Assets	Asset documentation per DU
	• All funds used to close the transaction must be disclosed on the 1003 and input into DU.
	Earnest Money Deposit (EMD):
	- EMD funds do not require sourcing if the borrower is not required to meet Fannie Mae's minimum contribution requirement (MCR) and the underwriter does not need to consider the funds in the asset evaluation. Evidence the settlement agent received the EMD is required as detailed below. Transactions that do not require a borrower MCR:
	 1-unit primary residence regardless of LTV
	- 2-4 unit primary and the LTV is $\leq 80\%$
	- 1-unit second home and the LTV is $\leq 80\%$
	 Documenting Settlement Agent Received EMD Funds: Acceptable evidence the settlement agent received the EMD funds are as follows:
	- Borrower's cancelled check, or
	 Evidence the funds were wired to the settlement agent's account, or
	 Written verification from the settlement agent
	 EMD funds are required to be sourced when the transaction requires the borrower to meet the MCR. Transactions that require a borrower MCR:
	 2-4 unit primary and the LTV is > 80%,
	 1-unit second home and the LTV is > 80%
	 1-4 unit investment transactions regardless of LTV
	NOTES: Transactions that require a borrower MCR, a copy of the canceled deposit check is acceptable to document the source of the EMD funds.
	Two months bank statements, all pages, covering the period up to and including the date the earnest money check cleared the bank are required.
	Virtual currency is not eligible to be used for the earnest money deposit
	• The borrower must provide evidence of sufficient assets to cover the down payment, closing costs, prepaids and reserve requirements. Acceptable evidence:
	 Purchase Transactions: Two months bank or financial statements, all pages (covering most recent 60 days of activity). If the account information is reported on a quarterly basis, the most recent quarterly statement required. Truncated account numbers (statements that only display the last 4 digits of the borrower's account number) are acceptable
	- Refinance Transactions : One month bank or financial statements, all pages (covering most recent 30 days activity). If the account information is reported on a quarterly basis, the most recent quarterly statement required. Truncated account numbers (statements that only display the last 4 digits of the borrower's account number) are acceptable
	NOTE: Refinance Transactions Only: Documentation of assets is not required if funds to close are \$500 or less

Assets (cont.)	 Business funds of a self-employed borrower may be used for down payment, closing costs and/or reserve requirements subject to the following:
	- The borrower must be listed as an owner on the account. If the borrower's name is not listed on the business account statement, documentation that the borrower is an authorized signer on the account is required. This applies to all business accounts, including sole proprietorships, when business account funds are being utilized for down payment, closing costs and/or reserves. Examples of acceptable documentation:
	 Letter from the bank confirming borrower is an authorized signer, or
	 Online documentation that confirms borrower is an authorized signer
	NOTE: Use of business funds when the borrower does not own a significant percentage of the business will be at underwriter discretion (e.g. borrower has a 10% ownership interest and is using a significant amount of the business funds for down payment/closing costs)
	 A cash flow analysis, based on 3 months business bank statements, dated within 60 days of the closing date, is required to determine the withdrawal of business funds will not have a negative impact on the business. The cash flow analysis: Must indicate that the average running balance in the account for the previous 3 months
	stayed the same or was better, and
	The amount of funds used for the transaction must not deplete the account i.e. the balance remaining in the account should not be less than half of what was in the account prior to the withdrawal
	Stocks, Bonds and Mutual Funds
	 Stocks, bonds and mutual funds (including retirement accounts) may be used at 100% of the asset value for the calculation of reserves.
	 If used for down payment and/or closing costs, proof of liquidation is not required when the combined asset value is at least 20% more than the funds needed for closing.
	 Cash on hand, unsecured borrowed funds, unverified funds are ineligible sources for assets.
	• Payout from a life insurance policy is acceptable for down payment or closing costs. A copy of the check or payout statement, issued by the insurance company, is required. If the cash value is being used for reserves, documentation of the cash value is required however the policy does not need to be liquidated.
	• Real estate commissions earned by a borrower who is a licensed real estate agent are eligible for down payment/closing costs when purchasing a property. The CD must reflect the commission earned and the credit toward the transaction
	• Proceeds from the sale of personal assets are an acceptable source of funds for the down payment, closing costs, and reserves provided the individual purchasing the asset(s) is not a party to the transaction (seller, realtor, broker/lender, etc.) Document the following:
	- The borrower's ownership of the asset for all asset types that are titled assets (e.g. automobile title)
	 The value of the asset if the proceeds represent more than 50% of the total monthly qualifying income. The value must be determined by an independent reputable source.
	- The lesser of the estimated value (as determined by the independent source) OR the actual sales price is used when determining the amount of funds for the transaction
	Example: If a vehicle is determined to have a value of \$10,000 by the independent source and the sales price of the vehicle is \$12,000, \$10,000 can be added to the borrower's available funds even if the sale has already occurred)
	 The transfer of ownership of the asset as documented by either a bill of sale or a statement from the purchaser
	 The borrower's receipt of the sale proceeds. Acceptable documentation includes deposit slips, bank statements, copies of the purchaser's canceled check or an equivalent payment source

