the completed verification is in compliance with the Age of Credit Decuments and
	 The date of the completed verification is in compliance with the Age of Credit Documents and Federal Income Tax Returns (refer to 1508.2-Credit/Analysis/Age of Credit Documents); and
	 Discrepancies or conflicting information provided by the borrower or in the loan file versus what
	is reflected on the vendor report must be investigated and appropriately considered when calculating the borrower's income to qualify.
	Note: Third party vendor verifications do not disclose deductions and garnishments, therefore, if the
	borrower discloses on the application they have payroll deductions (i.e. child support, alimony, 401k
	loan, etc.) then supporting documentation must be obtained from the borrower (e.g., court documents,
	legal filings, etc.).
	This does not replace the need to obtain a verbal employment verification ≤10 business days prior to elega. However, it can be the required for obtaining the verification within the required time from
	close. However, it can be the resource for obtaining the verification within the required timeframe.
	The validated income document must be retained in the loan file and may not pre-date the application date. (The application date application date application) to the "initial application" to the property of the application.
	date. (The application date applies to the "initial application" taken face-to-face, mail, phone, or via
	internet.)
	Verification Services for Income may be used for the following income types:
	- Base pay
	- Bonus
	- Overtime
	- Commission (<25% & ≥25% of the borrower's total income)
	Verification Services for the 4506-C may be used for the following income types:
	- Commission (≥25%) of the borrower's total income
	- Social Security, Retirement (Pension, Annuity), and
	- Self- Employed Income (Sole Proprietor, Schedule C)
	Notes:
	Military income is not eligible for Third Party Verification. Verification Commission required by a good fit the Portrayon is completed by a good by a
	- Verification Services may not be used if the Borrower is employed by someone who has an
	interest in the subject property. Additionally, the "Date Last Updated" field on the Income
	Verification report must comply with policy as it relates to the age of income documents. For
	example, if policy requires pay stubs covering the most recent 30-day period, the "Date Last
	Updated" must be dated within the past 30 days.
	 Only Social Security Retirement income may be verified via the Third Party Verification services
	Social Security Disability Income (SSDI) Supplemental Security Income (SSI) and survivor
	a benefite and not eliminate ton Thind Doub, conflication
	benefits are not eligible for Third Party verification.
Tips and	Tips or gratuity income is compensation received in addition to the employee's straight salary or hourly
Tips and Gratuities	

	Gratuities and tips can only be included in qualifying income if they are included in two years of taxable income. This income source is usually found on W-2s or 1040s. The income should be reported to the IRS. The employer must also indicate that the tip income will in all probability continue.
	 Required Documentation: Most recent YTD pay stub documenting at least 30 days of income. Paystub must be dated no earlier than 30 days prior to the application date, and must include all year-to-date income. If the paystub does not include sufficient information to appropriately calculate income, additional documentation must be obtained; and
	2 years most recent tax returns with all W-2s; and
	 Note: The borrower may report additional tip income to the IRS using Form 4137, Social Security and Medicare Tax on unreported tip income, when filing his/her tax returns. This income may be used in qualifying if the most recent two years federal income tax returns with Form 4137 are obtained. Determine that the income is likely to continue based on an established earnings trend.
	 If the trend is stable or increasing, income can be averaged over the two year period. If the trend was declining but has since stabilized and there is no reason to believe that the borrower will not continue to receive the income at the current level, the current, but lower stabilized amount must be used.
	 If the trend is declining, the income may not be stable and additional analysis must be performed to determine if the income should be used. Income should not be averaged over the period of decline;
	 Verbal Verification of Employment performed no more than 10 business days prior to the loan closing; and
	For First Mortgage transactions, either verbal or written confirmation with borrower's employer that tip income is likely to continue. (Written VOE may be required. If confirmation cannot be obtained, the income may not be used to qualify.)
Union Worker	Union workers are members of a specific trade union and are often skilled tradesperson (e.g., electricians, plumbers, roofers, etc.). Workers can work for a single employer on a long-term basis or for more than one employer throughout the year. At the completion of a job, the Union will then refer the individual to a new employer. During the individuals' course of employment with the assigned employer, they are paid directly by the employer, not the Union. Their jobs may be seasonal and it is not uncommon for individuals to receive unemployment during down time.
	 uncommon for individuals to receive unemployment during down time. If the borrower is in a line of work that is deemed seasonal (e.g., roofing) and is not working at the time of loan application or closing, they may still be eligible for financing. Verify that the borrower is a member
	of the union and in good standing. It is not necessary to verify the union dues or count them as a liability. If the borrower is a member of a local trade union and obtains employment via these means, income can be verified by the following:
	Required Documentation:
	2 years tax returns; or2 years of W-2s and/or 1099s, or
	 A VOE from the Union for earnings from all employers during the current year and a W-2 from prior year.
	If the union work is paid with a 1099 and have expenses that may be deducted from the income used to qualify, s/he should be treated as a self-employed borrower, averaging the income over a 2-year period.
	Note : This policy does not apply to borrowers who are employed by a traditional employer (e.g., GM, Ford, etc.), but rather are members of a trade union such as a carpenters union. Borrowers who are employed by a traditional employer would be considered wage-earner employees.
Verbal VOE	The purpose of a verbal verification of employment (VOE) is to: 1) confirm the borrower's current employer; and 2) confirm that the borrower's employment status has not changed. VOE is not required for previous employers.
	 A verbal VOE must be performed no more than 10 business days prior to the loan closing on all loans regardless of the initial income/employment verification type used. Neither a pay stub nor a written VOE (Verification of Employment) Form may replace the verbal VOE except as noted below.
	 Exception: A verbal VOE does not have to be performed if a written VOE is received from the employer and meets the following requirements:
	 Is dated within 10 business days of the closing; AND Provides all employment information required on a Verbal VOE.
	Note : If the employer will not verbally verify employment, a written verification or verification from a third party employment verification vendor may be obtained within the same time frame as indicated above for the verbal VOE.
	The phone number that the borrower provided as their employer's number must be independently confirmed by using the phone book, calling Directory Assistance, or through the internet via a resource such as "The Work Number". Contact with the employer must be documented in writing via the verbal VOE form and must contain the following information: — Borrower Name
	 Name of the borrower's employer Name, title and department of the person who provided the confirmation (generally, this
	information should be provided by a Human Resource representative or the borrower's
	supervisor or manager) - Employer's telephone number and the source from which the number was obtained (e.g., directory assistance, phone book, etc.).
	Statement that the borrower is or is not currently employed.

Written Verification of Employment (WVOE) Form	Other remarks that may be pertinent to the transaction. Name and title of the individual who contacted the employer and the date the information was obtained; OR O An email exchange with the borrower's employer from the employer's work email address within the same time frame as the verbal VOE requirements is acceptable. The following guidelines must be followed: Homebridge must conduct additional due diligence to confirm that the email address for the employer is accurate. Examples of due diligence include, but are not limited to, searches of domain name on employer website (review for match to employer email address), employer directory on the internet, or other professional networking or business profile websites. The email must include borrower's name, and employer's name, the name, title and work email address of the individual contacted at the employer, the date of contact and borrower's current employment status. Nate: When the verbal verification is generated electronically by the employer or a third party the following information is not required to be reflected on the VVOE: Name, title and department of the person who provided the confirmation; or Name, title and department of the person who provided the confirmation; or Rame, title and open number and the source from which the number was obtained. As noted above, the verbal VOE must be performed within 10 business days prior to the loan closing. If any electronic data base is used to obtain the verbal VOE, it is important to note that the completed date on the verification document may not be older than 35 days old prior to the closing date. Union Workers: If the union facilitates the borrower's placement in each assignment and it is determined that the Borrower's employment and income history is stable, the verbal VOE must be faced on the verification of Employment; was also as those who are in between employers at the time of closing. A written WVOE (Verification of Employment) may be used to verify income and employment. If a written

Additional Documentation

Living Trusts / Inter Vivos Trusts

Eliqible Borrowers

- The borrower and co-borrower must qualify as individuals for the loan. The grantor/trustor/settlor (or at least one grantor/trustor/settlor, if there is more than one) must be a borrower or co-borrower.
- <u>Eligibility Criteria for the Trust</u>: The trust must be established by a natural person— solely by one individual or jointly by more than one individual. The trust will be considered as an eligible borrower if it meets the following:
 - It must be established by a written document during the lifetime of the individual establishing the trust and effective during their lifetime.
 - The individuals establishing the trust have reserved to themselves the right to revoke the trust during their lifetime.
 - The primary beneficiary must be the individual establishing the trust. If more than one individual establishes the trust jointly, there may be more than one primary beneficiary. The income or assets of at least one of the individuals must be used to qualify for the mortgage and sign the mortgage instruments.
 - The trust document must name one or more trustees to hold legal title to and manage the property that has been placed in the trust. The trustees must include either the individual establishing the trust (or at least one of the individuals, if there is more than one) or an institutional trustee that customarily performs trust functions in (and is authorized to act as trustee under the laws of) the relevant state.
 - The trustee must have the power to mortgage the property for the purpose of securing a loan to the party who is the borrower under the mortgage note.
- <u>Eligibility Criteria for the Mortgage</u>: A mortgage that has an inter vivos trust as the borrower must satisfy the following:
 - The property must be a 1-4 unit owner-occupied principal residence, 1-unit second home, or 1-unit investment property. If the property is a primary residence, it must be occupied by at least one of the individuals establishing the trust (and whose income or assets are used to qualify for the mortgage).
 - Full title may be vested in the trustee's name or vested jointly in the trustee and in the name of an individual borrower or in the trustee of more than one inter vivos trust.
 - The title insurance policy must assure full title protection to Homebridge and must state that title to the property is vested in the trustee's name. It must not list any exceptions with respect to the trustee holding title or to the trust.
 - The mortgage must be underwritten as if the individual establishing the trust were the borrower or the co-borrower (if there are additional individuals whose income or assets will be used to qualify for the mortgage).
- <u>California Properties</u>: California Probate Code prohibits Homebridge from requiring disclosure of the beneficiary information (dispositive provisions) of the trust agreement. Therefore, the underwriter is not required to verify that the beneficiary is an applicant.

Trust Documentation

- Homebridge must retain in the Mortgage file:
 - A complete copy of the trust documents or a copy of the abstract/certification or summary; and
 - A copy of any trust documents that the title insurance company required in making its determination on the title insurance coverage.

Title Requirements

- The title insurance policy must assure full title protection, and must indicate that title to the property is
 vested in the names of the trustee(s) of the living trust. The policy may not list any exceptions with
 respect to the trustee(s) or the living trust.
- The title may be vested jointly in the trustee(s) of the inter vivos trust and in the name(s) of an individual borrower(s) or in the trustee(s) of more than one inter vivos trust.

Reviewing the Living Trust

Homebridge is responsible for ensuring that the trust meets the following requirement:

- Date of the Trust
 - The living trust must have been established by a written document during the lifetime of the grantor/ trustor/settlor, and must have been effective during his/her lifetime.
- Revocability
 - The living trust must be revocable, and that power must be clearly stated in the living trust agreement.
- Beneficiary
 - The grantor/trustor/settlor must be the primary beneficiary. If the living trust is established by more than one grantor/trustor/settlor, there may be more than one primary beneficiary as long as all of the following apply:
 - The income or assets of at least one grantor/trustor/settlor is used to qualify for the loan; and
 - That grantor/trustor/settlor will occupy the property and sign the loan documents.

Trustee

• The living trust agreement must name one or more trustees to hold title to and manage the property held by the living trust. The trustee(s) must include one of the following:

- At least one grantor/trustor/settlor; or
- An institutional trustee (i.e., bank, trust company, attorney) that customarily performs trust functions and is authorized to act as trustee under the laws of the state.
- Homebridge must examine either the trust agreement, or the abstract, certification or summary of the trust agreement and determine that the living trust addresses each of the following matters:
 - The trustee is authorized to borrow money, or purchase, construct or encumber realty.
 - The beneficiary either does not need to grant written consent for the trust to borrow money, or, if such consent is required, it has been granted in writing for purposes of the Mortgage.
 - The settlor has retained power to revoke or alter the trust.
 - There is no unusual risk or impairment of Homebridge's rights (such as distributions required to be made in specified amounts from other than net income).
 - Holding title in the trust does not diminish Homebridge's rights as a creditor, including the right to have full title vested to us should foreclosure proceedings have to be initiated to cure a default under the terms of the mortgage.
- The trustee(s) must have the power to mortgage the subject property for the purpose of securing a loan
 to the parties who are the borrower(s) under the Note. If the living trust agreement requires the
 beneficiary's consent to mortgage the property, it must be granted in writing.

Fictitious/Blind Trust

 A fictitious/blind trust is one established to protect the identity of a borrower. This is more common with actors, judges, etc. Homebridge does not allow borrowers to close using a fictitious/blind trust.

Signature Requirements

- Each trustee of the living trust must execute the Note, Security Instrument, and any necessary
 addendum and/or rider. Each applicant must execute the promissory Note and any necessary
 addendum. In addition, each applicant must acknowledge all of the terms and covenants in the Security
 Instrument and any applicable rider and agree to be bound thereby by placing their signature after a
 statement of acknowledgment on such documents. Any other party that is required to sign either the
 Note or Security Instrument must also execute the applicable document(s).
- When Homebridge originations a mortgage for properties that are in an inter vivos trust, they are
 responsible for making any modifications (including the use of different terminology, if appropriate)
 needed to conform the recommended signature forms below to those that are customary to state or local
 real estate requirements.

Note, & Any Necessary Addendum:

Each trustee of the living trust who is not both a grantor/trustor/settlor and an applicant (i.e., institutional
trustee) must sign the Note, and any necessary addendum, using a signature block substantially similar
to the following, inserted in the borrower's signature lines:

"[Name of Trustee], Trustee of the [Name of Trust] Trust under trust instrument dated [Date of Trust], for the benefit of [Name of Beneficiary] Borrower."

• Each trustee of the living trust who is both a grantor/trustor/settlor and an applicant (as in most cases) must sign the Note, and any necessary addendum, using a signature block substantially similar to the following, inserted in the borrower's signature lines:

"[Name of Trustee/Individual], individually and as Trustee of the [Name of Trust] Trust under trust instrument dated [Date of Trust], for the benefit of [Name of Beneficiary] Borrower."

Security Instrument, & Any Necessary Rider:

- All trustee of the living trust must sign the Security Instrument, and any necessary rider, using a signature block substantially similar to the following, inserted in the borrower's signature lines:
 "[Name of Trustee], Trustee of the [Name of Trust] Trust under trust instrument dated [Date of Trust], for the benefit of [Name of Beneficiary] Borrower."
- The following acknowledgement should be added to the Security Instrument, and any necessary rider, after the signature lines and then signed by each grantor/trustor/settlor who is an applicant:

 "BY SIGNING BELOW, the undersigned, grantor/trustor/settlor of the [Name of Trust] Trust under trust instrument dated [Date of Trust], for the benefit of [Name of Beneficiary], acknowledges all terms and covenants contained in this Security Instrument and any rider(s) thereto and agrees to be bound thereby.

 (Seal)

Trust Grantor/Trustor/Settlor."

Important: Signatures may not contradict the typed name and text below the signature line. The signature itself may not have any qualifiers, such as "trustee" or "settlor" unless it matches precisely with the typed name and text below the signature line. Below are examples of Acceptable and Unacceptable Signatures, these are not all inclusive. If the signature(s) varies from the typed name(s), the degree of

CEMA

Refinance Transaction

• The follow documents must be provided:

variance determines whether the document is acceptable.

- All original Notes, recorded mortgages, intervening recorded assignments, and previous recorded CEMAs
- If the original is not available, Homebridge accepts a recorder's certified copy of the recorded mortgages, assignments and CEMA's from the clerk/registrar's office.
- Homebridge must be willing and able to assign the mortgage to the investor by an officer of the lending institution.

- The existing Note must contain the proper endorsement to the investor and be signed by an officer of the lending institution.
- If the Note is lost or misplaced, a replacement Note or copy of the original Note, with a lost Note affidavit (for conventional loans) or lost Note bond (for government loans) and an allonge for Note must be provided, along with all original prior endorsements.
- A recorded assignment is required for each historical transaction. In lieu of an original endorsement, the investor will accept an original recorded assignment.
- All document deficiencies must be cured before the loan is purchased.
- All documents must be properly executed, endorsed and listed in sequential order without a break in the
 chain of assignments. The original documents (recorder's certified true copies, as applicable) must be in
 the closing package. The investor will NOT purchase a loan without the original documents.

Purchase Transaction

- A CEMA can also be used in a purchase transaction; it is similar to an assumption in that the original lien stays in tact. With purchase money CEMA's, the customer can modify the terms of the existing lien(s) and do so with or without receiving cash out. A drawback to this type of purchase transaction is that the original mortgagor remains liable for the original debt as evidenced by the fact that Homebridge retains the original Note.
- Non-Investor to Investor Purchase
 - The seller's attorney must obtain several pieces of information from the seller's existing lending institution and forward that information to Homebridge to include in the closing package. Refer to Refinance requirements above. The same documentation/conditions must be met.
 - All documents must be properly executed, endorsed and listed in sequential order without a
 break in the chain of assignments. The original documents (recorder's certified true copies, as
 applicable) must be in the closing package. The investor will NOT purchase a loan without the
 original documents.

Documentation Requirements

- All standard collateral documents are required in a MECA transaction. Prior to a MECA being placed on public record, every lien in the consolidation must be assigned to the new mortgagee. The "old" Notes must also be endorsed to the new mortgagee. All original endorsements and assignments must be present and follow suit in sequential order.
- The CEMA document itself details prior liens and new funds, as applicable, on the face of the document. All documentation information involved in the current transaction, including customer and lender names, closing dates and recording information of each document, must be accurately documented here.
- Assignments, Mortgages, CEMAs or missing Notes the investor cannot purchase the loan as a CEMA without curing the documentation deficiencies.

Prior Note(s)

 The investor reviews the documents prior to purchasing the loan to ensure the chain of title is intact and all Note endorsements are present/correct. The final endorsement to the Note must read as follows: "Without recourse, pay to the order of [the investor]." The endorsement must have an original signature from the assigning lender and include Homebridge's name and the name and title of the individual signing.

Prior Recorded Document(s)

 The investor reviews the documents prior to purchasing the loan to ensure the chain of title is intact and the documents are acceptable.

New Documents

If the principal balance increases, a "new" Note and mortgage must be executed for the "new money."
This Note and mortgage, along with all "old" Notes and "old" mortgages, are then consolidated into a
single lien with the governing terms described in the CEMA. The CEMA must be the last document
placed on public record. If the customer does not receive cash out, a new Note or mortgage is not
required. An Exhibit D, blank mortgage, and all applicable riders must be attached to the CEMA for
recording.

Hazard Insurance

Overview

- These policies apply to all mortgaged property types: 1-4 family properties, condominiums, and PUDs. Homebridge requires that the borrower obtain hazard insurance or ensure a Master Insurance Policy is in place in the case of condominiums and PUDs as protection from loss should the property be damaged or destroyed in the event of a disaster. An insurance binder as evidence of appropriate coverage is acceptable. Hazard insurance protects the borrower and Homebridge from loss in the event of fire, theft, wind and/or other covered cause or insured event that might reduce the property's actual value, as set forth in the Coverage Requirements section below. The amount of coverage and the premium are both stated on the policy.
- Each borrower has the right to select an insurance carrier to provide hazard insurance for the
 mortgaged property. Homebridge requires that the carrier of the policy have an S&P rating of BBB, A.M.
 Best rating of B+, or Demotech, Inc. rating of A and that coverage meet the requirements specified
 below and in the Fannie Mae/Freddie Mac Agency Guides and HUD Handbook.

- The following types of hazard insurance policies are also acceptable:
 - Policies underwritten by a state's Fair Access to Insurance Requirements (FAIR) plan, if it is
 the only coverage that can be obtained. However, if the FAIR plan policy does not have the
 required coverage, an acceptable stand-alone policy or policies that provides adequate
 coverage for the limited or excluded peril must be obtained;
 - Policies obtained through state insurance plans—such as the Hawaii Property Insurance Association (HPIA), Florida's Citizens Property Insurance Corporation, or other state-mandated windstorm and beach erosion insurance pools—if that is the only coverage that is available; and
 - A separate hurricane insurance policy issued by the Hawaiian Hurricane Relief Fund (for properties in Hawaii), as long as the companion non-catastrophic fire and extended coverage (or homeowner's) policy is obtained from a hazard insurer that satisfies agency rating criteria.
- Homebridge represents and warrants that loans delivered to the investor have been originated and serviced in compliance with all applicable laws and regulations, including the Real Estate Settlement Procedures Act (RESPA) as well as agency guidelines. Homebridge also represents and warrants that the insurance coverage meets all Regulatory and investor policies.
- The policy must have an effective date on or before the disbursement date.
- Each loan must include a copy of the hazard insurance policy. A binder is acceptable if all of the following criteria are satisfied:
 - 1. The full one year policy period dates are present
 - 2. The coverage information is present
 - 3. Proof of premium payment is documented
- Homebridge requires evidence of 1 year's paid receipt of purchase loans. For refinance transactions,
 Homebridge will accept an existing hazard insurance policy provided that it remains in force for at least
 30 days after purchase. If due less than 30 days, Homebridge is required to provide a copy of the paid
 receipt and an updated declarations page.

Disclosure Requirement

- Purchase Transactions
 - In accordance with the regulations promulgated under the Truth in Lending Act (TILA), the estimated annual hazard insurance premium amount must be disclosed on the Loan Estimate. The monthly amount of the premium will be disclosed as part of the Estimated Escrow and Estimated Taxes, Insurance, Assessments row of the Projected Payments table on page 1 of the Loan Estimate. At closing, the final Closing Disclosure must reflect the actual hazard insurance premium being paid by the customer.
 - In addition, the amount to be escrowed for the hazard insurance premium must be disclosed as part of the Other Costs, section G. Initial Escrow Payment at Closing on page 2 of the Loan Estimate. At closing, the final Closing Disclosure must reflect an escrow amount (generally 2 month's) that is based on the actual hazard insurance premium being paid by the customer.

Refinance Transactions

- Homebridge will accept an existing hazard insurance policy provided that it remains in force for at least 30 days past the date the investor purchases the loan with the exception of a Condominium Master Policy. The Condominium Master Policy must be current but is not limited to a specific number of days beyond closing.
 - The monthly amount of the hazard insurance premium amount must be disclosed on the Loan Estimate. The monthly amount of the premium will be disclosed as part of the Estimated Escrow and the Estimated Taxes, Insurance and Assessments rows of the Projected Payments table on page 1 of the Loan Estimate. At closing, the final Closing Disclosure must reflect the actual hazard insurance premium being paid by the borrower.
 - In addition, the amount to be escrowed must be disclosed as part of the Other Costs, section G. Initial Escrow Payment at Closing on page 2 of the Loan Estimate.
- Additional requirements for escrow accounts are:
 - If the policy will remain in force for at least 30 days, 2 months of the annual hazard insurance premium amount must be disclosed on the Loan Estimate.
 - If the policy will not remain in force for at least 30 days, the total annual hazard insurance premium amount must be disclosed on the Loan Estimate.
 - The amount disclosed must be equal to the annual premium plus 2 month's cushion minus the amount to be collected via the escrow payments prior to payment of the hazard insurance premium.
 - A 2-month cushion is not collected in all states; follow state guidelines.

Coverage Requirements

 Property insurance for home mortgages must provide for and protect at all times against loss, damage, and known hazard risks based on the geographic location the property is in from fire and other hazards covered by the standard extended coverage endorsement.

- The policy must provide coverage equal to or broader than those coverage's provided under an Insurance Services Office (ISO) homeowner's form HO-3 (also known as a Special Coverage Form Policy) for primary residences or DP-3 for second or investment homes.
- The coverage must be of the type that provides for claims to be settled on a replacement cost basis. Policies that settle losses on an actual cash value basis are not acceptable.
- For 1-4 Family Properties, the coverage, at a minimum must include all known hazard risks based on the geographic location of the property and all of the perils listed below:
 - Fire and Lightning
 - Explosion
 - Windstorm (including named storms designated by the U.S. National Weather Service or the National Oceanic and Atmospheric Administration by a name or number)
 - Hurricane
 - Hail Damage
 - Smoke
 - Aircraft
 - Vehicles
 - Rior or Civil Commotion
- For Condominium and PUDs, the Master Property Insurance policies for projects must include all of the perils listed above for 1-4 family properties in addition to the below:
 - Vandalism
 - Sprinkler Leakage
 - Sinkhole Collapse
 - Volcanic Eruption
 - Falling Objects
 - Weight of snow, ice, or sleet
 - Water Damage
- If the hazard insurance coverage on the policy is not clear or questions arise regarding the coverage, the borrower's Insurance Agent must be contacted by Homebridge to verify that the policy includes all the required perils and known hazard risks based on the geographic location of the property. The file must clearly document the conversation with the Insurance Agent and remain in the file at all times.
- If a property insurance policy (either 1-4 family properties or Condominium, PUD) excludes or limits
 coverage of any of the required perils, the borrower or the HOA must obtain an acceptable stand-alone
 policy or policies that provides adequate coverage for the limited or excluded peril. Homebridge will not
 accept hazard insurance policies that limit or exclude any required peril from coverage, in whole or in
 part. This includes policies with vacancy clauses.

Note: A policy that has a cosmetic repair exclusion and the repairs are cosmetic in nature only and do not affect the structure, soundness or habitability of the residence are considered acceptable, if it can be determined that the cosmetic repair exclusion does not affect the structure, soundness or habitability of the residence. This can be verified via a statement from the insurer or other applicable professional, a replacement cost estimator, or an insurance risk appraisal.

- Homebridge should advise borrowers that they may not obtain hazard insurance policies that include such limitations or exclusions—unless they are able to obtain a separate policy or endorsement from another commercial insurer, property insurer, independent insurance risk specialist, or other professional with appropriate resources to make such a determination that provides adequate coverage for the limited or excluded peril or from an insurance pool that the state has established to cover the limitations or exclusions. Separate peril insurance policies follow the same requirements as the hazard insurance policies.
- Earthquake insurance is not required.
- To ensure compliance with Homebridge requirements, the policy to determine the required coverage amounts is as follows:
 - 1-4 family properties 100% of the insurable value which is replacement cost value as of the current property insurance policy effective date, as determined by the property insurer, independent insurance risk specialist, or other professional with appropriate resources to make such a determination. The source to verify the coverage amount may be the property insurer, an independent insurance risk specialist, or other professional with appropriate resources to make such a determination. This may include, but is not limited to, a statement from the insurer or other applicable professional, a replacement cost estimator, or an insurance risk appraisal. If the coverage amount does not meet the minimum required, coverage that does provide the minimum required amount must be obtained.
 - Condominium projects 100% of the insurable value which is the replacement cost value of the project's improvements including common elements as of the current property insurance policy effective date and residential structures, as determined by the property insurer, independent insurance risk specialist, or other professional with appropriate resources to make such a determination. This may include, but is not limited to, a statement from the insurer or other

applicable professional, a replacement cost estimator, or an insurance risk appraisal. Refer to Condo and PUD – Hazard Insurance for additional coverage requirements for project developments. (Such as additional Hazard Insurance, Liability, Fidelity, Flood Insurance, etc.)