Assets (cont.)	 Proceeds from the sale of a currently owned property are eligible for down payment and closing costs. The final CD for the existing property must be provided before or at closing to show sufficient net cash proceeds to close the purchase. The final CD is not required to be fully executed.
	NOTE : When the borrower's employer assumes responsibility for paying off the existing mortgage as part of a relocation plan, a copy of the executed buy-out agreement is required to document the source of funds. A copy of the sales contract or listing agreement is not considered an acceptable source of verification of proceeds from the sale
	• Credit card reward points are eligible for down payment, closing costs, and to meet reserve requirements
	- The rewards points must be converted to cash prior to loan closing
	 If the cash from converting the reward points is deposited into the borrower's account and is considered a large deposit (detailed below) the borrower must provide documentation to show the source of the large deposit was from the conversion of credit card reward points
	• Large deposits are defined by Fannie Mae as a single deposit where any unsourced portion of the deposit exceeds 50% of the total monthly qualifying income for the loan. If the deposit includes both sourced and unsourced funds, only the unsourced portion is used to calculate whether the deposit meets the 50% definition. Direct deposits, such as IRS or state income tax refunds, transfer of funds between verified accounts, that are easily identified on the account statement do not require documentation.
	 Large unsourced deposits must be explained and verified including virtual currency
	- Requirements for documenting large deposits are as follows:
	 Refinance transactions: Large deposits are not required to be sourced and explained however, at underwriter discretion, explanation and sourcing may be necessary as Fannie Mae requires any payment on borrowed funds be included in the DTI ratios.
	 Purchase transactions: If the funds from a large deposit are needed for the down payment, closing costs or reserves on the transaction documentation must be provided that the funds are from an acceptable source. Any undocumented large deposit will be deducted from the amount of verified funds and the reduced asset amount will be used for qualification
	 A large deposit may be from virtual currency that was exchanged into U.S. dollars. Documentation verifying the funds originated from the borrower's virtual currency account is required Examples:
	1. The borrower has a monthly income of \$4,000 and a bank account with a balance of \$20,000.
	A deposit of \$3,000 was made but \$2,500 of the deposit is documented as the borrower's tax refund (sourced).
	In this example only the \$500 is considered "unsourced" (\$3000 total deposit minus \$2500 tax refund) and is included in the large deposit calculation.
	The unsourced \$500.00 is only 12.5% of the borrower's monthly income therefore it does not meet the large deposit definition (50% of the borrower's total monthly qualifying income). In this example, documentation is not required and the entire \$20,000 balance in the borrower's bank account may be used for underwriting purposes.
	 The same borrower has a deposit of \$3,000 but only \$500 is documented as the borrower's tax refund (sourced) leaving \$2,500 has unsourced.
	In this example the unsourced \$2,500 is 63% of the borrower's \$4,000 monthly income which does meet the definition of a large deposit.
	The unsourced \$2,500 must be deducted from the borrower's \$20,000 bank account balance leaving \$17,500 that may be used for underwriting purposes.
	 The same borrower has 3 separate unsourced deposits of \$1800 which technically does not meet the 50% of the borrower's gross monthly income requirement since each deposit is less than \$2,000 (50% of \$4,000) however at underwriter discretion sourcing/documentation may be required.

Assets (cont.)	 Verification of assets from foreign sources: Funds that a borrower (either a U.S. or non-U.S. citizen) has deposited into a U.S. depository institution are acceptable provided all of the following requirements are met:
Assumptions	Not allowed
AUS	DU "Approve/Eligible" Finding required. Manual underwriting is ineligible
Available	All 50 states

Borrowers - Eligible	 A natural person, U.S. citizens Revocable inter vivos trust that meets Fannie Mae guidelines Non-U.S. Citizens: All loans delivered to Fannie Mae require Homebridge to rep and warrant the borrower is legally present in the U.S. with the exception of Deferred Action for Childhood Arrivals (DACA) status borrowers, who are eligible subject to meeting the requirements in this topic. Lawful permanent or lawful non-permanent resident aliens are eligible subject to the following: Borrower must have a valid social security number OR individual taxpayer identification number (ITIN), AND Have a current, unexpired EAD OR other documentation showing immigration status is current/unexpired (e.g. Green Card, work visa, etc.), AND The borrower meets all other standard employment and income requirements required by DU If additional information is required to determine legal status, the Homebridge Underwriter will determine on a case-by-case basis the additional documentation requirements Non-permanent resident alien borrowers who provide a visa, Homebridge will determine visa eligibility. Refer to the <u>Visa Eligibility for Non-Citizens (Non-Permanent Resident Aliens)</u> document on the Homebridge website for visa eligibility and documentation requirements NOTE: Visa not required if current, unexpired EAD provided All borrowers are required to have a valid social security OR Individual Taxpayer Identification Number (ITIN) and meet legal residency documentation requirements