Note: Policies that state Guaranteed Replacement Cost or Extended Replacement Cost are acceptable as long as it meets the required policies outlined above for 1-4 Family Properties and Condo/PUD Projects

Homebridge may accept more than the minimum required coverage but only at the borrower's discretion.
 However, if the coverage amount does not meet the minimum required, coverage that does provide the minimum required amount must be obtained.

Note: A policy that provides for guaranteed replacement cost, extended replacement cost or replacement cost will always cover the required minimum insurance coverage amount.

- <u>Fidelity/Crime</u> HOA fidelity/crime coverage must cover the management agent if the management agent handles the HOA's funds. The HOA's fidelity/crime policy must name the HOA as the named insured. Fidelity policies must adhere to the 10-day cancellation notice provision.
- Bodily Injury/Property Damage For condo and PUD projects must have coverage of \$1 million for bodily injury and property damage for any single occurrence.

Note: Properties in Hawaii that are located in Lava Hazard Zones 1 or 2, as determined by the U.S. Geological Survey, are not eligible.

• These guidelines for hazard insurance coverage differ from those for flood insurance coverage. Therefore, the minimum coverage amount for hazard insurance may be different from the minimum coverage amount for flood insurance. Make certain that the insurance policies adhere to the proper guidelines for the type (hazard/flood) of insurance.

Deductible Requirement

For all property types, the hazard insurance deductible or multiple deductibles, if applicable, may not
exceed 5% of the property insurance coverage amount. This applies to all applicable policies (i.e., HO-3,
HO-6, DP-3).

When There is One Single Policy

- When there is one single policy that covers all the required perils but may have multiple deductibles for certain individual perils, each covered peril may not have a deductible more than 5% of the coverage amount.
- For Example:
 - Policy A covers all the required perils. The coverage of the policy is \$1,886,500 but has a separate deductible for Hurricane and a separate deductible for Windstorm.
 - The deductible for Hurricane is 5% of the coverage amount. This meets the requirement.
 - The deductible for Windstorm is 10% of the coverage amount. This does not meet the requirement. The deductible amount may not exceed 5% of the coverage amount.
 - The rest of the perils covered under the policy has a deductible of \$5,000 which is well below the 5% maximum (\$94,325). This meets the requirement.

When there are Multiple Policies

- Each policy must have full replacement cost and may not have a deductible more than 5% of the coverage amount.
- For Example:
 - Policy A covers Windstorm, Hurricane, and Hail;
 - Policy B covers all the remaining required perils;
 - The deductible for each individual policy must not be greater than 5% of the coverage amount. In this example, Policy A must have a deductible no greater than 5% of its coverage amount and Policy B must have a deductible no greater than 5% of its coverage amount.

Master Property Insurance - Per Occurrence, Per Unit:

- A per unit master property insurance policy deductible will be permitted when the sum of the applicable
 per unit deductibles is greater than 5% of the coverage amount and ALL of the following requirements
 are met:
 - The master property insurance policy has a per unit deductible for named perils specific to a geographic area where such coverage is common and customary; and
 - The borrower's individual property insurance policy includes:
 - Coverage for the applicable peril(s); and
 - The coverage for master property insurance policy deductible assessments levied on the unit owner by the HOA or co-op corporation for the applicable peril(s); and
 - The loss assessment coverage in an amount sufficient to cover assessments in excess of 5% of the master property insurance policy coverage amount, divided by the number of units.
- For Example:

If the overall per unit deductible was no higher than 5%, but the Fire deductible (let's say California) was over 5%, then an HO-6 policy could be obtained that specifically covers Fire and covers the gap between the 5% and whatever per unit deductible the HOA has for Fire specifically.

Flood Insurance

Coverage Availability

The investor's Centralized Flood Team will validate loans prior to purchase are located in communities
participating in the NFIP.

Eligibility For Flood Insurance

 The investor will only purchase loans from Homebridge deemed as eligible for flood insurance under NFIP.

General Mandatory Purchase Provisions

• The investor requires Homebridge to provide evidence of adequate flood insurance on all properties located in a special flood hazard area prior to purchase. The investor completes a pre-purchase review to ensure a flood insurance policy is present.

Notice Requirements

- The investor requires Homebridge to provide a borrower signed copy (or a record of receipt the notice
 was provided to the borrower) of the Notice of Special Flood Hazard and Availability of Federal Disaster
 Relief Assistance form on all properties located in a special flood hazard area prior to purchase. The
 investor requires evidence the notice was provided to the borrower at least 10 calendar days prior to the
 closing date listed on the Closing Disclosure from the day of closing.
- For the Notice of Servicer's Identity requirement, the investor's policy dictates that Homebridge is responsible for updating the flood insurance policy mortgagee clause with their servicer's information within 5 days of loan purchase

Standard Flood Hazard Determination Form (SFHDF)

 The investor requires Homebridge to provide a SFHDF on all properties prior to the loan being purchased.

Escrow Requirements

- The investor requires Homebridge to provide evidence that flood insurance premiums are escrowed prior
 to purchase regardless if any other funds associated with the loan are escrowed such as taxes,
 insurance premiums, or any other fees or charges, or if the loan is considered to be a Higher Priced
 Mortgage Loan (HPML). Flood insurance premiums are not escrowed if paid by the condominium
 association, homeowner's association, or other group.
- The escrow requirement is limited to loans secured by "residential improved real estate." Title V defines "residential improved real estate" as "improved real estate for which the improvement is a residential building." Therefore, the determining factor in applying the escrow requirement is not the purpose of the loan, but the purpose of the building. For example, the escrow provision covers residential, rental and multifamily properties. Homebridge should exercise due diligence with respect to continuing compliance with the insurance requirements on the part of the association.
- Flood insurance premiums must be escrowed even if there is no escrow for taxes and/or insurance.
- Loans secured by property in a condominium or other project development where the flood insurance
 premium is paid by the condominium association, home owners' association, or other group are exempt
 from the mandatory escrow requirements.

Maximum Flood Insurance Coverage Requirements

- Homebridge reviews all flood insurance policies to ensure policy complies with NFIP requirements.
 Homebridge does not require flood insurance coverage exceeding NFIP maximum coverage requirements.
- The investor accepts Life of Loan flood certifications from Core Logic Flood Services at no charge to the Homebridge. A \$10 fee is assessed on all Loans that are submitted for purchase with a Life Of Loan Certification from a flood determination service other than Core Logic Flood Services.

Minimum Required Coverage and Deductible Amounts

- This section provides Homebridge policies for residential mortgage lending that complies both with regulatory standards and the guidelines of our primary investors. The requirements address condominium and PUD single- and multiple-family lending.
- Homebridge may allow the borrower to use the maximum deductible to reduce the cost of flood insurance. However, it is not a sound business practice for Homebridge to allow the borrower to use the maximum deductible amount in every situation. Homebridge should determine the reasonableness of the deductible on a case-by-case basis, taking into account the risk that such a deductible would pose to the borrower and lender. Homebridge may not allow the borrower to use a deductible amount equal to the insurable value of the property to avoid the mandatory purchase requirement for flood insurance. Note: See coverage requirements for Condominium Units within this section for additional requirements. Refer to the Requirements for Private Flood Insurance section below for additional private flood insurance deductible and coverage requirements.

Condominiums

Condominium associations of a residential building located in an SFHA may purchase NFIP coverage
under the Residential Condominium Building Association Policy (RCBAP). Under a RCBAP the entire
building is covered under one policy.

Coverage and Deductibles

- If a condominium project (including high-rise or other vertical buildings), and any part of the improvements are located in a Special Flood Hazard Area (SFHA), the association and/or the applicant must provide a policy evidencing proof of flood insurance for each building that is located in a SFHA. The minimum amount of coverage must meet Fannie Mae and Freddie Mac requirements as stated below.
- The condominium must maintain a master flood policy that provides coverage that is at least 80% of RCV up to the NFIP maximum amount of coverage (\$250,000 times the number of units). If after meeting this requirement, the master policy does not provide allocated coverage on a per unit basis that meets the minimum coverage required for a one - to - four family unit, the borrower must provide a supplemental dwelling policy to meet the minimum amount required for the unit.
- Due to investor requirements, Homebridge cannot lend on condo units where the condo association has not obtained at least 80% of RCV coverage unless the RCBAP coverage was limited to the NFIP maximum as described above (e.g., \$250,000 per unit).
- Note: When the amount of insurance required under an individual Dwelling policy is less than \$100, the coverage may be waived.
- The master policy must include coverage on all the units within the building and the improvements within the units up to a maximum of 100% of replacement cost but not to exceed \$250,000 per unit (e.g., 10 units @ \$250,000 each requires coverage totaling \$2,500,000).
- These parameters apply to all properties within condominium projects that are located in FEMA flood zone "A" or "V" regardless of the number of units, the type of project review required (e.g., Limited Project Review), including those approved by Fannie Mae as evidenced by an unexpired FNMA Form 1028, and properties located within projects that have already been approved.
- The maximum deductible for RCBAP policies is \$25,000. The maximum deductible for a supplemental dwelling policy for the unit is \$10,000.

Co-Insurance

The Biggert-Watters Flood Modernization Act removed the co-insurance penalty from unit policy holders.
 Now coverage can no longer be denied solely upon the basis of coverage being available under the RCBAP.

Single Family, 2-4 Family, and Individually Insurance PUD Properties

- The minimum amount of flood insurance required for first mortgage secured by one-to-four-unit properties is the lower of:
 - 100% replacement cost of the insurable value; or
 - The maximum insurance available from the NFIP; or
 - The unpaid principal balance of the mortgage.*
- *Coverage is only required on the new first mortgage loan unless there is a Homebridge subordinate loan. In that case, both loans must be covered.
- The minimum NFIP deductible may not be less than:

Deductible	Flood Insurance Coverage Amount
Pre-FIRM: \$1500	\$100,000 or less
Pre-FIRM: \$2000	\$100,000+
Post-FIRM \$1000	\$100,000 or less
Post-FIRM \$1250	\$100,000+

- The maximum deductible for residential properties under NFIP is \$10,000.
- PUD Projects Insured by the Association:
 - 1-4 Unit Projects: The lesser of the insurable value of the facilities, \$250,000 (which is the maximum NFIP coverage), or the unpaid principal balance of the mortgage.*
 - *Coverage is only required on the new first mortgage loan unless there is a Homebridge subordinate loan. In that case, both loans must be covered.
 - 5 or More Projects: The lesser of the insurable value of the facilities or \$500,000 per building.
- The maximum deductible available under NFIP for dwelling/general property policies is \$10,000 and policies covering buildings with 5 or more units are \$50,000. The master or blanket policy must include a provision that premiums are paid as a common expense and must name the building owner as the insured. The Homeowners Association may be an additional insured.

Other Coverage Requirements

• Homebridge represents and warrants the evidence of flood insurance provided is adequate and complies with NFIP prior to the purchase of the loan.

Requirements For Private Flood Insurance

For single-family loans and condominiums, private flood insurance policies are permitted subject to review and approval by the investor.

- Coverage Requirements
 - Single Family, 2-4 Family and Individually Insured PUD Properties
 - The deductible must meet NFIP requirements based on the property type. However, the deductible may be higher than NFIP deductibles when coverage amounts exceed NFIP coverages. In this instance, the borrower must have two times that deductible in

	liquid reserves/assets. Pooled risk policies (covering multiple condominium associations) are not acceptable to primary investors or consistent with this policy. - Condominium and PUD Properties Insured by the Association o The deductible must meet NFIP requirements based on the property type. However, the deductible may be higher than NFIP deductibles when coverage amounts exceed NFIP coverages. In this instance, the HOA/Condo project must have adequate cash reserves available at the time of review. Pooled risk policies (covering multiple condominium associations) are not acceptable to primary investors or consistent with this policy.
	Property and Appraisal
General Overview	 Homebridge represents and warrants that any appraisal and all appraisal practices used in originating loans for sale to the investor: conforms to the requirements of the investor; comply with Appraiser Independence Requirements (AIR); meet minimum standards established under Financial Institutions Reform, Recovery, and Enforcement Act (FIRREA) and meet all and the Uniform Standards of Professional Appraisal Practice (USPAP). All appraisals submitted must include the appraiser's name (clearly typed) and signature. The appraiser
	must provide their typed certification or license number. Appraisal photos must be in color. Homebridge is responsible for monitoring the quality of their appraisals. Note: Transferred appraisals are acceptable
Appraisal Standards	 if they comply with all appraisal practices stated above. In compliance with the FIRREA standards, all appraisals must meet the following requirements: Homebridge must comply with the appraisal requirements established by their primary regulatory agency and provide appraisals which meet the minimum standards established by FIRREA, USPAP, and the regulatory agencies.
	 Homebridge requires that appraisals be completed by fully licensed or certified appraisers. All complex assignments, including anything over \$1,000,000 must be completed by a certified appraiser and a copy of the license must be included. The appraisal must be typed and complete, with all appropriate boxes checked. The comment section
	should be fully utilized.
Appraisal Representations and Warranties	 Homebridge represents and warrants that any appraisal submitted with each Loan file is completed in accordance with all legal and Homebridge requirements for appraisals, and is submitted in support of the value of the property as represented in the Loan file, which is at least equal to the appraised value shown on the appraisal, and may be relied upon by the investor to support the required representations and warranties made in connection with the sale of the Loan to any investor regarding the property value.
	 Homebridge further represents and warrants the following: The appraiser who performed the appraisal on any Loan submitted for purchase is currently licensed by the state in which the property is located; The appraiser has disclosed any services regarding the subject property performed by the appraiser within the prior three years as an appraiser or in any other capacity; The license held is the appropriate license for the appraisal assignment involved; The appraiser is qualified to handle the appraisal of the property type involved; The appraiser is unrelated to anyone directly involved or compensated by the closing of this transaction; The appraiser is a disinterested third party to the property transaction; and There have been no monetary or other sanctions imposed on the appraiser by the state licensing authority.
	The foregoing covenants, representations and warranties supplement all of the other terms, conditions, covenants, representations and warranties made by Homebridge, all of which remain in full force and effect.
Quality Control System	 Homebridge must have the necessary review process in place to continually evaluate the quality of the appraiser's work through normal underwriting reviews and spot-check field reviews. Homebridge must notify the investor immediately if any spot check review reveals quality or value issues on any appraisal performed for any Loans purchased by the investor.
	 The investor requires Homebridge to have an acceptable Quality Control System in place prior to approval. Each system is reviewed and approved on the basis of its compliance with the investor's Quality Assurance Standards. Homebridge's Quality Control System is expected to contain stringent requirements for the approval of individual appraisers.
	 Homebridge must continually evaluate the quality of an appraiser's work through normal underwriting review of appraisal reports, and a thorough spot-check field review of appraisals as part of its quality control system.
Unacceptable Appraisal Practices	The appraiser is expected to follow appropriate practices in the property valuation process. The development of a valuation conclusion that is based—either partially or completely—on any of the following is strictly prohibited: Race, color, religion, sex, handicap, familial status, or national origin of either the prospective owners or occupants of the subject property or of the present owners or occupants

	of the properties in the vicinity of the subject property; consideration of age or location of the property or age of the neighborhood in a manner that has a discriminatory effect; or that is based on any other factor that local, state or federal law deems as being discriminatory. In addition to the above, appraisals with any of the following deficiencies are not acceptable: Homebridge will not accept an appraisal that has been readdressed or altered by the appraiser with the intent to conceal the original client. Unsupported opinion of market value; Improper selection of comparable sales; Unsupported adjustments in the sales comparison analysis; Inadequate analysis and reporting of, the sales history of the subject property and comparable sales; Lack of analysis reporting of, the listing, offering, or contract sale for the subject property; and Misrepresentation of the physical characteristics of the subject property, improvements, or comparable sales. Note: The Appraiser may not have completed any undisclosed prior services to the subject property being considered for an assignment except for any prior appraisal services. The Appraiser must disclose at the time of the assignment and within the completed report, whether they are performing, or have performed, other services with regard to the property, such as property management, leasing, brokerage, auction, or investment advisory services, etc., so that Homebridge can determine potential conflicts, if any.
Appraisal Review	Homebridge reserves the right to perform reviews on appraisals, including all government loans, and to require additional information or value confirmation where deemed necessary. Homebridge reserves the right to refuse appraisals from any individual appraiser with or without cause.
Appraisal Management Companies (AMC)	Appraisal must be ordered from one of Homebridge's approved AMCs. Please refer to the Order an Appraisal page on the Broker Portal for further instruction.
General Appraisal Documentation Requirements	 The appraisal report forms are designed to provide a concise format for presenting both the appraiser's description of the subject property and the valuation analysis that leads to the opinion of market value. All forms and documentation must be completed in a manner that will clearly reflect the thoroughness of the appraiser's investigation and analysis and provide the rationale for the opinion of market value. The appraiser's analysis should go beyond any limitations of the forms and provide additional comments and exhibits when they are needed to adequately describe the subject property, document the analysis and valuation process, or support their conclusions. The extent of data collection, analysis and reporting must be determined by the complexity of the appraisal assignment. There are a number of ways to determine that the collateral is acceptable for the transaction. The forms vary depending on the underwriting method, the type of property, whether the borrower is purchasing the property as a residence or for investment purposes and the type of property inspection performed. Homebridge requires all written appraisals and/or inspections to be completed using standard Fannie
Age of Appraisals	 Mae/Freddie Mac forms. Properties must be appraised within the 12 months preceding the date of the note. Appraisals must be updated as follows: Appraisals: If the appraisal will be more than 120 days old at the date of the note the appraiser must provide an update to validate that the property has not declined in value since the date of the original appraisal by inspecting the exterior of the property and reviewing current market data. (This policy applies to all appraisals, regardless of whether the property was appraised as new construction or existing construction.) If the property value has declined, a new appraisal report is required. If two appraisals are required the lower of the two appraised values or the sales price (if applicable) must be used to calculate the LTV/CLTV/HCLTV. If two appraisals are required the lesser of the two values should be used to underwrite the transaction and determine LTV/CLTV/HCLTV. Note: For re-certification of value, if the appraisal used to establish value will be more than 120 days old on the note date, an exterior inspection of the property and review of current market data will be required. If the property value has declined, a new appraisal report is required. NOTE: If the loan was closed, or a construction loan modified into permanent financing more than 90 days prior to being purchased by the investor, the seller must provide a new appraisal or an appraisal update dated within 90 days of purchase by the investor to support there hasn't been a decline in the subject's property value since the last valuation was performed. If there is a decline in the property's value, the loan is ineligible for sale.
Documenting and Transmitting Appraisal Data	Electronic Preparation/Production of Reports The appraiser may use computer software programs that are designed to reproduce Fannie Mae/Freddie Mac appraisal report forms—including programs that have "expandability" features that allow increases in areas of the forms that call for insertion of narrative comments. However, the sequence of the information—as well as all of the specific information (including the instructions, entries, directions, etc.)—must be exactly as it appears on the hard-copy form(s). Electronic Transmission of Reports The investor will accept an appraisal that is electronically transmitted by facsimile, internet connection, wireless transmission, or any other transmission using public or private telephone lines in lieu of traditional hard copy appraisal provided it is legible and meets all other policies outlined in this chapter. The report must include the appraiser's signature; however Homebridge will also accept a laser or digital signature from the appraiser on an original appraisal report. All other requirements with regards to the

	appraisal report from the photos and all exhibits must be met. If an electronic transmission of the
	appraisal is provided, it is not necessary to provide the original appraisal report or original photos, however computer generated pictures are required. (MLS photos are not acceptable.)
	Note: Appraisals must be completed on forms that meet the investor's Uniform Appraisal Dataset,
	Uniform Collateral Data Portal, and Uniform Loan Delivery Dataset requirements.
Uniform	The Federal Housing Finance Agency has directed Fannie Mae and Freddie Mac (the GSEs) to collect
Appraisal	additional appraisal data for loans delivered to them. To comply with this requirement, the GSEs have
Dataset	created (1) a Uniform Appraisal Dataset (UAD) that defines all required fields and how fields should be
	completed in the appraisal report forms and (2) a Uniform Collateral Data Portal (UCDP) for submission
	of electronic appraisal data files to the GSEs.
	• Effective for all appraisals dated on or after September 1, 2011, appraisers are required to provide UAD-compliant appraisal reports for the appraisal report forms listed below:
	Uniform Residential Appraisal Report (Fannie Mae 1004 / Freddie Mac Form 70)
	Uniform Residential Appraisal Report (Desktop) (Fannie Mae 1004 Desktop / Freddie Mac
	Form 70D)
	 Individual Condominium Unit Appraisal Report (Fannie Mae 1073 / Freddie Mac form 465)
	- Exterior-Only Inspection Individual Condominium Unit Appraisal Report (Fannie Mae 1075 /
	Freddie Mac Form 466) - Exterior-Only Inspection Residential Appraisal Report (Fannie Mae 2055 / Freddie Mac Form
	2055)
	Note : UAD-compliant appraisal reports must be completed on the correct form, which will be identified
	by "UAD Version 9/2011" in the footer of the form. For loans with application dates on or after 12/1/11, if
	the above appraisal forms were completed prior to 9/1/11, Homebridge requires that the appraisals be
	provided in a format that permits successful submission to the agencies' Uniform Collateral Data Portals.
	 Certain UAD Condition and Quality Ratings for exterior-only appraisals require appraisal upgrades to a full interior/exterior appraisal – refer to the individual appraisal forms in this chapter.
	 Homebridge must comply with the GSE requirements for UAD-compliant appraisal reports for loans that
	are submitted for purchase.
	Additional detailed information about the GSE's UAD and UDCP requirements can be found at
	eFannieMae.com and FreddieMac.com.
Uniform	The Uniform Collateral Data Portal (UCDP) is a portal through which Homebridge are required to
Collateral Data	electronically submit appraisal reports for conventional mortgage loans delivered to Fannie Mae and Freddie Mac.
Portal	 The following appraisal reports, including all exhibits, addenda (including the Market Conditions
	Addendum), and photographs must be submitted to each agency's UCDP and receive a "Successful"
	status. Homebridge must ensure that unaltered reports submitted by the identified appraisers are
	submitted to the UCDPs.
	Uniform Residential Appraisal Report (Fannie Mae Form 1004 / Freddie Mac Form 70); Small Residential Income Property Appraisal Report (Fannie Mae Form 1005 / Freddie Mac
	 Small Residential Income Property Appraisal Report (Fannie Mae Form 1025 / Freddie Mac Form 72);
	- Individual Condominium Unit Appraisal Report (Fannie Mae Form 1073 / Freddie Mac Form
	465);
	- Exterior-Only Inspection Individual Condominium Unit Appraisal Report (Fannie Mae Form
	1075 / Freddie Mac Form 466);
	- Exterior-Only Inspection Residential Appraisal Report (Fannie Mae / Freddie Mac Form 2055);
	 The investor requires appraisals to receive a Successful status from both Fannie Mae and Freddie Mac. Homebridge must provide successful submission reports from both entities prior to purchase. All loan
	files must include two Submission Summary Reports (SSR), one from each agency. Both SSRs must
	include a Doc File ID (one Doc File ID is issued per property) and successful submission status.
	For additional information, refer to eFannieMae.com or FreddieMac.com.
Uniform	Homebridge requires both Freddie Mac and Fannie Mae's SSR forms to be provided in each closed loan
Collateral Data	package and they must contain a "Pass". While some messages are considered a warning, if any critical
Portal (UCDP)	messages are included in the SSR (determined to be "critical" by Fannie Mae or Freddie Mac), the appraisal will be reviewed by the investor's underwriters and additional documentation maybe required
Messaging	before the investor makes its purchase decision. Any loan received having 10 or more messages
	(warning and/or critical) will be carefully reviewed by the investor and suspended if additional
	documentation is needed.
	• For up-to-date information regarding UCDP, as well as a current listing of critical and warning messages,
	refer to the Fannie Mae UCDP web page at: https://www.fanniemae.com/singlefamily/uniform-collateral-
	data-portal or to the Freddie Mac UCDP page at: http://www.freddiemac.com/singlefamily/sell/uniform_collateral_data_portal.html.
	Homebridge should carefully review this information.
Standard	Standard appraisal requirements establish the value based on a thorough evaluation of both the interior
Appraisal	and exterior of the subject property. It includes a quantitative sales comparison analysis and requires the
Requirements	assignment of a dollar value to reflect the market's reaction to any features of a comparable sale that
	differs from those of the subject property.
	The form(s) required to document this information, which are listed below, is dependent upon the property type, leap program and approval/decumentation process selected.
	property type, loan program and approval/documentation process selected. Note: Fannie Mae and Freddie Mac form numbers are provided throughout this section. While Fannie
	Mae and Freddie Mac have assigned different form numbers, the forms themselves are the same. Refer
	S. a. a. round mad have accepted uniform form numbers, the forms themselves are the same. Neter

	to Single Family/Forms & Documents at eFannieMae.com or Single Family/Forms and the Guide at Freddiemac.com for a visual sample of the forms.
Additional Appraisals	Homebridge determines the number of appraisals required and the type of appraisal reviews required based on loan size.
	 If the loan amount is > \$2.0MM, two (2) appraisals are required. Ordering both reports from the same company, vendor, or agent is expressly forbidden. If two appraisal reports are required, the two reports must be ordered from two different Appraisal Management Companies (AMC).
	 If two appraisals are required the lesser of the two values should be used to underwrite the transaction and determine LTV/CLTV/HCLTV, unless Homebridge reviews both and determines the higher value is more accurate.
	 All appraisal reports that are more than 120 days old as of the Note/Mortgage require a recertification of value/update that includes an exterior inspection of the property and a review of current market data to confirm that the property has not declined in value since the date of the original appraisal.
Appraisals Used for Subsequent Transaction	 Use of an appraisal for a subsequent transaction is permitted when the prior transaction has closed and provided the following requirements are met: The subsequent transaction may only be a Rate/Term Refinance. The borrower and Homebridge must be the same on the original and subsequent transaction. The appraisal report must not be more than 12 months old prior to the note date of the subsequent transaction. (Policy regarding appraisal recertification still applies.) Since the effective date of the prior appraisal report, the mortgage premises must not have undergone any significant remodeling/ rehabilitation, renovation or have been affected by disaster to the extent that the improvement or deterioration of the property would affect the marketability or market value.
Special Appraisal Requirements for REO or Foreclosed	 Recent increases in property foreclosures (FCs) have resulted in some real estate owned (REO) properties being neglected and/or sitting vacant for extended periods of time before they are sold to new owners. In these cases, exterior-only appraisals or property inspection reports do not provide an accurate assessment of the condition of the property.
Properties	 or purchase transactions that are the result of the sale of an REO property, or the last transaction on the property being purchased was a FC, a full interior/exterior appraisal inspection is required. Fannie Mae Form 1004 / Freddie Mac Form 70 is required for one-unit properties; Fannie Mae Form 1073 / Freddie Mac Form 465 is required for units in condominium projects;
Borrower	 This requirement applies to all applicable conventional purchase transactions. If the appraisal format permitted for a loan transaction does not establish a value for the property, the
Appraisal	borrower has the right to request that an appraisal be obtained at their expense.
Disclosure Requirements	 The appropriate disclosure (Freddie Mac Form 1149 or an equivalent document) must be provided to the borrower. If the borrower(s) agree(s) that Homebridge may approve their mortgage loan without obtaining an appraisal, the borrower(s) must sign the disclosure.
Field Review Reports	 The purpose of an appraisal field review report is to provide Homebridge with an opinion on the accuracy and adequacy of the appraisal report that is being reviewed. The field review report must be completed in accordance with USPAP standards.
	 One of the following forms must be used: Fannie Mae Form 2000 / Freddie Mac Form 1032 – One-Unit Residential Appraisal Field Review Report, for 1-unit properties Fannie Mae Form 2000A / Freddie Mac Form 1072 – Two-to-Four Unit Residential Appraisal
	Field Review Report, for 2-4 unit properties
	 Because the Field Review Report allows for changes to market value, the appraiser completing the appraisal review must be licensed in the state in which the property is located, have access to the appropriate data sources, and possess the knowledge and experience to appraise the specific subject
	 property type in the applicable geographical location. If a field review or new appraisal is obtained, a Homebridge approved appraiser or agent that is not affiliated with the fee appraiser's firm/agency under scrutiny must complete the field review or new appraisal. If a change in value is warranted, the review appraiser must complete the assignment
	 according to Standard 3 of the Uniform Standards Professional Appraiser Practice. When the Field Review Report has a different value from the original appraisal report, the lower of the original report, field review value or sales price (if applicable) must be used to calculate the
	 LTV/CLTV/HCLTV. Exhibits: The following Exhibits are required to support each field review report: A street map that shows the location of the subject property and of all comparables included in the appraisal report under review and any additional comparable sales provided by the review appraiser;
	 Clear, descriptive photographs (photos must be in color) that show the front and a street scene of the subject property, and that are appropriately identified. (Photographs must be originals that are produced either by photography or electronic imaging);
	 Clear, descriptive photographs (photos must be in color) that show the front of each comparable sale included in the appraisal report under review and any additional comparable sales described in the appraisal field review report. Generally, photographs should be originals that are produced by photography or electronic imaging; however, copies of photographs from

	a multiple listing serv descriptive	ice or from the appraiser's files are ac	ceptable if they are clear and

The purpose the appraiser must take into usable, working reference tool for etailed parameters can be found in angle Family Seller/Servicer Guide the following requirements must be ketability must be provided to the quality and support all of the iclusions that were relied on in e subject property.

	 The most probably price agreed to by a buyer and seller who are typically motivated, well-
	informed/advised and acting in their own best interest, The property has been exposed in a competitive and open market for a reasonable time,
	The property has been exposed in a competitive and open market for a reasonable time, Payment is made in cash or equivalent, and
	 The price represents the normal consideration for the property, not affected by special or
	creative financing or sales concessions.
	Note : Not all of the topics discussed will appear on every appraisal report form, but the material is presented in the general order in which the topics appear on most forms.
Uniform	These requirements are effective for Uniform Residential Appraisal Reports (Fannie Mae 1004 / Freddie
Appraisal	Mac Form 70), Individual Condominium Unit Appraisal Reports (Fannie Mae 1073 / Freddie Mac form
Dataset (UAD)	465), Exterior-Only Inspection Individual Condominium Unit Appraisals (Fannie Mae 1075 / Freddie Mac
Condition and	Form 466), and Exterior-Only Inspection Residential Appraisal Reports (Fannie Mae / Freddie Mac Form 2055) dated on or after September 1, 2011. Other appraisal reports may also be completed in a UAD-
Quality Ratings	compliant manner.
	UAD Condition Ratings
	UAD-compliant appraisal report forms must include a UAD Condition Rating (C1, C2, C3, C4, C5, or C6)
	that best describes the overall condition of the subject property and each comparable property.
	 The appraisal report must contain additional commentary, descriptions, and explanations to enable the appraisal reviewer to understand the property condition and quality.
	An appraisal may be completed subject to completion of repairs or alterations required for the subject
	property to be rated C4 or better, or C5 as permitted below. If the appraisal is completed subject to
	repairs or alterations, then the UAD Condition Rating must reflect the overall condition of the subject
	property after all repairs or alterations have been completed. C6 Condition Rating
	If a property has deficiencies or defects that are severe enough to affect the safety, soundness or
	structural integrity of the improvements, then the property's condition must be rated C6. A subject
	property with a UAD Condition Rating of C6 is not acceptable collateral. Exceptions to this policy are not
	permitted. C5 Condition Rating
	A property with a UAD Condition Rating of C5 (either "as is" or subject to completion of repairs) is
	permitted for Fannie Mae-salable loans only. These properties must not have any conditions that impact
	the safety, soundness or structural integrity of the improvements that are not repaired prior to closing or
	 prior to delivery of the loan for purchase; work completion escrows are not permitted. A property with a UAD Condition Rating of C5 is not permitted for loans that must be sold to Freddie
	 A property with a UAD Condition Rating of C5 is not permitted for loans that must be sold to Freddie Mac, such as Home Possible loans.
	Exceptions to these policies are not permitted.
	Please note that any property, regardless of overall rating, that suffers from needed repairs or
	incomplete items that affect the safety, habitable, or salability of the property must be identified as
	"subject to" repairs. UAD Quality Ratings
	UAD-compliant appraisal report forms must incorporate a UAD Quality Rating (Q1, Q2, Q3, Q4, Q5, or
	Q6) that best describes the overall quality of the subject property and each comparable property.
	A subject property with an overall quality rating of Q6 is generally not acceptable collateral, unless all increase that acceptable appropriate to be rested Q6 are gured prior to closing or delivery. However, the many has a subject to property to be rested Q6 are gured prior to closing or delivery. However, the many has a subject to property with an overall quality rating of Q6 is generally not acceptable collateral, unless all
	issues that caused the property to be rated Q6 are cured prior to closing or delivery. Items that may be required to be cured include modifying the property to make it habitable as a year-round residence;
	upgrading the electrical, plumbing, and other mechanical systems and equipment to meet community
	standards; correcting any substandard or non-conforming additions to the original structure; and curing
	any other quality-related items needed to make the property acceptable to typical purchasers in the
	 market in which the property is located. An appraisal may be completed subject to repairs or alterations required for the subject property to be
	rated Q5 or better. If the appraisal is completed subject to repairs or alterations, then the UAD Quality
	Rating for the subject property should reflect the overall quality of the property after all repairs or
	alterations have been completed. Condition and Quality Adjustments:
	The appraiser must make appropriate adjustments for differences in condition and quality between the
	subject property and each comparable property to reflect the value, if any, of the differences in the
	marketplace. If the appraiser makes an adjustment for differences in quality and condition between the
	subject property and a comparable property that have the same UAD quality or condition rating, or does not make an adjustment for properties that receive different quality and condition ratings, the appraiser is
	expected to provide a sufficient explanation for the basis and rationale for all adjustments.
	• ote: UAD-compliant appraisals may contain a separate attachment that provides a list of the abbreviated
	terms and their meanings. Work Completion Escrows are only permitted if they meet all eligibility criteria
Purchase / Sales	Escrow/Holdbacks section of this chapter. All purchase money transactions must have a sales contract. The sales contract at a minimum must
Agreement	 All purchase money transactions must have a sales contract. The sales contract, at a minimum, must identify buyers, sellers, property address, and the sales price. Buyers and sellers must sign the contract,
g	any addenda, and initial any changes made to either. Note: Computer generated strikeouts and changes
	do not need to be initialed by the buyer or the seller; initials may be made by each change or on the
	same page where the change is made.

It must identify all borrowers as buyers unless the borrower is a co-signer. Subject Property	The Subject Property must be residential based on the property characteristics, zoning and land use.
Section	The Subject Property Section of the appraisal report form is used to:
	Identify and describe the location of the subject property, including the legal description, neighborhood,
	assessor's parcel number, map reference and census tract number;
	 Identify the borrower and the owner of record;
	- Provide information about property taxes and special assessments;
	 Indicate if the property is located within a PUD and the HOA fees; Indicate the occupancy status of the property;
	 Describe the property rights to be appraised;
	 Indicate whether the appraisal assignment is for a purchase or refinance transaction;
	 Provide Homebridge/Client name and address; and
	 Indicate whether the property is currently listed for sale or has been within the past 12 months,
	and report data sources, offering prices and dates.
	Property Address & Legal Description:
	The appraisal must include the complete property address and legal description; a post office box number is not accountable. For appraisal, that are required to be completed using the Uniform Appraisal.
	Property Rights Appraised
	The form of ownership in which the property is held—fee simple or leasehold—must be clearly
	documented.
	Market Data Research and Sources
	The appraiser must research market data from all reasonably available and appropriate sources of
	Contract Section
	Appraiser must review, analyze and provide comments on the impact of the terms of the contract for sale
	on the final estimate of value for purchase transactions. This section includes:
	sale – REO sale, short sale, court-ordered sale, estate sale, relocation sale, non-arms length sale, arms
	length sale, etc.

	This section is not used to rate or judge the market area/neighborhood. The common characteristics or
	trends that define a market area/neighborhood are those resulting from social, economic, governmental
Neighborhood Section	number is not acceptable. For appraisals that are required to be completed using the Uniform Appraisa Data Set (UAD), the format of the property address must conform to the United States Postal Service Address Standards. If a house number is not available, the legal description should be used. If the lega description is lengthy, the full description may be attached as an addendum to the appraisal report. Property Rights Appraised The form of ownership in which the property is held—fee simple or leasehold—must be clearly documented. Leasehold Estates For leasehold estates, the appraiser must include a detailed description of the terms, conditions, and restrictions of the ground lease, and comment on any effect the terms of the lease have on value and marketability. The appraiser should use sales of similar properties with the same lease terms as comparable sales. If there are no comparable sales of leasehold properties, the appraiser should use sales of similar properties owned in fee simple as comparable sales. If there are no comparable sales if there are not active into the properties of information for the location and property type being appraised—including public records transfer information, and if appropriate, data from local real estate brokers who are not active in the local multip listing service and report on both reasonable marketing period and exposure time. Failure to consider a relevant data in the research and analysis stage may result in a poor quality appraisal that could have a discriminatory effect. Contract Section Appraiser must review, analyze and provide comments on the impact of the terms of the contract for se on the final estimate of value for purchase transactions. This section includes: Contract Section Appraiser must review, analyze and provide comments on the impact of the terms of the contract for se on the final estimate of value for purchase transactions. or environmental forces on the property values in the subject property's market area/neighborhood. Economic forces that must be considered include such things as the existence of vacant or boarded-up properties in the neighborhood, the level of essential local support services, etc. Examples of governmental forces that should be taken into consideration include the regulations, laws, and taxes that are imposed on properties. Environmental forces that must be considered include, among other things, the existence of a hazardous waste site on or near the property, the proximity of a property to an airport, etc.

- The characteristics/trends do not include racial composition or age of the neighborhood, and the appraiser must not make any reference to or take into consideration the race, color, religion, sex, age, marital status, handicap, familial status or national origin of any person (including the present or prospective owners or occupants of the subject property or properties in the vicinity), or any other basis that is prohibited by law. In addition, the appraiser may not improperly take into consideration any property modifications for handicapped persons, the age or location of the property, or the age of the neighborhood or census tract where the property is located.
- Neighborhood conditions must be reported in factual, specific terms and be impartial and specific in
 describing favorable or unfavorable factors in a neighborhood. The use of subjective terms or phrases—
 such as "pride of ownership," "no pride of ownership," "lack of pride of ownership," "poor neighborhood,"
 "good neighborhood," "crime-ridden area," "affluent, desirable neighborhood or location," "undesirable
 neighborhood or location," etc.—is expressly forbidden.
- The appraiser is not required to rate or judge the neighborhood, however, s/he is required to perform an objective neighborhood analysis by identifying:

Neighborhood Characteristics

This section describes the location as urban, suburban or rural, the percentage the neighborhood is built up, and the growth rate.

- <u>Location</u>: Based on the subject property's neighborhood, the location is designated as 1) urban city; 2) suburban- adjacent to a city; or 3) rural country or beyond suburban. Property location is a fundamental characteristic that influences the value of residential real estate and is therefore a critical factor that must be considered in the appraisal process. However, it should never be the sole factor used to determine if the particular neighborhood is acceptable.
 - <u>UAD Requirements</u>: The appraisal report form must include a rating of the location of the subject property and each comparable sale by providing a rating of either "Neutral" (N), "Beneficial" (B), or "Adverse" (A). The location rating is for the location of the subject property within the neighborhood or market area, and is not a rating for the overall neighborhood or market area.
 - Homebridge will originate loans secured by one-to-four unit properties in all neighborhoods and
 in all areas—urban, suburban, or rural—as long as the property is acceptable as security for a
 mortgage based on its value and marketability. (Additional restrictions may be required if the
 subject property location is considered rural.)
 - Both the appraiser and the underwriter must be sensitive to the varying conditions that characterize different locations as well as the present and anticipated use of any adjoining properties. Conditions that are typical of certain types of locations may not be present in other locales. This does not mean that the conditions are unacceptable, rather that they must be viewed in context with the nature of the area in which the subject property is located.
- <u>Built Up</u>: The degree of development of a neighborhood (which is referred to as "built-up") is the percentage of the available land in the neighborhood that has been improved. Percentage ranges are 1) over 75%; 2) 25% to 75%; and 3) under 25% and typically correspond with the location. The degree of development of an area may indicate whether a particular property is residential in nature. When underwriting a mortgage where the subject property is located in a rural or relatively undeveloped area, the characteristics of the property, zoning, and the present land use must be examined to determine whether the property should be considered residential in nature.
 - Homebridge does not originate loans secured by:
 - Vacant land;
 - Commercial properties, industrial properties and other properties (shop-use) with non-residential use;
 - Properties with restricted use based on zoning laws (e.g., agricultural-type properties);
 - Properties with attributes that restrict its resale or value including special purpose properties.
 - Properties located on sites that are larger than those typical for residential properties in the
 area require special attention—particularly when evaluating the neighborhood description,
 zoning, the highest and best use determination, and the degree of comparability between the
 subject property and the comparable sales.
- <u>Growth Rate</u>: Reflects the current changes in the market area of the subject property's neighborhood. Growth rate is reflected as rapid, stable or slow and usually corresponds with changes in land use.

Housing Trends

This section addresses Property Values in the neighborhood, Demand/Supply, and Marketing Time.

<u>Property Values</u>: Reflects the current status of changes in property values (sales price) in the subject
property's neighborhood. The appraiser must indicate whether property values in the subject
neighborhood are "increasing," "stable," or "declining." Maximum financing is acceptable when property
values are stable or increasing. As a general rule, Homebridge does not offer maximum financing if

- property values are declining. Refer to the <u>Depreciating Markets/Declining Values</u> topic in this section for additional information relative to declining property values.
- <u>Demand/Supply</u>: Reflects the current status of housing units available for sale in the subject property's neighborhood, and is reflected on the appraisal as shortage, in balance or oversupply. Homebridge must be satisfied that the neighborhood will be acceptable to a sufficient number of buyers to support an active, ongoing market for the property. An oversupply of housing is not desirable since it indicates that properties are selling slowly or may indicate a neighborhood-wide or a citywide problem. In either case, the appraiser must comment on the reason for the oversupply and its effect on the value of the property.
- Marketing Time: Reflects the average time it takes to sell a property in the subject property's neighborhood. Marketing time is reflected as "under 3 months", "3-6 months", or "over 6 months". The appraiser should explain any changes that have occurred that might influence the marketability of the properties within the neighborhood. When the marketing time is longer than six months, the reasons for the extended marketing period and its effect on value must be explicitly addressed.

Housing

This section provides information on the low, high and predominant price and age of housing in the neighborhood.

- Price/Age Ranges: Reflects the most common or frequently found sales price of comparable properties in the subject property's neighborhood. Price range and the predominant price of properties in the subject neighborhood must be addressed. The appraiser must explain why the property is "over-improved" or "under-improved" for the area and comment on any adjustments that were made to reflect that condition. Isolated high and low extremes should be excluded from the range, which means that the predominant price will be that which is the most common or most frequently found in the neighborhood. The appraiser may state the predominant price as a single figure or as a range.
 - When the subject property has a sales price (or value) that exceeds the upper price range, the property may be considered "over-improved" for the neighborhood. The property may also be considered as "under-improved" if the sales price (or value) is less than the lower price range. However, if subject is being renovated and is located in an urban area the property should not be regarded as over-improved if there is a strong market interest, since demand for this type of property can be strong. This will be indicated by the existence of comparable properties.
- <u>Predominant Age</u>: The appraiser must indicate the age range and predominant age of properties in the subject neighborhood. The age range should reflect the oldest and the newest ages for similar types of residential properties and, in some cases, for competing properties. However isolated high and low extremes should be excluded from the range.
 - The appraiser may state the predominant age as either a single figure or as a range (when considered more appropriate). The properties used to represent the age range and predominant age should be selected independently rather than relying on the same properties used to illustrate the price range and predominant price.
 - The age of the property should be within the general age range of the neighborhood. Normally, neighborhoods are developed over a relatively narrow span of time so that most properties will fall within a particular age range. A property that has an age outside of the general age range may need to receive special consideration. Unless there is strong evidence of long-term neighborhood stability, a new dwelling in an old neighborhood may carry some marginal risk. Conversely, an old dwelling in a newly developed area is generally acceptable if renovation will result in its conforming to the neighborhood.
- <u>Present Land Use %:</u> This section addresses the composition of the neighborhood based on the types of properties that comprise it.
 - The appraiser should report separately the percentage of developed one-unit sites, two-unit sites, multi-family, commercial, and other uses. If there is a significant amount of vacant or undeveloped land the appraiser must also comment to that effect to assure that they have adequately described the neighborhood.
- <u>Land Use Change</u>: If the land use is likely to change or is in the process of changing, the appraiser should indicate the anticipated new land use(s). If the area is undergoing transition, the changes should be described along with commentary about their effect on the marketability and value of the subject property.
 - Typically, properties best maintain their value when they are situated in neighborhoods that
 consist of other similar units. However, some factors that are typical of a mixed-use or urban
 neighborhood can enhance the market value of a property through increased buyer demand.
 When different land uses and property types are present in a neighborhood, that fact should be
 considered when performing the neighborhood analysis and defining the neighborhood
 boundaries.
- <u>Neighborhood Boundaries</u>: Neighborhood boundaries are identified by various physical characteristics (streets, bodies of water, land uses, types of dwellings, etc.).
- <u>Predominant Occupancy</u>: Another predominant factor that must be taken into consideration when
 performing the neighborhood analysis and defining the neighborhood boundaries is if the property is
 located in a neighborhood that is predominantly owner-occupied or tenant-occupied. To assure that any
 effects (positive or negative) of occupancy status will be reflected in the sales comparison analysis,
 comparable sales from within the same neighborhood should be used whenever is possible.
 Comparable sales that are outside of the subject neighborhood may require "neighborhood" or "location"
 adjustments to the sales comparison analysis for any sales that are not subject to this same
 neighborhood characteristic.

	<u>Neighborhood Description</u> : Neighborhood Description addressed by the types of structures and architectural styles in the neighborhood (detached, attached, row or townhouse, colonial, ranch, Victorian, etc.); current land use (single-family residential, commercial, industrial, etc.); typical site size
	(1/8 acre, 2 acres, etc.); or street patterns or design (one-way street, cul-de-sac, court, etc.)
	 Market Conditions Factors that affect the value and marketability of properties in the neighborhood—addressed by things such as proximity of the property to employment and amenities, employment stability, appeal to the market, changes in land use, access to public transportation, adverse
	 environmental influences, etc. The appraiser should collect pertinent data, make a visual inspection of the neighborhood to observe its physical characteristics and boundaries, and identify land uses including any signs that they are changing. The search of the subject market area should be extended as far as is
	necessary to assure that all significant influences affecting the subject's value are reflected in the appraisal report Things to look for when reviewing this section:
	Is the location rural?Is the neighborhood less than 25% built up?
	 Are the property values declining? Does the demand/supply reflect an oversupply?
	 Is the marketing time over six months? Is the sales prices/appraised value of the subject property within the neighborhood
	price range? O Does the sales price/appraised value exceed the predominant price?
	 Are there any land use changes that are likely to affect the subject property's marketability?
	 Are there any adverse comments in the Neighborhood Section of the appraisal? Are there any land use changes that are likely to affect the subject property's
	marketability?
Depreciating	 Are there any adverse comments in the Neighborhood Section of the appraisal? Declining Values: Homebridge continually monitors County/MSA property data from a number of sources
Markets	to identify markets/areas that are experiencing appreciating or declining value trends. Based on this data, Homebridge can then establish restricted maximum LTV/CLTV/HCLTV ratios based on certain percentage changes quarter to quarter.
	 For areas identified with "N/A" in the MSA Number column and/or "Null" in the MSA Metro/ Micro Area Name column on the <u>Depreciating Markets List</u>, the County and State should be used to determine if the property is located in a Depreciating Market.
	 The underwriter should examine the terms of the transaction requested by the borrower to ensure they are appropriate in light of the market trends. The following are examples of terms which should be given additional considerations:
	 Product Type: Is an interest-only product appropriate for the loan's process and program in a declining market?
	 Maximum Financing: Is maximum financing (i.e., maximum program or process LTV) appropriate in a declining market?
	 Interested Party Contributions: Ensure that the appraiser is made aware of any seller contributions or concessions noted on the sales contract to ensure that the value is in no way inflated by these factors.
	 Major discrepancies or concerns should be forwarded to the investor for review and reconciliation. Depreciating Markets
	 "Depreciating Markets" policy applies if the subject property is located in an area as indicated on the Depreciating Markets list or if the appraiser/appraisal indicates that the property is "declining".
	 Refer to <u>Exhibit 1-Depreciating Markets</u> for a list of depreciating markets/areas by county. Note: If the property is located in a depreciating market the underwriter must manually adjust the maximum LTV/CLTV/HCLTV by 5%.
Site Section	 The Site Section describes the subject property's site (lot), current zoning, and that the subject property is of a size, shape and topography that is generally conforming and acceptable in the market area including competitive utilities, street improvements and other amenities. (1 acre = 43,560 square feet.) Note: For appraisals on properties in condominium projects, this section is the Project Site section and includes information on the site the project is located on.
	The subject property must be residential based on the property characteristics, zoning and land use.
	 Things to look for when reviewing this section: Is the zoning rated non-conforming or illegal?
	- Is the present use the highest and best use of the site?
	- Is the subject property in a special flood zone? Are there any adverse comments in the Site Section?
	 Are there any adverse comments in the Site Section? Are there private roads/streets? Are there community or privately held utilities?
	The property site should be of a size, shape, and topography that is generally conforming and
	acceptable in the market area. It must also have competitive utilities, street improvements, and other amenities. Since amenities, easements, and encroachments may either detract from or enhance the

typical for the neighborhood. If there is market resistance to a property because its site is not compatible with the neighborhood or with the requirements of the competitive market, more conservative mortgage terms may be appropriate.

- <u>Dimensions</u>: This section provides the dimensions, area and shape of the lot. The subject property site should generally conform to and be acceptable in the market area in terms of size, shape, and topography.
 - For large unsubdivided lots, the appraiser must include the actual size of the lot in the appraised value and not a hypothetical portion of the site. For example, the appraiser may not appraise only 5 acres of an unsubdivided 40-acre lot. The appraised value must reflect the entire 40 acres.
- View: For appraisal report forms that are required to be completed using the UAD, the overall view associated with the subject property and each comparable sale must be rated as either "Neutral" (N), "Beneficial" (B), or "Adverse" (A), and describe the overall effect on value and marketability of the view associated with the property. Appropriate adjustments must be made for differences in view between the subject property and each comparable property to reflect the value of the differences, if any, in the market.
- Zoning: The appraiser is responsible for reporting the specific zoning classification for the subject property. The appraiser must include a general statement to describe what the zoning permits—"one-unit," "two-unit," etc.— when s/he indicates a specific zoning such as R-1, R-2, etc. Appraiser must indicate if the improvements represent a legal conforming use; a legal, but non-conforming use (grandfathered); an illegal use under the zoning regulations; or whether there is no local zoning. If the property is marked as a legal, but non-conforming use (grandfathered), refer to Legal & Non-Conforming Use topic for additional information.
 - As a general rule, Homebridge does not originate loans on properties where the improvements do not constitute a legally permissible use of the land. However, exceptions may be considered as long as the property is appraised and underwritten in accordance with property criteria.
- <u>Highest & Best Use</u>: The highest and best use of a site is the reasonable and probable use that supports
 the highest present value on the effective date of the appraisal. For improvements to represent the
 highest and best use of a site, they must be legally permitted, financially feasible, and physically
 possible, and must provide more profit than any other use of the site would generate. All of these criteria
 must be met if the improvements are to be considered as the highest and best use of a site.
 - However, the appraiser's analysis of the subject property should focus on the property as it is improved. The use of comparable sales should demonstrate that the improvements are typical and compatible with market demand for the neighborhood, and that the present improvements contribute to the value of the subject property so that its value is greater than the estimated vacant site value. If the appraiser indicates that the current improvements clearly do not represent the highest and best use of the site the loan may warrant decline.
- <u>Utilities</u>: The utilities of the property must be adequate and currently in service, meet community standards, typical for the market area, and be accepted generally by area residents. If there is market resistance to an area because of environmental hazards or any other conditions that affect well, septic, or public water facilities, the appraiser must comment on the effect of the hazards on the marketability and value of the subject property.
 - If public sewer and/or water facilities—those that are supplied and regulated by the local government—are not available, then community or private well and septic facilities must be available and utilized by the subject property. If community facilities are used, the owners of the subject property must have the right to access those facilities, which must be viable on an ongoing basis. Private well or septic facilities must be located on the subject site. However, offsite private facilities are acceptable if the inhabitants of the subject property have the legal right to access them and if there is an adequate, legally binding agreement for their access and maintenance.
 - Homebridge does not require well and septic certifications on every applicable conventional loan submitted for purchase. However, Homebridge reserves the right to request acceptable certifications if information contained in the file indicates there may be a problem.
- <u>Lot</u>: The property site should be of a size, shape, and topography that is generally conforming and
 acceptable in the market area. It must also have competitive utilities, street improvements, and other
 amenities. Since amenities, easements, and encroachments may either detract from or enhance the
 marketability of a site, the appraiser must comment on them if the site is not typical for the
 neighborhood.
 - Some markets have properties built on lots called "flag lots". These are simply lots that are shaped like a flag where only a small strip of land (the driveway) actually joins a road. These properties are acceptable, and Homebridge would prefer to have similar comps, but if none are available and it represents no resistance to the market, there is no issue.
- Off-Site Improvements: Off-site improvements include streets, alleys, sidewalks, curbs and gutters, street lights, etc. The subject property should front on a publicly dedicated and maintained street that meets community standards and is generally accepted by area residents. Off-site improvements should be typical for the market area. If a street does not meet city or state standards and/or it is not regularly maintained, extensive maintenance is often required. Consequently property values may decline.
 - If a property fronts on a street that is not typical of those found in the community, the appraiser must comment on the effect of that location on the marketability and value of the subject

- property. The presence of sidewalks, curbs and gutters, streetlights, and alleys depends on local custom—if typical in the community, they should be present on the subject site.
- The appraiser must comment on any adverse conditions and address their effect on the marketability and value of the subject property.
- Community-Owned or Privately Maintained Streets (a.k.a., Private Road Maintenance Agreements): All properties must be readily accessible by roads that meet local standards. Additional documentation such as a Private Road Maintenance Agreement is not required to verify.
- Special Flood Hazard Areas: The appraiser must indicate on the appraisal report whether or not the
 property is located in a high-risk flood area. Properties that are located in high-risk areas may require
 additional insurance. Refer to Flood Insurance.