Borrower Types	Co-Borrower:
	- An individual, who applies jointly with the applicant, takes title to the property and is liable for the
	debt,
	- Signs all loan documents,
	- Income, assets and liabilities are used for loan qualification.
	Non-Occupant Co-Borrower:
	 An individual, who applies with the applicant, is liable for the debt, may or may not take title to the property, and does not live in the property.
	- Signs all loan documents
	 The income, assets and liabilities of the non-occupant co-borrower on a primary residence transaction are considered in the DTI calculation.
	 Transactions with a non-occupant co-borrower are limited to a maximum 95% LTV/CLTV or the applicable maximum LTV for ARM transactions.
	Co-Signer:
	- An individual who has no ownership interest in the property but is liable for the debt.
	- The co-signer signs all loan documents except co-signer does not sign the Mortgage/Deed of Trust.
	 Income, assets, and liabilities are used for qualification.
	 Cannot have an interest in the transaction (seller, builder, real estate broker, etc.)
	NOTE: If the co-signer will not be occupying the subject property maximum 95% LTV/CLTV or the applicable maximum LTV for ARM transactions
	Non-Borrowing/Non-Purchasing Spouse
	 Generally has no ownership interest in the property and is not liable for the debt.
	 In community property/marital rights states the non-borrowing spouse does have an interest in the property and is required to execute the security instrument and all applicable documents as determined by state law
	NOTE: Community property states: Arizona, California, Idaho, Louisiana, Nevada, New Mexico, Texas, Washington, and Wisconsin
	Life Estate
	 Properties held in a life estate are eligible subject to Homebridge management review and approval. The following applies:
	 When title to a property is held as a life estate, it is a form of joint ownership where two parties have an interest in the property
	 The holder of the life estate (life tenant or life estate owner) has the right to current possession of the property, and
	 The remainder holder has the right of future possession of the property upon the death of the holder of the life estate (aka life estate owner)
	 Both parties, the life estate owner and the remainderman, must sign the security instrument At least one of the life estate parties must be a borrower on the loan

Construction to Perm	The conversion of construction-to-permanent financing involves the granting of a long-term mortgage to a borrower for the purpose of replacing interim construction financing that the borrower has obtained to fund the construction of a new residence.
	 Construction-to-permanent financing can be structured as a transaction with one or two separate closings; however Homebridge will not provide the construction financing (a one closing transaction). The borrower must hold title to the lot, which may have been previously acquired or be purchased as part of the transaction.
	• All construction work, including any work that could entitle a party to file a mechanics' lien or materialmen's lien, must be completed and paid for, and all mechanics' liens, and any other liens and claims that could become liens relating to the construction must be satisfied before the loan is closed with Homebridge. Homebridge will retain the appraiser's certificate of completion (1004D) or acceptable completion alternative and a photograph of the completed property in the loan file. When a construction-to-perm mortgage loan provides funds for acquisition or refinancing of an unimproved lot and the construction of a residence on the loan, Homebridge will retain a certificate of occupancy or an equivalent from the applicable government authority.
	Units in a condo project are not eligible for construction-to-permanent financing.
	Two-Closing Transactions
	 The first closing is to obtain the interim construction financing (and may include the purchase of the lot). Construction financing is not eligible through Homebridge.
	 The second closing (aka "end" loan) is to obtain the permanent financing upon completion of the improvements and is eligible through Homebridge.
	• A modification may not be used to update the original Note; a new Note must be completed and signed by the borrowers.
	The borrower is underwritten based on the terms of the permanent mortgage.
	 Transactions are subject to the limited cash-out and cash-out refinance maximum LTV/CLTV/HCLTV ratios, as applicable.
	• Cash-out refinance transactions require the borrower to have held legal title to the lot for at least 6 months prior to the closing of the permanent mortgage.
	All other standard cash-out refinance eligibility and underwriting requirements apply.

Contingent	Business Debt
Liabilities	 Business debt that appears on a self-employed borrower's personal credit report requires documentation that the debt is paid from company funds and considered in the cash flow analysis fo the borrower's business.
	 Business debt does not need to be considered as part of the borrower's individual recurring monthly debt when:
	- The account does not have a history of delinquency, and
	 Documentation is provided that the debt was paid from the borrower's business funds (e.g. 12 months cancelled business checks), and
	- The cash-flow analysis of the business took payment of the obligation into consideration.
	- Business debt must be considered as part of the borrower's individual recurring debt obligation if:
	- Documentation of payment from the business funds cannot be provided, or
	 If documentation is provided that the payments are coming from the business, but the cash flo analysis of the business does not reflect the payments (e.g. an interest expense, including tax and insurance if applicable, equal to or greater than the amount of interest that would be reasonably expected given the amount of financing shown on the credit report and the age of loan) If evidence is not found in the cash flow analysis, it is reasonable to assume that the expense has not been accounted for, or
	 There is history of delinquency on the account the debt must be considered as part of the borrower's individual recurring debt obligation
	Co-Signed Debt - Mortgage
	 Co-signed mortgage debt is not required to be included in the borrower's DTI calculation if all or the following applies:
	 Documentation is provided that the borrower is not primarily responsible for payment of the debt, and
	- The credit report indicates no late payments on the account, and
	 12 months most recent consecutive cancelled checks are provided documenting the primal party obligated on the debt has been making the payments (the checks cannot be from an account co-owned with the borrower), and
	- The borrower is not using rental income from the property to qualify
	NOTE: Even if the mortgage debt qualifies for the exclusion, the property must be included in the number of financed properties count if applicable (second home/investment transaction; refe to the <u>Financed Properties</u> topic for details)
	- Co-signed mortgage debt must be included in the borrower's DTI calculation if:
	 It cannot be properly documented that the primary party obligated on the loan is making t payments, or
	- A 12 month pay history, by the primary party, cannot be established, or
	- The credit report indicates there have been late payments on the debt, or
	 Another party is making the payments but the borrower is the only party responsible for th debt, or
	- The borrower is using rental income from the property to qualify
	Refer to the Credit – Installment/Revolving topic for non-mortgage debt paid by others
onversion of	Pending Sale:
Principal Residence or Pending Sale	 If the borrower is purchasing a new primary residence, and the current primary residence is pendin- sale but will not close prior to the new transaction, the borrower's PITIA payment on their current residence may be omitted when qualifying the borrower if all of the following are provided: A copy of the fully executed sales contract is provided, and
	 Written verification provided by the closing attorney or escrow confirming all financing contingencies have been cleared.
	Conversion to Second Home:
	- The borrower is qualified using the PITIA payments for both properties
	 Reserves required in accordance to the <u>Reserves</u> - Multiple Financed Properties topic of this guide Conversion to Investment Property:
	- Must follow standard Income-Rental and Reserves – Multiple Financed Properties topic of this guid

Credit History	 Tradeline requirements per DU Findings. Authorized user tradelines require underwriter review to ensure the tradelines are an accurate reflection of the borrower's credit history
Credit - Installment/Rev olving	 All debts will be run through DU to ensure accurate DU Findings. Installment Debt Installment debt is considered as a recurring monthly debt obligation and included in the borrower's
	long-term debt when there are more than 10 months payments remaining.
	 Installment debt with ≤ 10 months remaining will be considered as a recurring monthly debt obligation if it significantly affects the borrower's ability to meet their credit obligations.
	NOTE: Lease payments for automobiles must be considered a recurring monthly debt obligation and included in the DTI calculation regardless of the number of months remaining on the lease.
	Revolving Debt
	 Revolving debt is considered part of the borrower's recurring monthly debt. Revolving debt includes credit cards and personal lines of credit (equity lines, secured by real estate, are included in the housing expense). Revolving debt is subject to the following:
	 If the monthly payment is not included on the credit report, the underwriter will use the greater of \$10 or 5% of the outstanding balance to determine the monthly payment
	 If the revolving account is to be paid off at or prior to closing, a monthly payment is not required to be included in the debt ratio. The account does not need to be closed as a condition of excluding the payment from the borrower's debt ratio.
	 If the revolving account is to be paid off prior to closing, documentation that the debt was paid in full and source of funds must be provided and verified.
	 If the revolving account is to be paid off at closing, the payoff must be shown on the CD. 30 Day Charge Accounts
	 Open 30-day charge accounts require sufficient assets to pay off the debt in order to be excluded from the debt ratio
	Debt Paid by Others – Non-Mortgage
	 When the borrower is obligated on non-mortgage debt (e.g. installment loans, revolving, lease payments, student loans, etc.) but is not making the payment the debt may be excluded from the DTI calculation subject to the following:
	 The other party must be paying the entire monthly payment for a minimum of 12 months. The debt may not be excluded if the borrower is paying any portion of the monthly payment or the other party has not been making the entire payment for at least 12 months.
	 12 months cancelled checks or bank statements from the party making the payments are required to document 12 months 0x30 pay history. If any delinquencies the payment may not be excluded.
	NOTE: The above does not apply if the party paying the debt is an interested party to the subject transaction