Note: The appraiser must indicate whether or not a property is located in a high-risk volcano area in the state of Hawaii. Properties that are located in areas that are deemed high-risk may not be saleable and/or additional insurance may be required.

 <u>Adverse Site Conditions or External Factors</u>: The appraiser must indicate if there are any easements, encroachments, environmental conditions, land uses, etc. that may negatively affect the subject property.

Improvements Section

- The Improvements section should provide a clear, detailed, accurate and comprehensive description of the subject property's improvements with any recommended/required repairs, additional features/amenities, modernization described in detail with support data, if appropriate and necessary. Note: For appraisals on units in condominium projects, the appraisal report forms include a Unit Description section in lieu of an Improvements Section, as well as sections that provide information on the project.
- <u>UAD Requirements</u>: For appraisal reports that are required to be completed using the UAD, the appraiser is responsible for reporting on the condition and quality of the property as described below.
- The subject property should conform generally to the neighborhood in terms of age, type, design, and
 materials used for construction, and must be habitable as a year-round residence. Homebridge has no
 specific minimum square feet or living area requirements for properties. Properties with special energy
 efficient improvements should be addressed in the comments section by the appraiser and supported by
 the Energy Efficient Addendum.
- Properties with unusual layouts, peculiar floor plans or inadequate equipment or amenities generally have limited market appeal. Such properties require the appraiser to comment on the reasons for the limited market appeal.
- The appraiser must express an opinion regarding the condition of the improvements on the subject
 property in the comment section and if there are any environmental conditions, repairs of functional
 inadequacies that have an adverse effect on the subject property must also be addressed in the
 comment section.
- Things to look for when reviewing this section:
 - Is there a substantial difference between the actual age and the effective age of the subject property?
 - Are there any repairs, inspections, etc., needed/required for the subject property?
 - Are there any adverse comments in the Description of Improvements or Comment section?
 - Is there incomplete work that affects health, safety, soundness, structural integrity and/or
 livability issues (e.g., non-functioning bathrooms or kitchen, no utilities, empty swimming pool,
 stairs with no hand rails, etc.)? Note: Major concerns should be forwarded to the investor for
 review.
 - Does the gross living area square footage match the square footage used in the cost and/or comparative sales approach to value?
- Conformity to Neighborhood: Generally the subject should conform to the neighborhood in terms of age, type, design, and materials used for their construction. Underwriters should pay particular attention to loans where the appraiser notes there may be market resistance to a property or if the subject property represents special or unique housing for the subject neighborhood. In these instances, the appraiser must supply adequate information to develop a reliable opinion of market value.
- <u>Over-improvements</u>: These are improvements excessive in cost or size in relationship to land value or value of surrounding improvements. Often an over-improvement can be identified by:
 - Lack of compatibility with other properties in the neighborhood's value range, i.e., a typical property;
 - Lack of truly comparable properties (significant adjustments to comparable sale properties are made);
 - Sales price or indicated value exceeds the neighborhood range;
 - Sales price or indicated value is above the predominant range but is equal to the high range, could indicate the subject property is the high range.
- Year Built & Effective Age: Although Homebridge does not place restrictions on the age of the property, Homebridge relies heavily on the relationship between the actual and effective age, as it is a good indication of its condition. Regardless of the age of the residence, the improvements must be of the quality and condition that supports current occupancy and market demand.
 - When adjustments are made to the appraisal for the year built, whether they are made for the
 actual age or the effective age of the subject property, the appraiser must provide an
 explanation for the adjustments and the condition of the property.

- <u>Insulation & Energy Efficiency</u>: Properties with special energy-efficient amenities—through the use of cost-effective design, materials, equipment, and site orientation to conserve nonrenewable fuels—should be listed in the "comments" area and supported by the Energy Efficient Addendum.
- <u>Gross Living/Building Area</u>: Appraisers are required to use the American National Standards Institute
 Measuring Standard (ANSI Z765-2021) for measuring, calculating, and reporting gross living area for
 detached single family and condominium units (Detached and Site Condos) that require interior and
 exterior inspections as of 4/01/2022.
 - The ANSI Measuring Standard is not required to be used for assignments that do not include a full interior and exterior inspection or for condominiums or 2-4 family properties that are otherwise apartment-style or multifamily buildings. Outbuildings and detached structures are not required to follow the ANSI Measuring Standard. However, individuals are encouraged to use the Standard whenever possible to ensure consistent reporting. The valuation should clearly report what standard was used to ensure it is clear to the reader. Finished areas that are not included in the gross living area may be valued separately based on similar comparable sales. Where possible, GLA for comparable sales should also be adjusted to the ANSI Measuring Standard to ensure all properties are reported in a consistent fashion.
- Floor Plans & Layout: Properties with unusual layouts, peculiar floor plans, or inadequate equipment or amenities generally have limited market appeal (e.g., bedrooms on a level with no bath, or a kitchen on a different level from the dining room). Such properties require the appraiser to comment on the reasons for the limited market appeal, and, when necessary, make appropriate adjustments to reflect this in their overall analysis. On the other hand, if market acceptance can be demonstrated through the use of comparable sales with the same inadequacies, no adjustments are required.
- Incidental Second Units/Accessory Apartments: Must include similar comps.
- Room/Unit List: The individual appraisal form and the fieldwork required for the particular transaction will determine if and when this information is required.
- <u>Foundation</u>: Evidence of wood-boring insects, dampness or settlement must be addressed along with
 comment on its effect on the marketability and value of the subject property. Either satisfactory evidence
 that the condition was corrected or a professionally prepared report indicating that condition does not
 pose any threat of structural damage to the improvements must be provided prior to closing.
- Heating & Cooling Sources: All properties should have a permanent source of heat and if typical for the
 area, cooling, although Homebridge will consider an exception in the rare instance that it does not.
 (Note: Space heaters and similar sources are not considered permanent heat sources, even if affixed to
 a permanent wall.) The appraiser must comment on its absence and supply evidence that this is
 common, customary and compatible for the area; comps should reflect the same condition. Regardless,
 the property must still be habitable year round. If there is no heat source, refer the loan to a Risk
 Manager.
- <u>Property Conditions</u>: The appraiser must provide factual, specific terms with regards to the condition of
 the property as well as if the condition affects the value or marketability. Any needed repairs or any
 physical, functional, or external inadequacies must also be identified. All detrimental conditions—even if
 that condition is typical for competing properties—must be identified along with an estimate of cost to
 cure; photo's may also be required.
- Uniform Appraisal Dataset (UAD) Condition Rating: Appraisals that must be completed using the UAD must include a UAD Condition Rating for the property (C1, C2, C3, C4, C5 or C6). A property that has a UAD condition rating of C6 is not acceptable and properties with C5 ratings are only acceptable as indicated in the Uniform Appraisal Dataset (UAD) Condition and Quality Ratings section above. Appraisals for properties with condition ratings of C1, C2, C3 or C4 may be subject to completion of repairs. However, if the property is not eligible for a work completion escrow, the work must be completed prior to closing, or delivery of the file for purchase.
- <u>Security Bars</u>: Properties with security bars will be considered unacceptable collateral unless they comply with local fire codes and they meet one of the following conditions:
 - There must be a "Quick Release" on at least one window in each bedroom; or
 - All bedrooms must have adequate egress to the exterior of the home or the exterior of the unit for condo properties (occupants of a bedroom must be able to get outside the home if there is a fire). Note: If an enclosed patio (solid walls) covers the bedroom window, it is possible that the bedroom won't qualify as a habitable bedroom.

Note: For transactions where the valuation did not include a full interior inspection of the improvements, photographs of quick release latches or adequate egress may be provided by the borrower and/or real estate agent in lieu of obtaining a full appraisal

- Additions without Permits:
- If the appraiser identifies an addition(s) that does not have the required permit, the appraiser must comment on the quality and appearance of the work and its impact, if any, on the market value of the subject property.

Note: Appraisal may be made "subject to" on a case-by-case basis. The underwriter must ensure the borrower has sufficient funds available to complete renovations, repairs and/or construction in additional to normal assets and reserves required to close. If funds are not available, appraisal must be based on "as is" condition of the property. A final inspection is required to confirm repairs/work has been completed as specified and that if meets "subject to" value.

Project Information /

- The Project Description section (for condominiums) includes the following information, as applicable for the project:
 - The data source used for condominium project information.

December	Project Description, deteched you as to unbounce good on said size, bigh size as all a

	 Condition of the property, physical deficiencies or adverse conditions.
	- Conformity to neighborhood
	 Appraiser is required to describe the unit and its features and provide comments on impacts to value and
	marketability.
Valuation Section	There are three methods used to determine the estimated market value or final valuation estimate when
variation occiton	appraising residential property. The valuation section provides a means for the appraiser to develop and
	report in a concise format the estimate of market value—based on the applicable cost, sales
	comparison, and income approaches to value, as applicable for the property. In some cases additional
	supporting data may be required if the subject property is unique or has some other condition that affects
	value and marketability.
	 Sales Comparison Approach – In this section the appraiser analyzes the subject property in
	comparison to the most recent sales of similar properties that are subject to the same
	influences (location, market influences, financing terms, etc. This approach is the most
	indicative of market value.
	 Cost Approach – The Cost Approach is not required, but may be completed for any appraisal.
	Appraisals that rely solely on the cost approach are not acceptable.
	 Income Approach – the Income Approach to value is required for appraisals of 2-4 unit
0	properties; however, appraisals that rely solely on the income approach are not acceptable.
Cost Approach	Appraisals that rely solely on the cost approach as an indicator of market value are not acceptable. This approach are the transported for a proposition for a proposition of the transported
	This approach may be appropriate for new or proposed construction, properties that are under
	renovation, properties with unique styles or construction, or properties that have functional obsolescence
	not typical for the market, and the appraiser must make proper adjustments, if applicable.
	Used mainly on new construction to compare cost within the market, the cost approach to value assumes that a petential purchaser will consider building a substitute residence that has the same use.
	assumes that a potential purchaser will consider building a substitute residence that has the same use as the property that is being appraised. This approach, then, measures value as a cost of production.
	The reliability of the cost approach depends on valid reproduction cost estimates, proper depreciation

- The appraiser arrives at the indicated value of a property by estimating the reproduction cost of new
 improvements, subtracting the amount of depreciation from all causes, and adding his/her opinion of
 value for the site if were vacant and available to be developed to its highest and best use.
- <u>Depreciation</u>: means to lower the value. In appraising real property, there are three types of depreciation that may affect the final value estimate of the property.
 - Physical depreciation (which is traditionally referred to as physical deterioration) represents a loss in value that is caused by deterioration in the physical condition of the improvements. The appraiser will generally classify physical deterioration as "curable" which represent deferred maintenance and "incurable" which represents replacement. The appraiser should be specific with physical depreciation items and if necessary, make recommendations as to repairs, replacement, inspection, etc.
 - Functional depreciation (which is traditionally referred to as functional obsolescence)
 represents a functional obsolescence or a loss in value that is caused by defects in the design
 of the structure—e.g., inadequacies in such items as architecture, floor plan, or size and type
 of room. It can also be caused by changes in market preferences that result in some aspect of
 the improvements being considered obsolete by current standards.
 - External depreciation (which is traditionally referred to as economic obsolescence) represents an economic obsolescence or a loss in value that is caused by negative influences that are outside of the site, such as economic factors or environmental changes. The appraiser must comment on the reason for the external obsolescence or loss in value.
 - In addition to the above, the reproduction cost estimate should reflect the cost of construction based on the current prices of producing a replica of the property being appraised—including all of its positive and negative characteristics. The appraiser's analysis and comments for the cost approach to value should be consistent with comments and adjustments mentioned elsewhere in the appraisal report.

Sales Comparison Approach

- The Sales Comparison Approach is the most indicative of market value. The sales comparison approach to value (traditionally referred to as the market data approach) is an analysis of comparable sales of properties, contract offerings and current listings of properties that are the most comparable to the subject property in the same neighborhood/market area. This value approach is the most commonly used approach to value in mortgage lending.
- Things to look for when reviewing this section:
 - Are the comparable sale properties within one mile of the subject property?
 - Is the sales price of each comparable sale property within the general range of the estimated market value for the subject property?
 - Is there any seller or financing concessions on the comparable sale properties?
 - Is the Date of Sale with corresponding source (contract or settlement date and source of information) listed for each comparable sale property?
 - Are there any Date of Sale or Time Adjustments on the comparable sale properties?
 - Does the room count and gross living area reflect only above grade areas on the subject property and comparable sale properties? (Basements are not considered above-grade improvements and should not be included in the room count or gross living area.)
 - Are there any over-improvements between the subject property and the comparable sale properties?
 - Are there three comparable sale properties that have closed within the last six months?
 - If comparable sale properties are over six months old, has the appraiser provided comments for their inclusion in the report?
 - Are the comparable sale properties similar to the subject property in location, design, size, room count and amenities?
 - Has the subject property been sold in the last twelve months?
 - Are there any adverse comments in the Sales Comparison section?
 - Are the mathematical calculations correct? (Are the adjustments consistent on all comparables? To check the square footage adjustment, calculate the difference in the square footage of the subject property and the comparable and divide the difference into the dollar adjustment given for the square footage line adjustment.)
 - What is the dollar amount used for each comparable sale property's square footage adjustment, if appropriate? Does it appear reasonable?
 - If the property is New Construction, are there comparable sales from a different development? Each comparable sale must be analyzed by the appraiser for the similarities and differences between the comparable sales and the subject property. The appraiser's adjustments must reflect the market's reaction to the differences in the properties.
 - The appraiser's analysis must take into consideration all factors that have an impact on value, recognizing that a well-informed/well-advised purchaser will pay no more for a property than the price they would pay for a similar property of equal desirability and utility if it were purchased without undue delay. This is particularly important in a soft or declining market because the competing current listings and contracts probably reflect the upper-end value of the market for the subject property as the effective date of the appraisal.

Sale or Transfer History of Subject and Comparables

- The appraiser must research, verify, analyze and report the following:
 - Any current agreement for sale on the subject property

- Any offering for sale of the subject property in the twelve months prior to the effective date of the appraisal.
- Any prior sales or transfers of the subject property for the three years prior to the effective date of the appraisal.
- Any prior sales or transfers of each comparable sale for the year prior to the date of sale of each comparable sale.
- Data sources must be provided. Homebridge should analyze the subject and comparable properties' sales and transfer histories and evaluate the time elapsed between the acquisition dates, resale dates, or date of current resale contract, if applicable. If the sales histories indicate current or prior sale prices may be excessive, or resale dates occurred shortly after acquisition of the property, the appraisal report should provide evidence to support a rapidly appreciating real estate market, indicate if there were significant improvements that resulted in a corresponding increase in the property value, or there was a previous sale that was below market value due to a distress or tax sale.

Comparable Sale Properties

- The Sales Comparison Approach includes the number of comparable properties currently listed for sale
 or sold within the past twelve months in the subject's neighborhood, and the applicable price ranges.
 Appraiser should comment if the subject property value is outside of these ranges.
- The appraisal should contain a minimum of three closed comparable sales to support value. Comparable sale properties are those that have sold and closed within the last six months. Comparable sales that are more than 6 months old must be accompanied by an appraiser explanation for their use. The properties should be located in the neighborhood area of the subject property and closely resemble the subject property in site, size, structure, number of rooms and amenities. If the appraiser utilizes comparable sales outside of the subject's neighborhood when closer comparable sales appear to be available, s/he must provide an explanation of why they used the specific comparable sales. Properties that are listed for sale and sales that have not closed may be added as additional comparables only.

Foreclosure and Short Sale Properties as Comparables

- If a foreclosure sale or a short sale is used as a comparable, the appraiser cannot assume it is equal to the subject property and must identify and consider all differences, such as the property condition and whether any stigma has been attached to the property.
- All data and/or verification source(s) for each comparable sale must be identified. A single source may
 be used to gather the data and verifications if the source provides quality sales data that can be publicly
 confirmed or verified as a closed or settled transaction. Multiple sources may also be used if they are
 needed to adequately verify the comparable sales. The quality of the data available varies from source
 to source and from one locality to another.

Comparable Sales for Properties in Existing Established Subdivisions, Condos, or PUDs

Comparable sales from within the same subdivision or project as the subject property must be used if
the subdivision or project has resale activity, since resale activity is the best indicator of value for
properties in that subdivision or project. Note: Use of comparable properties located outside of the
established subject neighborhood must be explained in the appraisal analysis, and the appraiser may
not include sales that were influenced by the subject property's developer, builder or seller.

Comparable Sales for Properties in New or Recently Converted Subdivisions, Condos, or PUDs

- If the subject property is located in a new (or recently converted) condo project, subdivision, or PUD, it
 must be compared to other properties in the same market area and to properties within the subject
 condo project subdivision, or PUD. This comparison should help demonstrate market acceptance of new
 developments and the properties within them. Generally, a subdivision is considered new when there are
 limited or no resales or the builder or developer is involved in the marketing or sale of the properties.
- At a minimum, the appraisal report for these properties must include the following:
 - At least one settled comparable sale from the subject condo project, subdivision, or PUD. (A resale is preferable if it is verifiable and does not involve the subject builder or developer).
 - At least one settled comparable sale from outside the subject condo project, subdivision, or PLID
 - A third settled comparable sale can be from inside or outside of the subject condo project, subdivision, or PUD. Settled comparable sales or resales from within the subject condo project, subdivision, or PUD are preferable to settled sales from outside the condo project, subdivision, or PUD provided the builder or developer of the subject property is not involved in those transactions.
 - In the event there are no settled comparable sales inside a new condo project, subdivision, or PUD because the subject property transaction is one of the first units to sell, the appraiser may use two pending sales in the subject project, subdivision, or PUD in lieu of one settled sale. The appraiser must also use at least three settled comparable sales from projects, subdivisions, or PUDs outside of the subject project, subdivision, or PUD.
- If the subject property is part of a newly built or recently converted condo project, subdivision, or PUD that has 2-20 units and there are no settled or pending sales, the appraiser may use comparable sales from a competing project, subdivision, or PUD. The appraisal report must:
 - Use competing projects, subdivisions, or PUDs of a similar size and type.
 - Explain why the comparable sales were chosen and demonstrate market acceptance.
 - Describe how the condo project, subdivision, or PUD chosen compares to the subject property.
 Note: If the subject property is not the first unit under contract in the condo project, subdivision, or PUD, the appraiser must include one under contract sale from the subject's project, subdivision, or PUD as a supplemental exhibit.

- To meet the requirement that the appraiser utilize one comparable sale from inside the subject project, subdivision, or PUD, the appraiser may need to rely solely on the builder of the property they are appraising, as this data may not yet be available through typical data sources (for example, public records or multiple listing services). In this scenario, it is acceptable for the appraiser to verify the transaction of the comparable sale by viewing a copy of the settlement statement from the builder's file.
- When providing builder sales from competing projects that are not presently available through traditional
 data sources, the appraiser must verify the sale from the applicable settlement statement and indicate
 on the appraisal report that the settlement statement was the document utilized for verification.
 Additionally, the appraisal must include discussion and analysis of sales concessions and upgrades for
 the subject property relative to concessions and upgrades for each builder sale.
- Gross Living Area (1-unit properties): The gross living area is the square footage of the improvements
 excluding basements or improvements below grade (underground or partially underground). Abovegrade gross living area is the most commonly used comparison for one-unit properties (including units in
 PUD or condominium projects). The following dimensions should be used to calculate above-grade
 gross living area.
 - <u>Units in condominium projects</u>: The interior perimeter unit dimensions should be used to calculate the above-grade living space.
 - One-unit properties & units in a PUD: The exterior building dimensions per floor should be used to calculate the above-grade gross living area.
- Only finished above-grade areas should be used—garages and basements (including those that are
 partially above-grade) should not be included. A level is considered to be below-grade if any portion of it
 is below-grade—regardless of the "finish" or the window area of any room. Because rooms not included
 in the above-grade room count may add substantially to the value of a property, the appraiser should
 report the basement or other partially below-grade areas separately and make appropriate adjustments.
- To ensure consistency in the sales comparison analysis, the appraiser should compare above-grade
 areas to above-grade areas and below-grade areas to below-grade areas. However the appraiser may
 deviate from this approach if the styles of the subject property or any of the comparables do not lend
 itself to such comparisons. Explanation for the deviation is required and a clear description of
 comparisons that were made is required.
- Gross Building Area (2-4 unit properties): The most common comparison for two-to-four unit properties is
 gross building area. Gross building area is defined as the total finished area (including any interior
 common areas, such as stairways and hallways) of the improvements based on exterior measurements.
 It should include all finished above- and below-grade living areas, counting all interior common areas,
 but not exterior common areas or unfinished areas.
- <u>Adjustments to Comparable Sales</u>: Each comparable sale that is used in the sales comparison approach
 to value must be analyzed for differences and similarities between it and the property that is being
 appraised. Analysis should be based on the market data for the particular neighborhood for the
 competing locations—not on predetermined or assumed dollar adjustments.
 - Proximity to Subject Property and Location: UAD Requirement: The proximity of\ the comparable sales to the subject property must be indicated in miles and include the applicable directional indicator (for example, "1.75 miles NW").
 - <u>Date of Sale or Time Adjustments</u>: UAD Requirement: For each comparable sale, the appraiser should provide the month and year of the sales contract indicated with a "c" (for example, "c02/11"), and the settlement or closing date indicated with an "s", (for example, "s04/11"). If the contract date is unavailable, appraiser may indicate "Unk" for unknown.
- Comparable sales must be adjusted to the subject property—except for sales and financing concessions, which are adjusted to the market at the time of sale. The appraiser should provide comparable sales that sold without concessions to support the adjustments made in determining the market reaction to the concessions. If comparable sales without concessions are not available, adjustments to comparable sales with concessions must reflect the differences between what the comparable sales actually sold for with the concessions and what they would have sold for without the concessions. The appraiser's opinion of value must reflect the value of the subject property without the concessions. The appraiser must make appropriate adjustments for location, terms and conditions of sale, date of sale, and the physical characteristics of the property. If the appraiser determines that time adjustments are required, the adjustments must reflect the difference in market conditions between the date of sale of the comparable and the effective date of the appraisal for the subject property.
- The subject property is the standard against which the comparable sales are evaluated and adjusted. Thus, if an item in the comparable property is superior to that in the subject property, a negative adjustment is required to make that item equal to that in the subject property. Conversely, if an item in the comparable property is inferior to that in the subject property, a positive adjustment is required to make that item equal to that in the subject property. If an item in a comparable property is equal to that in the subject property, no adjustment is necessary.

Quantitative Sales Comparison Analysis

• The quantitative sales comparison analysis requires the appraiser to assign a dollar value to reflect the market's reaction to any feature of the comparable sales that differ from those of the subject property. The proper selection of comparable properties minimizes both the need for, and the size of, any dollar adjustments. However, when there are no similar or truly comparable sales for a particular property—because of the uniqueness of the property or other conditions—the appraiser must select comparable sales that represent the best indicators of value for the subject property and make adjustments to reflect

	the actions of typical purchasers in that market. Dollar adjustments must reflect the market's reaction to
	the difference in the properties, not necessarily the cost of the difference.
	When a quantitative sales comparison analysis is used, the amount of the negative dollar adjustment for
	each comparable with sales or financing concessions should be equal to any increase in the purchase price of the comparable that the appraiser determines is attributable to the concessions.
	Value Adjustments: The addition or deduction of value to the comparable. It demonstrates the
	differences and similarities between the subject and the comparable.
	 A value adjustment on a single line item (referred to as a line adjustment) normally should not
	be more than 10% of the property's sale price. While line adjustments are no longer considered
	a standard measurement, they can be valuable in denoting unusual adjustments that may indicate a further explanation/justification is required.
	The net adjustment is the total of all the value adjustments for a comparable sale property by
	adding all adjustments to that comparable property taking into account the plus (positive
	number or value additions) or minus (negative number or value deductions) and dividing it by
	the sales price of the comparable sale. The dollar amount of the net adjustments for each comparable sale should not exceed 15% of the sales price of the comparable.
	The gross adjustment is the sum of all value adjustments to a comparable sale property
	without regard to whether the value adjustment is a plus or minus (positive or negative number)
	and dividing that by the sales price of the comparable sales price. The dollar amount of the
	gross adjustments for each comparable sale should not exceed 25% of the sales price of the
	comparable. - When the adjustments exceed either of the above, the appraiser must comment on the
	reasons for not using a more similar comparable. Individual adjustments that are excessively
	high should be explained by the appraiser and reviewed carefully by the underwriter. In some
	circumstances, the use of comparables with higher-than-normal adjustments may be
	warranted, but the appraiser must satisfactorily justify his/her use of them. Qualitative Sales Comparison Analysis
	Some appraisals enable the appraiser to use a relative or qualitative sales comparison analysis instead
	of providing actual dollar adjustments to reflect the differences in features between each of the
	comparable sales and the subject property, by indicating the market's reaction to any significant
	variations for each feature listed in the "sales comparison analysis" grid. The "paired" data analysis comparison logic, which is consistent with the way that buyers and sellers typically evaluate the
	differences between properties, is similar to the logic required by other appraisal forms. However, in this
	case, the appraiser does not have to quantify and report the market's reaction by assigning a dollar
	value to each variation.
	 If a feature of a comparable sale is superior to, or more favorable than, the same feature for the subject property, the appraiser should report a negative (-) relationship.
	If a feature of a comparable sale is inferior to, or less favorable than, the same feature for the
	subject property, the appraiser should report a positive (+) relationship.
	 If a feature of a comparable sale is equal to the same feature for the subject property, the
	 appraiser should report an equal (=) relationship. In the overall comparison of the subject property and the comparable sales, the appraiser must take into
	consideration the value relationships for each of the features of the properties, and, for each comparable
	sale, the appraiser must indicate whether the property is superior, equal, or inferior to the subject
	property. In developing his/her opinion of the market value of the subject property, the appraiser should
	give the most weight to the comparable sales that are the most similar to the subject property based on the relative comparison analysis.
Income	The Income Approach to value is required for appraisals of 2- to 4-unit properties, but may not be relied
Approach	upon as the sole indicator of market value.
	When the income approach to value is used, the appraisal report must include the supporting
	comparable rental and sales data, and the calculations used to determine the gross rent multiplier. The income approach to value is based on the assumption that market value is related to the market rent
	or income that a property can be expected to earn. This approach is not generally appropriate in areas
	that consist of mostly owner-occupied properties since adequate rental data would not typically exist for
	the area. It is more frequently used in neighborhoods that consist of single-unit rental properties where
	there is a substantial rental market with available rental data. To arrive at the indicated value, multiply the total gross estimated monthly market rent for the subject
	property by a reconciled gross monthly rent multiplier. Appraisers must use their best judgment
	regarding the applicability of the income approach. However, an example in which the income approach
	may not be an appropriate indicator of value involves the appraisal of a two-unit property in a
	neighborhood that is dominated by owner-occupied two-unit properties. In such cases, the appraiser does not need to develop a gross monthly rent multiplier, but must still report the estimated market rent
	for the subject property.
PUD Section	The PUD section provides additional information on the planned unit development in which the subject
	property is located. If the subject property is not located in a PUD or subdivision, completion of this
	section is not required. Things to look for when reviewing this section:
	- Is the developer/builder in control of the homeowners' association?
	- What are the common elements?