Credit -	. Student Leone in Densyment Deferred or Ferberrane
Installment/	• Student Loans in Repayment, Deferred, or Forbearance All student loan payments, whether deferred, in forbearance, or in repayment must be included in the DTI
Revolving	calculation
(cont.)	Payment Included on Credit Report:
	 If the payment is included on the credit report, the payment on the credit report will be used for qualifying (including income-driven payments)
	NOTE: If documentation is provided that indicates a different payment amount than what is on the credit report (i.e. the most recent student loan statement) the correct monthly payment amount may be used. The documentation supporting the correctly monthly payment must be retained in the loan file. A credit supplement may be obtained to reflect the correct monthly payment but is not required.
	Payment Not Included on Credit Report:
	 If the payment is not included on the credit report, or the credit report indicates \$0, one of the following two options must be used to calculate the qualifying monthly payment:
	 1% of the outstanding loan balance (even if the amount is lower than the actual fully amortizing payment), OR
	A fully amortizing payment using the documented loan repayment terms
	Student Loans – Income Based Repayment (IBR)
	- A \$0 payment may be used when:
	 It is listed as \$0 on the credit report (a credit supplement that documents the \$0 payment is acceptable), OR
	 A letter from student loan servicer is obtained stating the payment is \$0 Child Support/Separate Maintenance Payments
	Child support or separate maintenance payments that are required to be paid due to a divorce decree, separation agreement or other legal document must be included in the borrower's monthly debt obligations if they will continue for > 10 months. Voluntary payments are not required to be considered in the DTI calculation. A copy of the divorce decree, separation agreement, court order, etc. must be obtained and retained in the loan file
	Alimony Payments
	Alimony payments that are required to be paid due to a divorce decree, separation agreement or other legal document may be treated using one of the two following options:
	 The monthly payment may be deducted from the borrower's monthly qualifying income and the adjusted income figure is entered as the income amount in DU, or
	 The monthly payment may be included in the borrower's DTI calculation NOTE: If reducing the borrower's monthly income by the alimony payment, the amount of the alimony
	obligation is entered in DU as a negative amount under "Income Type" In the event the borrower also receives alimony income, this amount is combined with the amount of the alimony payment and entered as a net amount
	 A copy of the divorce decree, separation agreement, court order, etc. must be obtained and retained in the loan file
	IRS Tax Payment Plans
	Borrowers in a valid payment plan are eligible subject to the following:
	 A Notice of Federal Tax Lien has not been filed in the county where the subject property is located, and
	 Copies of the approved IRS installment agreement that includes the repayment terms, including the monthly payment amount and the total amount due, and
	 The borrower has made a minimum of 1 months' scheduled payment and documentation of the payment(s) is required prior to disbursement of the new loan, and
	 A satisfactory payment history is required for all payments that have been made under the repayment plan and the borrower must be current (i.e. if 5 months payments have made as part of the repayment plan then all 5 months payments must be paid as agreed). Acceptable evidence of the payment history includes the most recent payment reminder from the IRS, reflecting the last payment amount and the date of the next payment amount owed and the due date, and
	 The payment must be included in the DTI calculation
	NOTE: If a tax lien has been filed the lien must be paid off prior to close

Credit	Credit score is per DU Findings
Report/Scores	NOTE: Fannie Mae has a minimum credit score requirement of 620
	 All borrowers are required to have a credit score and must meet the minimum credit score requirement provided by DU unless the borrowers meet all the requirements under the <u>Non-Traditional Credit</u> topics of these guidelines
	 Homebridge will accept a credit report, in the broker's name, from any Fannie Mae acceptable credit vendor. The credit report must contain trended credit data.
	A tri-merged credit report is required for all borrowers.
	 If a borrower does not have sufficient credit to establish a credit score a non-traditional credit profile must be established. A tri-merged credit report is required to confirm the borrower does not have a credit score. If a credit score cannot be provided the credit report must accurately reflect the borrower(s) personal information (social security number, current address, etc.)
	The representative credit score is determined as follows:
	 If there are three (3) valid scores, the middle score is used. If two of the three scores are a duplicate, the duplicate score is used.
	- If there are two (2) valid scores, the lower of the two is used
	- If there is one (1) valid score, that score is used
	The representative score for the loan is the lowest representative score for all borrowers.
	 The borrower(s) must address all credit inquiries indicated on the credit report within the previous 90 days, specifically stating the name of the creditor(s) and the result of the inquiry/inquiries (i.e. was new credit obtained or not). Examples of acceptable/unacceptable responses below:
	 Acceptable Response: "The inquiry/inquiries by Bank of America, Wells Fargo, etc. did not result ir additional credit"
	 Unacceptable Response: "We did not obtain any additional credit as a result of the credit inquiry/inquiries listed on our credit report" (unacceptable since name of creditors not listed)
	• The credit report cannot be older than 4 months at time of funding or the expiration date received from DU, whichever is less.
	• Borrowers with a credit score, but the only tradeline(s) are medical tradelines, the loan will receive an "out of scope" finding which will require a manual underwrite. These transactions will be ineligible with Homebridge as Homebridge does not offer manual underwrites on Fannie Mae transactions

ncome –	Rental Property Reported through a Partnership or S Corp
Rental (cont.)	If the borrower is personally obligated on a mortgage debt (as reported on the credit report) and gross rer and related expenses are reported through a partnership or S corp., the business tax returns may be use to offset the PITIA payment subject to the following:
	Obtain the borrower's business tax returns, including form 8825 for the most recent year
	Evaluate the properties listed as follows:
	 From the total gross rents, subtract total expenses. Add back insurance, mortgage interest taxes and HOA dues (if applicable), depreciation, and non-recurring property expenses (if documented),
	- Divide by the number of months the property was in service,
	- Subtract the entire PITIA (proposed for subject property or actual for real estate owned) to determine the property cash flow.
	• If the resulting net cash-flow is positive , the PITIA may be excluded from the borrower's monthly obligation when calculating DTI,
	 If the resulting cash flow is negative (the rental income does not fully offset the PITIA payment or the property) the negative amount must be included in the borrower's monthly obligations when calculating DTI.
	NOTE : When including positive net rental income received through a partnership/S corp. in the borrower's monthly qualifying income, the requirements for using partnership/S. corp. income to qualify the borrower must be met.
	DU applies the term "subject net cash flow" to net rental income from the subject proper and the term "net rental income" to rental income from properties other than the subject property.
	Reporting of Gross Monthly Rent - Subject Property
	 Fannie Mae requires the gross monthly rent to be documented and reported to FNMA for all 2-4 primary residence properties and for all investment properties. even if the borrower is not usin any rental income from the subject property to qualify. The borrower may provide one of the following sources (listed in order of preference) which Homebridge will retain in the loan file:
	 The appraisal for a 1-unit investment property or 2-4 unit property or single family comparal rent schedule (Form 1007), provided neither the appraisal or Form 1007 are dated > 12 months prior to the Note date
	 If the property is not currently rented, Homebridge may use the opinion of market rents provided by the appraiser, OR
	 If an appraisal or Form 1007 are not required for the transaction, Homebridge may use eith a signed lease provided by the borrower or may obtain a statement from the borrower of the gross monthly rent being charged (or to be charged) for the property. The rental amounts must be stated separately for each unit in a 2-4 unit property. The disclosure from the borrower must be in the form of one of the following:
	- A written statement, or
	- An addition to Form 1003
	NOTES:
	 If the borrower is using rental income from the subject property to qualify for the loan, a of the standard rental income requirements apply when documenting and calculating th rental income.

Property with	Accessory Dwelling Units (ADU)
an Accessory	Accessory Dwelling Units (ADU)
Dwelling Unit	Overview
(ADU)	An ADU is defined as an additional living area independent of the primary dwelling that has been added a created within or detached from a primary 1-unit dwelling. The ADU must provide for living, sleeping, cooking, and bathroom facilities and be located on the same parcel as the primary 1-unit dwelling. 	(cont. on next page)

Property with	Accessory Dwelling Unit (ADU) cont.
an Accessory	The following applies to ADUs:
Dwelling Unit	 The primary unit must be a 1-unit SFR; ineligible with a 2-4 unit property. The appraiser determines
(ADU) (cont.)	the eligibility based on the appraiser's analysis of the characteristics of the property.
	The ADU must be smaller in size than the primary dwelling
	The ADU must have all of the following separate features:
	 Means of ingress/egress. The ADU may include access to the primary dwelling, however it is not considered an ADU if it can only be accessed through the primary dwelling or the ADU area is open to the primary dwelling with no expectation of privacy
	 A kitchen, that contains at minimum, cabinets, countertops, sink with running water, and a stove or stove hookup (hotplates, microwaves, etc. not acceptable) An independent second kitchen alone does not constitute an ADU and the removal of a stove does not change the ADU classification
	- A sleeping area,
	- Bathroom facilities and bathing area
	Legal ADU Appraisal Requirements
	The appraisal must indicate the improvements are typical for the market, and
	• The appraiser must describe the unit and analyze any effect the accessory unit has on the value or marketability of the subject property, and
	• An aged, closed sale is acceptable as a comparable and an active listing or under contract sale will qualify as a supplemental exhibit to show marketability, and
	The borrower must qualify for the mortgage without considering any rental income for the legal accessory unit, and
	There is only one (1) accessory unit; multiple accessory units are ineligible
	Illegal ADU Appraisal Requirements
	If the ADU is not allowed under zoning (not allowed in any circumstance) the property is eligible subject to the following additional conditions:
	The use conforms to the subject neighborhood and market, and
	The property is appraised based upon its current use, and
	• The appraisal must indicate that the improvements represent a use that does not comply with zoning, and
	• The appraisal must indicate that the improvements are typical for the market through an analysis of at least two (2) comparable properties that have the same illegal use, OR
	• If recent sales are not available, a minimum of three (3) closed sales with the same illegal use are acceptable, and
	• The accessory unit cannot jeopardize any future hazard insurance claim that could be filed against the property, and
	• The borrower must qualify for the mortgage without considering any rental income from the illegal accessory unit, and
	• There is only one (1) accessory unit; multiple accessory units are ineligible.
Property with	If the appraiser identifies an addition that does not have the required permits the following is required:
an Addition	• The appraiser must comment on the quality and appearance of the work, and
without Permits	• The impact the addition might have, if any, on the market value of the subject property.
Property with an Illegal Conversion	Properties with an illegal conversion (e.g. garage converted to office/bedroom, screened in porch converted to laundry room, etc.) are eligible subject to the "Property with an Addition Without Permits" topic requirements unless the illegal conversion includes the amenities to make it a self-contained living space (e.g. a garage converted to a living space that includes a bathroom and kitchen). NOTE: In cases where the illegal conversion would be considered an accessory unit (living space,
	bathroom and kitchen) the conversion is subject to the guidelines under the "Illegal Accessory Unit" topic above.