Reconciliation of Value	 It is the appraiser who must provide us with the final reconciliation. The reasonableness and reliability of each approach to value and the reasonableness and validity of the indicated values and the available data, then the selection of the approaches that were given the most weight determine the reconciliation of value. The reconciliation of value is not an averaging process; it is an ongoing process throughout the appraiser's analysis of the data. Typically, in appraising owner-occupied properties, the most reliable market data is the comparative sales approach because it reflects the current market acceptance of property values with current listings supporting the trend of increased, stable or decreasing values. Things to look for when reviewing this section: Is the final value estimate based on "as is" or "subject to"? Is the appraisal less than 120 days old? Did the appraiser indicate any repairs were needed or recommended? Inspections? Does the final value estimate support the sales price? Is the appraisal signed and dated? Is the appraiser's license or certification number on the appraisal report? Is the appraiser on the watch list?
Reconciliation of Multiple Opinions of Market Value	If Homebridge provides multiple appraisal reports with conflicting values, either because the Investor or Loan Program requires it or there is a quality issue, a rationale for the second appraisal report including reconciliation as to why one value conclusion was deemed more appropriate than the other must be provided.
Appraisal Revisions	 There are times when appraisal revisions are warranted (e.g., substantial changes in the terms of the sale, a substantial change in the building, plans/specifications, changes in legal description or boundaries, corrections requested by the underwriter, etc.). When a revision is warranted, the appraiser must describe in writing what revisions were made and provide a new original appraisal or addenda with original and/or digital signatures. All appraisal revisions must comply with Appraiser Independence Requirements (AIR); Fannie Mae Single Family Selling Guide and the Freddie Mac Single Family Seller/Servicer Guide via AllRegs, and Uniform Standards Professional Appraiser Practice. If a field review or new appraisal is obtained, a Homebridge approved appraiser or agent that is not affiliated with the fee appraiser's firm/agency under scrutiny must complete the field review or new appraisal. If a change in value is warranted, the review appraiser must complete the assignment according to Standard 3 of the Uniform Standards Professional Appraiser Practice. If the initial appraisal report was not rejected, as discussed in the above section, but a second or subsequent appraisal report or an appraisal field review report is obtained, Homebridge must determine whether the opinions of market value are equally accurate and well-supported. If all of the appraisal/field reports are deemed accurate and well-supported, then the lowest of the opinions of market value must be used to underwrite the mortgage.
Prior Listings of the Subject Property	The appraiser must research and comment on whether the subject property is currently for sale or if it has been listed for sale within 12 months prior to the effective date of the appraisal Homebridge's data source, offering price and date. If the property is listed for sale more than once in the prior 12 months, the appraiser must cite each occurrence with data sources, offering prices and dates.
Supervisory Appraisers	 Although the USPAP allows an appraiser who does not have the appropriate knowledge and experience to accept an appraisal assignment by providing procedures by which the appraisal can be completed, Homebridge requires use of appraisers who have the appropriate knowledge, experience and does not allow this USPAP flexibility.
Termite Certifications	 If required, the termite (pest) inspection report must indicate that the subject property has been inspected and found to be free of active infestation from termites and other insects. If property damage is observed, any repairs required must be satisfactorily completed with evidence documented in the loan file prior to loan closing. If termite infestation/damage is noted on the Sales Contract or the Sales Contract Disclosure, the appraiser should address within the appraisal report and the underwriter must make the determination if an inspection is necessary. For conventional loans: A termite inspection is required only if the appraiser addresses that there is an infestation problem. If live infestation is present, treatment along with documented evidence of the treatment must be received prior to closing. If minor and/or cosmetic damage is observed, a hold harmless agreement signed by the borrower must be received. If major and/or structural damage is observed, a licensed contractor must determine the extent of the damage. Repairs must be satisfactorily completed with evidence received prior to closing. If there is evidence of previous infestation, but no damage is observed, a hold harmless agreement signed by the borrower must be received.
Appraiser Eligibility	 In an effort to assist Homebridge in the selection of an appraiser, the investor publishes an Appraiser-Monitor/Ineligible List. Homebridge may use any appraiser NOT on the Appraiser-Monitor/Ineligible List, subject to the other guidelines for appraisers and their appraisals set forth in this Manual. Adherence to the Appraiser – Monitor/Ineligible List is required for all loans. The Appraiser- Monitor/Ineligible List will show two categories of appraisers:

 "CRM Review Required" – submitting loans for purchase consideration with an appraisal completed by an appraiser designated on the list with the Appraiser Category "CRM Review Required" will be handled as outlined below. Loans delivered without a Field Review will receive an automatic appraisal review resulting in one of the following recommendations: Accept as-is; Require additional clarification from original appraiser; or Require a field review
If a Field Review is provided and the Field Review Appraiser is not on the Appraiser Monitor/Ineligible List, it does not require escalation for review. The Field Review may be ordered either from one of the investor-approved Appraisal Management Companies or from any other appraiser meeting Appraiser Independence Requirements.
The Field Review may be ordered either from one of the Investor-approved Appraisal Management Companies or from any other appraiser meeting Appraiser Independence Requirements. "Appraiser Ineligible" - Appraisers whose appraisals are ineligible for submission will be designated on the list with the caption "Appraiser Ineligible" and the following rule will apply: The investor will not purchase loans based on appraisals prepared by appraisers designated on the list with the caption "Appraiser Ineligible".
 If the appraisal was ordered prior to the date the appraiser was added to the list, the investor will review the appraisal for exception approval; if the appraisal was ordered after the appraiser was added to the list, the appraisal is not acceptable. A new appraisal must be ordered.
Homebridge has an obligation under the Agreement to keep the investor proprietary information confidential. At the same time, it is understood that Homebridge may need to share the investor proprietary Appraiser- Monitor/Ineligible List with the appraisal management company or another vendor for appropriate business purposes. The way for Homebridge to do that without breaching the Agreement would be to enter into a confidentiality agreement with the vendor to document the vendor's commitment to use the list only for Homebridge's appropriate business purposes and to protect the information in the same fashion that the vendor would protect its own confidential information.
• If Homebridge wishes to provide their vendors with access to the list may do so by sending an email to the investor's National Client Services at with the contact information and email address of the vendor to be provided access. Homebridge will be required to attest to the above confidentiality requirement. Once the attestation is received, the vendor will be provided a generic login allowing them restricted website access and not access to any Homebridge or borrower specific information. The investor reserves the right to reject for purchase or require repurchase of any such Loan at any time. The decision with respect to any such Loan will be final.
 Appraisers with questions/concerns related to appearing on the watch list need to send an email to investigate. Inquiries related to the watch list will not be addressed by support resources. Please note all inquiries need to be initiated by the appraiser and the email must come from the appraiser directly. An email response back to the appraiser is typically completed within 30 days (often sooner).
 Appraiser License Information As a result of the current Appraiser Eligibility Process, it is no longer necessary to submit a copy of the appraiser's license with an appraisal; however, the license number and license expiration date must be included on the appraisal form.
 Homebridge reserves the right to perform reviews on appraisals received and to require additional information or value confirmation where deemed necessary.
Homebridge reserves the right to refuse appraisals from any individual appraiser with or without cause.
 It is important to note that Homebridge's use of an appraiser who is not on the Appraiser-Monitor/Ineligible list does not guarantee that the investor will purchase the Loan or that the appraisal is acceptable. The Underwriter must still review the appraisal for, among other issues, collateral acceptability, safety and habitability issues and environmental concerns. All of Homebridge's representations and warranties and related remedies remain in full force and effect with respect to any appraisal.
The appraiser process is designed to minimize Homebridge's exposure to value related issues. In addition, the requirement assists Homebridge in streamlining its process by eliminating Loans with value related issues much earlier in the purchase consideration process.
 The appraiser is responsible for considering all factors that have an impact on the value in the development of their opinion of the market value for the subject property. The appraiser also is responsible for noting in the report, any adverse conditions (such as, but not limited to, needed repairs; deterioration; the presence of hazardous wastes, toxic substances, adverse environmental conditions; etc.) that were apparent during the inspection of the property or that they became aware of during the research involved in performing the appraisal. Therefore, the appraiser is expected to consider and describe the overall quality and condition of the property. They must identify items that require immediate repair and items for which maintenance may have been deferred, which may or may not require immediate repair. Homebridge expects the appraiser's property inspection for an appraisal based on an interior and exterior inspection to be a complete visual inspection of the accessible areas of the property. However, the appraiser is not responsible for hidden conditions. Homebridge permits an appraisal to be based upon the "as is" condition of the property as long as any minor conditions, such as deferred maintenance, do not affect the livability, safety, soundness, or structural integrity of the property, and the appraiser's opinion of value reflects the existence of these

	 plumbing leaks, holes in window screens, or cracked window glass. Minor conditions and deferred maintenance are typically due to normal wear and tear from the aging process and the occupancy of the property. Such conditions generally do not rise to the level of a required repair. Nevertheless, they must be reported. The appraiser must identify physical deficiencies that could affect the safety, soundness, structural integrity, or livability of the property as part of their description of the physical condition of the property. These may include cracks or settlement in the foundation, water seepage, active roof leaks, curled or cupped roof shingles, inadequate electrical service, plumbing fixtures, etc. In situations in which a condition may need repair but the appraiser may not be qualified to make that decision, the property must be appraised subject to a satisfactory inspection and any material conditions repaired before the mortgage is delivered to us. The appraiser may be asked to revise the appraisal based upon the results of the inspection, in which case the appraiser would incorporate the results of the inspection and measure the impact, if any, on their final opinion of value.
Knowledge and Experience	 The appraiser must have the appropriate knowledge and experience required to perform a professional quality appraisal for the specific geographic location along with the particular property; and knowledge about, and access to, the necessary and appropriate data sources for the area in which the appraisal assignment is located. It should not be assumed that simply based on the fact that an appraiser is statelicensed or –certified that they are qualified and knowledgeable about a market area. The background and experience of the appraiser varies widely; and as such, it is important to remember that the lack of knowledge and/or experience can lead to inaccurate property valuations and inappropriate appraisal practices.
Appraiser Licensing and Certification	 An appraiser's expertise, professionalism, and ethical conduct are considered warranted by Homebridge's submission of the credit package. Appraisers cannot have a direct or indirect interest (financial or otherwise) in the property being appraised. They must not be supervised, controlled, or influenced by the lending, underwriting and/or investment functions of Homebridge. They must be engaged by the lending institution rather than the borrower, property seller, agent or other interested party. An appraiser must be physically based in the market where they serve. It is Homebridge's responsibility to ensure all FIRREA and state-specific requirements are met on an ongoing basis. All appraisal reports submitted to the investor must be completed by an appraiser with a current license or certification by the state in which the mortgaged property is located. Appraisers must be state-licensed or certified as appropriate under the applicable state law. The appraiser must note their license or certified as appropriate under the applicable state law. The appraiser must note their license or certified as appropriate under the applicable state law. The appraiser must note their license or certified appraiser must complete every appraisal report and the following restrictions apply: Unless individual state laws are more restrictive, a state licensed or certified appraiser must complete every appraisal report and the following restrictions apply. State licensed appraisers are restricted to: Assignments on non-complex 1-4 unit residential properties with a transaction value of up to \$2,50,000. State certified appraisers have NO restrictions. Transitional or trainee licenses are NOT acceptable. This does not preclude an appraiser from relying on individuals who are not state licensed or certified to assist in the development of the appraisal report. The app
Appraiser Approval Recommendation	 Homebridge must have the necessary approval process in place to ensure the appraiser provides an accurate estimate of the value, and a complete and accurate description of the property and improvements. Homebridge is solely responsible for the selection and approval of the appraisers. Homebridge is responsible for selecting appraisers fairly and without discrimination and meet minimum

	standards established under FIRREA. This includes ensuring the appraiser/appraisal process is independent and that no undue influence was involved in the placement of orders, development of the appraisal report or undue pressure to meet specific value results.
Work Completion Escrows	Not Permitted
Acceptable Property Types	Homebridge will originate residential mortgages on the following types of property: 1-Unit (attached, semi-detached and detached) on an individual lot 2-4-Units PUD (Planned Unit Developments) Condominiums* Site Condominiums* *Project approval may be required. Project approval guidelines are addressed in Condo and PUDs section of this manual Note: There is no special designation of loans made to natural persons for the purchase of a Group Home, whether the property is utilized as a principal residence property, second home, or investment property. For borrowers who are natural persons, eligibility and pricing for group homes will be the same as currently provided under the terms and conditions established for the respective occupancy and resale restriction type. Permitted provided the transaction meets eligibility policies in the Borrower Profile section, and is not a Deed-Restricted Property (excluding age-related restrictions)
Unacceptable	A mortgage may not be made on the following properties:
Collateral Collateral	Property that is not suitable for year-round occupancy regardless of the location;
	Unapproved non-conforming use property (does not include grand fathered use);
	 Property with health, safety, and/or livability issues (e.g., non-functioning bathrooms or kitchens, no utilities, mud slide areas, etc.);
	 Property with incomplete items or conditions that affect the safety, soundness or structural integrity of the property that are not completed or corrected prior to closing.
	 Property with Chinese drywall, as noted by the appraiser. Chinese drywall is known to produce foul odors; causes metal to corrode more quickly than normal; leaves black corrosion on wiring or copper; and causes appliances and electronics with copper wiring to fail due to corroded copper wiring;
	Properties with unexpired redemption periods after a foreclosure or tax sale has occurred;
	 Properties subject to private transfer fee covenants prohibited by 12 C.F.R. Part 1228 are ineligible if those covenants were created on or after February 8, 2011. (See Private Transfer Fees topic for additional information.)
	Illegal use of the property;
	Manufactured housing (i.e., a structure such as a mobile or coach home that is built on a permanent chassis;
	2-4 Family property that has an illegal additional unit or illegal accessory apartment (ADU); Under no circumstances can the property have a total of more than 4 living units. Property in the state of the control of the con
	Property is located in a high risk flood zone (Zones A and V) or volcano area and does not have the proper flood/volcano insurance coverage as federally mandated; Property is on the island of Usyasii and is located within laws zones 1 or 2:
	 Property is on the island of Hawaii and is located within lava zones 1 or 2; Property located in an area that is deemed an environmental risk by a Phase III Report;
	 Unique property in which the marketability cannot be established (e.g., dome, geothermal, log, or stilt home);
	 Business, commercial, or agricultural use of the property that does not meet residential requirements (e.g., income producing property such as hotel, B&B, farming, etc.).
	 Idaho properties with more than 80 acres, Montana properties with more than 30 acres, South Dakota properties with more than 30 acres;
	Timeshare, houseboat, segmented ownership project.
	Mobile home (including those that meet all the requirements of manufactured housing) or "Tiny" (portable) Homes;
	Residential dwelling consisting of five or more units;
	• Condotels
	Agricultural/Rural property that does not conform to Fannie Mae guidelines. Construction and Trusts which are greated to property large terms of and to be a property.
	 Community Land Trusts which are created to preserve long term affordable housing by purchasing homes in communities, then leasing the land using a long-term ground lease to low-income and moderate-income families at affordable monthly ground rents. Community Land Trust are managed by nonprofit entities, such as state, or local governments, counties, school districts, universities, or colleges The ground lease includes provisions that require the continued use of the property for low-income and moderate income families in the future.
	Boarding Houses and Bed & Breakfast properties.
	Properties with Survey Exceptions

	 Properties located on land that does not allow for the investor's access for mortgage servicing purposes (e.g., foreclosure, etc.). Properties subject to PACE loans. Refer to Energy Efficient Property topic for additional information.
	 Properties with unacceptable UAD Property Condition or Quality Ratings. Refer to <u>Uniform Appraisal</u> <u>Dataset</u> topic for details.
	Property where there is marijuana being grown in the interior of the subject property (grow house), as identified by the appraiser (including locations where it is permitted by state law).
Accessory Dwelling Unit (ADU)	 Unimproved Land, Land Contracts, Lot Loans except as permitted in the Multiple Parcels guidelines. An Accessory Dwelling Unit (ADU) is typically an additional living area independent of the primary dwelling that may have been added to, created within, or detached from a primary one-unit dwelling. The ADU must provide for living, sleeping, cooking, and bathroom facilities and be on the same parcel as the primary one-unit dwelling.
	1 Unit Property with one ADU Primary residence only.
	Homebridge will permit a mortgage secured by a 1 unit property that includes an additional unit or
	accessory apartment. The property must meet the following guidelines:
	 There is only one accessory unit on the property; multiple accessory units are not permitted. A 4 unit property that includes an accessory unit is not permitted. See below for 2-3 unit properties with an accessory unit.
	 The unit includes a fully functioning kitchen, bathroom facilities including a bathing area, and sleeping area. The kitchen must, at a minimum, include cabinets, a countertop, sink with running water and a stove or stove hookup (hotplates, microwaves, or toaster ovens are not acceptable stove substitutes).
	 Be subordinate in size to the primary dwelling.
	 Means of ingress/egress: It is not considered an accessory unit if it can only be accessed through the primary dwelling or if the area is open to the primary dwelling with no expectation of privacy.
	 ADU Rental Income: The borrower must qualify for the mortgage without considering rental income from the accessory unit.
	 For properties that do not conform to zoning, the following conditions apply in addition to list above: Homebridge must ensure that the existence of the additional unit will not negatively impact any
	future hazard insurance claim. - The property must be appraised based upon its current use.
	 The appraisal must report that the improvements represent a use that does not comply with zoning ("Illegal" use).
	 The use conforms to the subject neighborhood and to the market; and The appraisal must demonstrate that the improvements are typical for the market through an analysis of at least three comparable properties that have the same non-compliance zoning use.
	 For properties that do conform to zoning, the appraisal must demonstrate that the improvements are typical for the market through an analysis of at least one comparable property with the same use. 2-3 Unit Properties with an ADU
	Primary and investment property allowed. Second homes are not allowed.
	• The borrower must qualify for the mortgage without considering rental income from the accessory unit.
	 A 2–3-unit property that has one accessory unit is allowed provided it has: A kitchen
	- A bathroom
	 A separate entrance Is independent of the primary dwelling unit
	Is subordinate in living area to the primary dwelling and Contributes less to the value of the property than the primary dwelling unit.
	 Contributes less to the value of the property than the primary dwelling unit The additional unit must be legal, legal non-conforming, or located in an area without zoning.
	The appraisal must include a description of the additional unit, and any effect the unit has on market value or marketability of the property. The description of the unit must include the general condition of the unit, the room count specifying the number of bedrooms and baths and the square footage of the
	additional unit's living area. The appraisal report must include the following:
	 At least one comparable sale with an additional unit, when available, to demonstrate the property's conformity and marketability to its market area. If a recent comparable sale with an
	additional unit is not available in the subject neighborhood, the appraiser can use an older sale
	with an additional unit from the subject neighborhood or a sale with an additional unit from a competing neighborhood as a comparable sale or as supporting market data. The appraiser
	may always use more than three comparable sales, including contract sales (pending sales)
	and/or current listings, to justify and support his or her adjustments and opinion of market value, as long as at least three are actual closed (settled) sales.
	 If a comparable sale with an additional unit is not available, the appraiser can use a
	comparable sale in the subject neighborhood without an additional unit as long as the appraiser can justify and support such use in the appraisal report. Freddie Mac will purchase
	eligible Mortgages secured by a property with an additional unit if the appraiser can develop an
	accurate opinion of market value for the property.

	4-Unit Property with an ADU: NOT Permitted
Illinois Land Trust	 Permitted in the state of Illinois only A land trust is a simple arrangement under which a trustee holds title of record but the beneficiary of the land trust holds all the rights over the property. A land trust is evidenced by a recorded deed placing the property in the land trust, and an unrecorded trust agreement, which spells out the terms, provisions, rights, and obligations of all the parties, involved. If the property is held in a land trust, the beneficiary retains complete control over the property. The trustee executes deeds, mortgages, and leases upon written direction from the beneficiary. The land trust is used to maintain an individual's privacy and keep the property ownership information from public record. It also provides for a simple succession of ownership, and protects the property from many types of tax liens and judgments. The title report/commitment will not reflect our applicant as a vested owner, but rather identify the trustee of the land trust. The land trust documentation should reflect that the property is held in a land trust with our applicant as the beneficiary. Homebridge will permit a mortgage to be secured by a property held in a land trust in the state of Illinois only, provided the following requirements are met: All beneficiaries must be secured by a 1-unit detached, condo or PUD, or 2-4 unit that is a primary residence or second home. All beneficiaries must be secured by a 1-unit detached, condo or PUD, or 2-4 unit that is a primary residence or second home. Each beneficiary must be an applicant and have their credit and income used to qualify the loan. All the beneficiaries who are applicants must be obligated as individuals under the terms of the note. The mortgaged property securing the land trust should be the only asset of the land trust. The trustee must be a corporation or financial institution customari
Agricultural / Rural Property	 Agricultural real property is any tract of real property which is used to raise, harvest or store crops, feed, breed, or manage livestock, or to produce plants, trees, fowl, or animals useful to man, including the preparation of the products raised thereon for man's use and disposed of by marketing or other means. It includes, but it not limited to, such real property used for agricultural, grazing, horticulture, forestry, dairying, and mariculture. In the event at least 50% of real property tract shall qualify as "agricultural real property", the entire tract shall be so classified, provided no other business for profit is being operated thereon. The term "agricultural real property" shall not include any property used as the residence of the owner or others in that the taxation of such property is specifically provided for in Section 2(C) and (E) of Act 208. A rural location relates to the country or anything beyond the suburban area. Homebridge will consider lending on a property located in a rural area, however the mortgage must be secured by a property that is residential in nature—based on the characteristics of the subject property, zoning and the present land use. Homebridge does not lend on agricultural property (such as a farm, orchard, or ranch), on undeveloped/vacant land, or on land development-type property. If the subject property is located in a rural area that is relatively undeveloped or an area in which properties often have a large lot size, the appraiser may have to go a considerable distance to find property that can be used to develop an opinion of value for the subject property. A property with minimal outbuildings—such as a small barn or stable—that are of relatively insignificant value in relation to the total appraised value of the subject property is acceptable if it is typical of other residential property in the area. Example: A property that has a small barn or stable is acceptable if the appraiser demonstrates through the use of comparable sales with si

Excess Land Legal & Non- Confirming Use	 A property with a significant parcel size or lot size should be identified and appraised in its entirety. The appraiser should not make an assumption that only a reduced parcel size (e.g., 5 acres can be appraised). An appraisal of a large parcel should include a discussion about the actual parcel size and the typical parcel size for the neighborhood or area. There should be appropriate consideration for any excess land over the typical parcel size. Excess land may contribute value and an adjustment may be appropriate in the sales comparison grid. The appraiser should provide adequate support for any adjustment considered in the market grid for excess land. Note: Montana properties with more than 30 acres, South Dakota properties with more than 30 acres, and Idaho properties with more than 80 acres are not permitted. The mortgaged premises must represent the highest and best use of the property as improved (or as per proposed plans and specifications) and the improvements must constitute a legally permissible use of
	the land. Properties that represent a legal but nonconforming use (a.k.a., grandfathered use) of the land are permitted if they meet the following requirements. (Exception: Refer to the Illegal & Non-Conforming Use section below.) - For one-to-four unit properties or units in a PUD project, the appraisal analysis must address any adverse effect the non-conforming use has on the value and marketability. - For units in condominiums projects, the appraisal must include a statement that the subject property represents a legal non-conforming (grandfathered) use. The loan file must include a copy of the applicable zoning regulations, or a letter from the local zoning authority, indicating reconstruction to current density in the event of partial or full destruction is authorized. • Refer to the Site Section topic for additional information on appraisal content.
Accessory Units	 Homebridge will permit a mortgage secured by a 1 unit property that includes an additional unit or accessory apartment. The property must meet the following guidelines: There is only one accessory unit on the property; multiple accessory units are not permitted. A 4 unit property that includes an accessory unit is not permitted. See below for 2-3 unit properties with an accessory unit. The unit includes a fully functioning kitchen, bathroom facilities including a bathing area, and sleeping area. The kitchen must, at a minimum, include cabinets, a countertop, sink with running water and a stove or stove hookup (hotplates, microwaves, or toaster ovens are not acceptable stove substitutes). Means of ingress/egress: It is not considered an accessory unit if it can only be accessed through the primary dwelling or if the area is open to the primary dwelling with no expectation of privacy. The borrower must qualify for the mortgage without considering rental income from the accessory unit. For properties that do not conform to zoning, the following conditions apply in addition to list above:

Illogol 2 New	If a comparable sale with an additional unit is not available, the appraiser can use a comparable sale in the subject neighborhood without an additional unit as long as the appraiser can justify and support such use in the appraisal report. Freddie Mac will purchase eligible Mortgages secured by a property with an additional unit if the appraiser can develop an accurate opinion of market value for the property. Accessory Units
Illegal & Non- Conforming Use	 Accessory Units Homebridge will permit a mortgage secured by a 1-unit property that includes an illegal additional unit or accessory apartment (also referred to as a mother-in-law, mother-daughter, or granny unit) as long as the illegal use:
	Conforms to the subject neighborhood; Is residential in nature; and
	 Meets the test of "common and customary for the market" The unit includes a fully functioning kitchen and bathroom.
	5. There is only one accessory unit on the property; multiple accessory units are not permitted. The property must be appraised in conformity with its current use and the borrower must qualify for the mortgage without considering any rental income from the illegal unit. Homebridge must ensure that the existence of the illegal additional unit will not negatively impact any future hazard insurance claims.
	 The Sales Comparison Analysis section of the appraisal must support the use of similar property.
	 The appraisal report must demonstrate that the improvements are illegal but typical for the market through an analysis of at least three comparable properties that have the same illegal use.
	 A mortgage secured by a 2-4 unit property that includes an illegal accessory apartment is not permitted.
	Coastal Tidelands or Wetlands A mortgage secured by a property that is subject to certain land-use regulations (such as coastal
	tideland or wetland laws) that create setback lines or other provisions that prevent the reconstruction (or maintenance) of the property improvements if they are damaged or destroyed are not permitted. (The intent of these types of land-use regulations is to remove existing land uses and to stop land
Multiple Parcels	 development—including the maintenance or construction of seawalls—within specific setback lines.) If the property consists of more than one parcel of real estate, it must meet the following requirements:
	 Each parcel must be conveyed in its entirety. Parcels must be adjoined to the other unless they comply with the following exception.
	 Parcels that otherwise would be adjoined, but are divided by a road, are acceptable if the parcel without a residence is a non-buildable lot (for example, waterfront
	properties where the parcel without the residence provides access to the water).
	Evidence that the lot is non-buildable must be included in the loan file. - Each parcel must have the same basic zoning (for example, residential, agricultural). - The entire property may contain only one dwelling unit. An ADU is only allowed on the parcel that contains the residence, provided it meets ADU guidelines. Limited additional non-
	residential improvements, such as a garage, are acceptable on either parcel. For example, the adjoining parcel may not have an additional dwelling unit. An improvement that has been built
	across lot lines is acceptable. For example, a home built across both parcels where the lot line runs under the home is acceptable.
	 The mortgage must be a valid first or second lien on each parcel. If there are separate tax bills or tax identification numbers on each parcel, it is not necessary to combine them.
	 The property should be appraised as assembled and may require a hypothetical condition explanation. All parcels must be identified in the appraisal report. The appraiser should disclose if each parcel is build able and/or has utilities. A separate land valuation is not required, however land sales, if available and pertinent, should be presented. The appraiser must provide adequate commentary about the assembled parcel size and consider any parcel size over the typical size as excess land.
Urban Renewal & Inner-City Property	 Urban renewal, inner city (including CRA loans), below market rate and/or affordable housing property can present unusual situations if special sales concessions, government grants, or "silent" seconds are involved. It is essential that the appraiser understands and be proficient in addressing/analyzing the differences between typical financing and special financing or concessions available to the buyer of the property. Differences in financing are typically structured within the purchase price and are outlined or
	identified within the purchase contract or escrow instructions. The appraiser is required to provide detailed commentary that addresses if the financing is typical of the market, who or what entity is providing special financing, and who or what entity is responsible for any concessions offered in a particular transaction if the buyers default on the loan. The appraiser is required to also address the details of the transactions for the buyer and the seller in terms of cash or credit at the close of the escrow.
	The value of the subject property affected by these grants/seconds, along with its appeal and marketability, is generally established by providing market data of other similar surrounding property from inside and outside of the immediate developed area. The appraiser is required to comment in detail on the concessions affecting all of the sales. However, redevelopment may be going on in a house-to-house or block-by-block fashion, making the availability of truly comparable market data difficult. In these
	cases it is imperative for the appraiser to discuss:

	 History of the redevelopment, including any incentives due the developer/builder for the
	specific project or area;
	When the redevelopment started;
	- How many homes have been rehabbed/built;
	 Have there been any resale or attempts to resell (i.e., current listings) these homes; Compare the subject property to the surrounding properties—both rehabbed/ renovated and
	"typical";
	Compares the subject property to other redeveloped property.
Energy Efficient	Homebridge does not permit PACE (Property Assessed Clean Energy), ELTAP (Energy Loan Tax
Property	Assessment Program) or HERO (Home Energy Renovation Opportunity) loans. Several states have
	enacted laws authorizing energy efficient home improvement loan programs, the cost of which is added
	to the property tax assessment, and secured by a lien on the property that takes precedence over the
	first mortgage. - If the borrower is applying to purchase a home or to refinance an existing loan where the
	property is subject to a PACE/HERO loan, the following options are available:
	 The PACE/HERO loan must be paid in full prior to or at closing. If paid by the
	borrower, funds used for payoff must be verified.
	 The PACE/HERO loan may be paid in full as part of a cash-out refinance transaction,
	if there is sufficient equity Note: Homebridge does not permit PACE/HERO loans to remain in place, regardless of whether they
	take priority over a mortgage, or to be paid in full as part of a rate/term refinance transaction.
Solar Panels	When Solar equipment is owned by the property owner, standard eligibility requirements apply (i.e.,
	appraisal, insurance, title, etc.).
	SOLAR PANELS LEASED OR COVERED BY A POWER PURCHASE AGREEMENT
	When solar panels are leased or covered by a Power Purchase Agreement (PPA) or other similar
	arrangements, the following requirements apply, whether it is to the original agreement and/or any follow-up amendments that may apply:
	Solar Panels may not be included in the appraised value.
	The property must maintain access to the alternate source of electrical power that meets
	community standards.
	 The monthly lease payment must be included in the total DTI ratio unless the lease is
	structured to: o Provide delivery of a specific amount of energy at a fixed payment during a given
	period; and
	 Have a production guarantee that compensates the borrower on a prorated basis in
	the event the solar panels fail to meet the energy output required for in the lease for
	that period.
	 Payments under PPA where the payment is calculated solely based on the energy produced may be excluded from the total DTI ratio.
	The lease or a power purchase agreement must indicate that:
	 Any damage that occurs as a result of installation, malfunction, manufacturing defect, or the
	removal of the solar panels is the responsibility of the owner of the equipment and the owner
	must be obligated to repair the damage and return the improvements to their original or prior
	condition (for example, sound and watertight conditions that are architecturally consistent with the home); and
	- The owner of the solar panels agrees not to be named loss payee (or named insured) on the
	property owner's property insurance policy covering the residential structure the panels are
	attached to. As an alternative to this requirement, Homebridge may verify that the owner of the
	solar panels is not a named loss payee (or named insured) on the property owner's property
	insurance policy; and In the event of foreclosure, Homebridge or assignee has the discretion to:
	Terminate the lease/agreement and require the third -party owner to remove the
	equipment;
	 Become, without payment of any transfer or similar fee, the beneficiary of the
	borrower's lease/agreement with the third party; or;
	 Enter into a new lease/agreement with the third party, under terms no less favorable than the prior owner.
	 Any exceptions to coverage on the title insurance policy for recorded instruments relating to the
	solar panels must comply with requirements outlined in the <u>Title Insurance</u> section.
	 A UCC filing that is filed showing the collateral is the solar equipment covered by the lease or
	power purchase agreement, and not the home or underlying land, is acceptable.
	 Release or subordination of the UCC-1 filing is required to ensure that Homebridge has priority
	lien. - Any UCC-1 filing that is subordinated to the subject lien may be excluded from the HCLTV
	calculation.
	SOLAR PANELS FINANCED AND COLLATERALIZED WITH A REAL ESTATE RECORD
	- Mhan aglar nanala are financed and colleteralized for a concrete debt used to nurshage the nanala but

record, the following applies:

When solar panels are financed and collateralized for a separate debt used to purchase the panels, but are a fixture to the real estate because a UCC filing has been filed for the panels in the real estate

	 Must obtain and review the UCC-1 filing, related promissory note and security agreement that
	reflect the terms of the secured loan;
	 The debt obligation must be included in the DTI ratio; Provided that the panels cannot be repossessed for default on the financing terms, the
	appraiser must consider the solar panels in the value of the property
	Include the solar panels in the CLTV ratio calculation
	 If the UCC filing is in the land records as a priority senior lien to the mortgage loan, it must be
	paid off or subordinated. A release of the lien without debt payoff is not allowed.
	SOLAR PANELS FINANCED WITH A NON-MORTGAGE DEBT
	If the solar panels are collateral for a separate, non-mortgage debt used to purchase the panels, but do
	not appear on the title report, the following applies:
	 Obtain and review documentation sufficient to confirm the terms of the secured loan, such as the credit report, title report, UCC financing statement, related promissory note or security
	instrument:
	- The debt obligation must be included in the DTI ratio;
	 The appraiser must not provide value of the solar panels towards the appraised value;
	Do not include the panels in the LTV/CLTV calculation.
Property Flipping	Property flipping generally refers to the process of purchasing an existing property with the intention of
. ,	immediately reselling it for a profit. Property flipping in itself is not illegal unless it includes an act of fraud
	or misrepresentation, which can result in a predatory transaction. The property is often a distressed
	property that was acquired at a discounted price that is being refinanced or resold at an inflated price
	within a short timeframe to an uninformed buyer.
	 The owner may hold title for months or just days, or may assign or sell their interest in a contract to purchase the property to a third party. For example, one party assigns his/her interest in a contract to
	purchase the property to a third party. For example, one party assigns his/her interest in a contract to purchase a property to another party, who sells the property to our borrower. There is often a sequence
	of transactions occurring in quick succession, with back-to-back, simultaneous, or double transaction
	closings or escrows. Appraisal reports used in property flipping schemes may include inflated property
	values, or inadequate analysis of the contract for sale or the sale or transfer history of the subject and
	comparable properties, and should be reviewed carefully.
	Homebridge reserves the right to scrutinize Loan transactions pre-purchase or post-purchase for
	possible property flipping and refuse to originate loans where inappropriate property flipping is indicated.
	Not all purchase/rapid resale transactions are considered property flipping. Examples of purchases that
	result in legitimate rapid resale transactions include: - Property sales by employers or relocation agencies related to employee relocations;
	 Property sales by Government sponsored enterprise, state or federally chartered financial
	institution, mortgage insurer, or federal, state or local government agency (REO properties);
	 Property sales that were acquired by the property seller as a result of inheritance, divorce, or
	as a result of a legal settlement;
	 Properties that were purchased through a distressed sale and made substantial renovations to
	the property and is now selling for a profit. The renovations should be documented and
	verified.
	When a new appraisal is required for a loan transaction, the likelihood of fraud or misrepresentation can be reduced if the underwriter does the following:
	be reduced if the underwriter does the following: - Confirms and documents in the loan file that the property seller in a purchase transaction (or
	the borrower in a refinance transaction) is the owner of the subject property based on publicly
	available information. Acceptable documentation includes the appraisal report, a recent tax bill
	or tax assessment notice, the title report or commitment to issue a title report, or a property
	sale history report; and
	 Analyzes the current contract for sale for the subject property, for purchase money
	transactions, or analyzes the following for both purchase and refinance transactions: (1) the
	current offering or listing for sale for the subject property, (2) the current ownership of the
	subject property, and (3) the sale or transfer history of the subject and comparable properties. The underwriter must analyze and review the sale(s) of the subject property and the sale price
	trend in relation to the appraiser's opinion of value, to confirm they are reasonable and
	representative of the market. The quality, timeliness, and effective dates of the data sources for
	the sale or transfer history of the subject and comparable properties must be acceptable, with
	no time gaps or lags.
Environmental	Homebridge represents and warrants that the properties that are the collateral for loans submitted for
Risk	purchase are free of environmental risk. Homebridge reserves the right to decline to originate loans that
Oil 9 Cool sees	are subject to environmental risk factors.
Oil & Gas Leases	 Title exception on a property that secures a Homebridge mortgage is acceptable with outstanding oil, gas, water or mineral rights provided all of the following criteria are met:
/ Mineral Rights	1. The property is not in a flood zone; and
	 The property is not in a mood 20ne, and The appraiser notates in the appraisal report materials, machinery or supplies related to drilling
	stored on the property except during the course of construction; and
	An ALTA 9 Endorsement or equivalent is required.
	The exercise of such rights will not result in damage to the Mortgage premises (subject property) or
	impairment of the use or marketability of the Mortgage Premises for residential purposes.

Security Bars	 Properties with security bars will be considered unacceptable collateral unless they comply with local fir codes and they meet one of the following conditions: There must be a "Quick Release" on at least one window in each bedroom; or* All bedrooms must have adequate egress to the exterior of the home (occupants of a bedroom must be able to get outside the home if there is a fire). Note: If an enclosed patio (solid walls) covers the
	bedroom window, it is possible that the bedroom won't qualify as a habitable bedroom.
Heating & Cooling Sources	 All properties must have a permanent source of heat and, if typical for the area, cooling. Space heaters and similar sources are not considered permanent heat sources, even if affixed to a permanent wall. The appraiser must comment on it absence and supply evidence that this is common, customary and compatible for the area; comps should reflect the same condition. Regardless, the property must still be habitable year round.
Disasters -	Widespread disasters can occur at any time with little or no warning. They may damage properties
Natural & Man- Made	 securing current or proposed Homebridge loans. Disasters may or may not be officially declared by a governmental body and can include, but are not limited to: Natural:
	Hurricanes / Tropical Storm / Tsunamis
	o Flood / Mudslides
	o Tornado
	o Forest Fire / Wildfires
	o Earthquakes
	Pandemic EventMan-Made:
	o Chemical Spills / Attacks
	Biological Attacks
	Terrorist Attack
	 Transportation Accidents
	 Nuclear Plant Accidents
	o Cyber Attacks
	 Homebridge must have a process in place for identifying disaster areas and potential impact to properties that are the subject of loans proposed for sale to the investor and for repurchase of loans sol to the investor in breach of the representation and warranty set forth below.
	 Homebridge represents and warrants that the properties securing all loans submitted to the investor for purchase have not been negatively impacted by any natural or man-made disaster as of the date the investor purchases the loan. Homebridge is also required to ensure the transaction meets guidelines published by Fannie Mae/Freddie Mac, including requirements for properties in disaster areas. Homebridge also represents and warrants that the borrower's credit qualifications for the underlying loa
	have not been negatively impacted by any natural or man-made disaster as of the date the investor purchases the loan. • If the investor discovers a breach of Homebridge's representations and warranties in any of the
	situations described in the preceding paragraph, Homebridge is obligated to repurchase the loan. Homebridge agrees to notify the investor immediately upon discovery that the property underlying a loa has been negatively affected by any such disaster.
	Appraisal Requirements
	Appraisal Not Yet Received If the appraisal was not yet completed, a full appraisal with interior and exterior photos must be obtained.
	If Homebridge has an appraisal and the loan has not been purchased by the investor, a Property Inspection or Property Condition Report is required to ensure the property has not been damaged.
	Has Been Acceptable Teport types are.
	Received Property Condition Report (PCR) » Fannie Mae 1004D/Freddie Mac 442
	» Form 2075 Property Inspection Report
	» Form 2070 Property Condition & Marketability
	If Appraisal and Property
	Condition Report Reveals No Damage If property was unaffected by the disaster, loan closing can proceed.
	If Appraisal or Property Condition Report Report Bracelo If there is evidence that the property sustained damage, both interior and exterior photographs must now be obtained so that the underwriter can determine the extent of the damage and the effect it may have on value. If the underwriter determines the extent of the damage is unacceptable, the loan may not be closed until the property has been repaired to acceptable standards and a completion certificate prepared by the original appraiser, with interior and exterior
	Reveals Damage Damage Completion certificate prepared by the original appraiser, with interior and extending photographs provided. The value, for LTV purposes, may not exceed the value of the original appraisal. If value does exceed original appraisal, a new 1004 appraisal must be ordered from a different appraiser.

	Damage does not affect the Safety, Soundness, or Structural Integrity of the Property AND Repair Items Are Covered by Insurance: Obtain documentation of the professional estimates of the repair costs and ensure that sufficient funds are available for the borrower's benefit to guarantee the completion of the repairs. Upon receipt and confirmation, the loan may close. Damage is Uninsured or the Damage Affects Safety, Soundness, or Structural Integrity of the Property: The property must be repaired before the loan is closed.
	Condos and PUDs
Project Approval Overview	 A condominium project is a real estate project in which each unit owner has title to a unit in a building, an undivided interest in the common areas of the project, and sometimes the exclusive use of certain limited common areas. Homebridge originates mortgages on individual units within the project; Homebridge does not originate mortgages secured by condominium projects. However, the project in which the condominium is located
Project Eligibility	 may be required to meet specific project approval guidelines prior to the loan closing. The quality of mortgages secured by units in condo and planned unit development (PUD) projects can be influenced by certain characteristics of the project or by the project as a whole. Before delivering a loan secured by an individual unit in a project, Homebridge must determine that the project meets Homebridge eligibility requirements. The project is not an ineligible project and Homebridge is not aware of any change in circumstances since its review of the project that would make the project ineligible. The project is not a newly converted non-gut rehabilitation project or a new or newly converted attached project in Florida. (These projects are only eligible via the PERS process.). The project does not include any manufactured homes. New or Established Project: The project meets the definition of a New Project or an Established Project as described later in this document and as required for the applicable project approval method. Ownership of Project and Common Elements The unit owners must have an undivided fee simple ownership or a leasehold interest in the land on which the project is located. Note: Any ground lease must meet the requirements in Leasehold Estates. The unit owners must be the sole owners of, and have the right to the use of, all common elements (buildings, roads, parking and amenities); the developer must not retain any ownership interest in the common elements. The common elements must be consistent with the nature of the project, be similar to common elements in other comparable condominium projects in the market.
	 Deed-Restricted Properties – Not Permitted Environmental Hazard Assessment: Not required unless Homebridge identifies an environmental problem through the project review process. If problems are identified, they must be determined to be acceptable. Refer to the Environmental Risk topic for additional information. Financing Limited Common Elements or Amenities. Non-realty items (such as boat docks or cabanas) must not be financed as part of a mortgage. Parking spaces that are real property purchased as part of the condo unit may be included when determining price and LTV. Property Insurance: The project must be covered by appropriate hazard, general liability, fidelity bond if more than 20 units, and, if applicable, flood insurance. Title Insurance: In addition to standard title insurance requirements, the title policy includes the special title insurance requirements for units in a condominium project. Documentation: Homebridge must retain all documentation relating to the project approval review. Condo Located within a PUD: If a Condominium Unit is located within a PUD project, the property must meet both Condominium and PUD project eligibility and approval requirements.
Condo Project Types	Homebridge originates mortgages on individual condo and PUD units within a project; Homebridge does not originate mortgages secured by the condo/PUD project. However, the project in which the property is located may be required to meet specific project approval guidelines prior to the loan closing. Project Type Identification Criteria

Ineligible Project Criteria	Refer to Project Eligibility for a summary of guidelines.
Concentration	Homebridge permits financing for up to 30% or \$8MM whichever is greater of the total units in an approved
Level	project or legal phase of an approved project.
Project Coding	Refer to the specific Project Type Codes in the appropriate Condo Project Review section.
Limited Project	Limited Review guidelines allow Homebridge to evaluate and approve condo projects using limited
Review -	documentation. Eligibility is based on specific loan level criteria, including LTV, occupancy, geographic
Description	location and the method by which the loan is evaluated and decisioned.
	 If property is an established project a limited review can be performed if the project is 100% complete including common areas.
	 If the property is a detached condo, a limited review is acceptable on primary residences, second
	homes and investment properties.
	New and newly converted Attached Condo Projects in Florida must be reviewed under Fannie Mae PERS
Limited Devices	- Project Eligibility Review Service.
Limited Review - Project	 Homebridge represents and warrants that the Condo project meets all investor and guidelines. Homebridge must document the condo project type, project name and if applicable, the CPM project ID#
Approval and	on the Uniform Underwriting and Transmittal Summary form (Fannie 1008/Freddie 1077). Homebridge
Delivery	represents and warrants that the project was approved within 6 months preceding the date of the note and
Requirements	that the loan was delivered within 7 months of the project approval date.
	If the project appears on Fannie Mae's or the Condo List, attach a copy of the list with the project name And the CRM Project to the Condo List, attach a copy of the list with the project name.
	circled or highlighted. For projects approved using Fannie Mae's CPM, attach a copy of the CPM Project Approval Certification.
	Homebridge must check Fannie's Condo Project Manager (CPM) list for projects with five or more attached
	units. A project with an "Unavailable" status for deferred maintenance/structural integrity is ineligible.
	Projects listed as "Unavailable" for any other reason, should be reviewed against standard guidelines for
	eligibility. • For projects on the investor's Condo List, the closing must occur within 6 months of the Status Date, and
	 For projects on the investor's Condo List, the closing must occur within 6 months of the Status Date, and prior to the earliest document expiration date; otherwise, a project approval update will be required.
	No more than 15% of the total units in a project are 60 days or more past due in the payment of each
	special assessment
	For projects in need of critical repairs with five or more attached units, including material deficiencies and
Ouities! Develop	significant deferred maintenance, see below.
Critical Repairs Including	 Projects in need of critical repairs are those needing repairs or replacements that significantly impact the safety, soundness, structural integrity or habitability of the project's building(s), or the financial viability or
Material	marketability of the project. Critical repairs include conditions such as:
Deficiencies	 material deficiencies, which if left uncorrected, have the potential to result in or contribute to critical
and Significant	element or system failure within one year;
Deferred	 any mold, water intrusions or potentially damaging leaks to the project's building(s); advanced physical deterioration;
Maintenance	 any project that failed to pass state, county, or other jurisdictional mandatory inspections or
	certifications specific to structural safety, soundness, and habitability; or
	 any unfunded repairs costing more than \$10,000 per unit that should be undertaken within the next 12
	months (does not include repairs made by the unit owner or repairs funded through a special
	 assessment). Examples of some items to consider include, but are not limited to, sea walls, elevators, waterproofing,
	stairwells, balconies, foundation, electrical systems, parking structures or other load-bearing structures.
	If damage or deferred maintenance is isolated to one or a few units and does not affect the overall safety,
	soundness, structural integrity, or habitability of the project, then these requirements do not apply.
	 Routine repairs are not considered to be critical and include work that is: preventative in nature or part of normal capital replacements (for example, focused on keeping the
	project fully functioning and serviceable); and
	 accomplished within the project's normal operating budget or through special assessments that are
	within guidelines.
	• A project with an evacuation order due to an unsafe condition, either for a partial or total evacuation of the
	project's building(s), is ineligible until the unsafe condition has been remediated and the building(s) is deemed safe for occupancy.
	These requirements apply to all Mortgages secured by units in Condominium Projects with five or more
	attached units, regardless of the project review type.
	<u>Special Assessments</u>
	 Special assessments may be current or planned. Homebridge must obtain and review the following information for each special assessment to determine if it addresses a critical repair:
	 what is the purpose of the special assessment,
	 when was the special assessment approved and is it planned (approved by the unit owners, but not
	yet initiated by the board) or already being executed,
	 what was the original amount of the special assessment and the remaining amount to be collected,
	and - when is the expected date the special assessment will be paid in full.
	If the special assessment is associated with a critical repair and the issue is not remediated, the project is
	ineligible.

	Additional Documentation
	 Additional Documentation A combination of documents can be used to determine if a project meets physical condition requirements.
	The following is a list of items that may be used, but not limited to:
	 HOA board meeting minutes, Six months of the project's HOA meeting minutes. If meeting minutes
	are unavailable, financial statements for the project, either audited or prepared by a professional
	management company, should be reviewed to determine if there is deferred maintenance or repairs
	necessary due to unsafe conditions.
	engineer report(s),
	 structural and/or mechanical inspection reports,
	- reserve studies,
	 a list of necessary repairs provided by the HOA or the project's management company,
	 a list of special assessments provided by the HOA or the project's management company,
	 and other substantially similar documentation
	Inspection Reports
	If a structural and/or mechanical inspection was completed within 3 years of Homebridge's project review
	date, Homebridge must obtain and review the inspection report. The report cannot indicate that any critical
	repairs are needed, no evacuation orders are in effect, and no regulatory actions are required.
	If the inspection report indicates there are unaddressed critical repairs, the project is ineligible until the
	required repairs have been completed and documented accordingly.
	Homebridge must review an engineer's report or substantially similar document to determine if the repairs applicated being reached the perfect of substantially similar document to determine if the repairs
	completed have resolved the safety, soundness, structural integrity, or habitability concerns of the project.
	No more than 15% of the total units in a project are 60 days or more past due in the payment of each special
	assessment.
Limited Review	Note: This includes payment of each special assessment. Maximum LTV/CLTV/HCLTV:

	 Investment: Not Allowed
	Eligibility: Refer to Condo Project Types topic for requirements.
Limited Review	Detached units located in a project with a mix of attached and detached units.
- Attached	Detached condominiums consist of units that physically resemble a traditional detached single-family
Condo Units	dwelling. The project may be new or established. Note : New Projects are only eligible for sale to Fannie
	Mae.
	Maximum LTV/CLTV/HCLTV: Refer to the LTV/CLTV/HCLTV for the Process type selected. Client Cl
	Eligibility: Drimary regidence, accord home or investment avenuety.
	 Primary residence, second home or investment property. If new, at least 1 comparable sale must be a detached condo unit.
Limited Review	·
	 Appraisal Ground lease, if applicable.
Documentation	Projects Consisting of Five or More Attached Units – ALL Limited Reviews
Requirements	Project must be reviewed against Fannie's Condo Project Manager (CPM). A project with an "Unavailable"
requirements	status for deferred maintenance/structural integrity is ineligible. Projects listed as "Unavailable" for any
	other reason, should be reviewed against standard guidelines for eligibility.
	Project must not have any significant deferred maintenance or unsafe conditions* These projects are not
	eligible until the required repairs have been made and documented. Documentation would include, but not
	be limited to, satisfactory engineering or inspection report, certificate of occupancy, or other substantially
	similar documentation.
	Project documentation required:
	- Completed Condo Limited Review Questionnaire
	- Six months of the project's HOA meeting minutes If meeting minutes are unavailable, financial
	statements for the project, either audited or prepared by a professional management company,
	should be reviewed to determine if there is deferred maintenance or repairs necessary due to unsafe conditions.
	 If there are any current special assessments, or planned special assessments, they must be reviewed to
	determine acceptability. Must document the reason for the special assessment, the total amount assessed
	and repayment terms, and documentation to support there is no negative impact to the financial stability of
	the project. The borrower must be qualified with any outstanding special assessment. Homebridge is
	expected to obtain the financial documents necessary to confirm the association has the ability to fund any
	repairs. If the special assessment is related to safety, soundness, structural integrity, or habitability, all
	related repairs must be fully completed or the project is not eligible. Additionally, if Homebridge or
	appraiser is unable to determine that there is no adverse impact, the project is ineligible.
	Inspection Reports

	If a structural and/or mechanical inspection was completed within 3 years of Homebridge's project review
	date, Homebridge must obtain and review the inspection report. The report cannot indicate that any critical
	repairs are needed, no evacuation orders are in effect, and no regulatory actions are required.
	If the inspection report indicates there are unaddressed critical repairs, the project is ineligible until the
	required repairs have been completed and documented accordingly. Homebridge must review an
	engineer's report or substantially similar document to determine if the repairs completed have resolved the
Limited Review	safety, soundness, structural integrity, or habitability concerns of the project. One of the following Project Type codes must be assigned:
- Project	 One of the following Project Type codes must be assigned: Limited Review – Established Project (including Freddie Mac 2-4 Unit Projects)
Coding	Q (Fannie Mae)
County	H (Freddie Mac Streamline Review)
	- Limited Review – New Project:
	o P (Fannie Mae)
	Freddie Mac – not permitted.
CPM Expedited	Expedited Project Review process is followed when the transaction does not meet the Limited Review
Review	criteria, Lender Full Review criteria and the project is not listed on the Fannie Mae Accepted Condominium
Description	Development list.
	Projects that have been reviewed and accepted by Fannie Mae are on the Fannie Mae-Accepted
	Condominiums project list at http://www.efanniemae.com/.
	If the project is new, or if it is not on the list and the loan does not qualify under the Limited Review
	process, the project may be submitted to Fannie Mae's Condo Project Manager (CPM) system. CPM is an
	online approval process that also tracks the status of delegated project reviews. CPM is available on line at
	www.eFannieMae.com.
	 New and newly converted Attached Condo Projects in Florida must be reviewed under Fannie Mae PERS Project Eligibility Review Service.
CPM Expedited	 A Condominium project is a real estate project in which each unit owner has title to a unit in a building, an
Review	undivided interest in the common areas of the project, and sometimes the exclusive use of certain limited
Overview	common areas. Homebridge originates mortgages on individual units within the project. Homebridge does
Overview	not originate mortgages secured by Condominium projects.
CPM Review –	Condo Project Manager's project certification is valid for six months for new projects, or one year for
Delivery	established projects.
Requirements	If choosing to use the investor's Approved Condo/PUD list, refer to Project Approval.
	For projects on the investor's Approved/ Declined Condo & PUD List, the note date must be prior to the
	expiration of the project certification, as well as prior to the earliest document expiration date; otherwise, a
	project approval update will be required.
	Homebridge may recertify the project by updating the project data in CPM as needed.
CPM Review –	The following requirements apply for all project approvals:
General Condo	- Project Eligibility:

	New and newly converted Attached Condo Projects in Florida must be reviewed under Fannie Mae PERS
	- Project Eligibility Review Service
CPM Review –	CPM Expedited Review Eligibility Requirements (For All Projects)
Additional	Homebridge enters project information into CPM, which applies automated business rules to determine if a
Eligibility	project is eligible under Fannie Mae's guidelines for this process.
Criteria	 The project must meet the General Project Eligibility Requirements.
	 Note: Presale and investor concentration may be more flexible than Lender Full Review
	requirements.
	 No more than 15% of the total units in a new or established project may be 30 days or more
	delinquent on condominium/HOA fee payments
	 Budget. With the exception of 2-4 unit properties, Homebridge must review the homeowners'
	association actual budget for established projects or the projected budget for new projects and
	determine the following:
	 The budget is adequate (includes allocations for line items pertinent to the type of
	condo)
	 The budget provides for the funding of replacement reserves for capital expenditures
	and deferred maintenance (at least 10% of the budget); and
	 The budget provides adequate funding for insurance deductible amounts, as evidenced
	by a separate line item, or included in reserve funds.
	New Projects (Except for 2-4 Unit Projects)
	CPM may be used to obtain project approval for new projects under the Expedited Review Process. When
	submitting a project for approval using CPM, the project must be analyzed to make sure the following
	requirements are met:
	 The project was created and continues to exist in full compliance with applicable state,
	jurisdictional, and all other applicable laws and regulations.
	- For new projects, CPM will base its project review decision on the pertinent project data input into
	the system. While Fannie guidelines call for a minimum 51% presale, CPM may allow broadened
	eligibility criteria on a project-level basis with reduced presale requirements.
	- For new projects, CPM project approval will be valid for a period of six months. The project may
	be eligible for an extension of project approval certification upon submission of updated project
	data.
	 Project Legal Documents. The project documents must state, or state law must provide, that: Amendments that have a material adverse impact on first lien mortgagees must be
	agreed to by mortgagees that represent 51% of the units subject to first lien mortgages.
	Any action to terminate the legal status of the project or use insurance proceeds for any purpose other than to rehuild must be agreed to by mortgages that represent 519/ of
	purpose other than to rebuild must be agreed to by mortgagees that represent 51% of the units subject to first lien mortgages. Note: The documents may allow approval to be
	assumed when the mortgagee of record fails to submit a response to a written proposal
	for an amendment within 60 days of receipt of notice, provided it was sent via certified,
	registered or return receipt mail
	The mortgagee/guarantor must have the right to timely written notice of condemnation,
	casualty loss, 60-day delinquencies in payment of assessments, lapse/cancellation or
	material modification of the HOA insurance policies, or any action that requires consent
	of a percent of the mortgagees.
	 The project documents must not give a unit owner or any other party priority over any
	rights of the first mortgagee in the case of payment of proceeds from termination or
	insurance proceeds or condemnation awards for losses to or a taking of condo units or
	common elements.
	- Waiver of Right of First Refusal:
	 Any right of first refusal in the Condominium Project Documents may not adversely impact the rights of a mortgagee or its assignee to:
	Foreclose or take title to a Condominium Unit pursuant to the remedies in the
	Mortgage, or
	Accept a deed or assignment in lieu of foreclosure in the event of default by a
	mortgagor, or
	mortgagor, or

	 Sell or lease a unit acquired by the mortgagee or its assignee. When a homeowners association retains the right to provide a substitute buyer or to have the first option to purchase a unit, that right cannot be exercised in any way that could be interpreted as unlawful discrimination, or impair marketability of the units in the project.
	 Established Projects and All 2-4 Unit Projects For established and 2-4 unit projects, Homebridge is not required to use CPM for project evaluation however it may be used as an alternative to manual underwriting. If the Expedited Review Process is used without the aid of the CPM, the project must meet the following criteria: The project meets the General Project Eligibility Requirements. If the subject property is an investment property, attached units (including 2-4 unit projects), at least 50% of the total units in the project must have been conveyed to principal residence purchasers or second home purchasers. This does not apply if the subject mortgage is a principal residence or second home. Amenities may be incomplete without requiring acceptable completion assurance provided the incomplete items are minor and have nominal impact on marketability per the appraisal. Control of the homeowners' association must have been turned over to the unit purchasers (not required
ODM Daviess	on 2-4 unit condominium projects).
CPM Review – Documentation	Completed Condo/PUD Project Questionnaire Insurance: Refer to the Project Eligibility section above.
Requirements	Insurance: Refer to the <u>Project Eligibility</u> section above. Approject Approject
Requirements	 Appraisal Public Offering plan or equivalent, including all amendments for new and newly converted projects;
	 New conversions require an Architect or Engineer's Report;
	 First full year's operating budget and/or most recent audited financial statements. (Not required for 2-4 unit
	projects.)
	Ground lease, if applicable
	Reminder: Homebridge must document the condo project type, project name and if applicable, the CPM
	project ID# on the Uniform Underwriting and Transmittal Summary form (Fannie 1008/Freddie 1077).
PERS Review	Fannie Mae reintroduced their project review function under the name of PERS – Project Eligibility Review
Description	Service.
	NOTE: Homebridge will be charged a fee for any project submitted to PERS, regardless of the final
DEDO D. I	decision.
PERS Review Overview	 A Condominium project is a real estate project in which each unit owner has title to a unit in a building, an undivided interest in the common areas of the project, and sometimes the exclusive use of certain limited common areas. Homebridge originates mortgages on individual units within the project. Homebridge does not originate mortgages secured by Condominium projects.
PERS Review -	Fannie Mae publishes its listing of accepted condo projects with their applicable expiration date,
Approved	searchable by state, on www.efanniemae.com.
Projects	
PERS Review -	Projects with Final Project Acceptance will be valid until the expiration date.
Delivery	The note date must be prior to the expiration date of the project certification.
Requirements	There is no delivery timeframe tied to this review process.
	If Homebridge chooses to use the investor's Approved Condo/PUD list, refer to Project Approval.
PERS Review – General Condo Eligibility	Fannie Mae determines project eligibility.
Requirements PERS Review -	Refer to Project Eligibility for a summary of guidelines.
Ineligibility	Note: to <u>rivious Eliqibility</u> for a surfittary of guidelliles.
Criteria	
PERS Review –	New Projects in Florida: All new or newly converted attached projects in Florida require mandatory
Eligibility	submission to Fannie Mae's PERS process.
Criteria - Florida	Homebridge must check the PERS approved project list at eFanniemae.com.
PERS Review –	The use of the PERS service is optional in all cases except the following projects that must be submitted to
Eligibility	PERS to determine eligibility:
Criteria	 Attached, new and newly converted condo projects located in Florida;
	Newly converted, non-gut rehabilitation condo projects; and
	Homebridge must perform a basic review to determine if the project satisfies Fannie Mae's All all this little programs and project satisfies Fannie Mae's All all this little programs and project satisfies Fannie Mae's
	eligibility requirements prior to submission for PERS review.
	 Homebridge must ensure that the developer, builder, management company, or HOA will continue to provide project information to Fannie Mae as requested without charge. If the
	information is not provided, Fannie Mae reserves the right to withdraw its PERS approval.
	Homebridge must provide evidence of project approval for the above-indicated new or newly converted
	projects, for which. Fannie Mae PERS approval is required
PERS Review -	Project Eligibility Review Service Document Checklist (Fannie Mae Form 1030)
Documentation	Application for Project Approval (Fannie Mae Form 1026)
Requirements	Warranty of Condominium Project Legal Documents (Fannie Mae Form 1054) with attached attorney
	review.

	Completed Condo/PUD Project Questionnaire
	Insurance: The project must be covered by appropriate hazard, general liability, fidelity bond if more than
	20 units and, if applicable, flood insurance.
	Appraisal
	Public Offering Plan or equivalent (e.g., the Declarations, CC&Rs, the Master Deed and Bylaws) and any
	amendments
	Engineer's or Architect's Report for newly converted projects.
	Ground lease, if applicable. Any ground lease must meet the requirements in the <u>Leasehold Estates</u> .
	Waiver of Right of First Refusal: Verification is only required if it is brought to the investor's attention that
	our rights may be impaired.
	Homebridge must retain all documentation related to the condo project review.
PERS Review –	Project Code:
Project Coding	T: Fannie Mae Review
Full Review	The Full Review process will be performed by the Investor's Condo Project Decision Team upon their
Description	receipt of all required project documentation from the requesting channel.
	The Full Review process may include the CPM Expedited Review, for those projects that do not qualify for
	approval under Homebridge Full Review or the Limited Review guidelines.
	Note: If there is awareness of any information that could impact the eligibility status reflected in CPM (such
	as significant deferred maintenance or major litigation) Homebridge will notify FNMA within 5 business days and provide the relevant data and information. Fannie Mae will evaluate the new information and its
	impact on eligibility.
	Full Review project approvals are valid for 6 months.
Full Review –	Homebridge represents and warrants that the condo project meets all investor guidelines.
Project	 Homebridge must also represent and warrant that the project was approved within 6 months preceding the
Approval and	date of the note and that the loan was delivered to the investor within 7 months of the project approval
Delivery	date. For projects on the Approved/Declined Condo & PUD list, the closing must occur within 6 months of
Requirements	the status date; otherwise, a project approval update will be required.
Requirements	Homebridge must document the condo project type, project name and, if applicable, the CPM project ID#
	on the Uniform Underwriting and Transmittal Summary form (Fannie 1008/Freddie 1077). Homebridge
	must also represent and warrant that the project was approved within 6 months preceding the date of the
	note and that the loan was delivered to the investor within 7 months of the project approval date.
	If the project appears on the investor's Approved/Declined Condo & PUD List, attach a copy of the list with
	the project name circled or highlighted. For projects approved using Fannie Mae's CPM, attach a copy of
	the CPM Project Acceptance Certification.
	For projects on the investor's Approved/Declined Condo & PUD List, the closing must occur within 6
	months of the Status Date, and prior to the earliest document expiration date; otherwise, a project approval
	update will be required.
Full Review –	The project must meet the General Project Eligibility Requirements including the definition of a new or
Eligibility	established project.
Criteria	The project must not be an ineligible project. Refer to Project Eligibility for a summary of guidelines
	No more than 15% of the total units in a new or established project may be 60-days or more delinquent on
	condominium/HOA fee payments including special assessments (Special Assessments may be due to
	critical repairs)
	The project must be located on one contiguous parcel of land but may be divided by a public street. The
	structures within the project must be within a reasonable distance from each other.
	The project must be located on one contiguous parcel of land, but may be divided by a public street. The structures within the project must be within a receptable distance from each other.
	structures within the project must be within a reasonable distance from each other.
	Ownership of Project & Common Elements: Common elements must not be subject to a lease between the unit owners, the Homeowners Association and any other party. Halt owners must have the sale ownership.
	unit owners, the Homeowners Association and any other party. Unit owners must have the sole ownership
	in and the right to the use of the common elements. A project with shared amenities is eligible if two or more HOAs share the amenities for the sole use of the unit owners, and the HOAs have an agreement
	specifying:
	A description of the shared amenities and the terms of the unit owners' permitted use of the
	amenities,
	 How the shared amenities will be funded, managed, and maintained, and
	 The method for resolving disputes between the HOAs regarding the shared amenities. The
	developer must not retain any ownership interest in the common elements, except as unit owner.
	The structures within the project must be within a reasonable distance from each other.
	Common elements and facilities, such as recreational facilities and parking, must be consistent with the
	nature of the project and competitive in the marketplace.
	Project Budget Requirements: Homebridge must review the actual operating budget to determine if it:
	 Includes appropriate allocations for line items pertinent to the type and status of the condo;
	 Provides for the funding of replacement reserves for capital expenditures and deferred
	maintenance (at least 10% of the budget); and
	 Provides adequate funding for insurance deductible amounts.
	 A Reserve Study in lieu of calculating the replacement reserve of 10% may be used provided the
	following conditions are met:
	A copy of an acceptable reserve study is retained in the project file. Completed within 3 years of project approval.
	 Completed within 3 years of project approval.

- Prepared by an independent 3rd party that has expertise in completing reserve studies.
- The study demonstrates that the project has adequate funded reserves that provide financial protection for the project equivalent to the standard reserve requirements.
- The study demonstrates that the project's funded reserves meet or exceed the recommendations included in the reserve study.
- Project financial statements must be obtained to demonstrate that the project is collecting sufficient funds necessary, as outlined in the reserve study. If the reserves are insufficient, the project is not eligible.
- If the project was a gut rehabilitation project, all rehabilitation work involved in a condo conversion must have been completed in a professional manner.
- "Gut rehabilitation" refers to the renovation of a property down to the shell of the structure, including the replacement of all HVAC and electrical components (unless the HVAC and electrical components are up to current code).
- For a conversion that was legally created during the past three years for Fannie Mae (five years for Freddie Mac), the architect's or engineer's report (or functional equivalent), that was originally obtained for the conversion must comment favorably on the structural integrity of the project and the condition and remaining useful life of the major project components, such as the heating and cooling systems, plumbing, electrical systems, elevators, boilers, roof, etc.
- Note: If the project is a newly converted non-gut rehabilitation project with more than four residential units, it's ineligible for lender review.
- <u>Utilities</u>. The individual units should be separately metered, although this is not required. If they are not, having multiple units on a single meter must be common and customary in the local market and the budget must include adequate funding for utility payments.
- <u>Project Management</u>. The project must be well-managed and, if professionally managed, the contract should be for a reasonable term and the termination provision must not require a penalty payment or advance notice of more than 90 days.
- Gut conversions require an engineer's report if the conversion took place in the last 3 years regardless of whether the definition of "new" or "established" is met.
- Non-gut conversions are considered "new" until all requirements for Established projects are met such as unit sale, HOA control, etc.

Full Review – New or Newly Converted Projects

- Project must meet the General Project Eligibility Requirements (including the requirements for a New Project), and meet Homebridge Full Review General Eligibility requirements indicated above.
- The project must have been created and continue to exist in full compliance with applicable state, jurisdictional, and all other applicable laws and regulations.
- <u>Assessments</u>. The HOA assessments must begin on a specific date, and once established, the developer must be responsible for the assessments attributable to the unsold units.
- Completion Status. The project, or the subject legal phase, must be "substantially complete." This means
 that a certificate of occupancy (or other substantially similar document) has been issued by the applicable
 governmental agency for the project or subject phase and that all the units in the building in which the unit
 securing the mortgage is located are complete, subject to the installation of "buyer selection items" such as
 appliances. Individual units must be available for immediate occupancy at loan closing.
- <u>Presales</u>. At least 50% of the total units in the project or subject legal phase must have been conveyed or be under a bona fide contract for purchase to owner-occupant principal residence or second home purchasers, not including the developer or its successor.
 - For a specific legal phase (or phases) in a new project, at least 50% of the total units in the subject legal phase(s), considered together with all prior legal phases, must have been conveyed (or be under contract to be sold) to owner occupant principal residence or second home purchasers, not including the developer or its successors.
 - For the purposes of this review process, a project consisting of one building cannot have more than one legal phase, and any one building in a project comprised of multiple buildings cannot be subject to more than one legal phase.
- All rehabilitation work involved in a condominium conversion must have been completed in a professional manner.
- Homebridge must verify that all necessary repairs are complete and replacement reserves are identified for all capital improvements and noted as adequate by the party evaluating the project. The appraiser or other licensed professional must state that the project is structurally sound, and the conditional and remaining useful life of the major project components (roof, elevators, mechanical systems, plumbing, electricity, etc.) are sufficient to meet the residential needs of the project.
- Project Legal Documents. The project documents must state, or state law must provide, that:
 - The project documents must state, or state law must provide, that: Amendments that have a
 material adverse impact on first lien mortgagees must be agreed to by mortgagees that represent
 51% of the units subject to first lien mortgages.
 - Any action to terminate the legal status of the project or use insurance proceeds for any purpose other than to rebuild must be agreed to by mortgagees that represent 51% of the units subject to first lien mortgages.
 - Note: The documents may allow approval to be assumed when the mortgagee of record fails to submit a response to a written proposal for an amendment within 60 days of receipt of notice, provided it was sent via certified, registered or return receipt mail.

	 The mortgagee/guarantor must have the right to timely written notice of condemnation, casualty loss, 60-day delinquencies in payment of assessments, lapse, cancellation or material modification of the HOA insurance policies, or any action that requires consent of a percent of the mortgagees. The project documents must not give a unit owner or any other party priority over any rights of the first mortgagee in the case of payment of proceeds from termination or insurance proceeds or condemnation awards for losses to or a taking of condo units or common elements.
	 Waiver of Right of First Refusal: Any right of first refusal in the Condominium Project Documents may not adversely impact the rights of a mortgagee or its assignee to: Foreclose or take title to a Condominium Unit pursuant to the remedies in the Mortgage, or Accept a deed or assignment in lieu of foreclosure in the event of default by a mortgagor, or Sell or lease a unit acquired by the mortgagee or its assignee. Marketing Plan. The sale program must comply with all laws relating to advertising and sale of real estate,

Documentation Requirements	AppraisalCurrent budget.
requirements	 Public Offering Plan or equivalent (e.g., the Declarations, CC&Rs, the Master Deed and Bylaws) and any amendments for new and newly converted projects
	 Engineer's or Architect's Report for newly converted projects. Ground lease, if applicable.
	Projects consisting of five or more attached units have these additional requirements: Project must be reviewed against Fannie's Condo Project Manager (CPM). A project with an "Unavailable" status for deferred maintenance/structural integrity is ineligible. Projects listed as "Unavailable" for any other reason, should be reviewed against standard guidelines for eligibility. Project must not have any significant deferred maintenance or unsafe conditions. * These projects are not eligible until the required repairs have been made and documented. Documentation would include, but not be limited to, satisfactory engineering or inspection report, certificate of occupancy, or other substantially similar documentation. Additional project documentation required:
	 Additional project documentation required. Six months of the project's HOA meeting minutes. If meeting minutes are unavailable, financial statements for the project, either audited or prepared by a professional management company, should be reviewed to determine if there is deferred maintenance or repairs necessary due to unsafe conditions. If there are any current special assessments, or planned special assessments, they must be reviewed to determine acceptability. Must document the reason for the special assessment, the total amount assessed and repayment terms, and documentation to support there is no negative impact to the financial stability of the project. To determine that the amount budgeted to be collected year to date has been collected, the financial statement should be dated within 90 days of the project review date and any shortfall between the budgeted and actual year to date amounts for the special assessment must not be more than 5%.
	 The borrower must be qualified with any outstanding special assessment per the installment loan policy. Homebridge is expected to obtain the financial documents necessary to confirm the association can fund any repairs. If the special assessment is related to safety, soundness, structural integrity, or habitability, all related repairs must be fully completed, or the project is not eligible. Additionally, if Homebridge or appraiser is unable to determine that there is no adverse impact, the project is ineligible. Inspection Reports If a structural and/or mechanical inspection was completed within 3 years of Homebridge's project review
	 date, Homebridge must obtain and review the inspection report. The report cannot indicate that any critical repairs are needed, no evacuation orders are in effect, and no regulatory actions are required. If the inspection report indicates there are unaddressed critical repairs, the project is ineligible until the required repairs have been completed and documented accordingly. Homebridge must review an engineer's report or substantially similar document to determine if the repairs completed have resolved the safety, soundness, structural integrity, or habitability concerns of the project.
Full Review – Project Code	New Projects:
	Established Projects: Fannie Mae Type – S Freddie Established Project – I Freddie 2-4 Unit Project – L Freddie Detached Project – K Homebridge represents and warranties that the full review does not include any exceptions to Fannie Mae
PUD Project	 or Freddie Mac guidelines. A planned unit development (PUD) is a real estate project or subdivision in which each unit owner holds
Description	title to a lot and the improvements on the lot, and there is common property and improvements that are owned and maintained by a homeowners' association for the benefit and use of the individual PUD units. The homeowners pay a fee to the homeowners' association to maintain the Common Elements for their benefit. Common Elements include but are not limited to parking lots, walkways, lighting, elevators, boilers,

spas, gardens, beach access, golf courses or golf club memberships, and ski areas or ski passes. PUD Project – PUD projects are classified as Type E (established PUD projects) or Type F (new PUD projects). Zonim, not a basis for classifying a project or subdivision as a PUD. In order for a project to qualify as a PUD, each unit owner's membership in the homeowners' association must be automatic and non-severable, and the payment of assessments related to the unit must be mandatory. Zoning is not a basis for classifying a project or subdivision as a PUD. Once the project is classified as a PUD, additional project review is based on the unit or project characteristics as indicated in the following sections. Number of Units: 1-4 units are eligible. mortgage.		
 The individual unit securing the mortgage has the required insurance coverage as indicated in 		 The individual unit securing the mortgage has the required insurance coverage as indicated in
the Insurance Requirements section.		the Insurance Requirements section.

	The PUD Project must be in compliance with priority lien requirements outlined in Project Eligibility and Insurance Requirements
PUD Project – Ineligibility Criteria	Refer to Project Eligibility for a summary of guidelines.
PUD Project – Insurance Requirements	The requirements described in this section apply to the project itself. This is in addition to all standard insurance requirements for the individual unit. Hazard & Flood Insurance
Requirements	 If hazard and flood insurance coverage for the PUD unit are included under the project's master policy, a copy of the master policy must be obtained, regardless of whether the unit is attached or detached. For detached PUD properties:
	 If hazard and flood insurance coverage for the PUD unit are not included under the project's master policy, the same type of insurance that is required for a single-family dwelling is required for the individual PUD
	 unit. It is not necessary to obtain a copy of the project's master policy if it covers only the common elements. Homebridge must verify that each individual unit is covered by the appropriate hazard and, if applicable, flood insurance policy.
	For attached PUD properties:
	• When a first mortgage is secured by a unit in a PUD project, and the legal documents for the project allow for blanket insurance policies to cover either (1) the common elements or (2) both the individual units and the common elements, Homebridge must verify that the homeowners' association is maintaining a "master" or "blanket" policy that provides for premiums to be paid as a common expense. The insurance policy must at least protect against fire and all other hazards that are normally covered by the standard extended coverage endorsement, and all other perils customarily covered for similar types of projects, including those covered by the standard "all risk" endorsement. If the policy does not include an "all risk" endorsement, a policy that includes the "broad form" covered causes of loss will be acceptable. The policy
	must meet the requirements described below: Note: The following are not permitted with respect to master or blanket project insurance: A blanket policy that covers multiple unaffiliated associations or projects, or A self-insurance arrangement whereby the owners' association is self-insured or has banded
	together with other unaffiliated associations to self insure all of the general and limited common
	elements of the various associations.
	 (Note: Affiliated projects include those that are under the same master association or share the use of common facilities that are either owned individually or as part of a master
	association/development. Multiple PUD projects that do not have one of these characteristics, but
	 are managed by the same management company, are considered unaffiliated.); PUD common elements — The homeowners' association must maintain a property insurance policy, with premiums being paid as a common expense. The policy must cover 100% of the replacement cost of all of the common element buildings and any other common property except for those that are normally excluded from coverage, such as land, foundation, excavations, etc. Fixtures and building service
	equipment that are considered part of the common elements, as well as common personal property and supplies, should be covered.
	 Individual Units - Individual insurance policies are also required for each unit mortgage in a PUD project if they are not covered under the project's blanket insurance policy. If the project's legal documents allow for blanket insurance policies to cover both the individual units and the common elements, blanket policies will be accepted in satisfaction of its insurance requirements for the units.
	<u>Named Insured</u> - The project's master or blanket insurance policy must show the homeowner's association
	 as the named insured. Minimum Required Coverage and Maximum Deductible Amounts - Refer to the Insurance Section.
	HPML Loans – Not Eligible
	Special Endorsements Inflation Guard Endorsement, when it can be obtained.
	 Building Ordinance or Law Endorsement, if the enforcement of any building, zoning, or land-use
	law results in loss or damage, increased cost of repairs or reconstruction, or additional demolition and removal costs. (The endorsement must provide for contingent liability from the operation of building laws, demolition costs, and increased costs of reconstruction.), and
	 Steam Boiler and Machinery Coverage Endorsement, if the project has central heating or cooling. This endorsement should provide for the insurer's minimum liability per accident to at least equal
	the lesser of \$2MM or the insurable value of the building(s) housing the boiler or machinery.) In
	lieu of obtaining this as an endorsement to the commercial package policy, the project may purchase separate stand-alone boiler and machinery coverage.
	For Attached and Detached PUD Properties:
	 If the policy has a coinsurance clause, inclusion of an Agreed Amount endorsement or selection of the Agreed Value Option (which waives the requirement for coinsurance) is considered acceptable evidence that the 100% insurable replacement cost requirement has been met. If an Agreed Amount/Agreed Value
	 provision is used, the Agreed Amount must be no less than the estimated replacement cost. If the policy includes a coinsurance clause, but the coinsurance provision is not waived, the policy is still eligible if evidence acceptable to Homebridge confirms that the amount of coverage is at least equal to
	100% of the insurable replacement cost of the project improvements. This evidence (documentation) must be maintained by Homebridge.

	Liability Ingurance					
	Liability Insurance					
	Not required. Fidelity Insurance					
	If the calculated amount of funds that triggers the requirements for fidelity or employee dishonesty					
	insurance coverage is less than or equal to \$5,000 then fidelity insurance is not required					
	Title Insurance					
	The title insurance policy must include an ALTA Form 5 endorsement or equivalent.					
PUD Project –	Appraisal Note: Description relied on to perform the project region of the received in the least file.					
Documentation Requirements	Note: Documentation relied on to perform the project review must be retained in the loan file. Insurance: Evidence of all required insurance.					
PUD Project –	Project Classification:					
Coding	Type E - established PUD projects					
County	Type F - new PUD projects					
Condo/PUD Insurance Requirements	Before Homebridge delivers a loan on an individual unit in any condominium project or in an attached project for purchase, it must verify that the unit is covered by the project's blanket hazard and flood.					
Overview	addition to all standard insurance requirements for the individual unit. This applies to all condominium projects.					
 Proof of insurance should be obtained up-front and included in the project review package to a delays. 						
Condo/PUD Hazard Insurance	 Hazard insurance provides coverage that compensates for physical damage—by fire, wind, or other natural disasters—to the property. Refer to the Insurance and Taxes sections of this manual. PUD projects, refer to the Planned Unit Developments (PUD) sections. 					
insurance	Condominium projects:					
	Detached Condominiums: The property may be covered by the type of hazard insurance required for single-family detached dwellings. For flood insurance, refer below. The common elements must be covered by the project's master or blanket insurance policy, unless otherwise indicated in the project's governing documents.					
	Policy Type: "Master" or "Blanket" Policy with premiums part of common expense unless property is a detached condominium and eligible for single-family coverage; or, for projects with legal documents that allow for the individual unit owners to obtain their own hazard insurance policy and allow for a blanket insurance policy to cover the project's common elements, Homebridge will accept two policies to satisfy the coverage requirements. Homebridge must verify that both the project and the individual unit are covered by the required hazard insurance policy.					
	- Note: The following are not permitted with respect to master or blanket project insurance: - A blanket policy that covers multiple unaffiliated condominium associations or projects; OR - A self-insurance arrangement whereby the owners' association is self-insured or has banded together with other unaffiliated associations to self-insure all of the general and limited common elements of the various associations (Note: Affiliated projects include those that are under the same master association or share the use of common facilities that are either owned individually or as part of a master association/development. Multiple condominium or PUD projects that do not have one of these characteristics, but are managed by the same management company, are considered					
	unaffiliated.)					
	 <u>Fidelity/Crime Insurance</u> is required for all Condominium projects, with the exception of: 					
	Projects that qualify for a waiver of project review Condo projects reviewed under Limited review					
	 Condo projects reviewed under Limited review Condo projects consisting of 20 units or less; or 					
	 Condo project that would need fidelity/crime insurance coverage of \$5,000 or less, and 					
	 Must provide coverage for the dishonest or fraudulent acts of anyone who either handles or is responsible for funds held or administered for the HOA or Co-op Corporation and is required 					
	 whether or not that individual receives compensation for services rendered; and Include coverage for acts of any management agent. When fidelity/crime insurance is required, the lender or servicer must review the project legal 					
	documents or other source acceptable to the lender or servicer to verify whether the HOA or co- op corporation and any associated management company adhere to one or more of the financial					
	controls listed below:					
	 Separate bank accounts are maintained for the working account and the reserve 					
	account, each with appropriate access controls, and the bank in which funds are					
	deposited sends copies of the monthly bank statements directly to the HOA. The management company maintains separate records and bank accounts for each					
	HOA that uses its services, and the management company does not have the authority					
	to draw checks on, or transfer funds from, the reserve account of the HOA.					
	 Two members of the Board of Directors must sign any checks written on the reserve 					
	account.					
	• Carrier: REL requires that the carrier of the policy have an S&P rating of BBB, A.M. Best rating of B+,					
	Demotech, Inc. rating of A, or Kroll Bond Rating Agency (KBRA) rating of BBB, and that coverage meet the requirements specified below and in the Fannie Mae/Freddie Mac Agency Guides and HUD Handbook.					
	requirements specified below and in the Familie Mach reduie Mac Agency Guides and Hob Handbook.					

- <u>Coverage</u>: All perils covered by standard extended coverage endorsement including those covered by the standard "all risk" endorsement or "broad form" coverage (including wind and flood, if applicable).
 - The coverage must be of the type that provides for claims to be settled on a replacement cost basis.
 - Policies that settle losses on an actual cash value basis are not acceptable.
 - Policies that limit, depreciate, reduce or otherwise settle losses at anything other than a replacement cost basis are also not acceptable.
 - Refer to Hazard Insurance for peril identification and further coverage requirements
- <u>Coverage Amount</u>: 100% of the insurable value, which is replacement cost value of the project improvements as of the current property insurance policy effective date, including common elements and residential structures must be verified.
 - The source that Homebridge uses to verify the coverage amount may be the property insurer, an independent insurance risk specialist, or other professional with appropriate resources to make such a determination. This may include, but is not limited to, a statement from the insurer or other applicable professional, a replacement cost estimator, or an insurance risk appraisal.
 - Policies that state Guaranteed Replacement Cost or Extended Replacement Cost are acceptable
 as long as it meets the required policy outlined above.
- <u>Deductibles</u>: The deductible may not exceed 5% of the dwelling coverage for the master policy as well as the individual HO-6 policy.
- Named Insured: The project's master or blanket insurance policy must show the homeowner's association
 as the named insured. The HO-6 policy will show the borrower as the insured, but Homebridge must also
 be listed as a loss payee.
- <u>Property Address</u>: The subject property address and unit number must be included on the proof of master insurance.
- Special Endorsements:
 - Any Insurance Trust Agreement is recognized.
 - The right of subrogation against unit owners is waived.
 - The insurance is not prejudiced by any acts or omissions of individual unit owners that are not under the control of the homeowners' association.
 - The policy must be primary, even if a unit owner has other insurance that covers the same loss.
 - Special Condominium Endorsement must be provided, including the following:
 - o Inflation Guard if it can be obtained.
 - Building Ordinance or Law Endorsement, if the enforcement of any building, zoning, or land-use law will result in loss, damage, increased cost of repairs, etc. (The endorsement must provide for contingent liability from the operation of building laws, demolition costs, and increased costs of reconstruction).
 - Steam Boiler and Machinery if the project has central heating or cooling. This
 endorsement should provide for the insurer's minimum liability per accident to at least
 equal the lesser of \$2MM or the insurable value of the building(s) housing the boiler or
 machinery. In lieu of obtaining this as an endorsement to the commercial package
 policy, the project may purchase separate stand-alone boiler and machinery coverage.

Condominium Projects

- Homebridge must review the entire condo project insurance policy to ensure coverage requirements are met. The master or blanket policy must cover all of the general and limited common elements that are normally included in coverage, including fixtures, building service equipment, and common personal property and supplies belonging to the homeowners' association. The policy also must cover fixtures, equipment, and replacement of improvements and include betterment coverage to cover any improvements that the borrower may have made. If the master or blanket policy does not cover the unit's interior, then the borrower must obtain a "walls-in" policy, commonly known as an HO-6 policy.
 - Note: Mortgages secured by a Condominium Unit in a Project with a master or blanket insurance policy that combines insurance coverage for multiple unaffiliated Condominium Projects are eligible for sale provided that each covered Condominium Project has a dedicated policy limit and a specific dedicated deductible that does not exceed the requirements below. Also, the policy must clearly state that each association is a named insured. The policy limit needs to cover the full replacement cost required for the Common Elements, and to the extent required, the units. The Seller/Servicer must obtain the insurance policy and endorsements to adequately evaluate the insurance coverage. Additionally, the insurance policy must meet all requirements of the Guide and other Purchase Documents applicable to master or blanket insurance policies covering affiliated Condominium Projects such as:
- The insurance company underwriting the master or blanket policy must meet insurance ratings requirements reflected in Policy;
- The protected perils must include those normally covered in policies for similar types of Condominium Projects; and
- If applicable, the building ordinance or law endorsement and/or equipment breakdown endorsement.
- HO-6 Coverage for Condominiums: If the master or blanket insurance policy does not provide coverage of
 the interior improvements of the unit, the borrower will be required to obtain a "walls in" coverage policy
 (commonly known as HO-6 policy). If required, the HO-6 insurance policy must provide coverage in an
 amount as determined by the insurer that is sufficient to repair the condo unit to its condition prior to a loss
 claim event (i.e., replacement cost). Additionally, the HO-6 must be escrowed for unless waived per the
 requirements for Escrow Waivers.

Condo/PUD	Flood insurance compensates for physical property damages resulting from flooding. It is required in
Flood Insurance	federally designated Special Flood Hazard Areas. Flood insurance may NEVER be waived.
	Note: The requirements described in this section apply to the project itself. This is in addition to all
	standard insurance requirements for the individual unit.
	Refer to Flood Insurance for complete information.
Liability	Liability insurance coverage offers protection against claims alleging that a property owner's negligence or
Insurance	inappropriate action resulted in bodily injury or property damage to another party.
	Note: The requirements described in this section apply to the project itself. This is in addition to all standard
	insurance requirements for the individual unit.
	Type of Projects: Liability insurance is required for condominium projects.
	Note: Liability insurance coverage is not required for condo projects reviewed under Limited or
	Streamline Project Review or projects that meet the Detached Condo Project requirements outlined in
	Project Review Types topic.
	Policy Type: The condominium owners association must maintain a Commercial Liability General Policy for the extra graph of the condominium owners association must maintain a Commercial Liability General Policy for the extra graph of the condominium owners association must maintain a Commercial Liability General Policy for the extra graph of the condominium owners association must maintain a Commercial Liability General Policy for the extra graph of the condominium owners association must maintain a Commercial Liability General Policy for the extra graph of the condominium owners association must maintain a Commercial Liability General Policy for the extra graph of the condominium owners association must maintain a Commercial Liability General Policy for the extra graph of the condominium owners association must maintain a Commercial Liability General Policy for the extra graph of the condominium owners association must maintain a Commercial Liability General Policy for the condominium owners are graph of the condominium owners as of the condominium owners are graph of the condominium owne
	the entire project, including all common areas and elements, commercial spaces, public ways, and any
	other areas that are under its supervision, with premiums that are part of the common expense.
	<u>Carrier</u> : Commercial Liability. The particular of the parti
	Coverage: The policy must provide coverage for bodily injury and property damage resulting from
	operation, maintenance, or use of the project's common areas and elements, commercial spaces, and
	public ways. The insurance must also cover commercial spaces, that are owned by the homeowners'
	association, even if they are leased to others. - The association must also maintain any additional coverage commonly required by private
	mortgage investors for developments similar in construction, location, and use, including the
	following where applicable and available:
	Comprehensive automobile liability
	Bailee's liability
	Elevator collision liability
	o Garage keeper's liability
	Host liquor liability
	 Workers' compensation and employer's liability
	 Contractual liability
	Amount: A minimum of \$1,000,000 for personal injury, bodily injury or property damage for any single
	occurrence, and the coverage must provide for claim settlements on an occurrence basis. Higher amounts
	of coverage may be required if similar amounts are usually required by mortgage investors in other projects
	in the area.
	Deductibles: None.
	Special Endorsements: If the policy does not include a "severability of interest", a specific endorsement to
	preclude the insurer's denial of a unit owner's claim because of negligent acts of the homeowner's
association, the fee simple landowner/lessor, or other unit owners.	
	<u>Notice of Cancellation/Modification</u> : The policy should provide for at least ten days' written notice to the
	homeowners' association before the insurer can cancel or substantially modify it.
Fidelity	Fidelity insurance is a type of insurance that a homeowners association obtains to protect itself against
Insurance	economic loss from dishonest acts of anyone who either handles (or is responsible for) funds that the
	association or corporation holds or administers, whether or not that individual receives compensation for
	Services.
	Note : The requirements described in this section apply to the project itself. This is in addition to all standard insurance requirements for the individual unit.
	l l
	 <u>Type of Project</u>: Fidelity insurance is required on all condominium projects that have more than 20 units, regardless of project approval type. It may not be waived for projects under the Expedited review.
	Note: Fidelity insurance coverage is not required for condo projects reviewed under Limited or
	Streamline Project Review or projects that meet the Detached Condo Project requirements
	outlined in the Project Review Types topic.
	If the calculated amount of funds that triggers the requirement for fidelity or employee dishonesty insurance
	coverage is less than or equal to \$5,000 then fidelity insurance is not required.
	Policy Type: "Master" or "Blanket" policy with premiums that are part of the common expense paid by the
	association or corporation.
	<u>Carrier</u> : Master Insurance Carrier.
	Coverage: The homeowners' association must have blanket fidelity insurance coverage for anyone who
	handles or is responsible for the homeowners' association funds that it holds or administers, whether or not
	that individual receives compensation for services. The insurance policy should name the homeowners'
	association as the insured. A management agent that handles funds for the homeowners' association
	should be covered by its own fidelity insurance policy, which must provide the same coverage required of
	the homeowners' association.
	Amount of Coverage: The policy must cover the maximum funds that are in the custody of the
	homeowners' association or its management agent at any time while the policy is in force.
	 A lesser amount of coverage is acceptable if the project's legal documents require the
	homeowners' association and any management company to adhere to one or more of the
	following financial controls:

Rent Loss Insurance Ineligible Projects Eligible projects Eligible production investor, Nor Projects Tim Nev polition builting abars Projects Multipoccion investor, Any Mar Projects	 Separate bank accounts are maintained for the working account and the reserve account, each with appropriate access controls, and the bank in which funds are deposited sends copies of the monthly bank statements directly to the homeowners' association. The management company maintains separate records and bank accounts for each homeowners' association that uses its services, and the management company does not have the authority to draw checks on, or transfer funds from, the homeowners' association's reserve account. Two members of the Board of Directors must sign any checks written on the reserve account. Even then, the fidelity insurance coverage must equal at least the sum of three months of assessments on all units in the project. Note: If the project is located in a state with statutory fidelity insurance requirements, compliance with those requirements is acceptable in lieu of the above. Ce of Cancellation/Modification: The policy should provide for at least ten days written notice to the A or insurance trustee before the insurer can cancel or substantially modify it. For condo projects, lar notice also must be given to each holder of a first mortgage on an individual unit in a project. Juired Juired Juired and the characteristics listed below. 	building (including the units) and land on which the building is located, and may or may not have the right			
	of exclusive occupancy of a specific apartment unit in the building.			

Note: Project exceptions are not permitted.

Ineligible Projects – Further Details

Projects That are Managed and Operated as a Hotel or Motel

- A project may not be operated or managed as a hotel, motel, or similar commercial entity as evidenced by meeting one or more of the following criteria:
 - The HOA is licensed as a hotel, motel, resort, or hospitality entity.
 - The HOA or project's legal documents restrict owners' ability to occupy the unit during any part of the vear.
 - The HOA or project's legal documents require owners to make their unit available for rental pooling (daily or otherwise).
 - The HOA or the project's legal documents require unit owners to share profits from the rental of units with the HOA, management company, or resort, or hotel rental company.
- In addition to the requirements above, any project with one or more of the following characteristics is ineligible. The project
 - Is primarily transient in nature;
 - Offers hotel type services (including those offered by or contracted through the HOA or management company) or characteristics such as registration services, rentals of units on a daily or short-term basis, daily cleaning services, central telephone service, central key systems and restrictions on interior decorating;
 - Is a conversion of a hotel (or a conversion of a similar type of transient housing) unless the project
 was a gut rehabilitation and the resulting condo units no longer have the characteristics of a hotel or
 similar type of transient housing building;
 - Is subject to voluntary rental-pooling, revenue, profit or commission sharing agreements with the HOA or management company, or similar agreements that restrict the unit owner's ability to occupy the unit such as blackout dates and occupancy limits to assure an inventory of units for rent on a frequent basis. This may include daily, weekly, monthly or seasonal restrictions;
 - Is professionally managed by a hotel or resort management company that also facilitates short term rentals for unit owners or projects with management companies that are licensed as a hotel, motel, resort, or hospitality entity;
 - Has a legal or common name that contains hotel, motel, or resort, unless the use of hotel, motel, or resort is a reference to a historical use of the building and not reflective of its current use as a residential condo:
 - Is marketed as a hotel, motel, resort or investment opportunity; or
 - Has obtained a hotel or resort rating for its hotel, motel, or resort operations through hotel ratings
 providers including, but not limited to, travel agencies, hotel booking websites, and internet search
 engines.

Projects Party to Pending Litigation

- Projects in which the HOA is named as a party to pending litigation, or for which the project sponsor or developer is named as a party to pending litigation that relates to the safety, structural soundness, habitability, or functional use of the project are ineligible.
- If a project is engaging in pre-litigation activities (such as, but not limited to, arbitration or mediation) that are reasonably expected to proceed to formal litigation; these litigation policies should be applied. Whether the legal action is resolved through arbitration, mediation, or it proceeds to litigation, there is risk that the project is exposed to material financial hardship related to the matters addressed in the complaint.
- If pending litigation involves minor matters with no impact on the safety, structural soundness, habitability, or functional use of the project, the project is eligible provided the litigation meets one or more of the following:
 - Non-monetary litigation including, but not limited to neighbor disputes or rights of quiet enjoyment;
 - Litigation for which the insurance carrier has agreed to provide the defense, and the amount is covered by the HOA's insurance;
 - The HOA is the plaintiff in the litigation and upon investigation and analysis Homebridge has reasonably determined the matter is minor and will result in an insignificant impact to the financial stability of the project;
 - The reasonably anticipated or known damages and legal expenses are not expected to exceed 10% of the project's funded reserves;
 - The HOA is seeking recovery of funds for issues that have already been remediated, repaired, or replaced and there is no anticipated material adverse impact to the HOA if funds are not recovered;
 - Litigation concerning localized damage to a unit in the project that does not impact the overall safety, structural soundness, habitability, or functional use of the project; or
 - The HOA is named as the plaintiff in a foreclosure action, or as a plaintiff in an action for past due HOA assessments.
- Litigation that involves personal injury or death does not meet the criteria for minor litigation unless
 - The claim amount is reasonably anticipated or known,
 - The insurance carrier has agreed to provide the defense, and
 - The reasonably anticipated or known damages are covered by the HOA's insurance.

Construction defect litigation in which the HOA is the plaintiff are not considered a minor matter
unless the HOA is seeking recovery of funds for issues that have already been remediated, repaired,
or replaced. In addition, there is no anticipated material adverse impact to the HOA if the funds are
not recovered.

Projects In Which Unit Owners Do Not Possess Sole Ownership of Common Elements or There are Mandatory Membership Fees

- Loans securing units in condo projects with mandatory memberships that require the HOA members to pay
 dues to a third-party organization (such as a golf course or other recreational facility) are ineligible. The
 project must be the sole owner of its amenities, though certain exceptions will be allowed when there is a
 shared amenities agreement between HOAs projects.
- Projects subject to recreational leases are also not eligible. A recreational lease is a long-term lease between the HOA and a third party for access to certain recreational facilities for a specified time period and payment. In these scenarios, the owner of the facilities is often the project's developer or has some financial relationship to the developer and the leases often provide ongoing profit to this party for the duration of the lease. The lease may permit the owner of the facilities to lease the amenities to other parties in addition to the HOA. The HOA may have certain financial, insurance, and other legal obligations under the lease that may be burdensome over time. These leases may or may not provide the project long-term access to the amenities beyond the initial lease term.
- When an HOA is part of a master association, Homebridge will evaluate whether the subject property's
 HOA members are required to participate in a mandatory membership that is managed through the master
 association. Additionally, the master association may not be subject to recreational leases as described
 above.

Projects With Property That is Not Real Estate

- Houseboats, boat slips, cabanas, timeshares, and other forms of property that are not real estate are not
 eligible. The marketability and value of individual units in a project may be adversely impacted by the
 inclusion of non-real estate property such as houseboats, timeshares, and other forms and structures that
 are not real estate. As such, projects containing these other non-real estate forms of property are not
 eligible.
- Boat slips, cabanas, and other amenities are permitted when owned in common by the unit owners as part
 of the HOA.

Projects With Excessive Commercial or Non-Residential Space

- Non-Incidental Business Operations
 - Non-incidental income from the following sources is permitted provided the income does not exceed 15% of the project's budgeted income:
 - Income from the use of recreational amenities or services owned by the HOA for the exclusive
 use by unit owners in the project or leased to another project according to a shared amenities
 agreement such as, but not limited to, a fitness facility, pool, community room or laundry facility;
 or
 - Income from the leasing of units in the project acquired by the HOA through foreclosure
- Projects with more than 35% (40% for Home Equity) of the total space used for non-residential purposes are not permitted.
- Commercial parking facilities can be excluded from the commercial space calculation. Rental apartments
 and hotels located within the project must be classified as commercial space even though these may be
 considered "residential" in nature. For eligible projects, the appraisal must support that the excess in nonresidential usage is common and customary for the area and the appraiser must provide comparables that
 strongly support that projects with the higher commercial/non-residential concentrations are common and
 customary for the area.

Project in Need of Critical Repairs and/or Significant Deferred Maintenance

- Projects in need of critical repairs are those needing repairs or replacements that significantly impact the safety, soundness, structural integrity or habitability of the project's building(s), or the financial viability or marketability of the project. Critical repairs include conditions such as:
 - Material deficiencies, which if left uncorrected, have the potential to result in or contribute to critical element or system failure within one year;
 - Any mold, water intrusions or potentially damaging leaks to the project's building(s);
 - Advanced physical deterioration;
 - Any project that failed to pass state, county, or other jurisdictional mandatory inspections or certifications specific to structural safety, soundness, and habitability; or
 - Any unfunded repairs costing more than \$10,000 per unit that should be undertaken within the next 12 months (does not include repairs made by the unit owner or repairs funded through a special assessment).
- Examples of some items to consider include, but are not limited to, sea walls, elevators, waterproofing, stairwells, balconies, foundation, electrical systems, parking structures or other load-bearing structures.
- If damage or deferred maintenance is isolated to one or a few units and does not affect the overall safety, soundness, structural integrity, or habitability of the project, then these requirements do not apply.
- Routine repairs are not considered to be critical and include work that is:
 - Preventative in nature or part of normal capital replacements (for example, focused on keeping the project fully functioning and serviceable); and

- Accomplished within the project's normal operating budget or through special assessments that are
 within guidelines. A project with an evacuation order due to an unsafe condition, either for a partial or
 total evacuation of the project's building(s), is ineligible until the unsafe condition has been remediated
 and the building(s) is deemed safe for occupancy.
- These requirements apply to all Mortgages secured by units in Condominium Projects and all Cooperative Share Loans secured by Cooperative Interests in Cooperative Projects with five or more attached units, regardless of the project review type.

Special Assessments

- Special assessments may be current or planned. Lenders must obtain and review the following information for each special assessment to determine if it addresses a critical repair:
 - What is the purpose of the special assessment,
 - When was the special assessment approved and is it planned (approved by the unit owners, but not
 yet initiated by the board) or already being executed,
 - What was the original amount of the special assessment and the remaining amount to be collected, and
 - When is the expected date the special assessment will be paid in full.
- If the special assessment is associated with a critical repair and the issue is not remediated, the project is ineligible.

Additional Documentation

- A combination of documents can be used to determine if a project meets physical condition requirements.
 The following is a list of items that may be used, but not limited to:
 - HOA board meeting minutes, Six months of the project's HOA meeting minutes. If meeting minutes
 are unavailable, financial statements for the project, either audited or prepared by a professional
 management company, should be reviewed to determine if there is deferred maintenance or repairs
 necessary due to unsafe conditions.
 - Engineer report(s),
 - Structural and/or mechanical inspection reports,
 - Reserve studies,
 - A list of necessary repairs provided by the HOA or the project's management company.
 - A list of special assessments provided by the HOA or the project's management company,
 - And other substantially similar documentation

Inspection Reports

- If a structural and/or mechanical inspection was completed within 3 years of Homebridge's project review date, Homebridge must obtain and review the inspection report. The report cannot indicate that any critical repairs are needed, no evacuation orders are in effect, and no regulatory actions are required.
- If the inspection report indicates there are unaddressed critical repairs, the project is ineligible until the required repairs have been completed and documented accordingly. Homebridge must review an engineer's report or substantially similar document to determine if the repairs completed have resolved the safety, soundness, structural integrity, or habitability concerns of the project.
- No more than 15% of the total units in a project are 60 days or more past due in the payment of each special assessment.
- Note: This includes payment of each special assessment.

Projects With Excessive Single Entity Ownership

- Projects in which a single entity (the same individual, investor group, partnership, or corporation) owns
 more than the following total number of units within the project:
 - Projects with 5 to 20 units: 2 units
 - Projects with 21 units or more: 20% (25% for Home Equity)
- Units currently subject to any rental or lease arrangement must be included in the calculation. This includes lease arrangements containing provisions for the future purchase of units such as lease-purchase and rent-to-own arrangements:
 - The following may be excluded from the single-entity ownership calculation:
 - Units that are owned by the project sponsor or developer and are vacant and being actively marketed for sale; or
 - Units that are controlled or owned by a non-profit entity for the purpose of providing affordable housing, units held in affordable housing programs (including units' subject to non-eviction rent regulation codes), or units held by higher-education institutions for a workforce housing program.
- The single-entity ownership requirements may be waived when the transaction is a purchase transaction that will result in a reduction concentration of single-entity ownership. In such instances, the following requirements must be met and the project is no longer eligible for limited review:
 - Units owned by the single entity represent no more than 49% of the units;
 - Evidence is required that the single entity is marketing units for sale to further reduce single-entity ownership, with the goal of reducing the concentration to 20% or less of the project units;
 - The single entity is current on all HOA assessments; and
 - There are no pending or active special assessments in the project.
- The sponsor may own more than 20% of the stock or shares in the corporation and related occupancy rights provided that any such stock or share ownership above the 20% limitation pertains to units that are subject to statutory rent regulations that limit the sponsor's ability to sell his/her ownership interest in such shares or stocks. Homebridge must obtain documentation to validate that the stock or share is subject to such regulations.

Condo-Hotel (A.K.A. Condotel)

- This property type is not eligible for purchase. The information below is provided to clarify how Homebridge defines this type of project.
- A condotel is a project that, although the units are individually owned, is operated as a commercial hotel
 offering short-term occupancy. Homebridge must review the following to ensure that the project is not a
 Condo-Hotel: project documents, any offering statements, internet web sites, sales contract and appraisal
 report.
- Homebridge considers projects with any of the following characteristics to be condo-hotel projects:
 - Projects that include registration services and offer rentals of units on a daily basis.
 - Projects that restrict the owner's ability to occupy the unit.
 - Projects with names that include the words "hotel" or "motel."
 - Projects that operate or advertise itself as a hotel, resort, inn, motel, lodge or similar type of hospitality entity.
 - Projects that have a web site that presents itself as a hotel, resort, motel, inn, lodge or similar type
 of hospitality entity. Projects that have units available or advertised for rent through a web site that
 offers travel services; or is located at the same address or within the same project as a hotel, resort,
 motel, inn, lodge or similar type of hospitality entity.
 - Projects that have an affiliation or agreement with a hotel, resort, motel, inn, lodge or similar type of hospitality entity.
 - Projects with mandatory rental pooling agreements that require the unit owners to either rent their units or give a management firm control over the occupancy of the unit. These formal agreements between the developer, homeowner's association and/or the individual unit owners, obligate the unit owner to rent the property on a seasonal, monthly, weekly or daily basis. In many cases, the agreements include blackout dates, continuous occupancy limitations and other such use restrictions. In return, the unit owner receives a share of the revenue generated from the rental of the unit.
 - Projects that include amenities such as food, telephone or daily cleaning services.
 - Projects that are a conversion of a hotel, resort, motel, inn, lodge or similar type of hospitality entity.
 - The unit owners of the project share Common Elements (including Amenities) with a hotel, resort, motel, inn, lodge or similar type of hospitality entity, or the unit owners pay additional fees for the use of such Common Elements if the unit owner is not part of a rental management agreement with an entity associated with the project.
- The appraisal document should be carefully scrutinized for project characteristics that may signify that the
 project is a condotel. The following project characteristics shown on an appraisal do not definitively
 determine the project to be a condotel but they raise flags that would compel the underwriter or condo
 project analyst to perform additional research:
 - Central telephone system;
 - Room service;
 - Units that do not contain full-sized kitchen appliances
 - Daily cleaning service;
 - Advertising of rental rates;
 - Registration Service;
 - Restrictions on interior decorating;
 - Franchise agreements;
 - Central key systems;
 - Location of the property in a resort area;
 - The occupancy of the project (the project may have few or even no owner occupants);
 - Units have interior doors that adjoin other units;
 - Units contain lockable storage closets, cabinets, safes or mini-bars.
 - Amenities that are common in hotels or resorts including spa services, concierge services, rentals of recreational equipment or amenities, childcare services for short-term renters, scheduled social or entertainment activities for short-term renters, airport shuttles, ski lift shuttles or ski lift and trail passes or other vacation amenities and packages
- In addition to the appraisal, the contract of sale should be thoroughly reviewed to determine if there are
 guaranteed rent-backs, references to rental pooling or management agreements. The internet is also a
 useful tool for determining if a condo project is condotel as the project's website may contain information
 on the project type, amenities and availability of units for rent.