Property with	Ownership
Solar Panels	Solar power ownership or financing structures include:
	Borrower-owned panels,
	Leasing Agreements,
	 Separately financed solar panels (the panels serve as collateral for debt distinct from any existing mortgage) or
	 Power Purchase Agreements (PPA)
	Requirements
	• Title cannot reflect any liens related to the ownership or maintenance of the solar panels that will result in a lien superior to Homebridge
	 Properties with solar panels that are owned by the borrower are eligible without additional requirements.
	• Properties with solar panels that are not owned by the borrower (i.e. financed and collateralized or leased from or owned by a third party under a power purchase agreement or other similar arrangement, whether applicable to the original agreement or as subsequently amended) are subject to Homebridge management prior approval and must meet all of Fannie Mae requirements
	 Separately financed solar panels must not contribute to the value of the property unless the related documents indicate the panels cannot be repossessed in the event of default on the associated financing
	 Requirements vary by the type of financing and collateralization or if subject to a PPA:
	- Solar panels that are financed and collateralized and the panels are collateral for separate debt
	used to purchase the panels but are a fixture to the property due to a Uniform Commercial
	Code (UCC) fixture filing the following applies:
	 Homebridge will review the credit and title report, appraisal and or UCC fixture filing, promissory note and security agreement that reflect the terms of the secured loan
	- The debt is included in the DTI,
	 The solar panels are considered in the value of the property as long as the solar panels cannot be repossessed for default,
	 The solar panels are included in other debt secured by the real estate in the CLTV calculation (because of the UCC filing). If the UCC filing is in the land records as a priority senior lien to the mortgage, it must be subordinated,
	- Solar panels are financed and collateralized and the panels are collateral for separate non-
	mortgage debt used to purchase the panels but do not appear on the title report,
	 Documentation to confirm the terms of the secured loan (credit report, title, UCC financing statement, promissory note or related security agreement) must be provided
	- The debt is included in the DTI,
	 The solar panels cannot have any contributory value to the property
	 The panels are not included in the LTV calculation,
	 The debt is not included in the CLTV calculation (the panels are considered personal property not affixed to the home)
	OR - Solar panels that are leased or owned under a PPA are subject to:
	 A copy of the lease or PPA must be provided
	 The solar panels cannot be included in the appraised value,
	 The value of the solar panels is not included in the LTV, even if a precautionary UCC filing is recorded, because the documented lease or PPA status takes priority
	 The value of the solar panels is not included in other debt secured by real estate in the CLTV calculation because the documented lease or PPA status takes priority
	 The property must maintain access to an alternate source of electric power that meets community standards.

Property with Solar Panels	 The monthly lease payment must be included in the debt-to-income (DTI) ratio calculation, unless the lease is structured to:
(cont.)	 Provide delivery of a specific amount of energy at a fixed payment during a given period, and
	 Has a production guarantee that compensates the borrower on a prorated basis in the event the solar panels fail to meet the energy output required for in the lease for that period.
	 Payments under power purchase agreements where the payment is calculated solely based on the energy produced and used may <u>be excluded</u> from the DTI ratio.
	- The lease or a power purchase agreement must indicate that:
	 Any damage that occurs as a result of installation, malfunction, manufacturing defect, or the removal of the solar panels is the responsibility of the owner of the equipment and the owner must be obligated to repair the damage and return the improvements to their original or prior condition (for example, sound and watertight conditions that are architecturally consistent with the home); and
	 The owner of the solar panels agrees not to be named loss payee (or named insured) on the property owner's property insurance policy covering the residential structure the panels are attached to or verification that the owner of the solar panels is not named loss payee (or named insured) on the property owner's property insurance policy; and
	• In the event of foreclosure, Homebridge as the lender has the discretion to either:
	 Terminate the lease/agreement and require the third-party owner to remove the equipment
	 Become, without payment of any transfer or similar fee, the beneficiary of the borrower's lease/agreement with the third-party; or
	 Enter into a new lease/agreement with the third-party, under terms no less favorable than the prior owner.
	 Title exceptions due to the solar panels (e.g. easement) are acceptable provided the interest is not superior to Homebridge
	Uniform Commercial Code (UCC)
	• A UCC financing statement that covers personal property and is not intended as a "fixture filing" must be filed in the office identified in the applicable state's adopted version of the UCC
	• A "fixture filing" is a UCC-1 financing statement authorized and made in accordance with the UCC adopted in the state where the property is located. A fixture filing:
	 Covers property that is, or will be, affixed to improvements such as real property If contains both a description of the collateral that is/will be affixed to the property and a description of the property
	- Is filed in the same office that mortgages are recorded
	 Filed in the land records provides notice to third parties, including title insurance companies, of the existence and perfection of a security interest in the fixture
	 If properly filed, the security interest in the described fixture, has priority over the lien of a subsequently recorded mortgage
	PACE/HERO Financing
	If the solar panels are financed with a PACE/HERO loan the transaction is ineligible unless the PACE/HERO financing is paid in full prior to or at closing

Refinance	Rate/Term Refinance:
Transactions	• Properties listed for sale must be taken off the market on or before the disbursement date of the new loan and borrower must provide written confirmation of their intent to occupy the property (primary residences only require intent to occupy property confirmation)
	 A rate/term refinance transaction will have a seasoning requirement if a cash-out refinance was completed on the subject property within the previous 30 days
	 A 30 day seasoning requirement applies measured from the Note date of the cash-out transaction to the application date of the rate/term refinance
	• The rate/term transaction is being used to obtain a new first mortgage secured by the same property to:
	- Pay off an existing 1st mortgage (including an existing HELOC in first lien position),
	 Pay off an existing construction loan and documented construction cost overruns that were incurred outside of the interim construction financing for two-closing construction-to- permanent loans (these construction cost overruns must be paid directly to the builder at closing), or
	 Pay off an installment land contract that was executed more than 12 months before the date of the loan application
	• At least one borrower on the new loan must be an owner (on title) of the subject property at the time of initial application except as follows:
	 The borrower acquired the property through an inheritance or was legally awarded the property (e.g. through a divorce, separation, or dissolution of a domestic partnership), OR
	 The property was previously owned by an inter vivos revocable trust an the borrower is the primary beneficiary of the trust
	 The borrower is currently financially obligated on the loan being paid off but not on the title. This includes loans where the property is currently owned by an LLC this majority owned or controlled by the borrower(s). Ownership must be transferred into the name of the individual borrower(s)
	 The borrower is paying off an installment land contract that was executed more than 12 months before the date of the loan application
	Construction-to-Perm <u>Two-Closing Transactions</u> : The payoff of a construction loan, plus documented construction cost overruns, may be included in the new loan amount on a rate/term refinance. The construction cost overruns must be paid directly to the builder at loan closing
	Cash-Out Refinance: Properties listed for sale in the 6 months prior to the disbursement date must be taken off the market on or before the disbursement date of the new loan.
	 Cash-out transactions require a minimum 12 months seasoning (12 months from the Note date of previous transaction to Note date of the new loan) except as follows:
	- Delayed financing guidelines are met (refer to the Delayed Financing topic), or
	 The borrower inherited or was legally awarded the property (divorce, separation or dissolution of domestic partnership)
	 At least one borrower must have been on title for a minimum of six (6) months prior to the disbursement date of the new loan
	NOTE: Property ownership held in an LLC is eligible to meet the 6 month title seasoning requirement if the borrower was 100% owner or a majority-owner of the LLC. The property must be taken out of the LLC prior to disbursement of the new loan funds

Refinance	Delayed Financing
Transactions (cont.)	 Borrowers who purchased the subject property within the past six months (purchase date to disbursement date of the new loan) are eligible for a cash-out refinance when no financing was obtained for the purchase transaction and all of the following requirements are met:

	- A natural person,
	 An eligible inter vivos revocable trust, where the borrower established that trust and is the beneficiary of the trust, or
	 An LLC or partnership in which the borrower(s) have 100% ownership (individual or joint); and
	 The new loan amount cannot exceed the actual documented amount of the borrower's initial investment to purchase the property plus the financing of closing costs, prepaid fees, and points (subject to the maximum LTV/CLTV ratios for a cash-out transaction based on the current appraised value); and
	- The purchase transaction was an arms-length transaction; and
	 The CD from the original transaction is required to confirm that there was no mortgage financing used to obtain the property; and
	The source of the funds used to purchase the property can be documented (i.e. bank statements, personal loan documents, HELOC against another property) and were the borrower's own funds; and
	NOTE: If gift funds were used to purchase the property, they may not be reimbursed with the proceeds from the new loan.
	 The preliminary title documentation must not indicate any existing liens on the subject property. If the source of the funds to acquire the property was an unsecured loan or secured by an asset other than a subject property (e.g. HELOC), the CD for the refinance transaction must reflect that all cash-out proceeds be used to pay off or pay down, as applicable, the loan used to purchase the property; and

	Cash-Out Refinance:

Rent-Related	Rent Credit with Option to Purchase
Credits	Rent credit with an option to purchase is the portion of rental/lease payments paid by the borrower that can be credited towards the down payment or minimum borrower contribution under a documented rental or purchase agreement.
	• The borrower is not required to make a minimum borrower contribution from their own funds for the rental/lease payments to be credited toward the down payment
	The rent credit is not considered an interested party contribution
	Calculating the Rent Credit
	The rent credit from the seller for the down payment is determined by calculating the difference between the market rent and the actual rent paid by the borrower.
	• The market rent is determined by the appraiser in the appraisal of the subject property, and
	• The credit may be no more than the difference between the market rent and the actual rent paid
	Documentation Requirements
	The following documentation is required:
	A copy of the rental/lease with an option to purchase agreement that evidences the following:
